Table 1 Revenue comparison and breakdown FY21A, FY21A Pro-forma and FY20A.

SaaS revenue (Mosaic software revenue) and Reward Content (Neat Ideas) increased circa 49% YoY and Total Revenue up circa 65%.

Pleasingly, SaaS enterprise revenue was up circa 8% YoY, despite some retail and hospitality clients receiving discounted platform fees arising from the latest COVID lock down.

### Introduction of Card Linked Offers

In June, the Company signed an Agreement with Open Sparkz to deliver Card Linked Offers (CLO's) to its clients and prospects.

The introduction of CLO's will create new revenue streams for the Company and assist it to monetise the deals and offers it currently provides to its 50+ corporate clients.

CLO's provides real time access to card transaction data from Visa, Mastercard and Eftpos making transactions seamless and Point Of Sale (POS) agnostic.

### **Acquisition of Neat Ideas**

Gratific added new ways to redeem loyalty points with the acquisition of 100% of Neat Ideas in May 2021.

This enables clients to offer rewards and curated offers to their staff and customers. Gratific added 50 enterprise clients and gained access to four million customers as a result of the acquisition. The combined offering places Gratific at the forefront of innovation in rewards management.

### **Increased investment in R&D**

During the year, \$2.3m was invested in the continued development of the company's Mosaic Enterprise Platform.

The accelerated development undertaken during FY21 will enable the company to deliver a unique turnkey solution centred on the Mosaic platform, together with Card Linked Offers and curated deals via Neat Ideas.

Release of the Mosaic platform, with its enhanced functionality and flexibility, is expected in October 2021, coinciding with a number of implementation timelines on current pipeline delays/requests for tender submitted/currently being submitted in Australia and the Middle East.

### **Outlook**

The Company has worked with its blue-chip customer base to better plan and design campaigns to enhance the loyalty experience of staff and customers during the COVID headwinds experienced by some clients.

This has created the opportunity for a number of hospitality and Food & Beverage companies in particular, to re-think their current loyalty and rewards products, which has created an uplift in the pipeline of potential enterprise clients for the Gratific turnkey solution (RaaS platform).

The impact of the COVID-19 pandemic is on-going and while it has had some impact on our retail and hospitality clients, it is not practicable to estimate the potential impact, positive or

negative on the Company post the reporting date as the situation continues to be rapidly evolving.

The Company has cash resources of over \$2 million at the end of the Financial Year.

GTI confirms that this announcement has been approved by the board of directors of GTI.
