In addition to the 102,011,786 New Shares that have been issued pursuant to acceptances under the Entitlement Offer, a further 1,798,294 New Shares have been issued for the purposes of Canaccord Genuity (Australia) Limited, in its role as nominee for non-eligible foreign shareholders of Focus, selling those further New Shares and remitting the net proceeds of sale to non-eligible foreign shareholders of Focus (see further, the Company's offer booklet released to the ASX on 3 December 2021). These further New Shares are to be quoted under the same separate class 'FMLNA' that the other New Shares have been issued under.<sup>1</sup>

As a result of the issue of these further New Shares:

- although Shandong Gold will still hold a total of 181,039,908 shares in the Company after the issue of all New Shares, this represents **63.18%** and not **63.58%** of the Company's expanded issued share capital (as announced on 30 December 2021).

#### About Focus Minerals Limited (ASX: FML)

Focus Minerals Limited is a Perth-based, ASX-listed gold exploration company focused on delivering shareholder value from its 100%-owned Coolgardie Gold Project and Laverton Gold Project, in Western Australia's Goldfields.

The Company is committed to delivering shareholder value from the Coolgardie Gold Project, a 138km<sup>2</sup> tenement holding that includes the 1.4Mtpa processing plant at Three Mile Hill (on care and maintenance), by continuing exploration and value-enhancing activities. An updated PFS in September 2020 highlighted the potential for a low capital cost, fast-tracked return to mining at Coolgardie and delivered an NPV<sub>7.5%</sub> of \$183 million. The Company's efforts are now focused on increasing production-ready Mineral Resources at Coolgardie and delivering the approvals and permits required for a resumption of gold-mining operations.

The Laverton Gold Project covers 362km<sup>2</sup> area of highly prospective ground that includes the historic Lancefield and Chatterbox Trend mines. The Company's priority target is to confirm sufficient gold mineralisation at the Beasley Shear Zone, Lancefield-Wedge Thrust, Karridale and Burtville to support a Stage 1 production restart at Laverton. In parallel, the Company is working to advance key Laverton resource growth targets including Sickie, Ida-H and Burtville South. The Company has delivered first results from a progressive Pre-Feasibility Study (Pre-Tax NPV<sub>5.0%</sub> A \$132M) and is advancing study work utilising Laverton's expanded Mineral Resource position.

#### ASX Listing Rule 5.19.2

Focus confirms that all material assumptions underpinning the production target or the forecast financial information derived from the Coolgardie 2020 PFS announced in September 2020 continue to apply and have not materially changed.
