## Chairman's Letter to Shareholders

Dear fellow shareholders,

On behalf of the Directors of Codrus Minerals Limited ("Company" or "Codrus"), I present to shareholders the annual report for the year ended 30 June 2021.

Codrus successfully completed its Initial Public Offering (IPO) and raised \$8.0 million, with the shares commencing trading on the ASX on 23 June 2021. The Codrus IPO was completed by the spinout of Blackstone Minerals Limited's gold assets in Australia and the United States of America. Blackstone Minerals Limited ("Blackstone") continue to be the major shareholder in Codrus.

Whilst Codrus has been listed only for a short period of time I would like to thank the continued support of our Joint Lead Managers and shareholders to date, as we look towards delivering on our exploration strategy.

Since completion of the spin out of the Bull Run Project, Silver Swan South Project, Red Gate Project and Middle Creek Project from Blackstone, the Company completed its maiden drilling program subsequent to year end at Silver Swan South and as we wait for the assays, the team are preparing the Red Gate Project for drilling in the next quarter.

The Silver Swan Project, Red Gate Project, and Middle Creek Project are located in Western Australia, and all are positioned within well-endowed mineral fields, and within a short distance of significant operating assets. The Bull Run Project in eastern Oregon, USA is within a historic goldfield that has produced from small high-grade mines for over a century with scant modern exploration.

The drilling program will be well supported by deploying industry leading exploration technology to the targets it has on the Silver Swan South and Red Gate Projects, whilst commencing fieldwork on the untested Middle Creek project which is largely under explored. At the Bull Run Project in Oregon, the Company will commence with an IP survey that will underpin targeting for future drilling.

I would like to take this opportunity to thank all employees, contractors and consultants who have contributed to the company in our short existence but in particular as we look forward to the future. In addition, I would also like to thank Shannan Bamforth for his efforts to date and I believe he will be valuable asset to the company over our journey.

Finally, I thank you, our shareholders, for your continued support while we embark on our exploration strategy over the next 12 months and the exciting potential our suite of projects offer to the future growth of the company.

Andrew Radonjic Non-Executive Chairman

The Directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'Group') consisting of Codrus Minerals Limited (formerly known as Black Eagle (WA) Pty Ltd) (referred to hereafter as the 'Company' or 'Parent Entity', or 'Codrus') and the entities it controlled at the end of, or during, the year ended 30 June 2021.

#### 1. Directors

The following persons were Directors of Codrus Minerals Limited during the whole of the financial year and up to the date of this report, unless otherwise stated:

Mr Andrew Radonjic(Appointed 1 August 2017)Mr Shannan Bamforth(Appointed 29 March 2021)Mr Jamie Byrde(Appointed 1 January 2021)Dr Stuart Owen(Appointed 1 January 2021; Resigned 29 March 2021)

#### 2. Principal Activities

The principal activity of the Group during the year was mineral exploration. There were no significant changes in the nature of the Group's principal activities during the year.

#### 3. Group Financial Overview

#### Profit and Loss

The loss attributable to owners of the Group after providing for income tax amounted to \$6,439,547 (2020: \$533,246).

#### Financial Position

The Group had \$7,440,779 in cash and cash equivalents as at 30 June 2021 (2020: \$Nil).

#### 4. Dividends Paid or Recommended

The Directors do not recommend the payment of a dividend and no amount has been paid or declared by way of a dividend to the date of this report.

#### 5. Business Strategies & Prospects for the Forthcoming Year

Codrus Minerals Limited is focused upon the exploration and development of mineral resources within its current portfolio of projects including the Gold and Nickel Projects in Western Australia and Gold Project in Oregon USA.

The Silver Swan South Project, Red Gate Project and Middle Creek Projects are located in Western Australia, and all are located within well-endowed mineral fields, and within a short distance of significant operating assets. The Bull Run Project in eastern Oregon is within an historic goldfield that has produced from small high-grade mines for over a century with scant modern exploration.

The Company has commenced operations with its maiden drilling program on the Silver Swan South Project which will be followed by a drilling program at its Red Gate Project. The company will further deploy industry leading exploration technology to the targets it has on the Silver Swan South and Red Gate Projects, whilst commencing fieldwork on the earlystage Middle Creek project. At the Bull Run Project in Oregon, the Company will commence with an IP survey that will underpin targeting for future drilling.

Material business risks that may impact the results of future operations include further exploration results, future commodity prices, tenure of exploration and prospecting licences, tenement access and funding.

## 6. Significant Changes in the State of Affairs

The following significant changes in the state of affairs occurred during the financial year:

- On 5 May 2021 the company issued a Prospectus for the Initial Public Offer, offering up to 40,000,000 fully paid ordinary shares at an issue price of \$0.20 per share to raise up to \$8,000,000, which had been successfully completed.
- On 23 June 2021, the Company successfully listed on the Australian Securities Exchange (ASX) Limited issuing 40,000,000 fully paid ordinary shares at an issue price of \$0.20 per share to raise up to \$8,000,000.
- In addition, the company issued 6,000,000 options to Directors with an exercise price of \$0.30 escrowed for 24 months. Expiry date 17 June 2024.
- In addition, the company issued 6,000,000 options to Brokers with an exercise price of \$0.30 escrowed for 24 months. Expiry date 17 June 2023.
- A further 5,000,000 performance rights were issued to Shannan Bamforth consisting of 1,500,000 Class A Performance Rights, 2,000,000 Class B Performance Rights and 1,500,000 Class C Performance Rights convertible into shares, subject to relevant milestones being achieved. The performance rights are escrowed for 24 months. Expiry date 17 July 2026.
- 35,000,000 ordinary shares were issued, at a deemed issue price of \$0.20 per share, to Blackstone Minerals Limited under the Prospectus and the Deed of Acknowledgement for the transfer of its assets to Codrus.

#### 7. Review of Operations

## WESTERN AUSTRALIAN PROJECTS

The Company has three (3) projects in Western Australia. The Silver Swan South and Red Gate projects are located in the Kalgoorlie region and the Middle Creek Project is located near Nullagine in the Pilbara (see Figure 1).

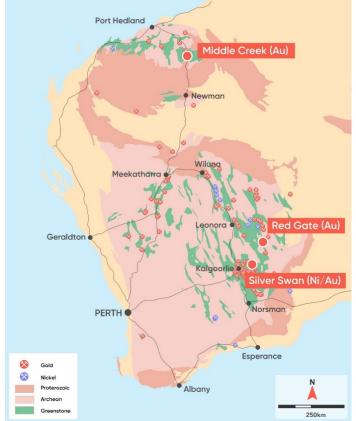

Figure 1 | Silver Swan South, Red Gate and Middle Creek project locations in Western Australia.

#### SILVER SWAN SOUTH PROJECT

The **Silver Swan South Project (100% interest)** is a gold and nickel project located approximately 40km north-east of Kalgoorlie that is comprised of seven (7) granted tenements covering a total area of 45.2km<sup>2</sup>.

The Silver Swan South Project lies approximately 10km north-east of the Kanowna Belle Gold Mine, operated by Northern Star Resources Limited *(see Figure 1)*, and lies along the structural trend of the Fitzroy Fault (the primary control on mineralisation at Kanowna Belle).

The project has had historic exploration by numerous previous tenement holders, including Blackstone Minerals (ASX: BSX). Historic work that supports gold and nickel exploration targeting at the project includes rotary air blast (RAB), air-core (AC) and Reverse Circulation (RC) drilling and several airborne and ground geophysical surveys. Codrus Minerals completed no activity during the reporting period.

A significant portion of the historical work is interpreted to have not effectively tested the geological opportunity due to not penetrating into bedrock as a result of the presence of thick surficial cover.

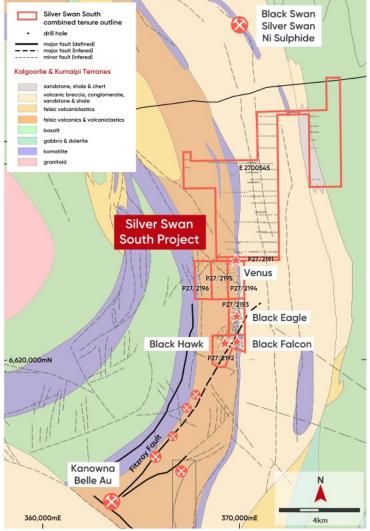

Figure 2 | Silver Swan South Project location

The Company's initial drilling at Silver Swan South will be at **Black Eagle**, where historic drilling has intersected encouraging gold mineralisation including SNAC070: **10m at 3.2g/t Au from 68m** at the interpreted base of transported cover and into weathered bedrock.

Adjacent to this is a geophysical anomaly derived from Moving Loop Electromagnetic Surveys (MLEM) which corresponds very closely with the inferred position and dip direction of the north-south striking komatiite unit that could host nickel sulfide mineralisation. The current diamond drilling program will be used to explore these areas and to develop further understanding of the concealed basement stratigraphy and structural setting (*see Figure 2*).

At **Black Hawk**, there are recent bottom-of-hole intercepts that will be further evaluated to test gold anomalism (SNAC027: 7m at 1.3g/t Au) in felsic stratigraphy adjacent to the interpreted trend of the Fitzroy Shear Zone. Diamond drilling here will supply greater detail to inform the current geological understanding.

At **Black Falcon**, the presence of elevated nickel in the in-situ clay zone (SNAC019: 24m at 0.6% Ni, 115ppm Cu and 468ppm As) will be investigated with drilling and follow up Down-Hole Electromagnetic (DHEM) surveying to test for off-hole conductors.

The recently commenced diamond program will comprise ~1,600m of drilling in the initial phase of exploration to test these targets.

#### **RED GATE PROJECT**

The **Red Gate Project (100% interest)** is a gold project located approximately 140km north of Kalgoorlie and comprises one granted Exploration Licence covering a total area of 145.2km<sup>2</sup> (see Figure 3).

The project has had historic exploration by both Blackstone Minerals (ASX: BSX) and previous tenement holders. Historic work predominantly focused on the Porphyry North prospect – including RAB, AC and RC drilling targeting gold. On a more regional note, there have been numerous airborne and ground geophysical surveys.

The mineralisation encountered in this historical work shows a strong relationship between the alteration, pyrite and gold. A Gradient Array Induced Polarisation (GAIP) survey was completed by previous owners (Sons of Gwalia) and showed a positive correlation between chargeability and mineralisation.

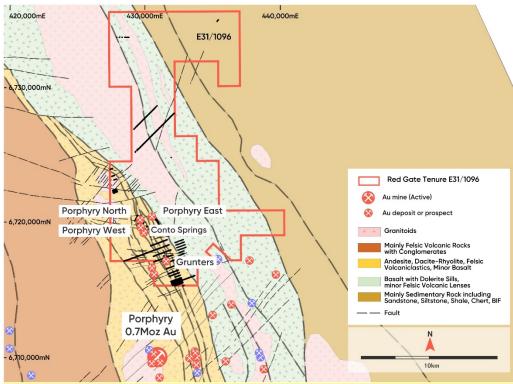

Figure 3 | The Red Gate Project Tenements and prospects on interpreted geology

Blackstone Minerals (ASX:BSX) completed a further 2.5d pole-dipole IP (2.5dIP) survey based on the success of the historic GAIP surveys. Three chargeable bodies of interest were identified in the survey, namely:

- PN1 a shallow, moderately chargeable body coincident with the known and welldrilled Porphyry North gold mineralisation;
- PN2 a moderately chargeable, resistive body partly coincident with the reconnaissance drilled Porphyry West prospect; and
- PN3 a deep, broad moderately chargeable, resistive body at a depth of 300–400m to the south-west and possibly loosely connected with Porphyry West. This anomaly is poorly constrained (Cooper, 2020) and now referred to as the Conto Springs target.

These anomalies are all targeted for follow-up RC drilling with 4,000m of drilling planned to commence late in the December 2021 Quarter.

#### MIDDLE CREEK PROJECT

The **Middle Creek Project** (95% to 100% interest) is a gold project located approximately 185km north of Newman and 10km east of the small township of Nullagine in the East Pilbara Region (*see Figure 4*). The project comprises 21 granted licences covering a total area of 37.4km<sup>2</sup>.

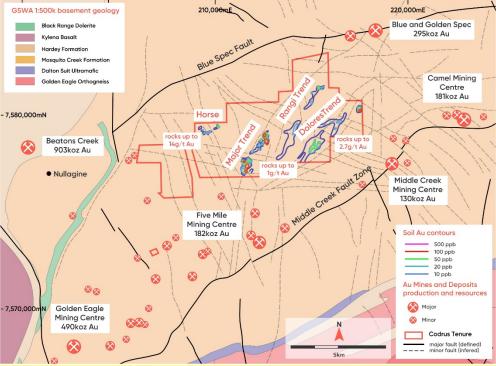

Figure 4 | The Middle Creek Project Tenements and prospects on interpreted geology

There has been little historic exploration in the tenement holding at the Middle Creek Project, with work completed including surface geochemistry, geophysical surveys and prospecting. The regional geological interpretation is well understood, and the lack of exploration completed on the tenements to date provides an exceptional opportunity in an area of significant historical gold production.

Initial work on the project in the September 2021 Quarter will include a project-wide review of the geochemical sampling and planning for further geochemical surveys, geological mapping, and geophysical surveys. A program of surface trenching is also being planned.

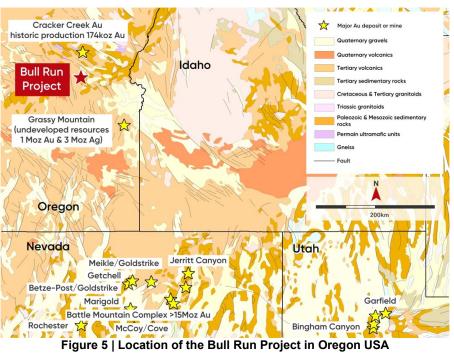

It is envisaged that the targets generated from this work (given the current geochemical anomalies identified) will require follow-up RC drilling.

#### AMERICAN PROJECT

#### Bull Run Project (Oregon, USA)

The **Bull Run Project** is located in Baker County, eastern Oregon, USA, approximately 5 miles south of the town of Unity, and has been intermittently mined for vein gold since around 1929 (*see Figure 5*). Codrus has an option over the 11 lode mining claims held by Young and Mount View Farms. Additionally, the Company has a 100% interest in an additional 79 lode mining claims surrounding the Young and Mt View Farms claims in the option area.

The Bull Run Project hosts gold and base metal mineralisation in north-east trending enechelon veins, stockwork-type vein filling and disseminations between major veins within older equigranular biotite-quartz diorite and later felsic porphyritic intrusions (*see Figure 5*). Low-grade mineralisation is also observed within the serpentinite.

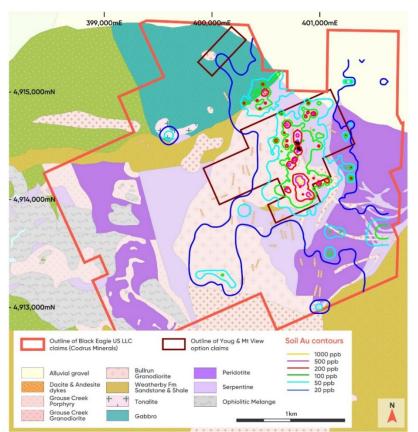

Figure 6 | The Bull Run Project Tenements and prospects on interpreted geology

Historical work programs initially had drilling targeting high-grade vein hosted mineralisation, and later evaluating potential larger bulk tonnage options. Blackstone Minerals (ASX: BSX) completed soil geochemistry sampling over the claims resulting in the identification of two gold-in-soil trends (*see Figure 6*):

- The North Trend, approximately parallel to the serpentinite-Bull Run granodiorite contact and the dominant dyke strike through the Bull Run Project area; and
- The NE to NNE Trend, parallel to the dominant vein set within the Bull Run granodiorite, highlighting in particular the Whited, Payton and Sunrise veins.

Fieldwork conducted by previous explorers and by Blackstone Minerals (ASX: BSX) has identified the presence of disseminated pyrite and chalcopyrite mineralisation which may be amenable to pole – dipole IP surveying to define drill targets.

Planning for the completion of pole – dipole IP surveying, and associated contractual arrangements will be completed in the October 2021 with surveying planned to commence shortly after.

#### 8. Matters Subsequent to the End of the Financial Year

• On 23 July 2021, the Company announced the issue of 2,600,000 Performance Rights under the Company's Employee Securities Incentive Plan to employees. In addition, the Company agreed to Issue 4,500,000 options to consultants, subject to shareholder approval.

Apart from the above, no other matter or circumstance has arisen since 30 June 2021 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

#### 9. Likely Developments and Expected Results of Operations

Information on likely developments in the operations of the Group and the expected results of operations have not been included in this report because the directors believe it would be likely to result in unreasonable prejudice to the Group.

#### **10.** Information on Directors and Company Secretaries

#### 11. Remuneration Report (audited)

The Directors of Codrus Minerals Limited are pleased to present your Company's 2021 remuneration report which sets out remuneration information for the Non-Executive Directors, Executive Directors and other key management personnel ("KMP").

The following sections are included with this report:

- A. Directors and key management personnel disclosed in this report
- B. Remuneration governance
- C. Use of remuneration consultants
- D. Executive remuneration policy and framework
- E. Group Performance, Shareholder Wealth and Executive Remuneration
- F. Non-Executive Director remuneration policy
- G. 2020 Annual General Meeting
- H. Details of remuneration
- I. Details of share-based payments and bonuses
- J. Service Agreements
- K. Equity instruments held by key management personnel
- L. Loans to key management personnel
- M. Other transactions with key management personnel

Α.	Directors and key manage Non-Executive Directors	ment personnel disclosed in this report
	Mr A Radonjic	Non-Executive Chairman (Appointed 1 August 2017)
	Mr J Byrde	Non-Executive Director (Appointed 1 January 2021 & Company Secretary (Appointed 1 August 2017)
	Mr S Owen	Non-Executive Director (Appointed 1 January 2021; Resigned 29 March 2021)
	Executive Director Mr S Bamforth	Managing Director (Appointed 29 March 2021)

All of the key management personnel held their positions during the year ended 30 June 2021 and up to the date of this report unless otherwise disclosed.

#### B. Remuneration governance

The Company has established a Remuneration Committee under a formal charter. The Remuneration Committee comprises of three Directors.

The Remuneration Committee is responsible for reviewing and recommending the remuneration arrangements for the Executive and Non-Executive Directors and KMP each year in accordance with the Company's remuneration policy approved by the Board. This includes an annual remuneration review and performance appraisal for the Executive Directors and other executives, including their base salary, short-term incentives ("STI") and long-term incentives ("LTI"), bonuses, superannuation, termination payments and service contracts.

Further information relating to the role of the Remuneration Committee can be found within the Corporate Governance Report on the Company's website, refer to

https://codrusminerals.com.au/corporate-governance/

#### C. Use of remuneration consultants

The Company has not engaged or contracted remuneration consultants during the financial year.

#### D. Executive remuneration policy and framework

The remuneration policy of Codrus has been designed to align executives' objectives with shareholder and business objectives by providing both fixed and discretionary remuneration components which are assessed on an annual basis in line with market rates. By providing components of remuneration that are indirectly linked to share price appreciation (in the form of options), executive, business and shareholder objectives are indirectly aligned. The Board of Codrus believes the remuneration policy to be appropriate and effective in its ability to attract and retain the best directors to run and manage the Company, as well as create goal congruence between Directors and Shareholders.

In determining competitive remuneration rates, the Board reviews local and international trends among comparative companies and industry generally. It examines terms and conditions for employee incentive schemes, benefit plans and share plans. Independent data is sourced to ensure that the company's remuneration levels fall within the 50th to 75th percentile of companies in a similar industry group and with a similar market capitalisation. These ongoing reviews are performed to confirm that executive remuneration is in line with market practice and is reasonable in the context of Australian executive reward practices.

The Board also ensures that the mix of executive compensation between fixed, variable, long-term, short-term and cash versus equity is appropriate. The Company endeavours to reduce cash expenditure by providing a greater proportion of compensation in the form of equity instruments. This allows cash-flows to be directed towards exploration programs with a view to improving the quality of our projects.

#### E. Group Performance, Shareholder Wealth and Executive Remuneration

The remuneration policy has been tailored to increase goal congruence between shareholders directors and executives. This has been achieved by the issue of performance rights to directors, executives and other key management personnel, at the discretion of the Board of Directors. The performance rights are issued under the Employee Incentive Scheme and based on a mixture of short, medium and long-term incentive rights. This structure rewards executives for both short-term and long-term shareholder wealth development.

#### F. Non-executive Director remuneration policy

The Board policy is to remunerate Non-Executive Directors at market rates for comparable companies for time, commitment and responsibilities. Fees for Non-Executive Directors are not linked to the performance of the group.

In determining competitive remuneration rates, the Board reviews local and international trends among comparative companies and industry generally.

#### F. Non-executive Director remuneration policy (continued)

Typically, Codrus will compare Non-Executive Remuneration to companies with similar market capitalisations in the exploration and resource development business group. These ongoing reviews are performed to confirm that nonexecutive remuneration is in line with market practice and is reasonable in the context of Australian executive reward practices.

Further to ongoing reviews, the maximum aggregate amount of fees that can be paid to non-executive directors is \$500,000. There are no planned changes to this limit requiring approval by shareholders at the Annual General Meeting.

#### 2020 Annual General Meeting G.

The Company listed on the Australian Securities exchange on 23 June 2021 and therefore did not hold an AGM for the 2020 financial year.

#### **Details of Remuneration** Η.

Details of the remuneration of the Directors and key management personnel of the group of Codrus are set out in the following table for the year ending 30 June 2021. There have been no changes to the below named key management personnel since the end of the reporting year unless otherwise noted.

	Shor Ber			-

Shares issued through participation in the initial public offering

#### L. Loans to key management personnel

There were no loans made to Directors and other key management personnel of the group, including their close family members.

#### M. Other transactions with key management personnel

Mr Radonjic is a Director of Blackstone Minerals Limited which shares office and administration service costs on normal commercial terms and conditions.

Aggregate amounts of each of the above types of other transactions with key management personnel of Codrus:

		2021 \$	2020 \$
(i)	Recharges to KMP related entities <i>Recharge of rent and shared office costs</i> Loan forgiveness by Blackstone Minerals Limited	2,116,018	-
(ii)	<i>Purchases from KMP related entities</i> Shared office costs and other supplier services on arms' length terms: Recharges from Blackstone Minerals Limited	160,359	-

#### End of remuneration report

### 12. Shares under Option

Unissued ordinary shares of Codrus Minerals Limited under option at the date of this report are as follows:

Date options granted	Expiry Date	Exercise Price	Number under Option
17 June 2021	17 June 2024	\$0.30	6,000,000
17 June 2021	17 June 2023	\$0.30	6,000,000
Doto righto granted	Evniny Data	Evereine Drieg	Number under Dighte

Date rights granted	Expiry Date	Exercise Price	Number under Rights
17 June 2021	17 June 2026	N/A	6,000,000

No option or rights holder has any right under the options to participate in any other share issue of the Company or any other entity.

#### 13. Insurance of Officers

During the financial year, Codrus paid a premium of \$17,850 (2020: \$Nil) to insure the Directors and Secretary of the Company and its controlled entities.

The liabilities insured are legal costs that may be incurred in defending civil or criminal proceedings that may be brought against the officers in their capacity as officers of entities in the group, and any other payments arising from liabilities incurred by the officers in connection with such proceedings.

This does not include such liabilities that arise from conduct involving a wilful breach of duty by the officers or the improper use by the officers of their position or of information to gain advantage for themselves or someone else or to cause detriment to the Company. It is not possible to apportion the premium between amounts relating to the insurance against legal costs and those relating to other liabilities.

#### 14. Meetings of Directors

The number of Directors' meetings (including committees) held during the year that each Director who held office during the financial year were eligible to attend and the number of meetings attended by each Director are:

	Full meetings o	f Directors	Remuneration Committee meetings		
Director	Number Eligible to Meetings Attend Attended <sup>1</sup>		Number Eligible to Attend	Meetings Attended	
Mr A Radonjic	1	1	-	-	
Mr J Byrde	1	1	-	-	
Mr S Bamforth	1	1	-	-	
Mr S Owen <sup>A</sup>	-	-	-	-	

1 Only one (1) meeting was held since listing date of 23 June 2021.

A Mr Owen was appointed 1 January 2021 and resigned on 29 March 2021.

The Company does not have a formally constituted audit committee as the Board considers that the Company's size and type of operation do not warrant such a committee as all members of the Board are involved in audit agenda items and discussions thereon.

#### 15. Environmental Regulation

The Group's activities are subject to the relevant environmental protection legislation (Commonwealth and State) in relation to its exploration activities. The group believes that sound environmental practice is not only a management obligation but the responsibility of every employee and contractor.

No fines were imposed and no prosecutions were instituted by a regulatory body during the year in relation to Environmental Regulations.

#### 16. Proceedings on behalf of the Company

No person has applied for leave of Court to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or any part of these proceedings. The Company was not a party to any such proceedings during the year.

#### 17. Auditor's Independence Declaration & Non-Assurance Services

The lead auditor's independence declaration for the year ended 30 June 2021 has been received and can be found on page 21 of the Directors' report.

There was no engagement of non-audit services provided to the Company during or since the end of the financial year.

The Auditor's audit remuneration is disclosed in Note 5.

Signed in accordance with a resolution of the Board of Directors.

Perth, Western Australia, 27 September 2021

#### **Competent Persons Statement**

The information in this report that relates to Exploration Results and Exploration Targets is based on information compiled by Mr Shannan Bamforth who is a Member of the Australasian Institute of Mining and Metallurgy. Mr Bamforth is a permanent employee of Codrus Minerals and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Bamforth consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

#### No New Information or Data

This annual report contains references to Exploration Results and Exploration Targets, all of which have been cross referenced to previous market announcements made by the Company. The Company confirms that it is not aware of any new information or data that materially effects the information in the said announcement. In the case of estimates of Mineral Resources all assumptions and technical parameters underpinning the estimates have not materially changed.

The Directors Codrus Minerals Limited Level 3, 24 Outram Street West Perth, WA 6005

**Dear Directors** 

#### RE: CODRUS MINERALS LIMITED

In accordance with section 307C of the *Corporations Act 2001*, I am pleased to provide the following declaration of independence to the directors of Codrus Minerals Limited.

As the Audit Director for the audit of the financial statements of Codrus Minerals Limited for the year ended 30 June 2021, I declare that to the best of my knowledge and belief, there have been no contraventions of:

(i) the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and

(ii) any applicable code of professional conduct in relation to the audit.

Yours sincerely

STANTONS INTERNATIONAL AUDIT AND CONSULTING PTY LTD (Authorised Audit Company)

#### **General information**

West Perth 6005

The financial statements cover Codrus Minerals Limited as a consolidated entity consisting of Codrus Minerals Limited and the entities it controlled at the end of, or during, the year. The financial statements are presented in Australian dollars, which is Codrus Minerals Limited's functional and presentation currency.

Codrus Minerals Limited is a listed public company limited by shares, incorporated and domiciled in Australia. Its registered office and principal place of business are:

Registered office	Principal place of business		
Suite 3, Level 3,	Suite 3, Level 3,		
24 Outram Street,	24 Outram Street,		

A description of the nature of the Group's operations and its principal activities are included in the directors' report, which is not part of the financial statements.

West Perth 6005

The financial statements were authorised for issue, in accordance with a resolution of directors, on 27 September 2021. The directors have the power to amend and reissue the financial statements.

Amounts relating to payments to suppliers and employees as set out above are inclusive of goods and services tax. The above consolidated statement of cash flows should be read in conjunction with the accompanying notes.

Note: For the 30 June 2020 Financial Year, all expenditure was paid directly by the parent company of Codrus Minerals Limited, Blackstone Minerals Limited (ASX: BSX), and therefore no cashflow movement in Codrus Minerals Limited.

#### 1. Summary of Significant Accounting Policies

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### (a) Basis of Preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001, as appropriate for for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').

#### (i) Compliance with IFRS

The consolidated financial statements of Codrus Minerals Limited also comply with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

#### (ii) Historical cost convention

The financial statements have been prepared under the historical cost convention, except for, where applicable, the revaluation of financial assets and liabilities at fair value through profit or loss, financial assets at fair value through other comprehensive income, investment properties, certain classes of property, plant and equipment and derivative financial instruments.

#### (iii) Critical Accounting Estimates

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 2.

#### (b) Principles of Consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Codrus Minerals Limited, formerly Black Eagle (WA) Pty Ltd ('company' or 'parent entity') as at 30 June 2021 and the results of all subsidiaries for the year then ended. Codrus Minerals Limited and its subsidiaries together are referred to in these financial statements as the 'Group'.

(i) Subsidiaries

Subsidiaries are all those entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities in the Group are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

## Summary of Significant Accounting Policies (continued) Principles of Consolidation (continued)

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the noncontrolling interest acquired is recognised directly in equity attributable to the parent.

Non-controlling interest in the results and equity of subsidiaries are shown separately in the statement of profit or loss and other comprehensive income, statement of financial position and statement of changes in equity of the Group. Losses incurred by the Group are attributed to the non-controlling interest in full, even if that results in a deficit balance.

Where the Group loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The Group recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

## (c) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the board of directors.

#### (d) Foreign currency translation

#### (i) Functional and presentation currency

Items included in the financial statements of each of the group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Australian dollars, which is Codrus Minerals Limited's and its subsidiaries functional and presentation currency.

#### (ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at period end exchange rates are generally recognised in profit or loss. They are deferred in equity if they relate to qualifying cash flow hedges, qualifying net investment hedges or are attributable to part of the net investment in a foreign operation.

Translation differences on financial assets and liabilities carried at fair value are reported as part of the fair value gain or loss. Translation differences on nonmonetary financial assets and liabilities such as equities held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss. Translation differences on non-monetary financial assets such as equities classified as available for sale financial assets are included in the fair value reserve in equity.

## Summary of Significant Accounting Policies (continued) (d) Foreign currency translation (continued)

#### (iii) Group companies

The results and financial position of foreign operations that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- Assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet
- Income and expenses for the statement of comprehensive income are translated at average exchange rates, and
- All resulting exchange differences are recognised in other comprehensive income.

#### (e) Revenue recognition

Revenue is recognised where performance obligations are satisfied being when control upon good or services underlying the performance obligations is transferred to the customer.

#### (i) Interest income

Interest income is recognised as the interest accrues (using the effective interest method, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument) to the net carrying amount of the financial asset.

#### (ii) Other income

Revenue from other income, rendering goods and services is measured at the fair value of consideration received or receivable for the sale of goods and services in the ordinary course of the Group's activities when control of the asset is transferred to the customer or services rendered.

#### (f) Income tax

The income tax expense or benefit for the period is the tax payable on the current period's taxable income based on the national income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements, and to unused tax losses.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates which are enacted or substantively enacted for each jurisdiction. The relevant tax rates are applied to the cumulative amounts of deductible and taxable temporary differences to measure the deferred tax asset or liability. An exception is made for certain temporary differences arising from the initial recognition of an asset or a liability.

No deferred tax asset or liability is recognised in relation to these temporary differences if they arose in a transaction, other than a business combination, that at the time of the transaction did not affect either accounting profit or taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses. Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

#### (f) Incomes taxes (continued)

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

### (g) Impairment of assets

At each reporting date, the Group assesses whether there is any indication that an asset may be impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at each reporting date or more frequently if events or changes in circumstances indicate that they might be impaired.

#### (h) Cash and cash equivalents

For the purposes of presentation of the statement of cash flows, cash and cash equivalents include cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts.

#### (i) Trade and other receivables

Trade and other receivables include amounts due from customers for goods and services performed in the ordinary course of business. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets. Trade and other receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any provision for impairment.

#### (j) Exploration and evaluation expenditure

The exploration and evaluation expenditure accounting policy is to expense acquired minerals rights, tenement acquisition costs and exploration expenditure as incurred.

## (k) Financial Instruments

#### Recognition, initial measurement and derecognition

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instrument. Financial instruments (except for trade receivables) are measured initially at fair value adjusted by transactions costs, except for those carried "at fair value through profit or loss", in which case transaction costs are expensed to profit or loss. Where available, quoted prices in an active market are used to determine the fair value. In other circumstances, valuation techniques are adopted. Subsequent measurement of financial assets and financial liabilities are described below.

#### (k) Financial Instruments (continued)

Trade receivables are initially measured at the transaction price if the receivables do not contain a significant financing component in accordance with AASB 15.

Financial assets are derecognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and all substantial risks and rewards are transferred. A financial liability is derecognised when it is extinguished, discharged, cancelled or expires.

#### **Classification and subsequent measurement**

#### **Financial assets**

Except for those trade receivables that do not contain a significant financing component and are measured at the transaction price in accordance with AASB 15, all financial assets are initially measured at fair value adjusted for transaction costs (where applicable).

For the purpose of subsequent measurement, financial assets other than those designated and effective as hedging instruments, are classified into the following categories upon initial recognition:

- amortised cost;
- fair value through other comprehensive income (FVOCI); and
- fair value through profit or loss (FVPL).

Classifications are determined by both:

- The contractual cash flow characteristics of the financial assets; and
- The entities business model for managing the financial asset.

#### Financial assets at amortised cost

Financial assets are measured at amortised cost if the assets meet the following conditions (and are not designated as FVPL):

- they are held within a business model whose objective is to hold the financial assets and collect its contractual cash flows; and
- the contractual terms of the financial assets give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial recognition, these are measured at amortised cost using the effective interest method. Discounting is omitted where the effect of discounting is immaterial. The Group's cash and cash equivalents, trade and most other receivables fall into this category of financial instruments.

## Financial assets at fair value through other comprehensive income (Equity instruments)

The Group measures debt instruments at fair value through OCI if both of the following conditions are met:

- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding; and
- The financial asset is held within a business model with the objective of both holding to collect contractual cash flows and selling the financial asset.

#### (k) Financial Instruments (continued)

For debt instruments at fair value through OCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognised in the statement of profit or loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in OCI.

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under AASB 132 *Financial Instruments: Presentation* and are not held for trading.

#### Financial assets at fair value through profit or loss (FVPL)

Financial assets at fair value through profit or loss include financial assets held for trading, financial assets designated upon initial recognition at fair value through profit or loss, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term.

#### **Financial liabilities**

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

Financial liabilities are initially measured at fair value, and, where applicable, adjusted for transaction costs unless the Group designated a financial liability at fair value through profit or loss.

Subsequently, financial liabilities are measured at amortised cost using the effective interest method except for derivatives and financial liabilities designated at FVPL, which are carried subsequently at fair value with gains or losses recognised in profit or loss.

All interest-related charges and, if applicable, gains and losses arising on changes in fair value are recognised in profit or loss.

#### Impairment

The Group assesses on a forward-looking basis the expected credit losses associated with its debt instruments carried at amortised cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables, the Group applies the simplified approach permitted by AASB 9 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

#### (I) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted.

#### (m) Employee benefits

#### (i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits and annual leave expected to be settled within 12 months of the reporting date are recognised in respect of employee's services up to the end of the reporting period and are measured at the amounts expected to be paid when liabilities are settled. The liability for annual leave is recognised in the provision for employee benefits. All other short-term employee benefit obligations are presented as other payables.

#### (ii) Other long-term employee benefit obligations

The liability for long service leave and annual leave, which is not expected to be settled within 12 months after the end of the period in which the employees render the related service, is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting date, regardless of when the actual settlement is expected to occur.

#### (iii) Share-based payments

The company provides benefits to employees (including directors) of the group in the form of share-based payment transactions, whereby employees render services in exchange for shares or rights over shares ('equity-settled transactions'). There is currently an Employee Incentive Scheme (IOS), which provides benefits to directors and senior executives. The cost of these equitysettled transactions with employees is measured by reference to the fair value at the date at which they are granted. The fair value is determined using a Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option.

In valuing equity-settled transactions, no account is taken of any performance conditions, other than conditions linked to the price of shares of Codrus Minerals Limited ('market conditions'). The number of shares expected to vest is estimated based on the non-market vesting conditions and the probability the option will be exercised.

#### (n) Contributed equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares for the acquisition of a business are not included in the cost of the acquisition as part of the purchase consideration.

#### (o) Earnings per share

#### (i) Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to equity holders of the company excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial period, adjusted for bonus elements in ordinary shares issued during the period.

#### (ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after tax effect of interest and other financing costs associated with the dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

#### (p) Goods and services tax ('GST')

Goods and Services Tax ('GST') and other similar taxes

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the tax authority. In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the tax authority.

#### (q) New accounting standards and interpretations adopted by the Group

#### Changes in Accounting Policies

The Group (or the Company) has considered the implications of all the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ("AASB") that are mandatory for the current reporting period. The adoption of these standards do not have material effect on the amount disclosed in the financial statements for the current period, and are not expected to significantly impact future periods.

## Initial adoption of AASB 2018-6: Amendments to Australian Accounting Standards – Definition of a Business

AASB 2018-6 amends and narrows the definition of a business specified in AASB 3: Business Combinations, simplifying the determination of whether a transaction should be accounted for as a business combination or an asset acquisition. Entities may also perform a calculation and elect to treat certain acquisitions as acquisitions of assets.

### 1. Summary of Significant Accounting Policies (continued)

(q) New accounting standards and interpretations adopted by the Group (continued)

# Initial adoption of AASB 2018-7: Amendments to Australian Accounting Standards – Definition of Material

This amendment principally amends AASB 101 and AASB 108 by refining the definition of material by improving the wording and aligning the definition across the standards issued by the AASB.

# Initial adoption of AASB 2019-3: Amendments to Australian Accounting Standards – Interest Rate Benchmark

This amendment amends specific hedge accounting requirements to provide relief from the potential effects of the uncertainty caused by interest rate benchmark reform.

# Initial adoption of AASB 2019-1: Amendments to Australian Accounting Standards – References to the Conceptual Framework

This amendment amends Australian Accounting Standards, Interpretations and other pronouncements to reflect the issuance of Conceptual Framework for Financial Reporting by the AASB.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted

#### 2. Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the entity and that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates and judgements may differ from the related actual results and may have a significant effect on the carrying amount of assets and liabilities within the next financial year and on the amounts recognised in the financial statements. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

#### (i) Coronavirus (COVID-19) pandemic

Judgement has been exercised in considering the impacts that the Coronavirus (COVID-19) pandemic has had, or may have, on the Group based on known information. Other than as addressed Events Subsequent to Reporting Date note, there does not currently appear to be either any significant impact upon the financial statements or any significant uncertainties with respect to events or conditions which may impact the Group unfavourably as at the reporting date or subsequently as a result of the Coronavirus (COVID-19) pandemic.

#### (ii) Share based payment transactions

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by an internal valuation using a Black-Scholes option pricing model, using the assumption detailed in Note 22.

The group's exploration properties may be subjected to claim(s) under native title, or contain sacred sites, or sites of significance to Aboriginal people for Australian Assets and First Nations People for its Canadian Assets. As a result, exploration properties or areas within the tenements may be subject to exploration restrictions, mining restrictions and/or claims for compensation. At this time, it is not possible to quantify whether such claims exist, or the quantum of such claims.

## Acquisition of Exploration Assets – 30 June 2021

The minerals rights acquired expensed represents the exploration tenements acquired from Blackstone Minerals Limited (ASX: BSX) as part of the spin-out of Codrus Minerals Limited. The acquisition costs consist of 35,000,000 shares issued to Blackstone Minerals Limited for an issue price of \$0.20 per share for a total value of \$7,000,000, which were expensed in accordance with the Company's accounting policy denoted under Note 1(j).

The Group has exposure to the following risks:

- Market risk
- Liquidity risk

#### Market risk (a)

Market risk is the risk that changes in market prices, such as commodity prices will affect the Group's potential income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising return. There were no changes in the Group's market risk management policies from previous years.

#### 15. Financial Instruments, Risk Management Objectives and Policies (continued)

#### (b) Group sensitivity analysis

The entity's main interest rate risk arises from cash and cash equivalents with variable and fixed interest rates. At 30 June 2021, the group had \$7,440,779 of cash and cash equivalents and any exposure to changes in interest rate risk is unlikely considered to be material.

#### (c) Liquidity risk

The Group manages liquidity risk by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. Due to the dynamic nature of the underlying businesses, the Group aims at ensuring flexibility in its liquidity profile by maintaining the ability to undertake capital raisings. Funds in excess of short term operational cash requirements are generally only invested in short term bank bills.

The following tables detail the Group's contractual maturity for its financial liabilities:

	Carrying Amount	Contractual Cash Flows	Less than 1 year	2-5 years	>5 years
For the year ending 30 June 2021					
Trade and other Payables	271,950	271,950	271,950	-	-

	<b>18.</b> (a)	<b>Commitments and Contingencies</b> Exploration commitments Not longer than one year Longer than one year, but not longer than five years Longer than five years	347,974 836,784	325,431 1,685,811
		Longer main five years	1,184,758	2,011,242

In order to maintain rights of tenure to mining tenements subject to these agreements, the group would have the above discretionary exploration expenditure requirements up until expiry of leases. These obligations, which are subject to renegotiation upon expiry of the leases, are not provided for in the financial statements and are payable per the above maturities. If the company decides to relinquish certain leases and/or does not meet these obligations, assets recognised in the statement of financial position may require review to determine the appropriateness of carrying values. The sale, transfer or farm-out of exploration rights to third parties will reduce or extinguish these obligations.

(b) Contingencies

On 29<sup>th</sup> of January 2019, the company entered into an agreement to acquire tenements in Oregon, United States known as the Record Mine, for an option fee of US\$20,000 payable on agreement, with an option fee payable annually on 1 February each year for four years for US\$25,000 per year (included in exploration commitments per 18 (a)). After the fourth year the purchase price is contingent upon the option being exercised for a total payment of US\$1 million dollars.

Owners shall retain Net Smelter Royalty (NSR) equal to 1.5% and shall be payable to the current owner of the Record mine in Oregon USA.

There are no further commitments or contingent liabilities.

#### 19. **Events Occurring After Balance Date**

On 23 July 2021, the Company announced the issue of 2,600,000 Performance Rights under the Company's Employee Securities Incentive Plan to employees. In addition, the Company agreed to Issue 4,500,000 options to consultants, subject to shareholder approval.

Apart from the above, no other matter or circumstance has arisen since 30 June 2021 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

#### 20. Segment Information

(a) Description of segments

Management has determined the operating segments based on the reports reviewed by the chief operating decision maker that are used to make strategic decisions. For the purposes of segment reporting the chief operating decision maker has been determined as the board of directors. The board monitors the entity primarily from a geographical perspective, and has identified three operating segments, being exploration for mineral reserves Australia, the United States and the corporate/head office function.

## 20. Segment Information (continued)

- (b) Segment information provided to the board of directors
  - The segment information provided to the board of directors for the reportable segments for the year ended 30 June 2021 is as follows:

	Australia \$	United States \$	Corporate \$	Total \$
For the year ending 30 June 2021				
Exploration expenditure written off Minerals Rights Acquired Debt Forgiven	(345,571) (7,000,000) 2,068,413	(47,292) - 47,605	-	(392,863) (7,000,000) 2,116,018
Total segment (loss) before income tax	(5,277,158)	-	(1,162,389)	(6,439,547)

Total segment liabilities 2021	-	-	(278,027)	(278,027)
For the year ending 30 June 2020				
Exploration expenditure written off	(392,405)	(120,841)	-	(513,246)
Total segment (loss) before income tax	(392,405)	(120,841)	(20,000)	(533,246)
Total segment assets 2020		-	-	-
Total segment liabilities 2020	(1,572,382)	(145,714)	(20,000)	(1,738,096)

## (c) Measurement of segment information

All information presented in part (b) above is measured in a manner consistent with that in the financial statements.

#### (d) Segment revenue

No inter-segment sales occurred during the current period. The entity is domiciled in Australia. No revenue was derived from external customers in countries other than the country of domicile. There were no revenues derived from Australian financial institutions during the year.

#### (e) Reconciliation of segment information

Total segment revenue, total segment profit/(loss) before income tax, total segment assets and total segment liabilities as presented in part (b) above, equal total entity revenue, total entity profit/(loss) before income tax, total entity assets and total entity liabilities respectively, as reported within the financial statements.

## 21. Related Party Transactions

#### (a) Parent entity

Codrus Minerals Limited is the parent entity.

#### (b) Subsidiaries

Interests in subsidiaries are set out in note 23.

## 21. Related Party Transactions (continued)

### (c) Key management personnel compensation

	Consolidated	
	2021	2020
	\$	\$
Key Management Personnel Compensation		
Short-term employee benefits	84,696	-
Post-employment benefits	6,350	-
Share-based payments	571,082	-
Total key management personnel compensation	662,128	-

#### (d) Transactions with other related parties

The following transactions occurred with related parties:

		Consolidated 2021 \$	2020 \$
(i)	Recharges to KMP related entities Recharge of rent and shared office costs Loan forgiveness by Blackstone Minerals Limited	2,116,018	-
(ii)	Purchases from KMP related entities Rent of office building and shared office costs Recharges from Blackstone Minerals Limited	160,359	-

Details of remuneration disclosures are included in the Remuneration Report on pages 12 to 18.

#### (e) Terms and conditions of related party transactions

Transactions between related parties are on commercial terms and conditions, no more favourable than those available to other parties unless otherwise stated.

#### 22. Share Based Payments

(a) Fair value of listed options granted

There are no listed options on issue.

#### (b) Fair value of unlisted options granted to Directors

During the year, the Company issued 6,000,000 unlisted options to Directors vesting on the date of issue. The weighted average fair value of the 6,000,000 options granted in the current period was 8.9016 cents per option. The fair value of \$534,096 was recognised during the year.

The price was calculated by using the Black-Scholes Option Pricing Model applying the following inputs.

- Weighted average exercise price of \$0.30;
- Weighted average life of the option (years) of 3;
- Weighted average underlying share price of \$0.20;
- Expected share price volatility of 85%;
- Weighted average risk-free interest rate of 0.20%.

## 22. Share Based Payments (continued)

### (b) Fair value of unlisted options granted to Directors (continued)

Volatility is calculated based on historical share price history of the company and used as the basis for determining expected share price volatility as it assumed that this is indicative of future tender, which may not eventuate. The life of the options is agreed upon by the Board to ensure long term goal congruence between Directors, Management and Shareholders.

#### (c) Fair value of performance options granted to Corporate Advisors

During the year, the Company issued 6,000,000 unlisted options to Corporate Advisors with an exercise price of \$0.30 expiring 17 June 2023. The value of the options recognised was \$412,019.

The price was calculated by using the Black-Scholes Option Pricing Model applying the following inputs.

- Weighted average exercise price of \$0.30;
- Weighted average life of the option (years) of 2;
- Weighted average underlying share price of \$0.20;
- Expected share price volatility of 85%;
- Weighted average risk-free interest rate of 0.075%.
- (d) **Fair value of performance rights granted to the Managing Director** During the year, the Company issued 5,000,000 performance rights to the Managing Director subject to various performance conditions (Refer to Note 13 (b)). The value of the rights recognised in the current year was \$36,986.

30 June 2021 م	30 June 2020 ¢

#### In the Directors' opinion

- (a) the financial statements and notes set out on pages 23 to 49 are in accordance with the *Corporations Act 2001*, including:
  - (i) complying with Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
  - (ii) giving a true and fair view of the Group's financial position as at 30 June 2021 and of its performance for the period ended on that date; and
- (b) there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable; and
- (c) the audited remuneration disclosures set out on pages 12 to 18 of the directors' report comply with section 300A of the *Corporations Act 2001*; and
- (d) the financial statements and notes thereto are in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board.

The directors have been given the declarations by the chief executive officer and chief financial officer required by section 295A of the *Corporations Act 2001*.

This declaration is made in accordance with a resolution of the Board of Directors.

Shannan Bamforth Managing Director

#### INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF CODRUS MINERALS LIMITED

#### Report on the Audit of the Financial Report

#### Opinion

We have audited the financial report of Codrus Minerals Limited ("the Company") and its subsidiaries ("Group"), which comprises the consolidated statement of financial position as at 30 June 2021, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (i) giving a true and fair view of the Group's financial position as at 30 June 2021 and of its financial performance for the year then ended; and
- (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

#### **Basis for Opinion**

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (the Code)* that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Key Audit Matters**

We have defined the following matter to be the key audit matter to be communicated in our report.

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. This matter was addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

#### Key Audit Matter

#### Share based payments (refer to Note 1(m)(iii) and Note 22 of the financial statements)

As referred to in Note 22 to the consolidated financial statements, the Company awarded 12,000,000 share options to directors and to consultants. In addition, the Company also granted 5,000,000 performance rights to the Managing Director.

The awards vest subject to the achievement of certain vesting conditions. The Company valued the share options using the Black-Scholes methodology while the performance rights were valued based on the share price at grant date and estimated likelihood of performance conditions being achieved over the vesting period for each tranche of awards. The share options vested during the year but are in escrow until future periods.

The Company has performed calculations to record the related share-based payment expense of \$983,101 in the consolidated statement of profit or loss and other comprehensive income.

Due to the complex nature of the transaction and estimates used in determining the valuation of the share-based payment arrangement and vesting expense, we consider the Company's calculation of the share based payment expense to be a key audit matter.

In determining the fair value of the awards and related expense, the Company used assumptions in respect of future market and economic conditions as well as estimates of achievement of certain exploration targets. Inter alia, our audit procedures included the following:

How the matter was addressed in the audit

- i. Verifying the inputs and examining the assumptions used in the Company's valuation of share options and performance rights, being the share price of the underlying equity, time to maturity (expected life), volatility, and grant date;
- ii. Challenging management's assumptions in relation to the likelihood of achieving the performance conditions;
- iii. Assessing the fair value of the calculation through re-performance using appropriate inputs; and
- iv. Assessing the accuracy of the share-based payments expense and the adequacy of disclosures made by the Company in the financial report.

#### **Other Information**

The directors are responsible for the other information. The other information comprises the information included in the Company's annual report for the year ended 30 June 2021 but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### **Responsibilities of the Directors for the Financial Report**

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

#### Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report.

The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial report.

We conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

We evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in Internal control that we identify during our audit.

The Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements. We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Report on the Remuneration Report**

#### **Opinion on the Remuneration Report**

We have audited the Remuneration Report included in pages 12 to 18 of the directors' report for the year ended 30 June 2021.

In our opinion, the Remuneration Report of Codrus Minerals Limited for the year ended 30 June 2021 complies with section 300A of the *Corporations Act 2001*.

#### Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
