ASX RELEASE 25 October 2021 ASX: JRL

JINDALEE TO PRESENT AT VIRTUAL CONFERENCE

Jindalee Resources Limited (**ASX: JRL**) (the **Company**) is pleased to advise that Lindsay Dudfield, Executive Director for Jindalee Resources, will be presenting at the Proactive Critical Minerals webinar.

Jindalee will be one of three companies presenting at the webinar, which commences at:

Tuesday 26th October 2021, 12pm Sydney time

To register, please click on the link below: https://event.webinarjam.com/register/98/8rz0nbpy

For additional information, please contact John Phillips at Proactive on john.phillips@proactiveinvestors.com or call 0431 597 771.

A copy of the Company's presentation follows.

Authorised for release by Lindsay Dudfield, Executive Director, Jindalee Resources.

About Jindalee

Jindalee Resources Limited (ASX: JRL) is an exploration company with direct and indirect exposure to lithium, gold, base and strategic metals, iron ore, uranium and magnesite through projects generated by the Company's technical team. Jindalee has a track record of rewarding shareholders, including priority entitlements to several successful IPO's and payment of a special dividend.

Jindalee's strategy is to acquire prospective ground, add value through low cost exploration and, where appropriate, either introduce partners to assist in funding further progress, or fund this activity via a dedicated company in which Jindalee retains a significant interest.

At 30 June 2021 Jindalee held cash and marketable securities worth approximately \$13.3M. This funding, combined with the Company's tight capital structure (only 54.1M shares on issue), provides a strong base for advancing projects currently held by Jindalee and leveraging into new opportunities.

Disclaimer

This Presentation has been prepared by Jindalee Resources Limited ("Jindalee", "Company" or "JRL") and is authorised for release by its Executive Director, Mr Lindsay Dudfield. The information in this presentation is a professional opinion only and is given in good faith on the basis of information available as at the date of this presentation. Certain information in this presentation has been derived from third parties and though Jindalee has no reason to believe that it is not accurate, reliable or complete, it has not been independently audited or verified by Jindalee. Except to the extent required by law, Jindalee makes no representations or warrant as to the accuracy, reliability or completeness of information in this document and does not take responsibility for updating any information or correcting any errors or omissions which may become apparent after this presentation is released.

This presentation is for information purposes only. It is not a prospectus, product disclosure statement or other offer document under Australian law or any other law (and will not be lodged with the Australian Securities and Investments Commission or any foreign regulator) and is not, and does not constitute, an invitation or offer of securities for subscription, purchase or sale in any jurisdiction. In particular, this presentation does not constitute an invitation or offer of securities for subscription, purchase or sale in the United States or any other jurisdiction in which such an offer would be illegal. The securities referred to in this presentation have not been and will not be registered under the U.S. Securities Act of 1993 as amended or the securities laws of any state or other jurisdiction of the United States and may not be offered or sole, directly or indirectly in the United States.

Any forward looking statements included in this presentation involve subjective judgement and analysis and are subject to uncertainties, risks and contingencies, many of which are outside the control of, and may be unknown to Jindalee. In particular they speak only to the date of this presentation, they assume the success of Jindalee's strategies, and they are subject to significant regulatory, business, competitive and economic uncertainties and risk. Actual future events may vary materially from the forward looking statements and the assumptions on which these are based. Recipients of this presentation are cautioned not to place undue reliance on such forward looking statements.

To the extent permitted by law, Jindalee and its officers, employees, related bodies corporate and agents disclaim all liability, direct, indirect or consequential (and whether or not arising out of the negligence, default, or lack of care of Jindalee and/or any of its agents) for any loss or damage suffered by a recipient or other persons out of, or in connection with, any use or reliance on this presentation or information. This presentation does not constitute investment advice and has been prepared without taking into account the recipient's investment objectives, financial circumstances or particular needs and the opinions and recommendations in this presentations are not intended to represent recommendations of particular investments to particular persons. Recipients should seek professional advice when deciding if an investment is appropriate. All securities transactions involve risks, which include (among others) the risk of adverse or unanticipated market, financial or political developments.

Directors & Management

Justin Mannolini Non Executive Chairman

- Justin was appointed to the Jindalee Board as a Non-Executive Director in September 2013 and was appointed Chairman in July 2016
- Justin is a partner in the Corporate Advisory Group of Australian law firm Gilbert + Tobin
- Previously, Justin was an Executive Director with Macquarie Capital
- Justin has more than 20 years' experience in corporate finance as a lawyer and investment banker
- Justin is an inaugural Director of the Commonwealth Government \$5bn Northern Australia Infrastructure Fund (NAIF)
- Possesses a combined degree in Commerce and Law (with Honours)

- Previous positions include senior roles with the mineral divisions of Amoco and Exxon
- Previous founding Director of Dalrymple Resources
- Founded Jindalee and has managed the Company since inception
- Member of the Australasian Institute of Mining and Metallurgy (AusIMM)

Lindsay

Dudfield

Director

Executive

• Trish joined Jindalee in July 2002

- Chartered Secretary with over 20 years' experience in providing company secretarial and corporate governance services to a small portfolio of ASX listed and unlisted companies
- Graduate member of the Australian Institute of Company Directors and Fellow member of Governance Institute of Australia and the Institute of Chartered Secretaries and Administrators

Karen Wellman CEO

- Geologist with 20 years' experience covering all aspects of the mining cycle, from early-stage exploration, production and mine geology, through to resource definition and estimation in Australia and Europe
- Previous roles include senior roles at Silver Lake Resources Limited and Doray Minerals Limited
- Karen has a Bachelor of Applied Science/Bachelor of Commerce and recently completed a Master of Science (Mineral Economics)
- Member of the Australasian Institute of Mining and Metallurgy (AusIMM)

Jimmy Thom Exploration Manager

- Geologist with 15 years' experience across project generation, brownfields exploration and resource development in Australia, Africa and Canada, most recently as Exploration Manager for Paladin Energy
- Qualifications include Bachelor of Science/Bachelor of Commerce and Master of Ore Deposit Geology
- Member of the Australian Institute of Geoscientists

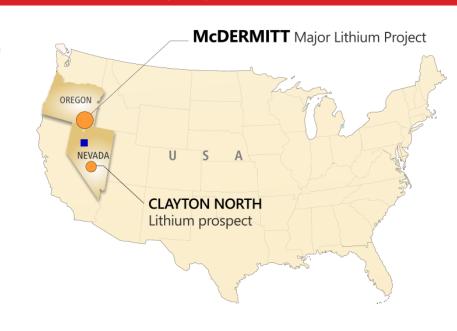

Paul Meyer Senior Geologist USA

- Geologist with over 35 years' experience in mineral exploration and environmental planning and management in the USA, including senior roles with Barrick
- Qualifications include Bachelor of Geology and Master of Science in Geology

Asset Portfolio

United States of America (USA)

Mineral Resource with huge upside

Strong Government support for large lithium deposits

Localisation of cathode production in US highlights strategic value of McDermitt

Australia

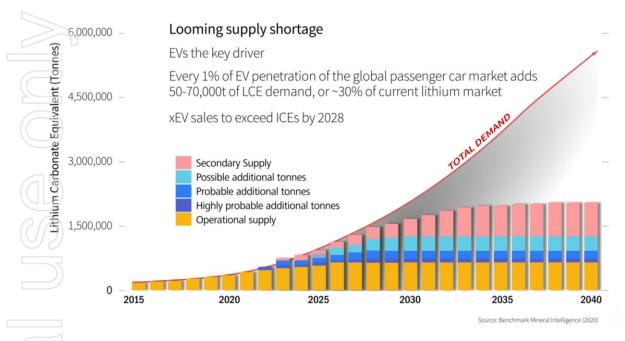

- **Strong, diverse portfolio** of 100% owned projects
- ✓ Potential for **Gold, Nickel, Lithium, Magnesite and**Iron Ore
- ✓ **Strategic investments** in Uranium, Nickel, Gold and Copper

Significant Supply Shortage Looming

Looming supply shortage as electric vehicles aggressively drive the need for lithium.

We can buy electric car batteries from Asia, or

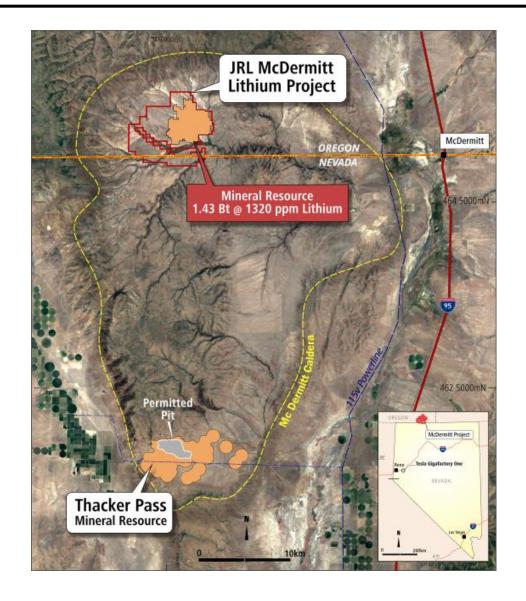

we can make them in America – Jennifer Granholm

McDermitt Overview

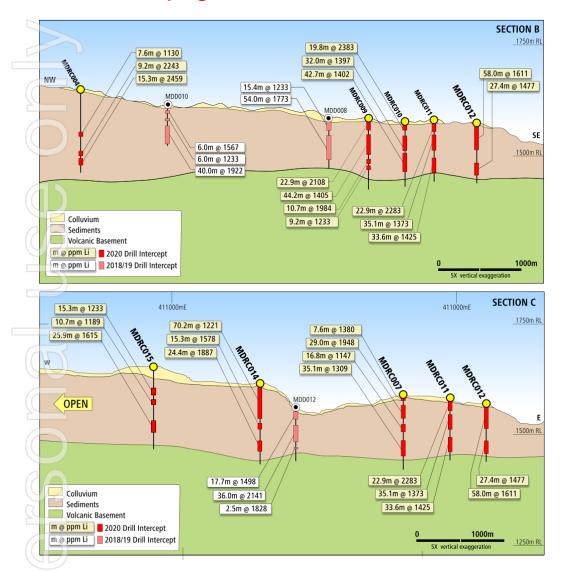

Location	• The Project is located in Malheur County located on the Oregon-Nevada border, ~35km west of the town of McDermitt at the northern end of the McDermitt volcanic caldera
History	 JRL completed an initial four hole drilling program in September 2018, intersecting broad widths of sediment host lithium mineralisation In September 2019, JRL completed an additional nine diamond drill holes with all holes intersecting substantial thickness – Mineral Resource was 150Mt @ 2,000ppm Li at 1,750ppm Li cut-off With further drilling completed, JRL announced an updated Indicated and Inferred Mineral Resource for McDermitt in April 2021
Tenure & Resource	 One of the largest lithium deposits in the US 54.6km² claims area Indicated + Inferred Mineral Resource: 1.43 Bt @ 1,320ppm lithium (1,000ppm Li cut-off)
Features	 McDermitt is a low cost mining operation Typical drill cores consist of: Flat lying sediments Soft, low strip ratio Amenable to low cost mining and crushing Excellent metallurgical results

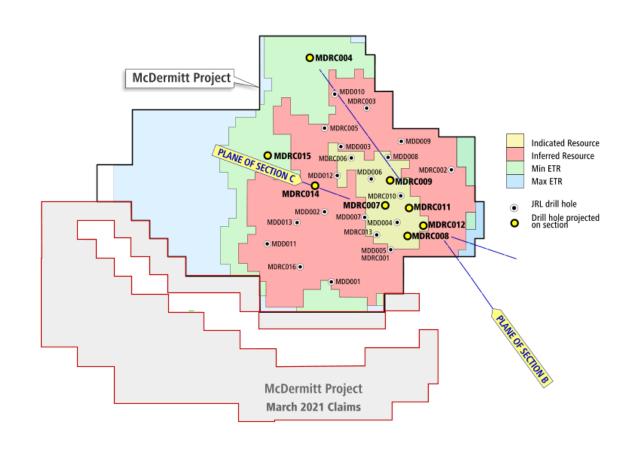

Recent Drilling Outcomes

The 2020 drill program demonstrated consistent lithium mineralised intercepts across a large area.

Mineral Resource and Exploration Target

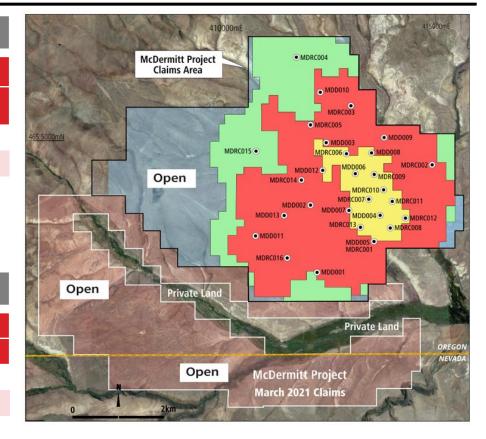

McDermitt Mineral Resource

	Cut-Off Grade (ppm Li)	Indicated Resource			Inferred Resource			Indicated + Inferred Resource		
		Tonnage (Mt)	Li Grade (ppm Li)	LCE (Mt)	Tonnage (Mt)	Li Grade (ppm Li)	LCE (Mt)	Tonnage (Mt)	Li Grade (ppm Li)	LCE (Mt)
	500	283	1,340	2.0	2,020	1,130	12.1	2,300	1,150	14.1
7	1,000	233	1,430	1.8	1,200	1,300	8.3	1,430	1,320	10.1
	1,500	73	1,910	0.7	240	1,750	2.2	313	1,790	3.0
	1,750	44	2,110	0.5	85	2,000	0.9	129	2,040	1.4
	2,000	23	2,310	0.3	34	2,200	0.4	57	2,240	0.7

McDermitt Exploration Target Range (ETR)

7	Cut Off Canda (nom Li)	Exploration Target Range (ETR)					
	Cut-Off Grade (ppm Li)	Lower Limit (Mt)	Upper Limit (Mt)	Lower Grade (ppm Li)	Upper Grade (ppm Li)		
	500	2,300	4,500	800	1,200		
	1,000	1,300	2,300	1,100	1,500		
	1,500	270	390	1,500	1,900		
	1,750	100	140	1,700	2,100		
	2,000	30	40	1,900	2,300		

Note: potential quantity and grade of the Exploration target is conceptual in nature, there has been insufficient exploration to estimate a Mineral Resource and it is uncertain if further exploration will in the estimation of a Mineral Resource

Recently Completed Scoping Study at McDermitt

Jindalee has completed a scoping study on McDermitt. The current JORC resource contains a high proportion of Inferred Resources and hence disclosure is necessarily limited, however the indicative parameters show a large and valuable project. Jindalee will accelerate drilling and seek to increase Resource confidence for future studies.

Key Inputs

- Open pit optimisations based on US\$11,000/ t Li₂CO₃
- Staged mining approach to maximise lithium carbonate production early in project life
- Head grade 1,793ppm Li
- Low strip ratio 1.2 (waste:ore)
- Capital and operating costs based on Q2, 2021

Key Outputs

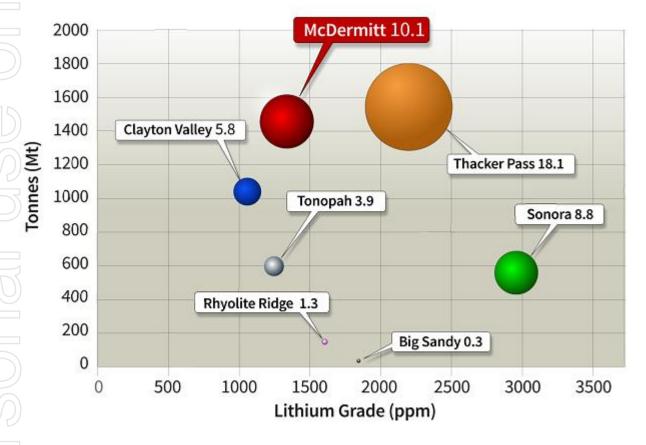

- Optimised pit shells inform infill drilling to convert
 Mineral Resource from Inferred to Indicated
- Study indicates mining capable of much higher production rates and ore feeds
- Potential to supply Li₂CO₃ and sulphate of potash (SOP) to US industries for decades
- Cash flow positive project justifies continued investment
- Ability to optimise processing route to further reduce costs

Comparable Sediment Hosted Lithium Deposits

Jindalee's McDermitt Project compares very favourably to other sediment hosted lithium deposits.

Tonnes v Grade (contained LCE indicated by size of bubble)

Deposit	Owner	Market Cap. (A\$m)	COG (ppm Li)
McDermitt	ASX:JRL	128	1000
Sonora (50%)	AIM:BCN	473	1000

McDermitt – 2021/22 Forward Planning

Extensive resource definition drilling program to upgrade Mineral Resources from Inferred to Indicated

Additional metallurgical optimisation continues – further reducing costs

Accelerate environmental studies and project permitting

Engagement with US end users and strategics ongoing

Investment Highlights

- ✓ Progressing a world-class lithium deposit in McDermitt
- McDermitt is one of the largest lithium deposits in the US
 - ✓ McDermitt's large scale is amenable for bulk mining operation
 - McDermitt has the potential to materially change US lithium supply dynamics, close proximity to major lithium customers
 - Jindalee has a low cash 'burn rate' and a track record of value creation
 - Significant Indicated + Inferred Mineral Resource with huge upside
 - Portfolio of other critical commodities in a tier-1 jurisdiction, Western Australia
 - Undervalued relative to peers; significant potential for value uplift

Additional Information

Competent Person Statement

The information in this report that relates to Exploration Results and Mineral Resources is based on information compiled by Mr Lindsay Dudfield and Mrs Karen Wellman. Mr Dudfield is consultant to the Company and a Member of the Australasian Institute of Mining and Metallurgy and the Australian Institute of Geoscientists. Mrs Wellman is an employee of the Company and a Member of the Australasian Institute of Mining and Metallurgy. Both Mr Dudfield and Mrs Wellman have sufficient experience relevant to the styles of mineralisation and types of deposits under consideration, and to the activity being undertaken, to qualify as Competent Persons as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Minerals Resources and Ore Reserves.' Mr Dudfield and Mrs Wellman consent to the inclusion in this report of the matters based on this information in the form and context in which it appears.

The information in this report that relates to the Exploration Target and the Mineral Resource Estimate for the McDermitt deposit is based on information compiled by Mr. Arnold van der Heyden, who is a Member and Chartered Professional (Geology) of the Australasian Institute of Mining and Metallurgy and a Director of H&S Consultants Pty Ltd. Mr. van der Heyden has sufficient experience relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' (JORC Code). The Company confirms that it is not aware of any further new information or data that materially affects the information included in the original market announcements by Jindalee Resources Ltd (JRL) entitled "McDermitt Lithium Resource confirmed as largest in USA" released on 8 April 2021 and in the case of estimates of Mineral Resources, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. To the extent disclosed above, the Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.
