BRISBANE Australia, 27 January 2022: Felix Group Holdings Ltd (ASX: FLX) ("**Felix**" or the "**Company**") is pleased to announce that it has secured a 3-year contract with GPT Group (ASX: GPT) ("**GPT**") for its enterprise procurement management platform.

GPT is Felix's first cornerstone customer in the real estate sector, representing significant expansion into a new and high value industries. In line with the Company's growth strategy, Felix continues to leverage the strong traction of its platform across initial focus sectors of commercial construction and engineering into new and adjacent industries. The contract with GPT demonstrates Felix's broad applicability across those sectors with large and complex procurement processes. The contract will generate an additional \$300k of ARR, equivalent to approximately 7% of total contracted ARR, with a total contract value of \$900k over 3 years.

GPT is one of Australia's largest diversified property groups with a portfolio of \$25.3 billion across 79 Australian office, logistics and retail assets. GPT's portfolio includes some of Australia's most recognised properties, including Australia Square in Sydney, Melbourne Central and Brisbane's ONE ONE ONE Eagle Street. The Company has significant pipeline of developments with over \$4.8 billion currently underway or planned, providing Felix with further organic growth opportunities.

Felix's Co-Founder and CEO, Mike Davis commented:

"We are very excited to announce our contract with GPT Group, which represents our first cornerstone customer in the high-value real estate sector. Felix's full suite of modules will be rolled out across GPT, highlighting the ability of our leading platform to be deeply embedded into our customers' ecosystems. This represents a strong start to the calendar year, and we are excited for momentum to continue into H2 FY22."

Under the contract, GPT will roll out Felix's full suite of modules across the organisation. Felix's platform will be integrated into GPT's third-party risk and compliance systems, deeply embedding the platform into GPT's procurement ecosystem. The new integrations being
