ASX Announcement FBR Limited

Memorandum of Understanding with the Kingdom of Saudi Arabia discontinued; collaboration ongoing

Friday, 5 November 2021 – Robotic technology company FBR Limited ('FBR' or 'the Company') advises that the Memorandum of Understanding ('MOU') between FBR and the Kingdom of Saudi Arabia's Ministry of Housing has been discontinued, with a view to replacing it with a more suitable formal agreement with revised targets in due course.

One of the original objectives of the MOU was to construct the walls of 50,000 homes using the Hadrian X® in Saudi Arabia by 2022, which now appears unfeasible in the timeframe, and the difficulties the parties have faced in converting the non-binding MOU to a binding contract caused in part by the uncertainty of COVID-19 restrictions has led to FBR and the Ministry of Housing mutually agreeing to discontinue the non-binding MOU effective immediately. The parties still intend to collaborate on FBR's market entry to Saudi Arabia and remain in ongoing dialogue about a new MOU with revised objectives.

FBR remains committed to the Gulf Cooperation Council (GCC) region and the commercial opportunities for high volume Wall as a Service® supply in the GCC.

This announcement has been authorised for release to the ASX by the FBR Board of Directors.

About FBR Limited

FBR Limited (ASX: FBR) designs, develops and builds dynamically stabilised robots to address global needs. These robots are designed to work outdoors using the company's core Dynamic Stabilisation Technology® (DST®).

The first application of DST° is the Hadrian X°, a bricklaying robot that builds structural walls faster, safer, more accurately and with less wastage than traditional manual methods. The Hadrian X° provides Wall as a Service°, FBR's unique commercial offering, to builders on demand.
