Comments

Mediland's operations continued with significant disruption as a result of COVID-19 pandemic, with the Group focusing on preserving its cash position and controlling its costs.

The loss for the consolidated entity after providing for income tax and non-controlling interest amounted to \$6,430,453 (30 June 2020: \$5,109,041). The loss after tax was attributable to the following:

- As indicated in previous period reports, the Company underwent a substantial decrease in revenue from ordinary activities as the full impact of the Covid-19 pandemic was felt. There had been nil income from retail stores since suspension of trading in February 2020. With continued suspended retail operations for most of 2020 calendar year, all Australian subsidiaries were entered into external administration in December 2020.
- After seeking non-associated shareholders' approval in April 2021, the Company purchased the Hamilton Hotel in New Zealand. The revenue includes two months of trading from hotel operations since its date of acquisition with an average occupancy rate of 78%.
- Impairment expense increased from \$nil to \$3.4m. The decrease was mainly attributable to closure of all retail stores since the announcement of the pandemic.
- Further \$3.1m was written off as loans forgiven due to loss of control of the subsidiaries.

The Company has implemented rigorous cost control measures and has stabilised cashflows used in operations by minimising fixed operating costs. During the financial year, the Company terminated four of six lease contracts resulting in a substantial decrease in on-going occupancy and operational expenses.

Management remains open to once again playing an active role in the "health and well-being" sector in the inbound Chinese tourist retail market as and when the tourism industry returns to some form of normality.
