New Focus The Company as an Ethical Investment

Strategy, Sustainability and Acknowledgment of Social and Cultural Diversity

Our Strategy

We create products for a better future in a sustainable manner for our customers, our team, the communities in which we do business and our shareholders.

The Company has determined that all its operations will be undertaken in such a manner to ensure the needs of such operations in the present are undertaken so as not to compromise the ability of future generations to meet their own needs.

At all times we strive;

- to create shareholder value in a responsible manner;

- to care about all stakeholders with whom we deal;
- to do the right thing and to listen and learn;
- integrate our environmental impact and our human resources with our management of social issues affecting the company; and
- to improve from month to month and year to year.

Our business operating procedures are designed to ensure we adhere to our philosophy of being an ethical investment.

Wherever possible we seek to undertake our business;

- ethically
- using clean energy and being efficient as possible (our factories prioritise solar and wind energy providers). We undertake to review our green gas emissions and seek to reduce our emissions, energy and waste year to year
- supporting research (we are sponsoring research into aquaculture in Western Australia and sea cucumber breeding) to improve our products, including improving the sustainability of our natural resources
- creating sustainable products (all harvesting is done in a sustainable resource management manner)
- considering the diverse cultures of all our stakeholders including the Traditional Owners of Australia

The Company affirms its support for reconciliation with the Traditional Owners of Australia. The Company has from September 2019 to 30 June 2021 commenced all formal meetings of the Company with the Company's Acknowledgement.

"Acknowledgment"

The Company acknowledges the Traditional Owners of country throughout Australia and the connection such Traditional Owners have to the land and its surrounding seas, culture and community. The Company makes special reference to the custodians of the lands and waters comprising and surrounding Bundybunna and Shark Bay, Carnarvon, Exmouth and Onslow in Western Australia and Sydney in NSW, and any other lands or waters in Australia upon which the Company does or intends to operate.

The Company respects all Elders, past, present and emerging. The Company is committed to the adoption and practice of a philosophy of cultural awareness including an understanding and appreciation of the diverse cultures in which it operates and associates within Australia and overseas, including the cultures of the Traditional Owners in Australia, the various cultures of a multicultural Australia and the cultures of the people of China, Japan, India, Indonesia, Malaysia, Vietnam and throughout the rest of Asia where the Company operates.

Going Concern

Despite the loss reported above, the Board of your Company is confident the Company is a going concern by virtue of;

- Having met all trading debts in the ordinary course of business or having made appropriate arrangements for payment over time of some trading debts;
- The commencement of production in Japan and the initial sales of our unique products in Japan and Taiwan, under very tight cost controls means in the opinion of the company that the company's Japanese subsidiary, Blue Ocean Japan will be cash flow positive and profitable in the year to 30 June 2022;
- The company's sea cucumber business known as Blue Ocean Health which has now commenced and will generate over time cash for the Company to trade in the ordinary course of business.

In order to secure the Company's future, the Board has continued to pursue a low cost operation. The Company continues to focus its overall business strategy on primary production with a first priority to seafood related businesses for domestic and export consumption. This focus is reflected in the Financial Statement of the Company to 30 June 2021.

2020-21 Projects

The Company advises the shareholders as follows;

1. Today Current Projects

Blue Ocean Health (Australia)

As of 30 June 2020, this business has continued to focus on our operations within Australia. The Company remains extremely disappointed at the performance of its dedicated supply contractor in Western Australia and despite significant efforts to resolve some continuing supply this was not achieved. The Company is continuing to pursue a recovery of its

For personal use only

expenditure that was the subject of advance deliveries which did not take place.

At the time of writing this report the Company is not confident of any near term solution.

COVID 19 restrictions throughout the country including WA have hindered the development of any new sea cucumber business in Australia. The Company is encouraging all its employees and the employees of its dedicated contractors to get vaccinated against COVID19.

The Company continues to support research into sea cucumber breeding in Western Australia and is pursuing some aquaculture opportunities in which sea cucumbers may be grown for commercial harvesting without issues of native title.

The Company is examining alternative Australian suppliers of dried sea cucumber for delivery to Blue Ocean Japan (“BOJ”) in the 2022 financial year. The Company intends sourcing product from Australia and elsewhere during the period. The Company is test manufacturing product from Peru in Australia in quarter 1 of this financial year with the intention of scaling up production of sea cucumber powder and tablets for markets in southern Asia, particularly Singapore and Malaysia.

Blue Ocean Health in Australia has commenced the production of sandalwood oil and expects the sale of the initial production in the 2nd quarter of the financial year. Blue Ocean Health is partnering with a specialist and experienced natural timber refiner and is seeking to source Australian native sandalwood from both the WA Forestry Commission and private suppliers in WA. The long term viability of this business is dependent on reducing the cost of the raw materials, particularly quality WA native sandalwood timber.

Blue Ocean Japan

The Company carries on business in Japan through its wholly owned subsidiary called Blue Ocean Japan which company has been trading wholesale Japanese sea cucumber and manufacturing sea cucumber supplements including a new product called “gummy”. All Blue Ocean Japan manufactured products use the trade name Lapilika. Marketing and sales, primarily through direct internet channels has commenced in Japan and Taiwan.

All supplement products are sourced from imported Peruvian sea cucumber. The Company has secured up to 30 tons of dried sea cucumber from Peru for the 2022 financial year.

2. Future Direction

The Company is continuing to examine opportunities as they may be presented.

Bundybunna

The Company has terminated its interest in the lease of Bundybunna and is proceeding to recover its out of pocket expenses of approximately \$300,000. The Company expects to fully recover this sum during 2022.

Qualipac Joint Venture

This venture is currently suspended during the restrictions imposed by virtue of the coronavirus pandemic. The Company does not envisage further business under this arrangement.

3. General

The Company has managed to continue to operate in all areas of prime interest throughout the year to 30 June 2021 despite the very significant problems of travel and risk that the coronavirus pandemic has caused. The operations in Western Australia have been particularly difficult to manage with the very restrictive travel available. The Board notes the excellent work all of the Company’s dedicated employees, management and consultants in Western Australia throughout the year to 30 June 2021.

The Company is also examining other sea cucumber supply opportunities. The Company and its employees and management have developed and have access to significant intellectual property in the processing, cooking drying and storing of sea cucumber. The Company has a focus and expertise in ensuring maintaining low salt levels in the dried product. The Company is seeking suppliers who can establish and maintain low salt harvesting and processing practices.

The year to 30 June 21 saw the Consolidated Entity building dry sea cucumber stock for further processing and supplement manufacture in Japan. The 2022 financial year will be a focus on sales and marketing of the products produced by Blue Ocean Japan. The Company must manage all the difficulties of the coronavirus pandemic in Australia, Japan, the PRC, and our Asian and Pacific suppliers. Transporting product around the world remains a major problem for the Company. Most of our product does not require air freight in the usual course of events, but the transport of small amounts of general cargo remains an issue in and out of Australia and indeed from our other sources of product in Asia and the Pacific. We

are usually transporting our product in tonne lots meaning we must always consolidate our freight with other consignors. This leads to inevitable delays. As each month has taken place since 30 June 2021 international freight has improved. The Company is confident of improved services throughout 2022.

The Company intends commencing sales in the PRC in 2022 and is commencing to formulate detailed sales and marketing plans including a major social media program in the PRC. All Company product being exported to the PRC will emanate from Japan and will be manufactured in Japan. Although the Company sees Australian sea cucumber production as very important for the future and particularly for premium products throughout Asia, the current diplomatic and trade issues taking place between China and Australia has led the Company to focus on a “made in Japan” label in the immediate future for product into the PRC.

The Company believes the opportunities for our products in Asia are enormous and the growth potential of the product for the next 5 years will be significant.

4. General Investments of the Company 2021 and beyond

The Company is continuing to examine general investment opportunities as they may be presented.

The Company is examining the potential to invest in a Japanese renewal energy project operated by the Aura Green Energy Group. Any direct investment will take place in the year to 30 June 2022. This is an investment only. All operating and management will be undertaken by non-associated independent contractors.

The Company is also examining providing management advice to a proposed limited partnership in Japan which would invest in renewable energy projects in Asia. Any management will take place in the year to 30 June 2022.

MEETING SUMMARY

The Company directs shareholders to the Company’s Annual Report for the year ended 30 June 2021.

The Resolutions set out in the following Notice are summarised as follows:

Item 1 (Acknowledgment) This is a Company developed and Company specific acknowledgment of country in favour of Australia’s Traditional Owners and is expanded from the usual style of such acknowledgments to include an acknowledgement of all the cultures that the Company deals with on a day to day basis, including our shareholders. There is no resolution for the consideration of shareholders in respect to this Item 1.

Item 2 Resolution 1 relates to the receipt of the Financial Reports, the Directors’ Report and the Auditor’s Report for the Company for the year ended 30 June 2021.

Item 3 Resolution 2 is the election of Mr Sunga as a director.

Item 4 Resolution 3 is the adoption of the Remuneration Report.

Item 5 Special Resolution 4 is the approval of an additional 10% placing facility.

Directors’ Recommendations

Messrs Nakamura and Ashcroft recommend all resolutions including Resolution 3, however in respect to Resolution 3 their vote shall not be counted. Mr Sunga recommends resolutions numbered 1, 3, and 4. Mr Sunga disqualified himself in respect to resolution numbered 2.

All directors advise that it must be pointed out that any continued investment in the Company is not secure and there is no guarantee of any return of capital. The Company recommends that all shareholders consider the disadvantages and possible advantages of the proposed resolutions.

Staff, Contractors and Directors

The Company takes much pleasure in thanking all its dedicated staff and contractors for their efforts in the past year. The Company had operations in Sydney, Perth, Shark Bay and Japan.

The work of the directors is also appreciated. As a direct consequence of the Company’s need to manage the operations of the sea cucumber project in Japan and our intended market in Asia, particularly China, Mr Nakamura is again in Japan with Mr Sunga, at the date of this Notice, examining our supplement manufacturing capabilities and commencing a marketing program for Japan and China. I would like to particularly thank Mr Nakamura for this commitment considering the risks and significant inconvenience of travel today.

Financial Position for the Future

This next financial year, 2021-2022 has commenced with the Company solvent with potential to build on the sea cucumber business in Australia and obtain additional supplies from other providers. There is no doubt that further profitable businesses are

For personal use only

still required or an expansion of the Company/TMA joint operations is required for the Company to be able to generate profits in the medium and long term. We have several projects of real potential and substance available subject to further funding.

We have not utilised the special placing facility in the year to date, but we are requesting shareholders again approve this position (Resolution 4).

I thank all our shareholders for their support, and I look forward with enthusiasm to 2020-21 and beyond.

Kind regards

Peter Ashcroft

- f. D is 10%
- g. E is the number of Equity Securities issued or agreed to be issued under Listing Rule 7.1A.2 in the 12 months before the date of the issue or agreement to issue that are not issued with the approval of shareholders under Listing Rule 7.1 or 7.4.

- C. Listing Rule 7.1 and Listing Rule 7.1A

The ability of an entity to issue Equity Securities under Listing Rule 7.1A is in addition to the entity's 15% placement capacity under Listing Rule 7.1.

- a. At the date of this Notice, the Company has on issue 16,421,946,420 ordinary shares and therefore has a capacity to issue:
 - i. 2,463,291,963 Equity Securities under Listing Rule 7.1; and

Minimum Issue Price

- D. The issue price of Equity Securities issued under Listing Rule 7.1A must be not less than 75% of the VWAP of Equity Securities in the same class calculated over the 15 Trading Days on which trades in that class were recorded immediately before;
 - a. the date on which the price at which the Equity Securities are to be issued is agreed; or
 - b. if the Equity Securities are not issued within five Trading Days of the date referred to in section (e)(i), the date on which the Equity Securities are issued.

10% Placement Period

- E. Shareholder approval of the 10% Placement Facility under Listing Rule 7.1A is valid from the date of the annual general meeting at which the approval is obtained and expires on the earlier to occur of:
 - a. the date that is 12 months after the date of the annual general meeting at which the approval is obtained; and
 - b. the date of the approval by shareholders of a transaction under Listing Rule 11.1.2 (a significant change to the nature or scale of activities) or 11.2 (disposal of main undertaking),

F. Listing Rule 7.1A

The effect of Resolution 4 will be to allow the Directors to issue the Equity Securities under Listing Rule 7.1A during the 10% Placement Period in addition to using the Company's 15% placement capacity under Listing Rule 7.1.

- a. Resolution 4 is a special resolution and therefore requires approval of at least 75% of the votes cast by shareholders entitled to vote (in person, by proxy, by attorney or, in the case of a corporate shareholder, by a corporate representative) on the Resolution.
- b. Specific information required by Listing Rule 7.3A
 - i. Pursuant to and in accordance with Listing Rule 7.3A, information is provided in relation to the approval of the 10% Placement Facility as follows to the extent that such information is not disclosed elsewhere in this Explanatory Memorandum:

 - iii. the date on which the price at which the Equity Securities are to be issued is agreed; or
 - iv. if the Equity Securities are not issued within five Trading Days of the date in paragraph (ii) above, the date on which the Equity Securities are issued.
 - v. There is a risk that:
 - 1. the market price for the Company's Equity Securities in the same class may be significantly lower on the date of the issue of the Equity Securities than on the date of the Meeting, although unlikely as the market price of the Company's Equity Securities is \$0.001 on 21 October 2021 and trading on the ASX is not permitted below this price; and
 - 2. the Equity Securities may be issued at a price that is at a discount to the market price for the Company's Equity Securities in the same class on the issue date,
 - 3. which may have an effect on the amount of funds raised by the issue of the Equity Securities.

- G. The table below shows the risk of voting dilution of existing shareholders on the basis of the current market price of shares and the current number of ordinary shares for variable 'A' calculated in accordance with the formula in Listing Rule 7.1A.2 as at the date of this Notice.

The table also shows:

- a. three examples where variable 'A' is at the current market price and where it has increased, by 100% (\$0.002 issued price) and 200% (\$0.003 issue price). Variable 'A' is based on the number of ordinary shares the Company has on issue. The number of ordinary shares on issue may increase as a result of issues of

For personal use only

- ordinary shares that do not require shareholder approval (for example, a pro rata entitlements issue) or future specific placements under Listing Rule 7.1 that are approved at a future shareholders' meeting;
- an example of where the issue price of ordinary shares has decreased by 25% as against the current market price;
 - three examples where variable "A" was the current market price, an issue price of \$0.002 and an issue price of \$0.003 and where prior to the issue under Listing Rule 7.1A there had been an issue of 15% of the shares of the company under Listing Rule 7.1; and
 - an example where at the time of the proposed issue under Rule 7.1A there were on issue double the number of shares on issue as at the date of this Notice.

The table has been prepared on the following assumptions:

1. The Company issues the maximum number of Equity Securities available under the 10% Placement Facility.
2. No current options are exercised into shares before the date of the issue of the Equity Securities. Note there are no current options.
3. The 10% voting dilution reflects the aggregate percentage dilution against the issued share capital at the time of issue. This is why the voting dilution is shown in each example as 10%.
4. The table does not show an example of dilution that may be caused to a particular shareholder by reason of placements pursuant to the 10% Placement Facility, based on that shareholder's holding at the date of the Meeting.
5. The issue of Equity Securities under the 10% Placement Facility consists only of shares. The issue price is \$0.001, being the closing price of the shares on ASX on 21 October 2021.
6. The top part of the table also shows the voting dilution where the company has also issued the full amount of shares under its placing capacity pursuant to Listing Rule 7.1 that is further 15%.
7. The table also shows an example where the number of shares on issue has doubled when the issue under Rule 7.1A is undertaken.
 - a. The Company will only issue and allot the Equity Securities during the 10% Placement Period. The approval under Resolution 4 for the issue of the Equity Securities will cease to be valid in the event that shareholders approve a transaction under Listing Rule 11.1.2 (a significant change to the nature or scale of activities) or Listing Rule 11.2 (disposal of main undertaking).
 - b. The Company may seek to issue the Equity Securities for the following purposes:
 - i. cash consideration. In such circumstances. The Company intends to use the funds raised towards an acquisition of new assets or investments (including expense associated with such acquisition), continued exploration expenditure on the Company's current assets and/or general working capital.
 - c. The Company will comply with the disclosure obligations under Listing Rules 7.1A.4 and 3.10.5A upon issue of any Equity Securities.
 - d. The Company's allocation policy is dependent on the prevailing market conditions at the time of any proposed issue pursuant to the 10% Placement Facility. The identity of the allottees of Equity Securities and the number of Equity Securities allotted to each will be determined on a case-by-case basis having regard to factors including, but not limited to, the following:
 - i. the methods of raising funds that are available to the Company including, but not limited to, rights issue or other issue in which the existing security holders can participate;
 - ii. the effect of the issue of the Equity Securities on the control of the Company;
 - iii. the financial situation and solvency of the Company; and
 - iv. advice from corporate, financial and broking advisers (if applicable).
 - e. The allottees under the 10% Placement Facility have not been determined as at the date of this Notice but may include existing substantial shareholders and/or new shareholders who are not related parties or associates of a related party of the Company.
 - f. Further, if the Company is successful in acquiring new assets or investments, it is likely that the allottees under the 10% Placement Facility will be the vendors of the new assets or investments or the nominee of such vendors.
 - g. A voting exclusion statement is included in the Notice. At the date of the Notice, the Company has not approached any particular existing shareholder or security holder or an identifiable class of existing security holder to participate in the issue of the Equity Securities. No existing shareholder's votes will therefore be excluded under the voting exclusion statement in the Notice.

- h. In accordance with Listing Rule 7.3A.6 the Company confirms that it sought and obtained shareholder approval under Listing Rule 7.1A at the Annual General Meeting of the company on 26 November 2019. The company has not used any of this additional placing capacity under such approval.
