Commenting on the September quarter, Skyfii CEO and Managing Director Wayne Arthur said:

"I am delighted to present both a record revenue result and a positive net cash flow result during the second quarter. The acquisition of CrowdVision continues to drive new business and we were pleased to welcome two of the top ten airports in the USA to our growing airport portfolio during the quarter. Our core business delivered a number of blue chip customers including deals with McDonald's restaurants and property REIT Majid Al Futtaim, both in the UAE and our Australian operations also maintained a steady growth trajectory.

Our rolling 12 month deal pipeline, which now stands at over \$37m in advanced stage deal value, continues to grow. In particular, our people counting and venue analytics data products, which are helping venues maintain safe and compliant operations and deliver improved levels of customer experience.

In addition to the employees who transitioned with the CrowdVision acquisition, our investment for growth in 1H FY22 saw the company add an additional 12 headcount from April 2021. The investment for growth has helped bolster our sales, marketing and customer support functions, particularly in our international operations. And with the results delivered during the quarter, along with our current financial trajectory, is a reflection of that investment. Our 4 year CAGR has been extremely strong and I am pleased to see us return to delivering profitable growth".

Cash Position

The Company maintained a strong balance sheet with \$5.4m of cash as at 31 December 2021 (\$5.8m at 30 September 2021). The small reduction in net cash quarter on quarter was primarily due to the final settlement costs of \$314k for the Blix Acquisition (ref ASX release 16 September 2020) plus other investing activities.

In addition, Skyfii has access to a \$2m loan facility, which remains fully undrawn.

Net Cash from Operating Activities

The Company delivered a significantly improved result in net cash from operating activities. This was attributed to:

1. Improved performance in accounts receivable including a catch up in collections from Q1 FY22;
2. Increases sales conversion, delivering QoQ revenue growth of 18%;
3. As part of the completion of the CrowdVision acquisition a total of \$3.1m in non-recurring payments were required to settle CrowdVision's legacy net debts (including aged payables). The \$3.1m cost was offset against the total purchase price paid to the vendors of CrowdVision. However, under the accounting standards, these payments were required to be classified as cash outflows from operating activities. The outflows of \$3.1m have to date been settled/paid as follows: \$1.3m in Q4 FY21, \$1.3m in Q1 FY22, and \$220k in Q2 FY22. Two final payments remain outstanding of approximately \$210k in Q3 FY22 and \$70k in Q4 FY22.
