Loss after tax attributable to members	(15,825)	(11,253)	(4,572)	(40.6)

¹ Comparative amounts for the year ended 30 June 2020 have been restated as more fully described in Note 9 to the attached preliminary financial statements.

Abbreviated Explanation of Results

	30 June 2021	30 June 2020 Restated ¹	Change Up/(Down)	
	US\$'000	US\$'000	US\$'000	%
EBITDA	(1,275)	10,001	(11,276)	(112.7)
Underlying EBITDA ²	1,956	9,276	(7,320)	(78.9)
Loss after tax attributable to members excluding non-recurring finance expenses, non-recurring and listed company costs ³	(10,777)	(7,206)	(3,571)	(49.5)

¹ Comparative amounts for the year ended 30 June 2020 have been restated as more fully described in Note 9 to the attached preliminary financial statements.

² Underlying EBITDA is EBITDA excluding non-recurring costs. During the year ended 30 June 2021, non-recurring costs of US\$3.3m include redundancy payments for c. 10% of the workforce mainly in the Services division, bad debt write-offs, the legal fees and settlement costs in respect of a patent dispute and additional leave provisions in non-Australian offices required due to changes in local regulations as part of COVID-19 relief packages. The prior year comparative period has been adjusted to take account of additional listed company costs not incurred in the period before listing.

³ In addition to the adjustments made to calculate Underlying EBITDA, "non-recurring" finance costs relating to transaction fees, interest and fair valuation of the convertible note instrument and IPO related costs are excluded. Non-recurring finance costs have been calculated at \$4.8m at 30 June 2020 and \$1.8m at 30 June 2021.

⁴ The above items are categorised as non-IFRS information prepared in accordance with ASIC Regulatory Guidance 230 - Disclosing non-IFRS financial information.

Revenue earned in the current year has been significantly impacted by activity levels in the Oil & Gas industry. Revenue from ordinary activities of US\$38.5m represents a decrease of 15.2% compared with the prior year. This decline in revenue is primarily in the Services division where COVID-19 and oil price volatility have led to subdued activities and delays in awarding projects.

Revenue earned in the Company's strategically important High-performance Computing as a Service ('HPCaaS') division has however increased by US\$1.6m as compared with the prior year with the strong growth during the first half of the year being sustained in the second half.

R&D concessions and other government grants are no longer disclosed as part of headline revenue but are shown as other income in the Consolidated Statement of Profit or Loss and Other Comprehensive Income. The decrease in other income of US\$1.4m as compared with the prior year is mainly attributable to the proceeds of COVID-19 related government support received in the Group's American operations.

Excluding redundancy costs and additional leave pay provisioning in the Group's non-Australian jurisdictions, employee benefit costs have decreased by US\$1.0m as compared with the prior year. Other operating costs across the Group, adjusted for non-recurring costs have remained relatively constant when compared with year ended 30 June 2020.

Underlying EBITDA has decreased by US\$7.3m as compared with the prior year.

The loss after tax attributable to members after excluding non-recurring finance and operating expenses has increased by US\$3.6m when compared with the prior period.

Dividends and Dividend Reinvestment Plans

No dividend has been proposed or declared in respect of the year ended 30 June 2021 and there were no dividend reinvestment plans in operation during the year.

As at 30 June 2021, the Group has the following facilities in place:

- Revolving facility of US\$7,000,000 (30 June 2020: US\$7,000,000), no portion of which was drawn down at 30 June 2021; and
- Term debt facilities of US\$17,805,000 (30 June 2020: US\$17,805,000) of which US\$17,764,583 was drawn down at 30 June 2021.

At 30 June 2021, the full amount of the term facility utilised is shown as a current liability as the facility had a termination date of 7 January 2022. Subsequent to 30 June 2021, the termination date of the facility has been extended to 1 July 2022. As part of this extension, the Group is required to make repayments during the year ending 30 June 2022 of \$6,250,000.

Convertible notes on issue at 30 June 2020 were converted into shares on 29 July 2020 at a price of A\$1.08.

NOTE 9 - ADJUSTMENTS TO COMPARATIVE PERIOD

During 2021, the Group identified certain matters which have resulted in adjustments to prior periods.

The impact on previously reported amounts is summarised in the tables below. In these tables, 'adjustments' refer to restatements with profit or loss impact while 'reclassifications' relate to those with no profit or loss impact.

The increase in the reported net loss for the year ended 30 June 2020 is mainly driven by the decision to not recognise deferred tax assets on the balance sheet as outlined in Note 9.4, offset by an increase in revenue arising from timing differences related to the reassessment of revenue recognition under AASB15 as outlined in Note 9.1.

The decrease in net assets at 30 June 2020 is mainly driven by the decision to not recognise deferred tax assets on the balance sheet as outlined in Note 9.4 and the recognition of contract liabilities representing deferred revenue arising from timing differences related to the reassessment of revenue recognition under AASB15 as outlined in Note 9.1.

The adjustments made are more fully described below:

- 9.1 A reassessment of the facts and circumstances associated with the adoption of *AASB 15: Revenue from Contracts with Customers* ('AASB 15') has led to the following changes in revenue recognition and disclosure:
- In the prior year, Software revenue was recognised on a 'right to use' basis where revenue was recorded at the point in time when a software licence was transferred to a customer. In the current year, the Group reassessed its performance obligations associated with its software contracts and considered it more appropriate that revenue be recognised over the term of the software contract as it was concluded that the licence creates a 'right of access'. This has resulted in the recognition of a Contract Liability of US\$2,137,201 at 1 July 2019 and an increase in Contract Liabilities at 30 June 2020 of US\$1,922,412. The impact on revenue recognised for the year ended 30 June 2020 was an increase of US\$214,790;

NOTE 9 – ADJUSTMENTS TO COMPARATIVE PERIOD (CONTINUED)

- The Group has reassessed its accounting treatment in relation to a collaborative agreement with a third-party company, whereby the current year accounting reflects the Group's underlying entitlement to revenue as per the contract with the third-party company. This has resulted in a decrease to Retained Earnings and Trade and other receivables at 1 July 2019 of US\$1,434,759, an increase of US\$843,026 in revenue for the year ended 30 June 2020 and a decrease to Trade and other receivables as 30 June 2020 of US\$591,732;
- In the prior year, the Group classified R&D concessions and other government grants of US\$4,330,582 as revenue in its Consolidated Statement of Profit or Loss and Other Comprehensive Income. As this receipt does not meet the requirements of revenue from contracts with customers, the Group considered it more appropriate to classify such items as Other income in accordance with AASB 120 Accounting for Government Grants and Disclosure of Government Assistance; and
- The Group previously classified sales discounts provided to customers within Other Operating Expenses in the Consolidated Statement of Profit or Loss and Other Comprehensive Income. Sales discounts granted of US\$795,546 have been reclassified from Other Operating Expense to Sales Revenue for the year ending 30 June 2020.

The net impact of the adjustments described above on Operating Profit/(Loss) for the year ended 30 June 2020 is an increase of US\$1,057,816.

9.2 As required by AASB16: *Leases* ('AASB 16'), the Group recognised Right of Use Assets and Lease Liabilities in the year ended 30 June 2020, adopting the modified retrospective method.

- In determining the amount recognised for Right of Use assets and Lease Liabilities on transition to AASB 16, the Group, applied certain assumptions with reference to underlying lease terms included in its lease contracts. In the current year, the Group completed a reassessment of the lease term associated with one of its infrastructure facilities taking into consideration contractual lease extension options. As a result of this reassessment, Right of Use assets recognised at 1 July 2019 increased by US\$2,602,907 and Lease Liabilities increased by US\$2,762,829. The impact of this change on the Loss for the year ended 30 June 2020 was an increase of US\$15,595.
- In the prior period, the outstanding balance on a facility used to fund a data centre fit-out in the Group's Malaysian operations was classified as part of Loans and Borrowings with the related assets included in the balance of Property, Plant and Equipment ('PP&E'). The Group has reassessed this and now accounts for this arrangement in terms of AASB16. As a result, PP&E has decreased by US\$363,713 at 1 July 2019 and by US\$266,723 at 30 June 2020 with a corresponding increase in Right of Use Assets. Loans and Borrowings have decreased by US\$349,359 at 1 July 2019 and by US\$247,201 at 30 June 2020.

9.3 In the current year the Group reviewed its obligations to employees in overseas jurisdictions, reassessing its annual leave liability where employees are entitled to varying levels of paid annual leave in each calendar year (defined as 1 January to 31 December). Such entitlements have been further impacted by changes to government regulations in each respective jurisdiction associated with COVID-19. Accordingly, in the current year the Group has calculated its annual leave liability for overseas jurisdictions resulting in an increase to the annual leave liability of US\$366,887 at 1 July 2019 and a further increase of US\$247,778 at 30 June 2020.

NOTE 9 – ADJUSTMENTS TO COMPARATIVE PERIOD (CONTINUED)

9.4 At the 30 June 2021 the Group has deferred tax assets amounting to US\$14,421,554 (30 June 2021: US\$8,664,184). A significant portion of these deferred tax assets were generated through investment in the data centre in Houston which qualified for an immediate tax deduction.

The Group has reassessed the accounting treatment for deferred tax assets and determined that, while it believes the tax losses will be fully utilised, prevailing economic conditions created uncertainty around the utilisation timeframe and therefore they should not be recognised in the balance sheet.

The impact of this adjustment is a reduction in deferred tax asset of US\$2,069,554 at 1 July 2019 and US\$5,786,974 at 30 June 2020.

Whilst such deferred tax assets are no longer recognised, they remain available to the Group to be used against future taxable income.

9.5 On 30 June 2012, the Group provided an unsecured loan to a senior executive amounting to AUD\$870,000 to enable the senior executive to acquire 2,400,000 fully paid ordinary shares in the Company. A reassessment of this arrangement has concluded that the arrangement is a limited recourse loan and meets the definition of a share-based payment under *AASB 2: Share Based Payment*. Accordingly, the loan (including accrued interest) that was previously disclosed as a component of Other Assets has been derecognised at 1 July 2019, with a corresponding amount adjusted against Equity at 1 July 2019. The impact on Other expenses for the year ended 30 June 2020 is a decrease of US\$20,344 and a decrease in Finance income of US\$46,298.

9.6 The Group has reassessed the classification of certain property bonds and bank guarantees. At 1 July 2019, this has resulted in the reduction of the current assets of US\$1,236,240, an increase in non-current assets of \$744,841 and a reduction in Loans and borrowings of US\$491,399. At 30 June 2020, this has resulted in the reduction of the current assets of US\$1,272,693, an increase in non-current assets of US\$714,376 and a reduction in Loans and borrowings of US\$558,317.
