archTIS Acquires Cipherpoint Technology Assets and Customers

Accretive asset purchase adds to archTIS' rapidly growing annual recurring revenue, global distribution and industry-leading intellectual property

Highlights:

- archTIS acquires technology assets including customers, staff and the European operations of Cipherpoint Limited's software division.
- The acquisition represents significant value for shareholders at ~3.8x the acquired annual recurring revenue; while being immediately accretive to earnings.
- Strategic acquisition providing archTIS with a unique data discovery and encryption technologies that are complementary to NC Protect and can be upsold and cross-utilised within the existing Microsoft technology stack.

CANBERRA – 20 September, 2021 – archTIS Limited (ASX:AR9), a global provider of innovative software solutions for the secure collaboration of sensitive information, today announced the purchase of select assets including customers, technology and the European operations of Cipherpoint Limited's (ASX:CPT) software division.

The newly acquired software division includes the intellectual property to cp.Protect, an advanced SharePoint on-premises data encryption solution, as well as cp.Discover, a data discovery and classification platform. Both products complement archTIS' NC Protect solutions. Existing cp.Protect and cp.Discover customers include DHL, Bank of Finland, California State University, Arthur J Gallagher, US DARPA, Singapore Power, Singapore Tote and Acronym Media. Cipherpoint reseller NTT Data will continue to provide an ongoing sales channel for the cp products in Germany, Austria, Switzerland and Singapore regions. NC Protect will provide a migration path for customers moving to Microsoft 365 and Teams, as customers move toward Microsoft's Cloud or Hybrid platforms. Specifically, the acquisition will provide a growing suite of data-centric and zero trust architected platforms and products to support Microsoft customer environments for on-premises, hybrid and cloud deployments and assist the Company to grow its annual recurring revenues.

archTIS Global COO and US President, Kurt Mueffelmann, said, "We have worked with the Cipherpoint software team for some time through our existing mutual reseller arrangements. The asset purchase is a logical next step in the relationship. The bolt-on acquisition represents excellent value for archTIS shareholders (~3.8x current annual recurring revenue) with the delivery of many long-serving, high profile customers and partners, as well as extending markets in Europe and Singapore. In particular, the asset purchases will provide archTIS with unique data discovery and classification technology that are complementary to NC Protect and can be cross-utilised with our existing technology stack. Moreover, the industry-ready Cipherpoint staff will slot readily into our active EU/America offices and bolster our sales efforts in these markets."

The purchase price consists of \$1.4M in cash with \$200K of the initial purchase price held in escrow until the novation of certain contracts. In addition, further consideration of up to \$1M is to be paid based on total contract values of contracts assigned to archTIS as of 31 March 2022. This additional consideration will be settled through the issue of shares under the Company's 15% placement capacity after 31 March 2022. Further material terms of the acquisition are set out in **Annexure A**.

The Cipherpoint software division currently provides \$370K in annual recurring revenue for the current contracts and has a deep and growing pipeline across Europe, Asia and the Americas, including a number of government and defence agencies. The asset purchase is projected to be immediately accretive to the archTIS financials with Cipherpoint staff in Europe (Heilbronn, Germany) joining the organization.

archTIS Acquires Cipherpoint Technology and Customer Assets

Cipherpoint Executive Director, Joint Company Secretary and COO, Steven Bliim, who will join archTIS as Vice President – Business Development, EMEA, said, “I am excited about this transaction, especially in its potential to deliver growth opportunities for both businesses in addition to the sales and support systems already well established in archTIS. With a number of new pipeline opportunities already underway, I look forward to further cultivating an even stronger working relationship as a member of the archTIS team.”

Daniel Lai, Managing Director and CEO of archTIS, stated, “I’m pleased to add the Cipherpoint technology, support and sales teams to archTIS. The acquisition clearly demonstrates our fiscal responsibility and our ability to consistently execute on what we have communicated to shareholders and the market around targeting acquisitive growth. We are capital efficient in how we price and evaluate deals and how we’re not afraid to look out of the box for this or other acquisitions.”

-ENDS-

Authorised for issue by order of the Board of Directors.
