Part 8 – Basis of Preparation

This Preliminary Final Report has been prepared in accordance with ASX Listing Rule 4.3A and the disclosure requirement of ASX Appendix 4E.

Part 9 – Commentary on Results

The Group's net loss result increased in the 2021 financial year relative to the 2020 financial year, by 36.59%.

Consistent with disclosure at Part 10 below, in the financial year the Group generated a substantial increase in revenues, notably this included the commencement of revenue generation from the next generation photo-centric property management platform, pirsee (formerly inspector360).

In the year the Group achieved substantial milestones on the development of pirsee. Technical milestones achieved include Tenant Collaboration ([ASX announcement 30 October 2020](#)) and the Owner's Portal ([ASX announcement 19 April 2021](#)), costs incurred for this development work were predominantly salaries and wages of AssetOwl's employees and contractors engaged which are substantially reported within Research and Development expenses, consistent with prior reporting periods.

An increase in employee benefits expense is predominantly attributable to the and the appointment of Mr Geoff Goldsmith as Chief Executive Officer of the Group in Q4 FY2021 and the employment of a customer success manager in Q2 FY2021, both individuals are significant additions to the Group's staff and have been integral to building the customer pipeline for the pirsee platform.

Share Options were awarded to the Key Management Personnel during the year, to incentivise and align their interests with the financial success of the Group, expense recognised in the period in relation to these share options amounted to \$51,946

The Group's Chief Operating Decision Maker, identified as the Board of Directors, considers that the Group has one operating segment, being software development. The segment result of this operating segment for the financial year is a loss of \$925,306.

The Group's basic (loss) per ordinary share was a loss of 0.30 cents per share (2020: loss of 0.35 cents per share). This c.12% improvement in loss per share arose a result of a material increase in the number of shares on issue following the completion of a capital raising in Q4 FY2021.

	2021 (\$)	2020 (\$)
REVENUE FROM CUSTOMERS		
<i>Pirsee</i>

Revenue from Goods (Cameras)	2,055	-
<i>Management Platform</i>		
Revenue from Services (Management Platform)	60,545	16,437
	64,916	16,437

In December 2020, the Group commenced generating revenue from the provision of its revolutionary photo-centric property management platform, pirsee (formerly inspector360). Revenue in the year was generated from Western Australian based real estate agents.

The Group also generated from the sale of Cameras, which are used in conjunction with the pirsee platform.

In the current reporting period, the Group's revenue from its management platform substantially increased, following an update of the minimum monthly fee charged by the Group for the provision of its management platform service.
