- **Post quarter end, appointed an experienced Chief Marketing Officer to lead an integrated sales and marketing approach**

Adveritas Limited (ASX: AV1) (Adveritas or the Company) is pleased to provide this quarterly activities report for the three months ended 31 December 2022 (Q2 FY22).

Record growth in annualised revenues continues

Adveritas signed several key contracts in Q2 FY22, which resulted in annualised revenue of approximately \$1.72 million at 31 December 2021. Post quarter end, annualised revenue further increased to circa \$1.85 million. This represents an 80% increase in annualised revenue since 30 June 2021, demonstrating the effectiveness of Adveritas' focused growth strategy and record trial pipeline, following its significant investment into sales initiatives.

The Company recorded revenue of \$960k in H1 FY22 which represents an increase of 108% on the \$462k revenue recorded in H1 FY21.

Continued growth in Freemium subscribers and appointment of CMO

Adveritas continues to rapidly grow its Freemium subscribers, a strong leading indicator of future revenue growth. The Freemium subscriber base provides a paying customer pipeline with significant cross and upsell potential, and a rich data set across multiple industry verticals and markets, enhancing the value of the Company's global, proprietary anti-fraud database.

Over Q2 FY22, Freemium subscribers increased by approximately 20% to over 3,140 providing a large base of users to convert into paying customers.

The appointment of Chad Kinlay as Chief Marketing Officer in January 2022 will help scale enterprise meetings for the Company's direct sales force in 2022. In addition, his efforts will drive the conversion of Freemium subscribers to paying customers and increase the conversion and retention ratios during the second half of 2022 and beyond.

Chad brings 18 years of marketing experience to Adveritas, having worked in senior roles across the banking, hotel, pharmaceutical and telecommunications industries. Chad was most recently Director of Marketing and Communications at Epsilon Telecommunications, where he headed up marketing and communications across APAC, USA, Europe and MEA and was responsible for significantly scaling the revenue of that business.

Equity raised to accelerate growth

During Q2 FY22, Adveritas raised a total of \$5 million, \$3.6 million of which resulted from the exercise of 36 million listed options (AVIO), and \$1.4 million through a placement of 14 million shares.

The placement funds were raised from parties who did not hold AVIO options but were interested in joining the Company's shareholder register. Strategic investor Record Point, a leading independent corporate advisory firm, alongside other professional high net worth sophisticated investors participated in the placement.

The Company's significantly strengthened capital position will support acceleration of sales growth initiatives including:

- Broadening of the digital marketing footprint and program;
- Hiring of additional sales representatives across Asia and Europe; and
- Supporting the roll-out of TrafficGuard on the Google Cloud Marketplace

Commentary

Commenting on the Company's rapidly accelerating growth, Adveritas Co-founder & CEO Mat Ratty said:

"Our growth momentum continues to build in FY22 with the launch of TrafficGuard on the Google Cloud Marketplace, further enterprise client wins and strong renewal rates from existing clients, leaving us in an excellent position to scale out TrafficGuard. We are successfully rolling out our enterprise strategy through our direct sales force, attracting market leading clients across our key target verticals. Several multi-billion dollar unicorns and a strong amount of mid level clients are currently trialling TrafficGuard, which if converted would support a continued rapid scale up of our annualised revenue. With a record sales pipeline and an increasing number of enterprise trials, we expect to see high conversion rates in the months ahead. Our recent reshaping of our sales team across Asia and Europe will also underpin expansion into new verticals and continued global growth."

Total operating expenditure payments	(2,086)	(3,220)	(2,321)	(2,637)

Total expenditure payments in Q2 FY22 were lower than previous quarters. Payments for the transition of the Company's server hosting function to Google Cloud Platform came to an end during Q1 FY22, resulting in a lower cash outflow in Q2 FY22 in the research and development and product manufacturing areas. Advertising and marketing payments were lower than previous quarters as the Company decided to hold off on executing a number of marketing initiatives until the Chief Marketing Officer commenced in Q3 FY22.

Payments to Directors during the quarter amounted to \$145k and comprised salaries and fees of \$119k (included in staff costs) and consultancy fees of \$26k (included in administration and corporate costs).

This announcement is authorised for lodgement by the Board of Adveritas Limited.

About Adveritas

Adveritas Ltd (ASX:AVI) creates innovative software solutions that leverage big data to drive business performance. Adveritas' ad fraud prevention software, TrafficGuard, is its first available software as a service. Early adopters of TrafficGuard include LATAM super-app, Rappi and APAC super-app, GO-JEK. Both businesses are well funded with \$2 billion and \$12 billion valuations respectively, and conducting aggressive user acquisition advertising for fast growth. In both cases, TrafficGuard was chosen after a rigorous procurement process that saw the effectiveness of our solution evaluated against a range of competing solutions.

For more information, see <https://www.adveritas.com.au/>

About TrafficGuard

TrafficGuard detects, mitigates and reports on ad fraud before it impacts digital advertising budgets. Three formidable layers of protection block both general invalid traffic (GIVT) and sophisticated invalid traffic (SIVT) to ensure that digital advertising results in legitimate advertising engagement. TrafficGuard uses

patent-pending technology and proprietary big data accumulated by the performance advertising business previously operated by the Company.
