MAYUR RESOURCES LTD AND ITS SUBSIDIARIES DIRECTORS' STATEMENT

The directors present their statement to the members together with the audited consolidated financial statements of Mayur Resources Ltd (the 'Company'), and its subsidiaries (collectively the 'Group') and the balance sheet and statement of changes in equity of the Company for the financial year ended 30 June 2021.

Opinion of the directors

In the opinion of the directors,

- (i) the consolidated financial statements of the Group and the balance sheet and statement of changes in equity of the Company as set out on pages 11 to 54 are drawn up in accordance with the provisions of the Singapore Companies Act, Chapter 50 (the "Act") and Singapore Financial Reporting Standards International ("SFRS(I)") so as to give a true and fair view of the consolidated financial position of the Group and the financial position of the Company as at 30 June 2021 and of the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group and of the changes in equity of the Company for the financial year ended on that date; and
- (ii) at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

Directors

The directors of the Company in office at the date of this statement are:

Paul Levi Mulder
Timothy Elgon Saville Crossley
Hubert Hanjausa Namani
Wee Choo Peng (appointed on 4 October 2020)
Chris Indermaur (appointed on 15 September 2021)
Charles Fear (appointed on 15 September 2021)

The following persons served as directors during the financial year but are not serving as directors as at the date of this statement:

Mr Frank Terranova (resigned on 15 September 2021)
Mr Robert Charles Neale (resigned on 1 May 2021)
Mr Lu Kee Hong (resigned on 4 October 2020)

In accordance with Article 91 of the Company's Articles of Association, Messrs Charles Fear and Chris Indermaur retire and, being eligible, offer themselves for re-election.

Arrangements to enable directors to acquire shares and debentures

Except as described below, neither at the end of, nor at any time during the financial year was the Company a party to any arrangement whose objects are, or one of whose objects is, to enable the directors of the Company to acquire benefits by means of the acquisition of shares in or debentures of the Company or any other body corporate.

The Company has established a shared-based Employee Incentive Plan (EIP) to assist in the motivation, retention and reward of contractors and employees. The EIP is designed to align the interests of executives and senior management with the interests of shareholders by providing an opportunity for the participants to receive an equity interest in the Company.

The EIP permits the grant of the following types of awards:

- performance rights.
 - options; and
 - loan funded shares.
- (collectively referred to as "awards")

During the year ended 30 June 2021, the Company issued the following awards under the EIP:

	<i>Number issued</i>	<i>Exercise Price</i>
Vested performance rights awarded to employees as salary (Salary Sacrifice Rights) (i)	3,391,603	Nil
Long term incentive rights (ii)	15,500,000	Nil
Loan funded shares (iii)	3,500,000	Nil

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
DIRECTORS' STATEMENT

(i) Salary sacrifice rights

Performance rights are granted to non-executive directors, employees, and contractors to receive shares in respect of a portion of their agreed remuneration. Each performance right will entitle the holder to receive one share. The performance rights vest annually over four equal instalments and can be exercised for no consideration at any time after being granted but prior to the expiry date of the rights.

The number of performance rights to be issued at each grant date is determined by dividing the salary amount to be paid in the form of performance share rights divided by the prevailing share price.

The following directors, who held office at the end of the financial year, had, according to the register of directors' shareholdings required to be kept under section 164 of the Act, an interest in salary sacrifice rights of the Company as stated below:

Name of directors	Salary sacrifice rights registered in the name of directors	
	At 1.7.2020	At 30.6.2021
Paul Levi Mulder	1,088,752	674,885
Timothy Elgon Saville Crossley	1,026,535	833,682
Frank Terranova (resigned on 15 September 2021)	Nil	49,760

(ii) Long term incentive rights

Performance rights are also offered as part of a Long-Term Incentive Plan to employees, executive and non- executive directors, contractors, and consultants, to acquire shares in the Company. The rights will vest subject to the relevant performance measures being met and the participant remaining employed.

The performance rights have a \$nil exercise price and an expiry date of 5 years from the grant date and are subject to vesting conditions.

Should any of the Vesting Conditions not be met, the Awards related to that specific Tranche will lapse and be forfeited.

Further details regarding the performance rights issued during the year are provided in Note 17 to the financial statements.

The following directors, who held office at the end of the financial year, had, according to the register of directors' shareholdings required to be kept under section 164 of the Act, an interest in long term incentive sacrifice rights of the Company as stated below.

Name of directors	Long term incentive rights registered in the name of directors	
	At 1.7.2020	At 30.6.2021
Paul Levi Mulder	3,000,000	4,500,000
Timothy Elgon Saville Crossley	1,925,000	4,200,000

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
DIRECTORS' STATEMENT

Arrangements to enable directors to acquire shares and debentures (continued)

(iii) Loan funded shares

The Company issued loan funded shares to eligible employees (including employees, executives, and contractors) selected by the Board.

Pursuant to the terms of the Employee Incentive Plan, employees are granted an interest-free limited recourse loan to assist in the purchase of Shares, with the Shares acquired at their market value. The loan is limited recourse so that at any time the employee may divest their Shares in full satisfaction of the loan balance.

The following directors, who held office at the end of the financial year, had, according to the register of directors' shareholdings required to be kept under section 164 of the Act, an interest in loan funded shares of the Company as stated below:

Name of directors	Loan funded shares registered in the name of directors	
	At 1.7.2020	At 30.6.2021
Timothy Elgon Saville Crossley	1,925,000	1,925,000
Frank Terranova (resigned on 15 September 2021)	1,125,000	1,125,000

Directors' interests in shares, options and debentures

The following directors, who held office at the end of the financial year, had, according to the register of directors' shareholdings required to be kept under section 164 of the Act, an interest in shares of the Company as stated below:

Name of directors	Shareholdings registered in the name of directors		Number of ordinary shares Shareholdings in which a director is deemed to have an interest	
	At 1.7.2020	At 30.6.2021	At 1.7.2020	At 30.6.2021
Paul Levi Mulder	304,834	7,393,586	58,885,714	50,000,000
Timothy Elgon Saville Crossley	1,930,000	5,331,879	1,705,968	1,255,625
Frank Terranova (resigned on 15 September 2021)	1,125,000	1,125,000	–	1,125,000

The following directors, who held office at the end of the financial year, had, according to the register of directors' shareholdings required to be kept under section 164 of the Act, an interest in options of the Company as stated below:

Name of directors	Options registered in the name of directors		Options in which a director is deemed to have an interest	
	At 1.7.2020	At 30.6.2021	At 1.7.2020	At 30.6.2021
Paul Levi Mulder	3,000,000	–	–	–

Except as disclosed in the above tables, there was no change in any of the above-mentioned interests in the Company between the end of the financial year and the date of this statement.

Except as disclosed in this report, no director who held office at the end of the financial year had an interest in shares, share options, warrants or debentures of the Company, or of related corporations, either at the beginning of the financial year, or date of appointment if later, or at the end of the financial year.

**MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
DIRECTORS' STATEMENT**

Audit, Risk and Compliance Committee

The Audit, Risk and Compliance Committee (ARCC) carried out its functions in accordance with section 201B (5) of the Singapore Companies Act, Chapter 50, including the following:

- Reviewed the audit plans of the external auditors of the Group and the Company, and the assistance given by the Group and the Company's management to the external auditors.
- Reviewed the half-yearly and annual financial statements and the auditor's report on the annual financial statements of the Group and the Company before their submission to the board of directors.
- Reviewed effectiveness of the Group and the Company's material internal controls, including financial, operational and compliance controls.
- Met with the external auditor, other committees, and management in separate executive sessions to discuss any matters that these groups believe should be discussed privately with the ARCC.
- Reviewed legal and regulatory matters that may have a material impact on the financial statements, related compliance policies and programmes and any reports received from regulators.
- Reviewed the cost effectiveness and the independence and objectivity of the external auditor.
- Reviewed the nature and extent of non-audit services provided by the external auditor.
- Recommended to the board of directors the external auditor to be nominated, approved the compensation of the external auditor, and reviewed the scope and results of the audit.
- Reported actions and minutes of the ARCC to the board of directors with such recommendations as the ARCC considered appropriate.

The ARCC, having reviewed all non-audit services provided by the external auditor to the Group, is satisfied that the nature and extent of such services would not affect the independence of the external auditor.

The ARCC convened two meetings during the year with full attendance from all members. The ARCC has also met with the external auditors, without the presence of the Company's management, at least once a year.

Independent auditor

The independent auditor, Baker Tilly TFW LLP, has expressed its willingness to accept re-appointment.

On behalf of the Board of Directors

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF MAYUR RESOURCES LTD

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Mayur Resources Ltd (the "Company") and its subsidiaries (the "Group") as set out on pages 11 to 54, which comprise the balance sheets of the Group and of the Company as at 30 June 2021 and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity, consolidated statement of cash flows of the Group and the statement of changes in equity of the Company for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements of the Group and the balance sheet and statement of changes in equity of the Company are properly drawn up in accordance with the provisions of the Companies Act, Chapter 50 (the "Act") and Singapore Financial Reporting Standards (International) ("SFRS(I)") so as to give a true and fair view of the consolidated financial position of the Group and the financial position of the Company as at 30 June 2021 and of the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group and of the changes in equity of the Company for the financial year ended on that date.

Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Group in accordance with the Accounting and Corporate Regulatory Authority (ACRA) *Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities* (ACRA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 3 to the financial statements. As at 30 June 2021, the Group incurred a loss from continuing operations for the year of A\$10,838,325, net cash outflows from operating activities and investing activities of A\$1,937,422 and A\$4,016,901, respectively. These factors indicate the existence of a material uncertainty which may cast significant doubt about the Group's ability to continue as a going concern.

If the Group is unable to continue in operational existence for the foreseeable future, the Group may be unable to discharge its liabilities in the normal course of business and adjustments may have to be made to reflect the situation that assets may need to be realised other than in the normal course of business and at amounts which could differ significantly from the amounts at which they are currently recorded in the balance sheet. In addition, the Group may have to provide for further liabilities that may arise and to reclassify non-current assets as current assets. No such adjustments have been made to these financial statements. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current financial year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Material Uncertainty Related to Going Concern section, we have determined the matters described below to be key audit matters to be communicated in our report.

Baker Tilly TFW LLP (trading as Baker Tilly) is a member of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities.

Baker Tilly TFW LLP (Registration No.T10LL1485G) is an accounting limited liability partnership registered in Singapore under the Limited Liability Partnerships Act (Chapter 163A).

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF MAYUR RESOURCES LTD (continued)

Report on the Audit of the Financial Statements (continued)

Key Audit Matters (continued)

Impairment of exploration and evaluation expenditure

Refer to Notes 2(q), 3 and 10 to the financial statements

The Group is involved in exploration and evaluation activities with a focus on Industrial Minerals and Coal. The Group has exploration licenses and prospective projects in Papua New Guinea.

Exploration and evaluation expenditure totaling A\$28,186,048 as disclosed in Notes 3 and 10 represent a significant balance recorded in the consolidated balance sheet.

SFRS(I) 6 Exploration for and Evaluation of Mineral Resources requires the exploration and evaluation assets to be assessed for impairment when facts and circumstances suggest that the carrying amount may exceed its recoverable amount.

As described in Note 3 to the financial statements, management performed assessment of potential indicators of impairment at 30 June 2021 in accordance with the accounting policy disclosed in Note 2(q) which required management to make certain estimates and assumptions as to future events and circumstances.

Our procedures included, amongst others:

- Evaluated the Group's accounting policy to ensure the policy complies with the requirements of *SFRS(I) 6 Exploration for and Evaluation of Mineral Resources*;
- Obtained an understanding of the status of ongoing exploration programmes and future intentions for the areas of interest, including future budgeted spend and related work programmes;
- Enquired of management and reviewed ASX announcements and minutes of directors' meetings to ensure the Group had not decided to discontinue exploration and evaluation at its areas of interest;
- Considered management's assessment of potential indicators of impairment;
- Verified a sample of additions to the Group's exploration and evaluation assets for the financial year ended 30 June 2021 to support evidence of activities carried out; and
- Verified that each exploration licence remains valid in respect of each tenement through the review of official government documentation.

We also assessed adequacy of the related disclosures made in the financial statements.

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF
MAYUR RESOURCES LTD (continued)**

Report on the Audit of the Financial Statements (continued)

Key Audit Matters (continued)

Cost of investment and impairment in an associate

Refer to Notes 2(f), (o), 3 and 12 to the financial statements

The Company acquired a 42.75% ownership interest in Adyton Resources Corporation with consideration of A\$12,621,902 as consideration for the Company's disposal of its 100% ownership interest in MR Exploration PNG Pte Ltd and Mayur Exploration PNG Limited. The shares in Adyton Resources Corporation that were received by the Company are subject to resale restrictions.

As at 30 June 2021, the carrying amount of the Group's and Company's investment in an associate, Adyton Resources Corporation was A\$11,381,878 and A\$12,621,902 respectively. The fair value of the Group's interest in Adyton Resources Corporation on 30 June 2021 was A\$5.17 million based on the quoted market price available on the TSX Venture Exchange.

As described in Note 3 to the financial statements, management assessed the recoverable amount of investment in associate based on fair value less cost of disposal of the investment in associate. The determination of fair value less cost of disposal is based on the commonly used valuation metrics for junior mineral exploration companies such as economic value per resource ounce applied to the publicly reported mineral resources of the associate. A small change in the assumptions could affect the recoverable amount of investment in associate.

Our procedures included, amongst others:

- Evaluated management's basis in determining the cost of investment in Adyton Resources Corporation, including the adjustments made to reflect the resale restrictions.
- Reviewed management's assessment of indicators of impairment for its investment in associate.
- Reviewed the method, assumptions and data used by management in the valuation.
- Assessed the sensitivity of the key assumptions on the impairment assessment based on reasonably possible changes in the key assumptions.

We also assessed adequacy of the related disclosures made in the financial statements

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF
MAYUR RESOURCES LTD (continued)**

Report on the Audit of the Financial Statements (continued)

Other Information

Management is responsible for the other information. The other information comprises the Directors' Statement as set out on pages 1 to 4, which we obtained prior to the date of this auditor's report but does not include the financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in that regard.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to the management and take appropriate actions in accordance with SSAs.

Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and SFRS(I), and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The director's responsibilities include overseeing the Group's financial reporting process.

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF
MAYUR RESOURCES LTD (continued)**

Report on the Audit of the Financial Statements (continued)

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision, and performance of the group audit. We remain solely responsible for our audit opinion.

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF
MAYUR RESOURCES LTD (continued)**

Report on the Audit of the Financial Statements (continued)

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiary corporations incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

The engagement partner on the audit resulting in this independent auditor's report is Chan Sek Wai.

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS
For the financial year ended 30 June 2021

1. Corporate information

Mayur Resources Ltd (the “Company”) (Co. Reg. No. 201114015W), is a limited liability company incorporated in Singapore. On 21 September 2017, the Company listed on the Australian Stock Exchange.

The registered office of the Company is located at 80 Robinson Road #02-00 Singapore 068898. The principal place of business is Level 7, 300 Adelaide Street, Brisbane QLD, 4000, Australia.

The principal activity of the Company is investment holding. The Group is involved in exploration and evaluation activities with a focus on Industrial Minerals and Iron. The Group has exploration licenses and prospective projects in Papua New Guinea. The principal activities of the subsidiaries and associate are disclosed in Notes 11 and 12 to the financial statements respectively.

The Company’s shares are listed on the Australian Stock Exchange under the ticker code MRL.

2. Summary of significant accounting policies

a) Basis of preparation

The financial statements are expressed in Australian dollar (“A\$”), which is the Company’s functional currency. The financial statements have been prepared in accordance with the historical cost basis, except as disclosed in the accounting policies below, and are drawn up in accordance with the provisions of the Singapore Companies Act, Chapter 50 (the “Act”) and Singapore Financial Reporting Standards (International) (“SFRS(I)”).

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the group considers the characteristics of the asset or liability which market participants would consider when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of SFRS(I) 2 Share-based Payment and measurements that have some similarities to fair value but are not fair value, such as value in use in SFRS(I) 1-36 Impairment of Assets. In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- (a) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- (b) Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- (c) Level 3 inputs are unobservable inputs for the asset or liability.

The preparation of financial statements in conformity with SFRS(I) requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the financial year. Although these estimates are based on management’s best knowledge of current events and actions and historical experiences and various other factors that are believed to be reasonable under the circumstances, actual results may ultimately differ from those estimates.

The Company’s separate financial statements have been prepared on the same basis, and as permitted by the Act, the Company’s separate statement of profit or loss and other comprehensive income is not presented.

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS
For the financial year ended 30 June 2021

2. Summary of significant accounting policies (continued)

a) Basis of preparation (continued)

Use of estimates and judgements

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. Critical accounting estimates and assumptions used that are significant to the financial statements, and areas involving a major degree of judgement or complexity, are disclosed in Note 3.

The carrying amounts of cash and cash equivalents, trade and other current receivables and payables approximate their respective fair values due to the relatively short-term maturity of these financial instruments.

b) New and revised standards

The accounting policies adopted are consistent with those of the previous financial year except that in the current financial year, the Group and the Company have adopted all the new and amended SFRS(I) and SFRS(I) Interpretations ("SFRS(I) INT") which are relevant to the Group and the Company and are effective for annual financial periods beginning on or after 1 July 2020. The adoption of these standards did not have any material effect on the financial performance or position of the Group and the Company.

New standards, amendments to standards and interpretations that have been issued at the balance sheet date but are not yet effective for the financial year ended 30 June 2021 have not been applied in preparing these financial statements. None of these are expected to have a significant effect on the financial statements of the Group and the Company.

c) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

In the Company's balance sheet, investments in subsidiaries are accounted for at cost less accumulated impairment losses. On disposal of the investments, the difference between disposal proceeds and the carrying amount of the investments are recognised in profit or loss.

d) Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at the balance sheet date. Subsidiaries are consolidated from the date on which the Group obtains control and continue to be consolidated until the date that such control ceases.

The financial statements of the subsidiaries are prepared for the same reporting date as the parent company. Consistent accounting policies are applied for like transactions and events in similar circumstances.

Intragroup balances and transactions, including income, expenses, and dividends, are eliminated in full. Profits and losses resulting from intragroup transactions that are recognised in assets, such as inventory and property, plant, and equipment, are eliminated in full.

Subsidiaries are consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

e) Basis of combination

Business combinations are accounted for using the acquisition method. The consideration transferred for the acquisition comprises the fair value of the assets transferred, the liabilities incurred, and the equity interests issued by the Group. The consideration transferred also includes the fair value of any contingent consideration arrangement and the fair value of any pre-existing equity interest in the subsidiary.

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS
For the financial year ended 30 June 2021

2. Summary of significant accounting policies (continued)

e) Basis of combination (continued)

Acquisition-related costs are recognised as expenses as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date.

Any excess of the fair value of the consideration transferred in the business combination, the amount of any non-controlling interest in the acquiree (if any) and the fair value of the Group's previously held equity interest in the acquiree (if any), over the fair value of the net identifiable assets acquired is recorded as goodwill. In instances where the latter amount exceeds the former, the excess is recognised as gain on bargain purchase in profit or loss on the date of acquisition.

Non-controlling interests are that part of the net results of operations and of net assets of a subsidiary attributable to the interests which are not owned directly or indirectly by the equity holders of the Company. They are shown separately in the consolidated statement of comprehensive income, statement of changes in equity and balance sheet. Total comprehensive income is attributed to the non-controlling interests based on their respective interests in a subsidiary, even if the subsidiary incurred losses and the losses allocated exceed the non-controlling interests in the subsidiary's equity.

For non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the acquiree's net assets in the event of liquidation, the Group elects on an acquisition-by-acquisition basis whether to measure them at fair value, or at the non-controlling interests' proportionate share of the acquiree's net identifiable assets, at the acquisition date. All other non-controlling interests are measured at acquisition-date fair value or, when applicable, on the basis specified in another standard.

In business combinations achieved in stages, previously held equity interests in the acquiree are remeasured to fair value at the acquisition date and any corresponding gain or loss is recognised in profit or loss.

Changes in the Company's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions (i.e., transactions with owners in their capacity as owners).

When a change in the Company's ownership interest in a subsidiary result in a loss of control over the subsidiary, the assets and liabilities of the subsidiary including any goodwill are derecognised. Amounts recognised in other comprehensive income in respect of that entity are also reclassified to profit or loss or transferred directly to retained earnings if required by a specific SFRS(I).

If the Group loses control over a subsidiary, it derecognises the related assets, liabilities, non-controlling interest, and other components of equity, while any resultant gain or loss is recognised in profit or loss. Any investment retained is recognised at fair value.

f) Investments in associates

An associate is an entity over which the Group has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The results and assets and liabilities of associates are incorporated in these financial statements using the equity method of accounting.

Under the equity method, the investment in an associate is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate since the acquisition date. Goodwill relating to the associate is included in the carrying amount of the investment and is not tested for impairment separately.

The statement of profit or loss reflects the Group's share of the results of operations of the associate. Any change in other comprehensive income of those investees is presented as part of the Group's other comprehensive income. In addition, when there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes, when applicable, in the statement of changes in equity.

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS
For the financial year ended 30 June 2021

2. Summary of significant accounting policies (continued)

f) Investments in associates (continued)

Unrealised gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

The financial statements of the associate are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value, and then recognises the loss within 'Share of profit of an associate' in the statement of profit or loss.

Upon loss of significant influence over the associate, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

In the Company's separate financial statements, investments in associates are carried at cost less accumulated impairment loss. On disposal of an investment in an associate, the difference between the disposal proceeds and the carrying amount of the investment is recognised in profit or loss.

g) Foreign currency

Functional and presentation currency

Items included in the financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The financial statements of the Group and the Company are presented in Australian dollar, which is the Company's functional currency.

Transactions and balances

Transactions in a currency other than the functional currency ("foreign currency") are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Currency translation gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss, except for currency translation differences on net investment in foreign operations and borrowings and other currency instruments qualifying as net investment hedges for foreign operations, which are included in the currency transaction reserve within equity in the consolidated financial statements.

Non-monetary items measured at fair values in foreign currencies are translated using the exchange rates at the date when the fair values are determined.

Translation of Group entities' financial statements

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the Group's presentation currency are translated into the presentation currency as follows:

- (a) Assets and liabilities are translated at the closing rates at the date of the balance sheet;
- (b) Income and expenses are translated at average exchange rates (unless the average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated using the exchange rates at the dates of the transactions); and
- (c) All resulting exchange differences are recognised in the currency translation reserve within equity.

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS
For the financial year ended 30 June 2021

2. Summary of significant accounting policies (continued)

g) Foreign currency (continued)

On consolidation, exchange differences arising from the translation of the net investment in foreign operations (including monetary items that, in substance, form part of the net investment in foreign entities), and of borrowings and other currency instruments designated as hedges of such investments, are taken to the foreign currency translation reserve.

On disposal of a foreign group entity, the cumulative amount of the currency translation reserve relating to that foreign entity is reclassified from equity and recognised in profit or loss when the gain or loss on disposal is recognised.

h) Revenue

Revenue is recognised when the Group satisfies a performance obligation by transferring a promised good or service to the customer, which is when the customer obtains control of the good or service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognised is the amount allocated to the satisfied performance obligation.

Interest income is recognised when it becomes receivable on a proportional basis taking into account the interest rates applicable to the financial assets.

i) Income tax

Income tax on the profit or loss for the year comprises current and deferred tax. Current and deferred tax are recognised in profit or loss except to the extent that they relate to items recognised outside profit or loss, either in other comprehensive income or directly in equity in which the tax is also recognised outside profit or loss (either in other comprehensive income or directly in equity respectively).

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided using the liability method, on all temporary differences at the end of the reporting period arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except where the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination, and at the time of the transaction, affects neither the accounting nor taxable profit or loss.

Deferred income tax is provided on temporary differences arising on investment in subsidiaries and associate except where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on currently enacted or substantively enacted tax rates at the balance sheet date.

j) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits, and short-term, highly liquid investments that are readily convertible to known amount of cash and which are subject to an insignificant risk of changes in value. These also include bank overdrafts, if any, that form an integral part of the Group's cash management.

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS
For the financial year ended 30 June 2021

2. Summary of significant accounting policies (continued)

k) Share capital and share issuance expenses

Proceeds from issuance of ordinary shares are recognised as share capital in equity. Incremental costs directly attributable to the issuance of ordinary shares are deducted against share capital.

l) Contingencies

A contingent liability is:

- a) a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group; or
- b) a present obligation that arises from past events but is not recognised because:
 - (i) It is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
 - (ii) The amount of the obligation cannot be measured with sufficient reliability.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group.

Contingent liabilities and assets are not recognised on the balance sheet of the Group, except for contingent liabilities assumed in a business combination that are present obligations and which the fair values can be reliably determined.

m) Financial assets

Recognition and derecognition

Regular purchases and sales of financial assets are recognised on trade-date - the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership.

Financial assets are initially measured at fair value. Transaction costs that are directly attributable to the acquisition of financial assets (other than financial assets at fair value through profit or loss) are added to the fair value of the financial assets on initial recognition. Transaction costs directly attributable to acquisition of financial assets at fair value through profit or loss are recognised immediately in profit or loss.

Classification and measurement

All financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets. The Group classifies its financial assets based on the Group's business model for managing the financial asset and the contractual cash flow characteristics of the financial assets. The Group's financial assets are classified at amortised cost which comprise other receivables and cash and cash equivalents.

Financial assets at amortised cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified, or impaired. Interest income from these financial assets is included in interest income using the EIR method.

Impairment

The Group recognises an allowance for expected credit losses ("ECLs") for financial assets carried at amortised cost. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate.

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS
For the financial year ended 30 June 2021

2. Summary of significant accounting policies (continued)

m) Financial assets (continued)

Impairment (continued)

The impairment methodology applied depends on whether there has been a significant increase in credit risk. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

The Group recognises an impairment gain or loss in profit or loss for all financial assets with a corresponding adjustment to their carrying amount through a loss allowance account.

Offsetting of financial assets and financial liabilities

Financial assets and liabilities are offset, and the net amount presented on the balance sheet when, and only when the Group has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

n) Financial liabilities

Financial liabilities include trade and other payables. Financial liabilities are recognised on the balance sheet when, and only when, the Group becomes a party to the contractual provisions of the financial instruments. Financial liabilities are initially recognised at fair value plus directly attributable transaction costs and subsequently measured at amortised cost, comprising original debt less principal payments and amortisation.

A financial liability is derecognised when the obligation under the liability is extinguished. Gains and losses are recognised in profit or loss when the liabilities are derecognised and through the amortisation process. Financial liabilities are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

o) Impairment of non-financial assets

At each reporting date, the Group and the Company review the carrying amounts of its non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group and the Company estimate the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the profit or loss.

p) Property, plant, and equipment

Property, plant, and equipment are stated at cost and subsequently carried at cost less accumulated depreciation and any impairment in value.

The cost of property, plant and equipment initially recognised includes its purchase price and any cost that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS
For the financial year ended 30 June 2021

2. Summary of significant accounting policies (continued)

p) Property, plant, and equipment (continued)

Subsequent expenditure relating to plant and equipment that has already been recognised is added to the carrying amount of the asset only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. Dismantlement, removal, or restoration costs are included as part of the cost of property, plant, and equipment if the obligation for dismantlement, removal or restoration is incurred as a consequence of acquiring or using the asset.

On disposal of a property, plant and equipment, the difference between the net disposal proceeds and its carrying amount is taken to the profit or loss.

The depreciable amount of all property, plant and equipment is depreciated over their estimated useful lives commencing from the time the asset is held ready for use. Useful lives of property, plant and equipment range from 3 to 5 years.

Fully depreciated assets are retained in the financial statements until they are no longer in use.

The residual values, estimated useful lives and depreciation method are reviewed, and adjusted as appropriate, at each balance sheet date. The effects of any revision are recognised in the profit or loss when the changes arise.

q) Exploration and evaluation expenditure

Exploration and evaluation costs, including the costs of acquiring licences, are capitalised as exploration and evaluation assets on an area of interest basis. Costs incurred before the Group has obtained legal rights to explore an area are expensed in the profit or loss.

Exploration and evaluation assets are only recognised if the rights to the area of interest are current and either:

- (i) the expenditures are expected to be recouped through successful development and exploitation of the area of interest or by its sale; or
- (ii) activities in the area of interest have not, at the reporting date, reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, and active and significant operations in, or in relation to, the area of interest are continuing.

Exploration and evaluation assets are assessed for impairment if sufficient data exists to determine technical feasibility and commercial viability and the facts and circumstances suggest that the carrying amount exceeds the recoverable amount. For the purposes of impairment testing, exploration and evaluation assets are allocated to cash-generating units to which the exploration activity relates. The cash-generating unit shall not be larger than the area of interest.

Once technical feasibility and commercial viability of the area of interest are demonstrable, exploration and evaluation assets attributable to that area are first tested for impairment and then reclassified from exploration and evaluation assets to property and development assets within property, plant, and equipment or intangible, as applicable.

r) Share based compensation

The economic entity makes equity-settled share-based payments to directors, employees and other parties for services provided for the acquisition of exploration assets. Where applicable, the fair value of the equity is measured at grant date and recognised as an expense over the vesting period, with a corresponding increase to an equity account. The fair value of shares is ascertained as the market bid price. The fair value of options is ascertained using the Black Scholes option valuation pricing model which incorporates all market vesting conditions. Where applicable, the number of shares and options expected to vest is reviewed and adjusted at each reporting date such that the amount recognised for services received as consideration for the equity instruments granted shall be based on the number of equity instruments that eventually vest.

Where the fair value of services rendered by other parties can be reliably determined, this is used to measure the equity-settled payment.

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS
For the financial year ended 30 June 2021

2. Summary of significant accounting policies (continued)

s) Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. Where the grant relates to an asset, the fair value is recognised as deferred capital grant on the balance sheet and is amortised to profit or loss over the expected useful life of the relevant asset by equal annual instalments. When the grant relates to an expense item, it is recognised in profit or loss over the period necessary to match them on a systematic basis to the costs that it is intended to compensate.

t) Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incurs expenses, including revenues and expenses that relate to transactions with other components of the Group. Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the directors.

u) Employee benefits

Employee leave entitlement

Employee entitlements to annual leave and long service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long-service leave as a result of services rendered by employees up to the balance sheet date.

Defined contribution plans

Defined contribution plans are post-employment benefit plans under which the Group pays fixed contributions into separate entities such as the Central Provident Fund and will have no legal or constructive obligation to pay further contributions once the contributions have been paid. Contributions to defined contribution plans are recognised as an expense in the period in which the related service is performed.

v) Provisions for other liabilities

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past event, and it is probable that an outflow of economic resources will be required to settle that obligation and the amount can be estimated reliably. Provisions are measured at management's best estimate of the expenditure required to settle the obligation at the balance sheet date. Where the effect of the time value of money is material, the amount of the provision shall be discounted to present value using a pre-tax discount rate that reflects the current market assessment of the time value of money and risks specific to the obligation.

When discounting is used, the increase in the provision due to passage of time is recognised as a finance cost in profit or loss.

3. Key sources of estimation uncertainty and critical accounting judgements

The key assumptions concerning the future and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Impairment of investment in associate

As at 30 June 2021, the carrying value of the Group's and the Company's investment in associate was A\$11,381,878 (2020: A\$ Nil) and A\$12,621,902 (2020: A\$ Nil) respectively. The investment in associate is assessed for impairment in accordance with the accounting policy described in Note 2(o).

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS
For the financial year ended 30 June 2021

3. Key sources of estimation uncertainty and critical accounting judgements (continued)

Impairment of investment in associate (continued)

As at 30 June 2021, the fair value of the Group's investment in the associate based on quoted market prices was A\$5.1 million. The Group has determined that no impairment of the investment in the associate is necessary as it is considered that the recoverable amount of the investment, determined using fair value less cost of disposal, exceeded the carrying value of the investment in the associate. In making its assessment of the recoverable amount of the investment, management considered commonly used valuation metrics for junior mineral exploration companies such as economic value per resource ounce applied to the publicly reported mineral resources of the associate as determined in accordance with Canadian National Instrument 43-101. The fair value measurement is categorised in Level 3 of the fair value hierarchy.

Sensitivity to changes in assumptions

With regards to the impairment assessment of investment of associate, a 24% decrease in economic value per resources ounce would result in an impairment loss.

Shared based payments

The Group measures the cost of equity-settled transactions by reference to the fair value of the equity instruments at the date at which they are granted. Fair value is calculated using the Black Scholes valuation model, considering the terms and conditions upon which the options were granted. The assumptions used in these valuation models are set out in Note 17(b).

Where the vesting of share-based payments contains performance based and market-based milestones, in estimating the number and fair value of the equity instruments issued, the Group assesses the probability of the milestones being met, and therefore the probability of the instruments vesting. Management applies judgement to arrive at the probabilities that are applied to these instruments. These estimates will be adjusted over time to reflect actual performance and management's best estimates of the conditions being met.

Calculation of loss allowance

When measuring the expected credit loss ("ECL"), the Group and Company use reasonable and supportable forward-looking information, which is based on assumptions and forecasts of future economic conditions with consideration on the impact of COVID-19 pandemic and how these conditions are expected to affect the Group's and the Company's ECL assessment. Loss given default is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from collateral and integral credit enhancements.

Probability of default constitutes a key input in measuring ECL. Probability of default is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical data, assumptions, and expectations of future conditions.

As the calculations of loss allowances on other receivables and receivables from related parties are subject to assumptions and forecasts, any changes to these estimations will affect the amounts of loss allowance recognised and the carrying amounts of receivables. Details of ECL measurement and carrying value of other receivables and receivables from subsidiaries at the end of the financial year are disclosed in Notes 14, 19 and 20 respectively.

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS
For the financial year ended 30 June 2021

3. Key sources of estimation uncertainty and critical accounting judgements (continued)

Calculation of cost of investment in associate and consideration on loss of control of subsidiary

Notes 11 and 12 describe transactions entered into by the Company pursuant to which the Group acquired a 42.75% ownership interest in Adyton Resources Corporation as consideration the Group's disposal of its 100% ownership interest in MR Exploration PNG Pte Ltd and Mayur Exploration PNG Limited. The shares in Adyton Resources Corporation that were received by the Company are subject to resale restrictions.

In estimating fair value of the Adyton Resources Corporation shares received as consideration the Company was required to adjust the fair value of the Adyton Resources Corporation shares to reflect the resale restrictions. The directors assessed that the appropriate methodology for making this adjustment was the use of an option pricing model that incorporates the duration of the restriction and the characteristics of the underlying shares. To achieve this a Black Scholes option pricing model was used which required determination of the most appropriate inputs to the valuation model including the expected duration of the restriction, volatility and dividend yield and making assumptions about them. The fair value measurement of consideration is classified in Level 3 of the fair value hierarchy.

Critical accounting judgements

In the process of applying the Group's accounting policies, management has made the following judgements that have the most significant effect on the amounts recognised in the financial statements (apart from those involving estimations which are described in the preceding paragraphs).

Going concern assumption

As at 30 June 2021 the Group had cash reserves of A\$4,535,828 (2020: A\$2,988,147), net current assets of A\$3,586,598 (2019: A\$2,426,806) and net assets of A\$46,306,829 (2020: A\$38,178,502). The Group incurred a loss from continuing operations for the year ended 30 June 2021 of A\$10,838,325 (2020 loss: A\$3,556,128), net cash outflows from operating activities of A\$1,937,422 (2020: A\$3,178,105 outflows) and net outflows from investing activities of A\$4,106,901 (2020: A\$4,542,753 outflows). These conditions give rise to material uncertainty which may cast significant doubt over the Group's ability to continue as a going concern.

The ability of the Group to continue as a going concern is principally dependent upon the following:

- (a) the ability of the Company to raise additional funding in the future;
- (b) the successful implementation of the Group's disaggregation strategy; and
- (c) the successful exploration and subsequent exploitation of the Group's tenements.

These conditions give rise to material uncertainty which may cast significant doubt over the Group's ability to continue as a going concern.

Based on the success of previous capital raisings combined with the potential to attract farm-in partners for projects, the potential sale or disaggregation of the current portfolio of exploration assets held and the ability of the Group to reduce or defer uncommitted expenditure, the directors have prepared the financial statements on a going concern basis, which contemplates the continuity of normal business activities and the realisation of assets and discharge of liabilities in the ordinary course of business. The directors are confident of securing funds as and when necessary to meet the Group's obligations as and when they fall due.

If the Group is unable to continue in operational existence for the foreseeable future, the Group may be unable to discharge its liabilities in the normal course of business and adjustments may have to be made to reflect the situation that assets may need to be realised other than in the normal course of business and at amounts which could differ significantly from the amounts at which they are currently recorded in the balance sheet. In addition, the Group may have to provide for further liabilities that might arise and to reclassify non-current assets as current assets. No such adjustments have been made to these financial statements.

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS
For the financial year ended 30 June 2021

3. Key sources of estimation uncertainty and critical accounting judgements (continued)

Critical accounting judgements (continued)

Impairment of exploration and evaluation expenditure

At 30 June 2021, the carrying value of exploration and evaluation assets of the Group was A\$28,186,048 (2020: A\$33,260,840). Exploration and evaluation assets are assessed for impairment in accordance with the accounting policy disclosed in Note 2(q). The accounting policy requires management to make certain estimates and assumptions as to future events and circumstances. These estimates and assumptions may change as new information becomes available. If, after having capitalised expenditure under the accounting policy, a judgement is made that recovery of the expenditure is unlikely, the relevant capitalised amount will be expensed in the statement of profit or loss and other comprehensive income.

As at 30 June 2021, three of the Group's mineral exploration licences were under application for renewal. The Group believes it has complied with all licence conditions, including minimum expenditure requirements, and is not aware of any matters or circumstances that have arisen that would result in the Group's application for renewal of the exploration licences not being granted in the ordinary course of business. The Group has determined that no impairment of the capitalised exploration and evaluation expenditure relating to these exploration licences is necessary as it is considered that there is a reasonable basis to expect that the renewal applications will be granted and that the Group is otherwise proceeding with exploration and development activities on the exploration licences. Should any of the exploration licences not be renewed, the relevant capitalised amount as at 30 June 2021 will be expensed in the statement of profit or loss and other comprehensive income. Exploration and evaluation assets are set out in Note 10. During the year ended 30 June 2021 the Group impaired A\$7,018,469 (2020: A\$219,727) in relation to several mineral exploration tenements that were relinquished by the Group following a strategic review of the Group's portfolio of mineral exploration tenements. The licences were renewed subsequent to the end of the reporting period.

Impact of COVID-19

The outbreak of the COVID-19 pandemic in early 2020 and the subsequent travel and trade restrictions imposed by the governments of numerous countries including Australia and Papua New Guinea have caused disruption to businesses and economic activity. The Board and Management of the consolidated entity have considered the impact of the COVID-19 pandemic on the consolidated entity's operations and financial performance and have determined that the consolidated entity has not been materially impacted by the COVID-19 pandemic at this stage. Restrictions on international travel and disruptions to international supply chains have caused some delays in the consolidated entity's exploration and development programs but have not had a significant impact on the consolidated entity's operations or results to the date of these financial statements.

In preparing the consolidated financial report, management has considered the impact of COVID-19 on the various balances in the financial report, including the carrying values of trade receivables and finite life non-current assets. Management determined that there was no significant impact of COVID-19 on the abovementioned balances and accounting estimates.

Loss of control over MR Exploration PNG Pte Ltd and Mayur Exploration PNG Limited

Note 11 describes that on 18 February 2021 the Group was considered to have disposed of its 100% ownership interests in MR Exploration PNG Pte Ltd and Mayur Exploration PNG Limited which held the Group's portfolio of copper and gold mineral exploration tenements located in Papua New Guinea even though the Group obtained a 42.75% ownership interest in Adyton Resources Corporation as consideration for the disposal of its ownership interest in MR Exploration PNG Pte Ltd and Mayur Exploration PNG Limited. The remaining 57.25% of the ownership interests in Adyton Resources Corporation are held by shareholders that are unrelated to the Group.

The directors of the Company assessed whether the Group lost control over MR Exploration PNG Pte Ltd and Mayur Exploration PNG Limited as a result of the transaction with Adyton Resources Corporation. In making their judgement, the directors considered the Group's ownership interest in Adyton Resources Corporation and the representation of appointees of the Company's appointees on the Board of Directors of Adyton Resources Corporation. After assessment, the directors concluded that the Group does not have a sufficiently dominant voting interest to direct the relevant activities of Adyton Resources Corporation and therefore the Group lost control over MR Exploration PNG Pte Ltd and Mayur Exploration PNG Limited.

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS
For the financial year ended 30 June 2021

3. Key sources of estimation uncertainty and critical accounting judgements (continued)

Critical accounting judgements (continued)

Significant influence over Adyton Resources Corporation

Having concluded that the 42.75% ownership interest in Adyton Resources Corporation did not provide the Company with control over Adyton Resources Corporation, the directors of the Company assessed whether the Company has significant influence over Adyton Resources Corporation.

Note 12 describes that the directors assessed that the Company does have significant influence over Adyton Resources Corporation by virtue of its 42.75% ownership interest and has classified Adyton Resources Corporation as an associate and the Group has accounted for it for it using the equity method of accounting.

Deferred tax assets

No members of the Group have generated taxable income in the financial year and as such the Group continues to carry forward tax losses that give rise to deferred tax assets. Given that the Group's projects remain in early exploration stages, it is unlikely that the Group will generate taxable income in the foreseeable future in the absence of asset sales.

Taking account of the above, the deferred tax assets have not been recognised in the financial statements as management does not believe that the members of the Group satisfy the recognition criteria set out in SFRS(I) 1-12.

4. Revenue and other income – continuing operations

	Group	
	2021	2020
	A\$	A\$
Interest income - cash and cash equivalents	162	14,529
COVID-19 government grant	50,000	62,500
Recovery of finance charges	8,494	-
Foreign currency exchange gains, net	-	72,046
	58,656	149,075

The COVID-19 government grant received is a non-refundable grant received from the Australian government as part of its economic response to the COVID-19 pandemic. The Group did not receive any other COVID-19 related grants or financial support.

5. Auditor's remuneration – continuing operations

	Group	
	2021	2020
	A\$	A\$
Audit fees:		
- Auditor of the Company	50,000	46,300
- Other auditors*	90,447	114,471
	140,447	160,771

There are no non-audit fees paid to other auditors in the years ended 30 June 2021 and 30 June 2020.

* Includes independent member firms of the Baker Tilly International network.

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS
For the financial year ended 30 June 2021

6. Segment information

For management purposes, the Group is organised into the following business units:

- Industrial minerals which includes limestone and the Port Moresby Lime Project.
- Iron which includes construction sands, magnetite sand and heavy mineral sands. The focus of this business unit is the development of the Orokolo Bay Industrial Sands Project located along the southern coast of Papua New Guinea.
- Coal and power comprising the Depot Creek coal resource in the Gulf Project of Papua New Guinea and which is developing a proposal for vertically integrated domestic power projects in Papua New Guinea with an initial focus on the Lae region.
- Corporate which provides Group-level corporate services, investment and treasury functions.
- Copper and gold comprising the Group's interests in the Feni Island Project in the New Ireland Province of Papua New Guinea, the Basilaki / Sideia project in Milne Bay Province and the Sitipu Project in the Eastern Highlands province of Papua New Guinea. The Group disposed of the copper and gold business unit in 2021.

Except as indicated above, no operating segments have been aggregated to form the above reportable operating segments. Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on actual expenditure incurred, including capitalised expenditure which differs from operating profit or loss reported in the consolidated financial statements.

Accounting policies adopted

The Chief Operating Decision Maker assesses the performance of the operating segments based on a measure of gross expenditure that includes both expenditure that is capitalised in these financial statements and expenditure that is expensed in the statement of profit or loss and other comprehensive income in these financial statements. The measurement of gross expenditure does not include the impairment of exploration expenditure or non-cash items such as depreciation expense and share based payments expense. Interest and other items of revenue are allocated to the Corporate segment.

Acquisition of non-controlling interest in subsidiaries	-	3,089,148
Balance at end of financial year	12,243,898	13,859,295

c) Non-controlling interests

As at 30 June 2021 and 30 June 2020, there were no non-controlling interests in subsidiaries.

In 2019, MR Iron PNG Pte Ltd (MIPP) entered into an agreement with China Titanium Resources Holdings Limited (CTRH) pursuant to which CTRH could earn up to a 49% ownership interest in MR Iron PNG Pte Ltd by providing up to US\$25 million in funding for the Orokolo Bay industrial sands project. The agreement provides that CTRH will receive a 2% equity interest in MIPP for each US\$1 million in funding contributed by CTRH, provided that CTRH's total equity interest in MIPP is capped at 49%. As at 30 June 2021, CTRH had not acquired any equity interest in MIPP under the terms of the agreement.

d) Losing control over subsidiaries during the financial year and discontinued operations

On 18 February 2021 the Group disposed of its 100% ownership interests in MR Exploration PNG Pte Ltd and Mayur Exploration PNG Limited which held the Group's portfolio of copper and gold mineral exploration tenements located in Papua New Guinea.

Investment in associate	11,381,878	–	12,621,902
	11,381,878	–	12,621,902

On 18 February 2021, the Group acquired a 42.75% ownership interest in Adyton Resources Corporation as the consideration of the Group's disposal of its 100% ownership interest in MR Exploration PNG Pte Ltd and Mayur Exploration PNG Limited (refer Note 11(d)). Adyton Resources Corporation is incorporated in Canada with its principal place of business at Level 14, 167 Eagle Street Brisbane QLD Australia. The principal activity of Adyton Resources Corporation is mineral exploration for gold and copper in Papua New Guinea.

The Group accounts for its investment in Adyton Resources Corporation using the equity method as set out in the Group's accounting policies in note 2. The financial year end date of Adyton Resources Corporation is 31 December, and it presents its financial statements in Canadian dollars. For the purposes of applying the equity method of accounting, the financial statements of Adyton Resources Corporation for the six months ended 30 June 2021 have been used, and appropriate adjustments have been made to exclude the effects of transactions prior to 18 February 2021 being the date on which Adyton Resources Corporation became an associate of the Group. The fair value of the Group's interest in Adyton Resources Corporation on 30 June 2021 was A\$5.17 million based on the quoted market price available on the TSX Venture Exchange. The fair value measurement is classified with Level 1 of the fair value hierarchy.

The Group did not receive any dividends from Adyton Resources Corporation during the financial year.

Summarised financial information in respect of Adyton Resources Corporation is set out below. The summarised information below represents amounts in Adyton Resources Corporation's financial statements prepared in accordance with International Financial Reporting Standards ("IFRS"), modified for fair value adjustments on acquisition.

	2021

Amounts recognised in the current year in relation to share based payments issued in previous financial years		161,019
		1,065,987

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS
For the financial year ended 30 June 2021

17. Reserves (continued)

(ii) Salary sacrifice rights

Performance rights are granted to employees and contractors to receive shares in respect of a portion of their agreed remuneration. Each performance right will entitle the holder to receive one share. The performance rights vest annually over four equal instalments and can be exercised for no consideration at any time after vesting but prior to the expiry date of the rights.

The number of performance rights to be issued at each grant date is determined by dividing the salary amount to be paid in the form of performance share rights divided by the prevailing share price (rounded down to the nearest whole number). Any new employees/contractors or employees/contractors that have not worked on behalf of the Company for a minimum of 12 months shall be restricted in exercising their performance rights until such time they have worked for and/or on behalf of the Company for a year of 12 months.

During the financial year, 3,391,603 salary sacrifice rights were issued in respect of remuneration totalling A\$1,003,171 (2020: 2,823,768 salary sacrifice rights issued in respect of remuneration totalling A\$904,968).

(iii) Loan funded shares

During the year the Company granted loan funded shares to the value of A\$645,956 (2020: A\$Nil) to eligible employees selected by the Board. Pursuant to the terms of the Employee Incentive Plan, employees are granted an interest free limited recourse loan to assist in the purchase of Shares, with the Shares acquired at their market value. The loan will be limited recourse so that at any time the employee may divest their Shares in full satisfaction of the loan balance. In accordance with the requirements of applicable SFRS(I) the loan funded shares are to be accounted for as an option granted to the employee with an exercise price equal to the market price of the Company's shares at the grant date. Consequently, the loan funded shares have been valued using an option pricing model using the following inputs:

Grant date	27/01/2021	27/05/2021
Exercise price	\$0.33	\$0.22
Expected volatility	102%	90.88%
Risk-free interest rate	1.05%	1.53%
Term	10 years	10 years
Grant date share price	\$0.33	\$0.22
Fair value per option	\$0.30	\$0.19

As at 30 June 2021, the Shares to which the loan funded shares share based payments summarised above relate had not been formally issued by the Company. In accordance with the requirements of *SFRS(I) 2 Share-based Payment* the Group has recognised the loan funded shares as at the grant date being the date on which the recipient became contractually entitled to receive the Shares.

The Group did not issue any long-term incentive rights subject to vesting conditions in the 2020 year.

(iv) Shares as awarded as a bonus payment

During the year the Group entered into a contractual arrangement to issue shares to the value of A\$171,139 to an employee as a bonus payment. (2020: A\$Nil). As at 30 June 2021, the Shares had not been issued by the Company. In accordance with the requirements of *SFRS(I) 2 Share-based Payment* the Group has recognised the obligation to issue the Shares as at the date on which the recipient became contractually entitled to receive the Shares.

(v) Long term incentive rights subject to vesting conditions

Performance rights are also offered as part of a Long-Term Incentive Plan to employees, executive and non-executive directors, contractors, and consultants, to acquire shares in the Company. The rights will vest subject to the relevant performance measures being met and the participant remaining employed.

Unless otherwise noted, the milestones / performance conditions attached to the long-term incentive rights are non-market-based conditions. Non-market conditions are considered by adjusting the number of rights included in the measurement of the transaction amount using a probability of vesting assumption so that, ultimately, the amount recognised shall be based on the number of rights that eventually vest.

	1,750,000				

All LTI Rights have an expiry date of five years from the grant date.

The Group did not issue any long-term incentive rights subject to vesting conditions in the 2020 year.

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS
For the financial year ended 30 June 2021

18. Capital commitments

To maintain current rights of tenure to exploration tenements, including tenements that had expired and were the subject of renewal applications by the Group as at 30 June 2021, the Group is required to perform exploration work to meet minimum expenditure requirements as specified by the Papua New Guinea Mineral Resources Authority. The following table sets out the minimum expenditure commitments:

	Group and Company	
	2021	2020
	A\$	A\$
Payable:		
- not later than one year	605,491	1,767,249
- later than one year and not later than five years	213,088	1,005,713
	818,579	2,772,962

19. Receivables from subsidiaries

	Company	
	2021	2020
	A\$	A\$
Receivables from subsidiaries	34,802,863	35,195,655
Less: Allowance for credit loss (Note 20(j))	(16,605,231)	(13,453,084)
Net receivables from subsidiaries	18,197,632	21,742,571

Receivables from subsidiaries are non-trade in nature, unsecured, repayable on demand and are non-interest bearing.

	Company	
	2021	2020
	A\$	A\$
Balance at 1 July	21,742,571	22,857,813
Advances to subsidiaries	4,351,514	4,376,675
Share-based payment	2,204,355	504,051
Commercial forgiveness of debt on loss of control of subsidiary	(6,948,461)	–
Reversal of allowance for credit loss on loss of control of subsidiary	5,067,687	–
Allowance for credit loss	(8,219,834)	(5,995,968)
Balance at 30 June	18,197,632	21,742,571

20. Financial risk management

The Group's principal financial instruments comprise cash and cash equivalents, receivables and trade and other payables. The Group does not currently have any projects in production and as such the main purpose of these financial instruments is to provide liquidity to finance the Group's development and exploration activities. It is, and has been throughout the financial year, the Group's policy that no trading in speculative financial instruments shall be undertaken. The main risks arising from the Group's use of financial instruments are foreign currency risk, interest rate risk, credit risk and liquidity risk. During the financial year, the Group has had some transactional currency exposures, principally to the Papua New Guinea Kina ("PGK"). The Group has not entered into forward currency contracts to hedge these exposures due to the short time frame associated with the currency exposure and the relatively modest overall exposure at any one point in time.

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset and financial liability are disclosed in Note 2. Primary responsibility for identification and control of financial risk rests with the Board of Directors. However, the day-to-day management of these risks is under the control of the Managing Director. The Board agrees the strategy for managing future cash flow requirements and projections.

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS
For the financial year ended 30 June 2021

20. Financial risk management (continued)

a) Categories of financial instruments

The carrying values of the Group's financial instruments at the balance sheet date are as follows:

	Group		Company	
	2021	2020	2021	2020
	A\$	A\$	A\$	A\$
<i>Financial assets</i>				
Financial assets at amortised cost	4,742,870	3,174,497	22,185,041	24,796,815
<i>Financial liabilities</i>				
Financial liabilities at amortised cost	1,220,900	863,920	750,278	542,969

b) Foreign currency risk

The Group is exposed to foreign currency risk mainly arising from various currency exposures, including Papua New Guinea Kina ("PGK"). The Group's policy is to convert its local currency to the foreign currency at the time of the transaction. Foreign currency risk arises from future commercial transactions.

The Group manages foreign currency risk on an as-needs basis. The risk is measured using sensitivity analysis and cash-flow forecasting. The Group's exposure to foreign currency risk, expressed in Australian dollars at the reporting date, was as follows:

	PGK	
	2021	2020
	A\$	A\$
<i>Financial assets</i>		
Cash and cash equivalents	746,083	112,766
Net currencies exposure	746,803	112,766

The following table details the Group's sensitivity to a 10% increase and decrease in the Australian dollar against the relevant foreign currencies. 10% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. A positive number in the table represents a decrease in the operating loss after tax and increase equity where the Australian dollar strengthens against the relevant currency. For a 10% weakening of the Australian dollar against the relevant currency, there would be a comparable impact on the loss or equity, and the balances below would be negative.

	PGK	
	2021	2020
	A\$	A\$
Loss after tax and equity		
- 10% increase	74,608	11,277
- 10% decrease	(74,608)	(11,277)

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS
For the financial year ended 30 June 2021

20. Financial risk management (continued)

b) Interest rate risk

The Group's exposure to interest rate risk arises predominantly from cash and cash equivalents bearing variable interest rates. At the end of the reporting period, the Group maintained the following variable rate accounts:

	30 June 2021		30 June 2020	
	Weighted average interest rate %	Balance A\$	Weighted average interest rate %	Balance A\$
Cash and cash equivalents	0.1	4,535,828	0.5	2,988,147

At the end of the reporting period, if the interest rates had changed, as illustrated in the table below, with all other variables remaining constant, after-tax loss and equity would have been affected as follows:

	After-tax loss (higher)/lower		Equity (higher)/lower	
	2021	2020	2021	2020
	A\$	A\$	A\$	A\$
2021 +0.5 (50bp)/(2019: +0.5% (50bp))	22,679	14,941	22,679	14,941
2021 -0.5 (50bp)/(2019: -0.5% (50bp))	(22,679)	(14,941)	(22,679)	(14,941)

c) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults. The Group's exposure and the credit ratings of its counterparties are continuously monitored.

Concentration of credit risk exists when changes in economic, industry or geographical factors similarly affect group of counterparties whose aggregate exposure is significant in relation to the Group's total credit exposure. Ongoing credit evaluation is performed on the financial condition of accounts receivable and, where appropriate, credit guarantee insurance cover is purchased.

The following sets out the Group's internal credit evaluation practices and basis for recognition and measurement of expected credit losses (ECL):

Description of evaluation of financial assets	Basis for recognition and measurement of ECL
Counterparty has a low risk of default and does not have any past due amounts	12-month ECL
There has been a significant increase in credit risk since initial recognition.	Lifetime ECL - not credit-impaired
There is evidence of credit impairment	Lifetime ECL - credit-impaired
There is evidence indicating that the Company has no reasonable expectation of recovery of payments such as when the debtor has been placed under liquidation or has entered into bankruptcy proceedings	Write-off

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS
For the financial year ended 30 June 2021

20. Financial risk management (continued)

d) Significant increase in credit risk

In assessing whether the credit risk on a financial asset has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial asset as at the balance sheet date with the risk of a default occurring on the financial asset as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information, such as future economic and industry outlook, that is available without undue cost or effort.

The risk that the borrower will default on a demand loan depends on whether the borrower:

- (i) has sufficient cash or other liquid assets to repay the loan immediately; or
- (ii) does not have sufficient cash or other liquid assets to repay the loan immediately.

The Group performs this assessment qualitatively by reference to the borrower's immediate cash flow and liquid asset position. Relying on the 30 days past due rebuttable presumption is not considered an appropriate indicator given the lack of contractual payment obligations.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increases in credit risk before the amount becomes past due.

The Group also assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the end of the reporting period. A financial instrument is determined to have low credit risk; the borrower has a strong capacity to meet its contractual cash flow obligations in the near term; and adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

e) Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes. Where information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collateral held by the Group).

This is assessed based on a number of factors including key liquidity and solvency ratios. Relying on the 90 days past due rebuttable presumption is not considered an appropriate indicator given the lack of contractual payment obligations due throughout the life of the loan.

f) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred such as evidence that the borrower is in significant financial difficulty, there is a breach of contract such as default or past due event; there is information that it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; the disappearance of an active market for that financial asset because of financial difficulties; or the purchase or origination of a financial asset at a deep discount that reflects the incurred credit losses.

g) Estimation techniques and significant assumptions

There has been no change in the estimation techniques or significant assumptions made during the current financial year for recognition and measurement of credit loss allowances.

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS
For the financial year ended 30 June 2021

20. Financial risk management (continued)

h) Maximum exposure and concentration of credit risk

The Group and the Company do not have concentration of credit risk at 30 June 2021 and 30 June 2020, except for receivables from subsidiaries of the Company.

As the Group and the Company do not hold any collateral, the maximum exposure to credit risk for each class of financial instruments is the carrying amount of that class of financial instruments presented on the balance sheet.

The credit loss for cash and cash equivalents and other receivables are immaterial as at 30 June 2021 and 30 June 2020.

i) Other financial assets at amortised cost

Other financial assets at amortised costs include other receivables, other current assets (excluding goods and services tax receivables) and cash and cash equivalents.

The table below details the credit quality of the Group's and the Company's financial assets:

30 June 2021		Gross carrying amount	Loss allowance	Net carrying amount
	12-month or lifetime ECL	A\$	A\$	A\$
Group				
Other receivables	N.A. Exposure Limited	207,042	–	207,042
Cash and cash equivalents	N.A. Exposure Limited	4,535,828	–	4,535,828
Company				
Other receivables	N.A. Exposure Limited	199,445	–	199,445
Receivables from subsidiaries	Lifetime	34,802,863	(16,605,231)	18,197,632
Cash and cash equivalents	N.A. Exposure Limited	3,787,964	–	3,787,964

30 June 2020		Gross carrying amount	Loss allowance	Net carrying amount
	12-month or lifetime ECL	A\$	A\$	A\$
Group				
Other receivables	N.A. Exposure Limited	186,350	–	186,350
Cash and cash equivalents	N.A. Exposure Limited	2,988,147	–	2,988,147
Company				
Other receivables	N.A. Exposure Limited	180,797	–	180,797
Receivables from subsidiaries	Lifetime	35,195,655	(13,453,084)	21,742,571
Cash and cash equivalents	N.A. Exposure Limited	2,873,447	–	2,873,447

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS
For the financial year ended 30 June 2021

20. Financial risk management (continued)

h) Movements in credit loss allowance

There are no movements in the allowance for impairment of financial assets under SFRS (I) 9 during the financial year for the Group and Company except for the following.

	Receivables from subsidiaries	
	2021	2020
	A\$	A\$
Company		
Balance at 1 July	13,453,084	7,457,116
Loss allowance measured		
Lifetime ECL:		
- Credit impaired, net	3,152,147	5,995,968
Balance at 30 June (Note 19)	16,605,231	13,453,084

i) Liquidity risk

The ability of Group to operate as a going concern and meet its obligations as and when they fall due is principally dependent upon the ongoing support from its shareholders, the ability of the Group to successfully raise capital as and when necessary and the ability to complete successful exploration and subsequent exploitation of the areas of interest. This is to ensure the continuance of its activities and to meet its financial obligations as and when they fall due.

Prudent liquidity risk management implies maintaining sufficient cash and cash equivalents in order to meet the Group's forecast requirements. The Group manages liquidity risk by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. Surplus funds are generally only invested in bank deposits. At the reporting date, the Group did not have access to any undrawn borrowing facilities.

All liabilities of the Group and the Company are due within one year.

21. Fair value estimation

The carrying amount of financial assets (net of any allowance for impairment) and financial liabilities as disclosed in Note 20(a) are assumed to approximate their fair values primarily due to their short maturities.

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the entity and that are believed to be reasonable under the circumstances.

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS
For the financial year ended 30 June 2021

22. Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern to provide returns for shareholders and maintain an optimal capital structure to reduce the cost of capital.

The Group defines capital as being share capital plus reserves. The Board of Directors monitors the level of capital as compared to the Group's long-term debt commitments.

The Group is not subject to any externally imposed capital requirements.

No changes were made to the Group's and the Company's capital management objectives or policies during the financial years ended 30 June 2021 and 30 June 2020.

23. Related party transactions

(a) Compensation of key management personnel

	Group	
	2021	2020
	A\$	A\$
Short term employee benefits	416,250	477,500
Superannuation contributions	39,544	45,363
Share based payments	1,278,885	730,267
	1,734,679	1,253,130
<i>Includes amounts paid to:</i>		
Non-executive directors of the Company	133,556	136,875
Executive Directors	1,601,123	1,116,255
	1,734,679	1,253,130

Total key management personnel compensation represents gross compensation paid or payable and includes amounts capitalised to exploration and evaluation expenditure and property, plant, and equipment.

The following awards were made to directors of the Company during the current and prior financial years pursuant to the Company's Employee Incentive Plan are as follows:

2021	Salary Sacrifice Rights Number	Long Term Incentive Rights Number
Rob Neale	98,724	—
Frank Terranova	49,760	—
Paul Mulder	712,390	4,500,000
Timothy Crossley	880,009	4,200,000
	1,740,883	8,700,000
2020

	1,153,192	—

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS
For the financial year ended 30 June 2021

23. Related party transactions (continued)

(b) Compensation of key management personnel

The following awards were exercised and converted into one share in the Company for which award exercised, by directors of the Company pursuant to the Company's Employee Incentive Plan:

2021	Salary Sacrifice Rights Number	Long Term Incentive Rights Number	Options Number
Paul Mulder	1,088,752	3,000,000	3,000,000
Timothy Crossley	1,026,536	1,925,000	–
	2,115,288	4,925,000	3,000,000

No awards were exercised, cancelled, or lapsed during the year ended 30 June 2020.

24. Contingent liabilities

In September 2015, the Group entered into a Development Management Deed with a third party. Under this deed and its subsequent addendums, the third party is to provide services relating to the Lae power project and any subsequent power projects undertaken by the Group. In addition to the amounts paid to the third party for their services, they are entitled to contingent compensation of A\$140,000 payable upon financial close of the Lae power project (and likewise for any other subsequent projects).

In June 2017, the Group entered into two additional Deeds of appointment with third parties, regarding the power projects. Under these deeds, the third parties are to provide services relating to Lae power project. As compensation for their services, they are entitled to various payments and/or interests in MR Power Generation PNG Pte Ltd and MR Energy PNG Pte Ltd, contingent upon the achievement of certain milestones/investor introductions. These amounts include:

Third party 1

- (a) A\$50,000 fee upon signing of the Power Purchasing Agreement.
- (b) A\$700,000 fee upon financial close of the Lae power project.
- (c) 8% equity in MR Power Generation PNG Pte Ltd and MR Energy PNG Pte Ltd upon operation commencement and approval of first shareholder dividend payment; and
- (d) Introduction fee of 3% of proceeds for any investors introduced which result in funds being received.

Third party 2

- (a) Upon achievement of the signing of the Power Purchase Agreement and subsequent government guarantees by a defined date to be determined, 5% interest in MR Power Generation PNG Pte Ltd and MR Energy PNG Pte Ltd; and
- (b) Introduction fee of 3% of proceeds for any investors introduced which result in funds being received.

These amounts have not been recognised in the financial statements due to their payment being contingent upon future events not wholly within the control of the Group.

MAYUR RESOURCES LTD AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS
For the financial year ended 30 June 2021

25. Subsequent events

Except as noted below, there has been no matter or circumstance which has arisen since the end of the year that has significantly affected, or may significantly affect the Group's operations, the result of those operations or the Group's state of affairs:

- Subsequent to the end of the financial year, the Group was advised that the Mineral Resources Authority of Papua New Guinea had granted the renewal of three exploration licences that were subject to renewal application at 30 June 2021
- On 16 September 2021, Mr Charles Fear was appointed Non-Executive Chairman of the Company and Mr Chris Indermaur was appointed as a Non-Executive Director of the Company. Mr Frank Terranova resigned as a Non-Executive Director on the same date.

26. Authorisation of financial statements

The consolidated financial statements of the Group and the balance sheet and statement of changes in equity of the Company for the financial year ended 30 June 2021 were authorised for issue in accordance with a resolution of the directors dated 29 September 2021.
