Change Financial Limited

General Meeting

25 November 2021

Chairman's Address

Good afternoon my name is Ben Harrison and as Chairman, I am pleased to welcome you to the 2021 Annual General Meeting of Change Financial Limited.

The format for today's AGM will firstly cover the formal part of the meeting which is to consider and vote on the relevant resolutions set out in the notice of meeting. This will be followed by a short presentation from our CEO, Alastair Wilkie.

Before we move to the formal part of the meeting, I would like to acknowledge the hard work and effort of the Change Financial team over the last 12 months. As you can all appreciate FY21 was another busy and challenging year to advance our business against the backdrop of the continuing global pandemic.

FY21 was a pivotal year for Change as we completed transformative initiatives and laid strong foundations to capitalise on the shift in the global payments industry.

Following completion of the technology build of our issuer processing business in the US, we were able to accelerate our development road map through a highly strategic and complementary acquisition. Over the year we successfully integrated the acquisition with our existing technology and operations to create a leading and globally competitive payments solutions platform which includes Vertexon and PaySim, our testing platform.

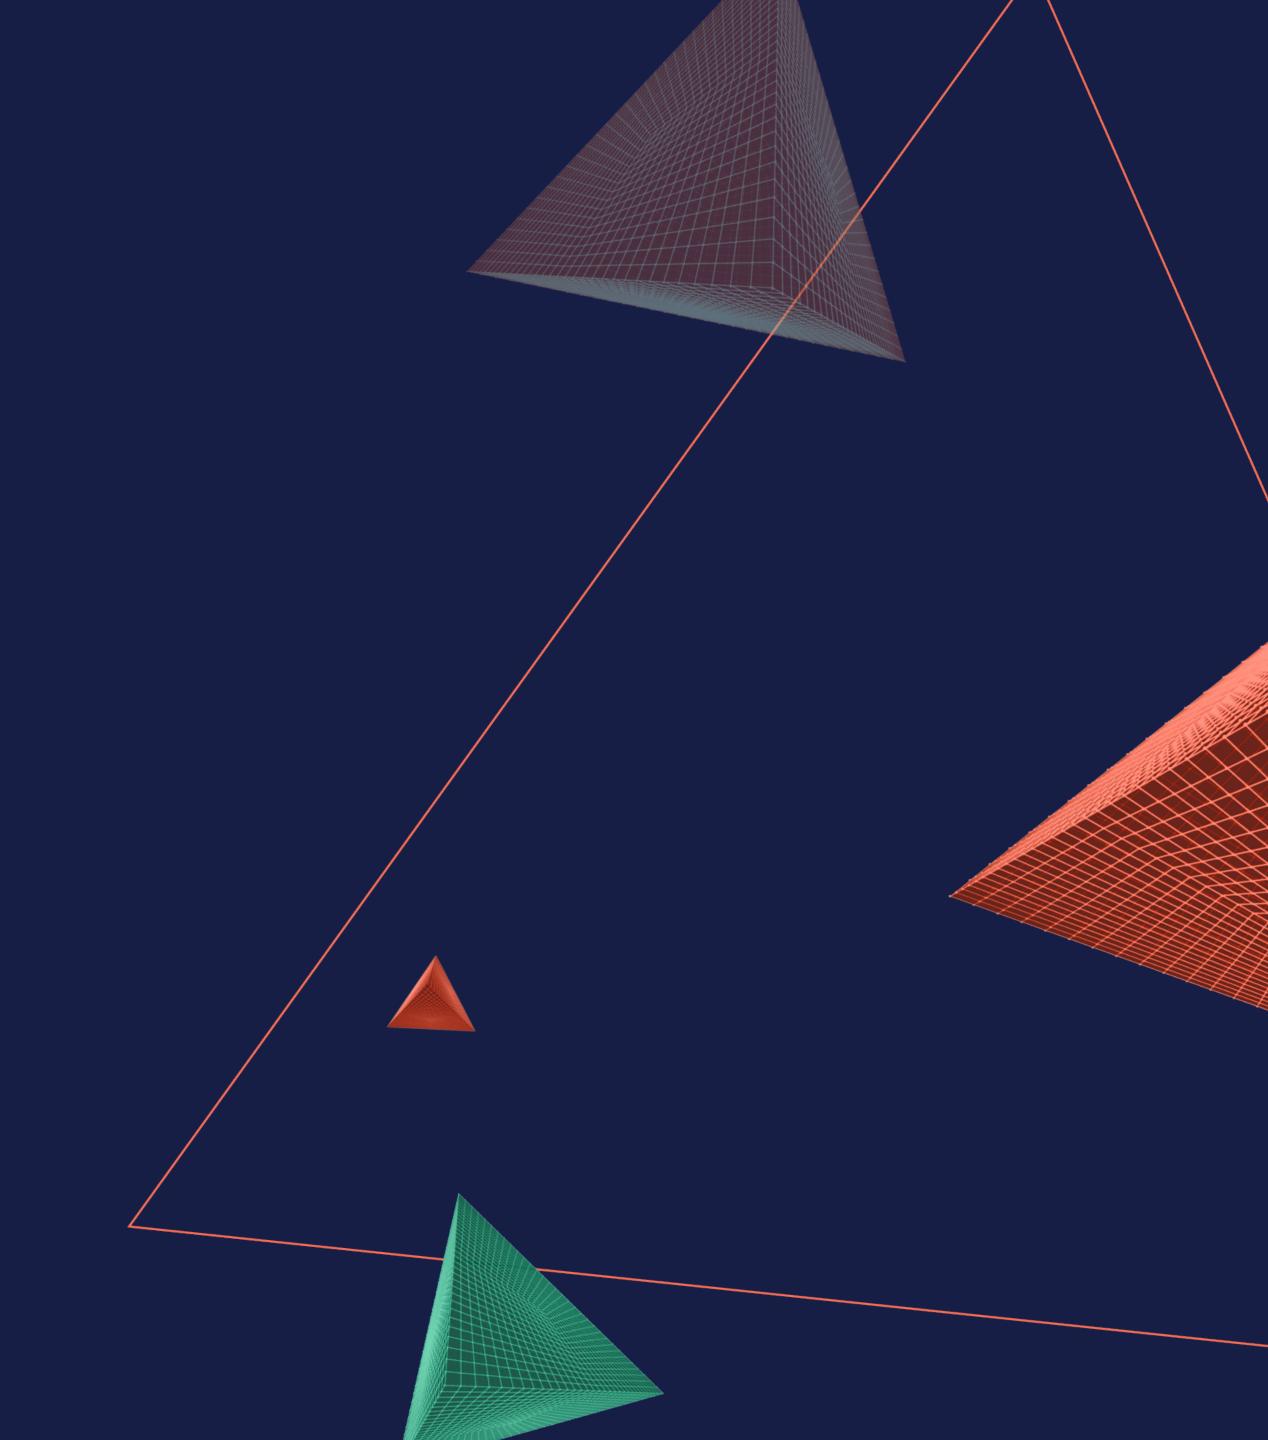

In the process, Change has also significantly expanded its client base across the globe and with our technology platform supporting valuable clients including leading Australian bank, ME Bank and Philippines based bank, BDO Unibank.

Change has also considerably strengthened its team increasing employees and has an impressive geographical reach with staff in Australia, New Zealand, Dominican Republic, the US, and Greece to service its growing global client base. Importantly we are making positive steps in enhancing the diversity and culture of the organisation. The Board will continue to support and encourage greater diversity in the organisation as it continues to grow.

I would like to thank shareholders for their support over FY21. The board believes that the company is in a strong position to capitalise on the foundation that it has created over the last few years and capitalise through accelerated growth in the global payments industry with our leading payments and testing solutions.
