Profit (loss) attributable to the members of 333D Limited	up	43%	to	(338,793)

Dividends

No dividend has been declared by the directors in respect of the current or the previous financial year.

Operational and financial review

The net loss attributable to members amounted to $338,793 (30 June 2020: $598,091 loss) for the year.

Operational update

The group has continued to follow its strategy of commercialising its 3D printing IP during the financial year. Overall, sales revenue has decreased by 38% to $114,974 (2020: $186,146), dervied across three main revenue streams:

- the sale of figurines through the mini league platform,
- the sale of bobbleheads through its respective channels, and
- consulting work and the 3D printing of parts to customer specification

The group's loss after income tax for the financial year was $338,793 (2020: loss of $598,091).
The reduction in the operating loss was attributable to a favourable reduction in the cost of raw material coupled with a lower volume of unit sales. Additionally, a renegotiation with a lender for an interest free period resulted in a reduction in finance costs.

Financial position

Net cash outflows from operations improved to an inflow of $90,043 during the financial year (2020: outflow of $22,095).

As at 30 June 2021, the group had cash and cash equivalents of $99,207 (2020: $9,164) and total debt liabilities of $300,000 (2020: $1,305,000).

The group intends to continue to finance the operations through debt funding and capital raising when there is an opportunity to do so.

Operational and financial review

Operational update

The group has continued to follow its strategy of commercialising its 3D printing assets during the financial year. Overall, sales revenue has decreased by 38.2% to $114,974 (2020: $186,146), through a focus on three main revenue streams:

- the sales of figurines through the mini league platform,
- the sale of bobbleheads through its respective channels, and
- consulting work and the 3D printing of parts to customer specification

The group’s loss after income tax for the financial year was $338,793 (2020: loss of $598,091).

The reduction in the operating loss was attributable to a favourable reduction in the cost of raw material coupled with a lower volume of unit sales. Additionally, a renegotiation with a lender for an interest free period resulted in a reduction in finance costs.

Financial position

Net cash outflows from operations improved to an inflow of $90,043 during the financial year (2020: outflow of $22,095).

As at 30 June 2020, the group had cash and cash equivalents of $99,207 (2020: $9,164) and total debt liabilities of $300,000 (2020: $1,305,000).

The group intends to continue to finance the operations through debt funding and capital raising when there is an opportunity to do so.

Significant changes in the state of affairs

Apart from the above, and the matters stated in the Operational and Financial Review, there were no other significant changes in the affairs of the Company during the financial year.

Matters subsequent to the end of the financial year

No matter or circumstance has arisen since 30 June 2021 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

Likely developments and expected results of operations

There has been a continuation of the rapid development of technology in the 3D printing industry. Management plans to continue its strategy of investment in the most advanced of these technologies to support its established printing bureau service. Management are confident that the prospects of the consolidated entity will continue to improve in the foreseeable future.

Environmental regulation

The consolidated entity is not subject to any significant environmental regulation under Australian Commonwealth or State law.

Remuneration report (audited)

The remuneration report details the key management personnel remuneration arrangements for the consolidated entity, in accordance with the requirements of the *Corporations Act 2001* and its Regulations.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including all directors.

The remuneration report is set out under the following main headings:

- Principles used to determine the nature and amount of remuneration
- Details of remuneration
- Service agreements
- Share-based compensation
- Additional information
- Additional disclosures relating to key management personnel

Principles used to determine the nature and amount of remuneration

The objective of the consolidated entity's executive reward framework is to ensure reward for performance is competitive and appropriate for the results delivered. The framework aligns executive reward with the achievement of strategic objectives and the creation of value for shareholders, and it is considered to conform to the market best practice for the delivery of reward. The Board of Directors ('the Board') ensures that executive reward satisfies the following key criteria for good reward governance practices:

- competitiveness and reasonableness,
- acceptability to shareholders,
- performance linkage / alignment of executive compensation,
- transparency.

The reward framework is designed to align executive reward to shareholders' interests. The Board has considered that it should seek to enhance shareholders' interests by:

- having economic profit as a core component of plan design,
- focusing on sustained growth in shareholder wealth, consisting of dividends and growth in share price, and delivering constant or increasing return on assets as well as focusing the executive on key non-financial drivers of value,
- attracting and retaining high calibre executives.

Additionally, the reward framework seeks to enhance executives' interests by:

- rewarding capability and experience,
- reflecting competitive reward for contribution to growth in shareholder wealth,
- providing a clear structure for earning rewards.

In accordance with best practice corporate governance, the structure of non-executive director and executive director remuneration is separate.

Non-executive directors remuneration

Fees and payments to non-executive directors reflect the demands and responsibilities of their role. Non-executive directors' fees and payments are reviewed annually by the Board. The chairman's fees are determined independently to the fees of other non-executive directors based on comparative roles in the external market. The chairman is not present at any discussions relating to the determination of his own remuneration. Non-executive directors do not receive share options or other incentives.

Remuneration report (audited) (continued)

ASX listing rules require the aggregate non-executive directors' remuneration be determined periodically by a general meeting. The most recent determination was at the Annual General Meeting held on 27 November 2019, where the shareholders approved a maximum annual aggregate remuneration of $250,000.

Executive remuneration

The consolidated entity aims to reward executives based on their position and responsibility, with a level and mix of remuneration which has both fixed and variable components.

The executive remuneration and reward framework has three components:

- base pay and non-monetary benefits
- share-based payments
- other remuneration such as superannuation and long service leave

The combination of these comprises the executive's total remuneration.

Fixed remuneration, consisting of base salary, superannuation and non-monetary benefits, are reviewed annually by the Board based on the overall performance of the consolidated entity and comparable market remuneration.

Executives may receive their fixed remuneration in the form of cash, shares or other fringe benefits (for example motor vehicle benefits) where it does not create any additional costs to the consolidated entity and provides additional value to the executive.

Principles used to determine the nature and amount of remuneration

Consolidated entity performance and link to remuneration

Remuneration for certain individuals is directly linked to the performance of the consolidated entity. Any further cash bonus and incentive payments are at the discretion of the Board. Refer to the section '*Additional information*' overleaf for details of the earnings and total shareholders return for the last five years.

Use of remuneration consultants

During the financial year ended 30 June 2021, the consolidated entity did not engage any remuneration consultants to review its existing remuneration policies or provide recommendations on how to improve both the STI and LTI programs.

Voting and comments made at the company's 2020 Annual General Meeting ('AGM')

At the last AGM held on 13 January 2021, 99% of the votes received supported the adoption of the remuneration report for the year ended 30 June 2020. The company did not receive any specific feedback at the AGM regarding its remuneration practices.

Note 1. Significant accounting policies

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

New or amended Accounting Standards and Interpretations adopted

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

The following Accounting Standards and Interpretations are most relevant to the consolidated entity:

Conceptual Framework for Financial Reporting (Conceptual Framework)
The consolidated entity has adopted the revised Conceptual Framework from 1 July 2020. The Conceptual Framework contains new definition and recognition criteria as well as new guidance on measurement that affects several Accounting Standards, but it has not had a material impact on the consolidated entity's financial statements.

Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the *Corporations Act 2001* , as appropriate for for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').

Historical cost convention

The financial statements have been prepared under the historical cost convention, except for, where applicable, the revaluation of available-for-sale financial assets, financial assets and liabilities at fair value through profit or loss, investment properties, certain classes of property, plant and equipment and derivative financial instruments.

Critical accounting estimates

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the consolidated entity's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in Note 2.

Parent entity information

In accordance with the *Corporations Act 2001* , these financial statements present the results of the consolidated entity only. Supplementary information about the parent entity (T3D) is disclosed in Note 19.

Note 1. Significant accounting policies (continued)

Foreign currency translation

The financial statements are presented in Australian dollars, which is 333D Limited's functional and presentation currency.

Foreign currency transactions are translated into Australian dollars using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at financial year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

The consolidated financial statements incorporate the assets and liabilities of all legal subsidiaries of 333D Limited ('company' or 'parent entity') as at 30 June 2021 and the results of all subsidiaries for the year then ended. 333D Limited and its subsidiaries together are referred to in these financial statements as the 'consolidated entity'.

Subsidiaries are all those entities over which the consolidated entity has control. The consolidated entity controls an entity when the consolidated entity is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the consolidated entity. They are de-consolidated from the date that control ceases.

Principles of consolidation

Intercompany transactions, balances and unrealised gains on transactions between entities in the consolidated entity are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the consolidated entity.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Non-controlling interest in the results and equity of subsidiaries are shown separately in the statement of profit or loss and other comprehensive income, statement of financial position and statement of changes in equity of the consolidated entity. Losses incurred by the consolidated entity are attributed to the non-controlling interest in full, even if that results in a deficit balance.

Where the consolidated entity loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The consolidated entity recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

Note 1. Significant accounting policies (continued)

Goods and Services Tax ('GST')

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the tax authority. In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the tax

New Accounting Standards and Interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the consolidated entity for the annual reporting period ended 30 June 2021. The consolidated entity has not yet assessed the impact of these new or amended Accounting Standards and Interpretations

Note 2. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below:

Coronavirus (COVID-19) pandemic

Judgement has been exercised in considering the impacts that the Coronavirus (COVID-19) pandemic has had, or may have, on the consolidated entity based on known information. This consideration extends to the nature of the products and services offered, customers, supply chain, staffing and geographic regions in which the consolidated entity operates. Other than as addressed in specific notes, there does not currently appear to be either any significant impact upon the financial statements or any significant uncertainties with respect to events or conditions which may impact the consolidated entity unfavourably as at the reporting date or subsequently as a result of the Coronavirus (COVID-19) pandemic.

Note 2. Critical accounting judgements, estimates and assumptions (Continued)

Share-based payment transactions with employees

The consolidated entity measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using the Black-Scholes model taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may still impact profit or loss and equity.

Share-based payment transactions with other parties

The consolidated entity measures the cost of equity-settled transactions with other parties by reference to the fair value of the goods and services received, or if this cannot be determined, the fair value of the equity instruments issued, at the date at which they are granted. The fair value is determined using the assumptions that market participants would use when pricing like goods and services. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities, profit or loss, or equity within the next annual reporting period.

Revenue from contracts with customers involving sale of goods

When recognising revenue in relation to the sale of goods to customers, the key performance obligation of the consolidated entity is considered to be the point of delivery of the goods to the customer, as this is deemed to be the time that the customer obtains control of the promised goods and therefore the benefits of unimpeded access.

Determination of variable consideration

Judgement is exercised in estimating variable consideration which is determined having regard to past experience with respect to the goods returned to the consolidated entity where the customer maintains a right of return pursuant to the customer contract or where goods or services have a variable component. Revenue will only be recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised under the contract will not occur when the uncertainty associated with the variable consideration is subsequently resolved.

Allowance for expected credit losses

The allowance for expected credit losses assessment requires a degree of estimation and judgement. It is based on the lifetime expected credit loss, grouped based on days overdue, and makes assumptions to allocate an overall expected credit loss rate for each group. These assumptions include recent sales experience, historical collection rates, the impact of the Coronavirus (COVID-19) pandemic and forward-looking information that is available. The allowance for expected credit losses, as disclosed in Note 11, is calculated based on the information available at the time of preparation. The actual credit losses in future years may be higher or lower.

Estimation of useful lives of assets

The consolidated entity determines the estimated useful lives and related depreciation and amortisation charges for its property, plant and equipment and finite life intangible assets. The useful lives could change significantly as a result of technical innovations or some other event. The depreciation and amortisation charge will increase where the useful lives are less than previously estimated lives, or technically obsolete or non-strategic assets that have been abandoned or sold will be written off or written down.

Note 2. Critical accounting judgements, estimates and assumptions (Continued)

The consolidated entitiy has identified a prior period error which is explained below and have since been adjusted for the error and restated each of the affected financial statements for the 2020 financial year, as shown in the tables below.

Note 3. Prior Period Correction

During the 2020 financial year, the consolidated entity settled outstanding debts to the directors and a supplier with an issue of share capital. The consolidated entity incorrectly classified this transaction as Share Based Payment Expense and a corresponding reduction to Administrative Expense. This error had the effect of understating Administrative Expenses and overstating Share Based Payments Expense for the year ended 30 June 2020 by $184,770. This error did not have an effect on the statement of financial position as at 30 June 2020.

The impact of the restatement for the prior period is as follows:

Note 4. Going concern basis of accounting

The financial statements have been prepared on the going concern basis, which contemplates continuity of normal business activities and the realisation of assets and discharge of liabilities in the normal course of business.

As disclosed in the financial statements, 333D Ltd and controlled entities recorded a loss after income tax of $338,793 for the year ended 30 June 2021. As at that date, the consolidated entity had net current liabilities of $242,628 and net liabilities of $546,474.

These factors indicate a material uncertainty that may cast significant doubt about the consolidated entity's ability to continue as a going concern and therefore whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial statements.

The directors believe there are reasonable grounds to believe the consolidated entity will continue as a going concern subject to, and on the basis of:

• the consolidated entity has prepared budgets and cash flow forecasts for the next 12 months from the date of this report which indicate the consolidated entity will be cash flow positive during this period and the directors are confident that these forecasts can be achieved;

• successful lodgement and receipt of the Company's claim for research and development costs under the R&D tax offset program. In August 2021, the Company lodged an application for reimbursement of research and development costs under the R&D tax offset program. The claim of $178,000 is expected to be received by 30 September 2021;

• the directors have commited to provide the continued financial support.

Accordingly, the directors believe that the consolidated entity will be able to continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the financial report.

The financial report does not include any adjustments relating to the amounts or classification of recorded assets and liabilities that might be necessary if the consolidated entity does not continue as a going concern.

Note 5. Operating segments

The company is in the process of commercialising its 3D printing operations and as such, there are not presently any operating segments with discrete financial information. The Board of Directors review internal management reports that are consistent with the information provided in the statement of profit or loss and other comprehensive income, statement of financial position and statement of cash flows presented in this financial report.

*Sales are recognised at the point in time when customers obtain control of the goods, which is generally at the time of delivery.

**Rendering of services revenue is recognised over time as the services are rendered based on either a fixed price or an hourly rate.

Disaggregation of revenue

There was no further disaggregation of revenue other than those already disclosed in the above Note 6.

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost, less any allowances for expected credit losses AASB 9. Trade receivables are generally due for settlement within 14 days.

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectable are written off by reducing the carrying amount directly. Allowance for impairment of trade receivables is raised when there is objective evidence that the consolidated entity will not be able to collect all amounts due.

Debt facility

On 30 June 2021, the Company obtained approval from Shareholders for a debt-for-equity reorganisation of the balance sheet including the retirement of $300,000 (plus accrued interest to 30 June 2021) of the $600,000 debt facility through a debt-for-equity swap at $0.0025 per share. As at 30 June 2021, the debt facility comprises of an unsecured loan of $300,000 from Lax Consulting Pte Ltd. The facility matures on 1 July 2022 with an interest rate of 10% p.a.

Liabilities for wages and salaries, including non-monetary benefits, annual leave and long service leave expected to be settled wholly within 12 months of the reporting date, are measured at the amounts expected to be paid when the liabilities are settled.

The liability for annual leave and long service leave not expected to be settled within 12 months of the reporting date are measured at the present value of expected future payments to be made in respect of services provided by employees up to the reporting date. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on corporate bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Note 16. Share capital (continued)

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the company does not have a limited amount of authorised capital.

Every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

Share-based payments

Shares issued in relation to extinguishing financial liabilities.

Note 18. Financial instruments

Financial risk management objectives

The consolidated entity's activities expose it to a variety of financial risks: market risk (including foreign currency risk, and interest rate risk), credit risk and liquidity risk. The consolidated entity's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the consolidated entity. The consolidated entity uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate, foreign exchange and other price risks, and ageing analysis for credit risk.

Risk management is directed by the Board of Directors ('the Board'). This direction includes identification and analyses of the risk exposure of the consolidated entity and appropriate procedures, controls and risk limits.

Note 18. Financial instruments (continued)

Market risk

Foreign currency risk

The consolidated entity undertakes certain transactions denominated in foreign currency and is exposed to foreign currency risk through foreign exchange rate fluctuations.

In order to protect against exchange rate movements, the consolidated entity has a policy of using appropriate hedging instruments when deemed necessary to mitigate foreign currency risk.

The carrying amount of the consolidated entity's foreign currency denominated financial assets and financial liabilities at the reporting date were as follows:

Liabilities	**2021**	**2020**
US dollars	48,116	65,210
Euros	152,800	160,193
	200,915	225,402

Price risk

The consolidated entity is not exposed to any significant price risk.

Interest rate risk

Interest rate risk is the risk that the value of a financial instrument or the cash flows associated with the instrument will fluctuate due to changes in market interest rate.

The consolidated entity's main interest rate risk arises from its borrowings. Borrowings obtained at fixed rates expose the consolidated entity to fair value risk. The Company's policy is to maintain current borrowings at fixed rates to mitigate interest rate risk. Consequently, the consolidated entity has negligible interest rate risk exposure.

Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the consolidated entity. The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements. The consolidated entity does not hold any collateral over these assets.

Liquidity risk

Liquidity risk management requires the consolidated entity to maintain sufficient liquid assets and available borrowing facilities to be able to pay debts as and when they become due and payable.

The consolidated entity manages liquidity risk by maintaining adequate cash reserves and drawing on borrowing facilities to match forecast cash flows.

Remaining contractual maturities

The remaining contractual maturity for its financial instrument liabilities is shown in the following table. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the financial liabilities are due to be paid.

Note 27. Events after the reporting date

On 8 August 2021, the Directors approved the deregistration of 3D Group Pty Ltd, an entity the Company has control over. The deregistration of 3D Group Pty Ltd has no impact on the financial position of the consolidated entity.

The impact of the Coronavirus (COVID-19) pandemic is ongoing and it is not practicable to estimate the potential impact, positive or negative, after the reporting date. The situation is rapidly developing and is dependent on measures imposed by the Australian Government and other countries, such as maintaining social distancing requirements, quarantine, travel restrictions and any economic stimulus that may be provided.

No other matter or circumstance has arisen since 30 June 2021 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

Note 28. Fair value measurement

Fair value hierarchy

The following tables detail the Group's assets and liabilities, measured or disclosed at fair value, using a three level hierarchy, based on the lowest level of input that is significant to the entire fair value measurement, being:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
Level 3: Unobservable inputs for the asset or liability.

	Level 1	Level 2	Level 3	Total
Consolidated - 2021	$	$	$	$

Convertible notes payable	-	-	300,000	300,000
Total liabilities	-	-	300,000	300,000

There were no transfers between levels during the financial year.

The carrying amounts of trade and other receivables and trade and other payables are assumed to approximate their fair value to their short term nature.

In the directors' opinion:

a) the attached financial statements and notes comply with the *Corporations Act 2001* , the Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements;

b) the attached financial statements and notes comply with International Financial Reporting Standards as issued by the International Accounting Standards Board as described in Note 1 to the financial statements;

c) the attached financial statements and notes give a true and fair view of the consolidated entity's financial position as at 30 June 2021 and of its performance for the financial year ended on that date; and

d) there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

The directors have been given the declarations required by section 295A of the *Corporations Act 2001.*

Signed in accordance with a resolution of directors made pursuant to section 295(5)(a) of the *Corporations Act 2001* .

INDEPENDENT AUDITOR'S REPORT

To the Members of 333D Limited

Opinion

We have audited the financial report of 333D Limited (the Company) and its subsidiaries (the consolidated entity), which comprises the consolidated statement of financial position as at 30 June 2021, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion the accompanying financial report of the consolidated entity is in accordance with the Corporations Act 2001, including:

(i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2021 and of its financial performance for the year then ended; and
(ii) complying with Australian Accounting Standards and the Corporations Regulations 2001.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 3 in the financial report, which indicates that the consolidated entity had net cash outflows from operating activities of $90,043 for the year ended 30 June 2021. As at that date, the consolidated entity had net current liabilities of $242,628 and net liabilities of $544,234. As stated in Note 3, these events, or conditions, along with other matters as set forth in Note 3, indicate that a material uncertainty exists that may cast significant doubt on the consolidated entity's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Material Uncertainty Related to Going Concern section, we have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matters (continued)

Key Audit Matter	How our audit addressed this matter
Disclosure of Borrowings Refer to Note 14 in the financial statements	
The consolidated entity's borrowings at 30 June 2021 totalled $300,000. This balance was made up of facilities provided by LAX Consulting Pte Ltd.	Our audit procedures in relation to the disclosures of borrowings included: • Reviewing borrowing agreements to ascertain the respective borrowings' terms and conditions; • Obtaining confirmations from the lender to confirm balances outstanding at 30 June 2021 and extension terms; • Ensuring that borrowings are accurately classified as current and non-current liabilities; and • Reviewing the disclosures in Note 14 for completeness and accuracy of borrowings terms.
Share based payments Refer to Note 3 and 16 in the financial statements	
During the financial year ended 30 June 2021, the consolidated entity has settled outstanding debts to directors, lenders and suppliers in the form of issuing share capital, totalling $2,152,673.	Our audit procedures in relation to share based payments included: • Agreeing quantity of shares issued to ASX Announcements for shareholder approval; • Agreeing value of shares issued to audited borrowings and trade payable balances as at 30 June 2020, and expenses incurred during the year ended 30 June 2021; • Reviewing the accounting of the share based payments in accordance with AASB 2 *Share Based Payments* and AASB Interpretation 19 *Extinguishing Financial Liabilities with Equity Instruments*. • Reviewing the disclosures in Note 3 for completeness and accuracy of prior period correction; and • Reviewing the disclosures in Note 16 for completeness and accuracy of share based payment details.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the consolidated entity's annual report for the year ended 30 June 2021, but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RSM

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the consolidated entity to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the consolidated entity or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: https://www.auasb.gov.au/admin/file/content102/c3/ar2_2020.pdf

This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2021.

In our opinion, the Remuneration Report of 333D Limited, for the year ended 30 June 2021, complies with section 300A of the Corporations Act 2001.

Responsibilities
