###

About Skyfii

As the world's most trusted omnidata intelligence company, Skyfii collects and analyses billions of data points each month from a range of venue types across five continents.

Our SaaS cloud-based solution, the IO Platform, helps venues visualise, measure, predict, and influence customer behaviour, creating better experiences for their visitors and customers.

The IO Platform provides location and behaviour based communications software and tools to manage Wireless Access Points, 2D and 3D cameras, People Counting sensors, LiDAR, FishEye CCTV and Artificial Intelligence (AI) enabled cameras that monitor passenger, pedestrian, car, bicycle traffic and IoT sensors that detect building, room, desk occupancy and climate monitoring data across multiple locations.

Skyfii further augments insights generated by the IO Platform with its Data & Marketing Services offering: a team of data science and marketing consultants who help clients harness more value from their data.
