

Live Investor Briefing

Infinity Lithium Corporation Limited ('Infinity', or 'the Company') invites you to join a live investor briefing on Wednesday, 20th October 2021.

Managing Director, Mr Ryan Parkin will be discussing the recently announced Scoping Study evaluating the development of the San José Lithium Project as a fully integrated producer of battery grade lithium chemicals incorporating underground extraction of ore. There will also be an interactive Q&A session, where Ryan will be answering investor questions.

In the event that there are questions that are preferred to be sent in advance of the interactive Q&A session, please contact Infinity's Investor Relations Manager Lucas Robinson at lrobinson@infinitylithium.com

Click here to register:

https://zoom.us/webinar/register/WN_LqDDsEv3Qn-rBSZmINfwuA

Start time:

11:00am Perth Time (AWST)

2:00pm Sydney Time (AEDT)

Date:

Wednesday 20th October 2021

A link to a replay of the webinar will be posted on the Infinity Lithium website as soon as it is available for those unable to attend the live session.

The announcement was authorised by the Managing Director.

FRA: 3PM

Project highlights

2nd Largest JORC hard rock lithium deposit in the EU

Strategically located in Spain, Europe to be the 2nd largest market for battery grade lithium after China

1st lithium project to secure EIT InnoEnergy Funding

Uniquely **fully integrated project** with mine and adjacent conversion plant

Low carbon footprint and sustainable operation

About Infinity Lithium

Infinity Lithium is an Australian listed minerals company who is seeking to develop its 75% owned San José Lithium Project in Spain. The proposed fully integrated industrial Project is focused on the production of battery grade lithium chemicals from a mica feedstock that represents the EU's 2nd largest JORC compliant hard rock lithium deposit.

The Company is contesting the cancellation of Investigation Permit Valdeflorez ('PIV') and has lodged a contentious-administrative appeal. The Company strongly disputes the basis of the decision of the cancellation of PIV and retains all legal rights against the Junta of Extremadura. Infinity retains subsequent rights of applications over and including the PIV area through other applications. These are summarised in the ASX announcement 19 July 2021.

The Project would provide an essential component in the EU's development of a vertically integrated lithium-ion battery supply chain. The availability of critical raw materials and the production of battery grade lithium hydroxide in the EU is essential to ensure the long-term production of lithium-ion batteries for electric mobility and the transition of the EU's automotive industry towards electric vehicles.
