

## Mining Permit Renewed

Anova Metals Limited (ASX: AWV) (**Anova** or the **Company**) is pleased to advise that the Company has received a five-year renewal of the existing mining permit at its 100%-owned Big Springs Gold Project (**Big Springs**) in Nevada, US.

Based on the submitted Environmental Assessment and a Finding of No Significant Impact, the United States Forest Service has issued the Final Decision Notice approving the renewal of the Company's Plan of Operations and Mining Proposal. This approval follows a final public comment and objection period, in which no objections were received.

The scope of the renewed mining permit is substantively unchanged and covers potential open pit and underground mining operations at the 601 and 701 deposits at Big Springs, in accordance with the detailed Plan of Operations. While Anova remains focussed on aggressive exploration and resource growth across its entire Big Springs tenure, the mining permit renewal maintains the Company's optionality with respect to accelerating first production and cashflow.

The renewed permit is effective for a five-year term commencing from 14 January 2022.

1. The information in this announcement that relates to the mineral resources for the Company's Big Springs Project was first reported by the Company in its resource announcement ("Resource Announcement") dated 26 June 2014. The Company confirms that it is not aware of any new information or data that materially affects the information included in the Resource Announcement, and in the case of estimates of Mineral Resources, that all material assumptions and technical parameters underpinning the estimates in the Resource Announcement continue to apply and have not materially changed.

### Competent Person Statement

The information in this report that relates to Exploration Result for the Big Springs Project is based on information compiled by Dr. Geoffrey Xue. Dr. Xue is a full time employee of Anova and a member of the Australasian Institute of Mining and Metallurgy and has sufficient experience of relevance to the styles of mineralisation and types of deposits under consideration, and to the activities undertaken to qualify as Competent Persons as defined in the 2012 Edition of the Joint Ore Reserves Committee (JORC) Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Dr. Xue consents to the inclusion in this report of the matters based on his information in the form and context in which they appear.

The information in this report that relates to Mineral Resources for the Big Springs Project is based on information compiled by Mr Lauritz Barnes, Principal Consultant Geologist – Trepanier Pty Ltd. Mr Barnes is a shareholder of Anova. Mr Barnes is a member of the Australian Institute of Geoscientists and has sufficient experience of relevance to the styles of mineralisation and types of deposits under consideration, and to the activities undertaken to qualify as Competent Persons as defined in the 2012 Edition of the Joint Ore Reserves Committee (JORC) Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Barnes consents to the inclusion in this report of the matters based on his information in the form and context in which they appear.
