Analysis based on 'primary' share class (Class I Shares, Institutional Shares or share class with longest history for US Trusts; Class A Shares or share class with longest history for Dublin based; primary share class as defined by Morningstar for other funds). Performance may vary by share class. Rankings may be based, in part, on the performance of a predecessor fund or share class and are calculated by Morningstar using a methodology that differs from that used by Janus Henderson. Methodology differences may have a material effect on the return and therefore the ranking. When an expense waiver is in effect, it may have a material effect on the total return, and therefore the ranking for the period.

ETFs and funds not ranked by Morningstar are excluded from the analysis. Capabilities defined by Janus Henderson. © 2021 Morningstar, Inc. All Rights Reserved.

ALTERNATIVE PERFORMANCE MEASURES

Footnotes to reconciliation of adjusted financial measures

- ¹ JHG contracts with third-party intermediaries to distribute and service certain of its investment products. Fees for distribution and servicing related activities are either provided for separately in an investment product's prospectus or are part of the management fee. Under both arrangements, the fees are collected by JHG and passed through to third-party intermediaries who are responsible for performing the applicable services. The majority of distribution and servicing fees collected by JHG are passed through to third-party intermediaries. JHG management believes that the deduction of distribution and service fees from revenue in the computation of adjusted revenue reflects the pass-through nature of these revenues. In certain arrangements, JHG performs the distribution and servicing activities and retains the applicable fees. Revenues for distribution and servicing activities performed by JHG are not deducted from GAAP revenue.
- ² Adjustments primarily represent rent expense for subleased office space. In addition, the adjustments for the three months ended 30 September 2021 and the year ended 31 December 2021 include a one-time charge related to the employee benefits trust. JHG management believes these costs are not representative of the ongoing operations of the Group.
- ³ Investment management contracts have been identified as a separately identifiable intangible asset arising on the acquisition of subsidiaries and businesses. Such contracts are recognised at the net present value of the expected future cash flows arising from the contracts at the date of acquisition. For segregated mandate contracts, the intangible asset is amortised on a straight-line basis over the expected life of the contracts. Adjustments also include impairment charges of our goodwill and certain mutual fund investment management agreements, client relationships and trademarks. JHG management believes these non-cash and acquisition-related costs are not representative of the ongoing operations of the Group.
- ⁴ Adjustments primarily represent contingent consideration adjustments associated with prior acquisitions. JHG management believes these costs are not representative of the ongoing operations of the Group.
- ⁵ The tax impact of the adjustments is calculated based on the applicable US or foreign statutory tax rate as it relates to each adjustment. Certain adjustments are either not taxable or not tax-deductible.

Total long-term incentive compensation	366	196	109	45	13	3

Note: Annual grants generally vest over three and four years. Assumed no forfeitures in future periods. Assumed no change in future values related to market or currency, which would impact expense related to cash-based awards (MFSA's, DIP and DEP funds) and social security expense upon vesting.

¹ Estimated 2022 annual grant based on amounts expected to be granted associated with the annual award process. Actual awards are expected to be between US\$210m and US\$220m.

² Includes retention and recruiting awards; other subsidiary grants and social security expense. Social security expense is estimated based on amount of existing awards expected to vest in that year.
