walkabout
RESOURCES LTD

ASX:WKT

ASX Market Announcements
Level 40, Central Park
152-158 St Georges Terrace
Perth WA 6000

Dear Sir

Retraction of Annual General Meeting 2021 Presentation

Walkabout Resources Ltd (ASX: WKT, “Walkabout” or “the Company”) refers to the Annual General Meeting Presentation released to the market on 30 November 2021 titled “Charging Towards Production – A Front Runner for Large Flake Graphite Supply Globally”.

Following consultation with the ASX, the Company has retracted the Company Presentation and will re-release to exclude the Peer Comparison information on slides 20 and 21 with reference to the ASX Compliance Update 19 September 2018 (Update no. 08/18). These slides did not comply with the ASX guidance on disclosing peer comparisons. Investors should not rely upon the retracted information for any investment decision regarding the Company. An updated version of the Company Presentation is attached.

In addition, information on exploration targets presented in slide 18 have been updated to address the requirements of clause 17 of the JORC Code.

Any material updates relating to the Company’s activities subsequent to the original release of this presentation on 30 November 2021, have been announced to the ASX as required under the continuous disclosure regime.

This announcement has been authorised for release by the Board.

For and on behalf of the Board of Walkabout Resources Ltd.

Shaun Menezes
Company Secretary

CHARGING TOWARDS PRODUCTION

A FRONT RUNNER FOR LARGE FLAKE GRAPHITE SUPPLY GLOBALLY

ANNUAL GENERAL MEETING – 30 NOVEMBER 2021

DISCLAIMER

Securities Disclaimer

This presentation is for informational purposes only and does not constitute an offer to sell, or solicit to purchase, any securities. Such offer can be made only through proper subscription documentation and only to investors meeting strict suitability requirements. Any failure to comply with these restrictions may constitute a violation of applicable securities laws.

Forward looking Statements

Various statements in this presentation constitute statements relating to intentions, future acts and events. Such statements are generally classified as “forward looking statements” and involve known and unknown risks, uncertainties and other important factors that could cause those future acts, events and circumstances to differ materially from what is presented or implicitly portrayed herein. The company gives no assurances that the anticipated results, performance or achievements expressed or implied in these forward-looking statements will be achieved.

Competent Persons

The information in this report that relates to Exploration Results, Mineral Resources or Ore Reserves is based on information compiled by Mr Andrew Cunningham, who is a Member of The AIG included in a list promulgated by the ASX from time to time. Andrew Cunningham is a director of Walkabout Resources Limited and has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the “Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves”. Andrew Cunningham consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

The information in this report that relates to Exploration Results and Exploration Targets is based on and fairly represents information and supporting documentation prepared by Mr Andrew Cunningham (Director of Walkabout Resources Limited). Mr Cunningham is a member of the Australian Institute of Geoscientists and has sufficient experience of relevance to the styles of mineralisation and types of deposits under consideration, and to the activities undertaken to qualify as Competent Persons as defined in the 2012 Edition of the Joint Ore Reserves Committee (JORC) Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Cunningham consents to the inclusion in this report of the matters based on his information in the form and context in which they appear.

The information in this report relates to the Metallurgical test work and results are based on information compiled by Dr Evan Kirby, a Competent Person who is a member of the Australian Institute of Mining and Metallurgy. Dr Kirby is a full-time employee of Metallurgical Management Services, a specialist metallurgical consultancy and an independent consultant to Walkabout Resources Ltd. Dr Kirby has sufficient experience that is relevant to the style of mineralogy and type of deposit under consideration and the typical beneficiation thereof. Dr Kirby consents to the inclusion in the report of matters based on his information in the form and context in which it appears.

THE LINDI JUMBO GRAPHITE MINE

DEBT FUNDING SECURED

LINDI JUMBO LIMITED HAS SECURED A \$20M DEBT PACKAGE OFFER FROM CRDB BANK PLC, A LOCAL TANZANIAN BANKING INSTITUTION AND LARGE RETAIL BANK.

LOAN AMOUNT
US\$20 MILLION

TERM OF
42 MONTHS

INTEREST RATE
8% P.A.*

ASSETS, CORPORATE GUARANTEE,
SBLC, CHARGE OVER ACCOUNTS

STANDARD SECURITY PACKAGE

COMPANION EQUITY OF
US\$12MILLION CONTRIBUTED
AND USED FOR CONSTRUCTION

STANDARD CONDITIONS
FOR A TRANSACTION OF
THIS NATURE

CURRENT STATUS

- One CP outstanding (SBLC)
- SBLC under negotiation to be executed just prior to drawdown (time-based cost)
- Drawdown of debt to commence in January
- All fund drawdowns (equity and debt) verified and approved by CRDB appointed Independent Project Manager

**Inclusive of 12-month grace period (capitalised)*

LINDI JUMBO - DIFFERENTIATING FACTORS

GRADE WILL ALWAYS CARRY THE DAY - THE LOWEST COST AND HIGHEST MARGIN PROJECTS ARE ALMOST ALWAYS THE ONES WITH THE HIGHEST GRADE.

RESOURCE

- Exceptional Orebody – High Grade
- Low Operating Cost and CAPEX
- Highly amenable metallurgical characteristics

MINING

- Simple, from surface – low operating cost
- High grade mining (~ 18% TGC for LOM of 24 years)
- Low risk – small mining fleet and very modest tonnes moved

PROCESSING

- Small, appropriately sized, simple processing facility – low operating cost and CAPEX
- Improved control and management
- High grade ROM feed assists process efficiency

PREMIUM

- Outstanding product mix – covers majority of the end-user markets
- Largely skewed towards the larger flake sizes – Premium Sales Price

PRAGMATIC SCALE

EPC AND CONSTRUCTION MILESTONES ON TRACK

FUTURE LEADER IN SUPPLY OF HIGH QUALITY, LARGE AND JUMBO FLAKE GRAPHITE CONCENTRATE TO INTERNATIONAL MARKETS, SUPPLEMENTING THE PREMIUM SUPPLY LINE WITH QUALITY BATTERY FEEDSTOCK.

CONSTRUCTION PROGRESS - TANZANIA

PROGRESS TO SCHEDULE WITH NO COST OVERRUNS TO ORIGINAL GUIDANCE

CONSTRUCTION

- *Plant platform and roads* - **NEARING COMPLETION**
- *Terra Trel wall (ROM Wall)* – **ON SCHEDULE**
- *Road slab – low water bridge* – **COMPLETED**
- *TSF – Topsoil removal and stockpiling* – **ON SCHEDULE**
- *Diversion road* – **IN USE**
- *Raw water storage dam* – **ON SCHEDULE**
- *Concrete works* - Scheduled for start in December
- *Grid power to site* – Scheduled for delivery in December

CONSTRUCTION CONTRACTS

- Terms of all major construction contracts finalised (Logistics, Accommodation Camp) - costs in line with existing guidance.
- Independent Project Manager appointed by CRDB.
- Lindi Jumbo Construction Manager (Civil Engineer) appointed – Start beginning December.
- BOOT option under negotiation for supply of hybrid power solution (Fuel, Solar and Battery Storage).

UPCOMING ACTIVITIES

- Jinpeng Civil Engineer on site early December.
- Concrete works at Processing Plant Area to commence.
- Logistics Contractor – detailed planning to receive first shipment and local warehouse storage.

CONSTRUCTION PROGRESS - CHINA

PROGRESS TO SCHEDULE AND IN LINE WITH ORIGINAL GUIDANCE

CONSTRUCTION AND SHIPPING SCHEDULE

- Axis Group International appointed as company representative in China overseeing EPC project management including QA/QC and loading supervision.
- QC Completed on equipment ready for shipment.
- Equipment assembled, checked and disassembled in China before shipment.
- First shipments to reach Tanzania in first half of January (IN LINE WITH CONSTRUCTION SCHEDULE IN TANZANIA)
 - One un-containerized shipment (mobile equipment and larger plant equipment).
 - One containerized shipment with plant equipment.
 - Equipment to be stored in warehouse in Tanzania until needed on site - coordinated by contracted logistics company in Tanzania.
- Nine more containerized shipments planned in close succession
- Construction – ON SCHEDULE

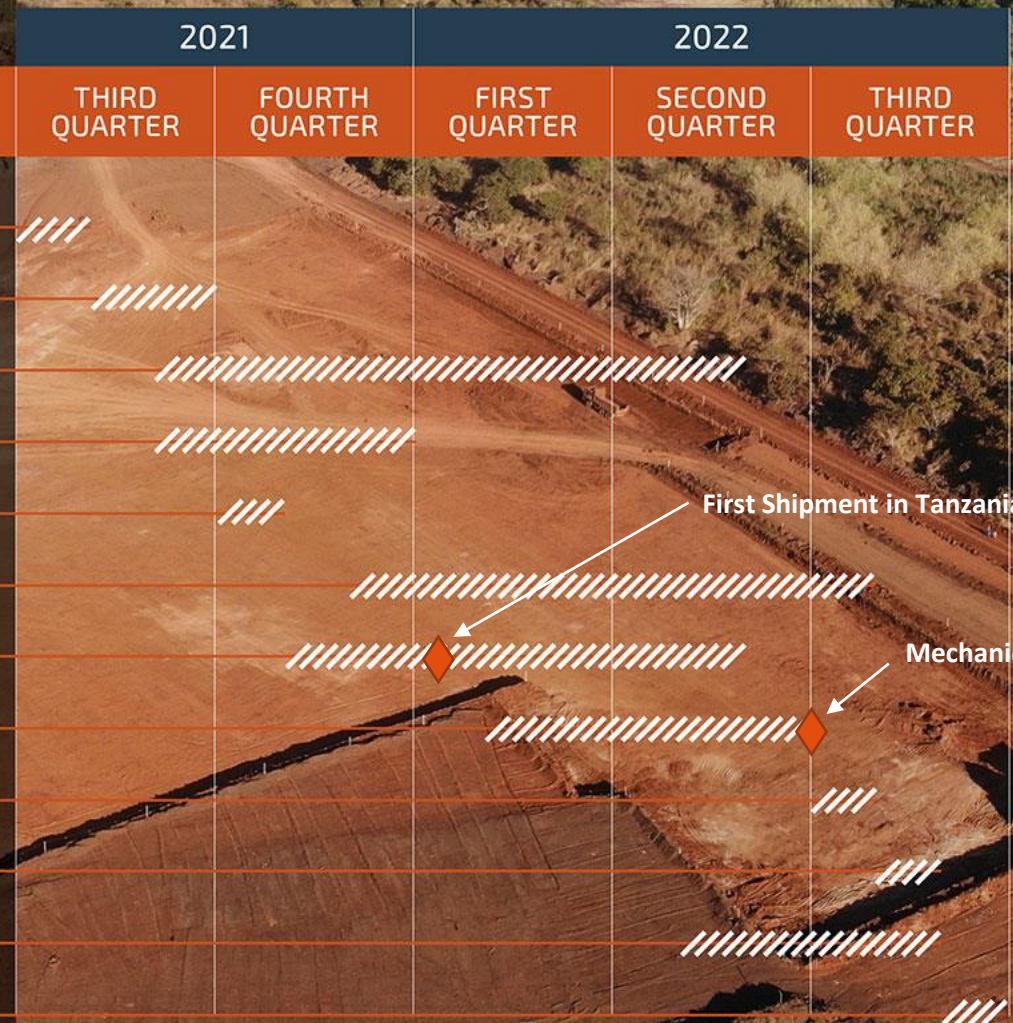

DEVELOPMENT SCHEDULE

- Other shared infrastructure
- Logistics and shipping of all consignments
- Mechanical Installation
- Dry Commissioning
- Wet Commissioning
- Camp Construction
- First Concentrate

First Shipment in Tanzania

Mechanical Completion of Plant

LINDI JUMBO – DE-RISKED AND DEVELOPMENT ON TRACK

DELIVERING WHAT WE PROMISE

ACTIVITY	STATUS
DEBT AND EQUITY FUNDING	✓ COMPLETE (August 2021)
LARGE HIGH-GRADE ORE RESERVE	✓ LOW OPEX AND CAPEX with huge upside/expansion potential
LONG LIFE OF MINE OF 24 YEARS	✓ Conservative estimate based on ~37% of Measured and Indicated Mineral Resources only
ALL GOVERNMENTAL LICENSES, APPROVALS AND PERMITS IN PLACE	✓ COMPLETE
INDEPENDENT BANK OPPOINTED ENGINEERING REVIEW COMPLETED BY SRK CONSULTING.	✓ COMPLETE - no fatal flaws identified
MATERIAL CONTRACTS EXECUTED	✓ COMPLETE <ul style="list-style-type: none">• Earthmoving and civils, EPC. Terms agreed for minor contracts (Logistics and Camp).• Costs in line with existing guidance
75% OF OFFTAKE SUBJECT TO BINDING OFFTAKE TERM SHEETS OR AGREEMENTS.	✓ ONGOING <ul style="list-style-type: none">• Balance of offtake subject to active MoU's.• Offtake being supplied into diversified product and geographic markets.• Offtakes to be priced in rising graphite price environment.
COVID VACCINATION	✓ ONGOING - All Lindi Jumbo employees and majority of active contractors are fully vaccinated.
CONSTRUCTION	✓ ONGOING – On schedule and costs in line with existing guidance

BINDING OFFTAKE AGREEMENTS

ON TRACK TO BE PRICED 1H 22 – IN RISING MARKET

ASX:WKT

WOGEN PACIFIC LTD

- Leading international trader and long-established marketer of off exchange specialty metals and minerals
- Strong presence in Asia, Europe and the USA which includes significant logistics infrastructure, buying networks and industry relationships.
 - Binding Global Sales, Purchase and Marketing Agreement
 - Minimum 10,000 TPA and up to 30,000 TPA for a term of 5 Years
 - Working Capital Facility for 80% of value for each consignment of concentrate contracted, to be paid following receipt of shipping documents.

INNER MONGOLIA QIANXIN GRAPHITE CO. LTD

- Private company based in Xinghe County, Inner Mongolia, China
- 100% owned by Beijing Zhongyuan Longgang Mining Science and Technology Co., Ltd.
- IMQG has been upgrading facility with a total capacity of 30,000 TPA
 - Binding Term Sheet for Offtake Agreement for a minimum of 10,000 TPA and maximum 20,000 TPA for a 3 Year term.

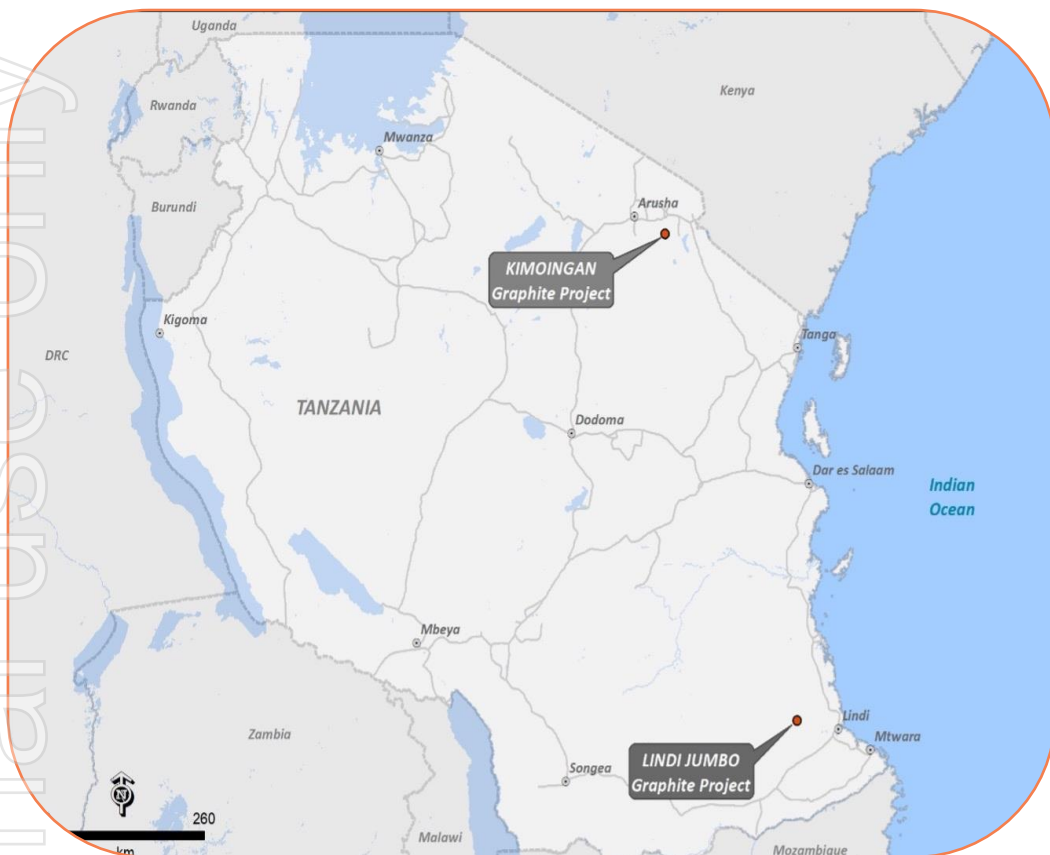

- Qingdao Rising Dawn Graphite Technology Co. Ltd
- private company based in the Shandong Province of China.
- QRGT is well known for its high quality and advanced upgrading techniques and are seen to be leaders in the Chinese export graphite market
 - Binding Term Sheet for Offtake Agreement for a minimum of 10,000 TPA for a 3 Year term.

GRAPHITE RESOURCE BASED GROWTH POTENTIAL

THE GROWTH POTENTIAL WITHIN OUR EXISTING GRAPHITE TENEMENT HOLDINGS ENABLES WALKABOUT TO BECOME A PROMINENT FORCE WITHIN THE GRAPHITE INDUSTRY, NOT ONLY IN EAST AFRICA, BUT GLOBALLY.

TARGET AREA	STRIKE LENGTH CONDUCTIVE ZONES	Mt IN SITU			Quality ¹
		LOW	MID	HIGH	Flake retention > 300 µm
WEST- ML579 AND PL11409/2020	4.5KM	15	22	29	~ 50-70%
EAST - PL9993/2014	10.8 KM	35	53	71	~ 50-70%
KIMOINGAN PL11119/2017	-	22	36	72	~ 20-30%
TOTAL		72	111	172	

¹ Quality is based on the similar reported graphite deposits in the immediate vicinity of the exploration target areas.

The Exploration Target is based on geological and structural mapping, rock chip sampling, geophysical survey data, 3D modelling of conceptual mineralisation shells, historical reports and publicly available reports of Mineral Resources in proximity to the Exploration Targets. Target testing will occur through further mapping and sampling, possible geophysical surveys, and if warranted drill testing. The timing of these programs are dependent on the availability of funds, commodity market conditions and current travel restrictions. **Also see ASX announcement of 09 June 2021.**

*Note: The **potential quantity and quality** of the quoted Exploration Target Range outside of the Gilbert Arc Mineral Resource Area is conceptual in nature as there has been insufficient exploration to define a Mineral Resource and it is uncertain if further exploration will result in the determination of a Mineral Resource over any of the additional target areas. It should not be expected that the quality of the Exploration Target is equivalent to that of Mineral Resources. Exploration targets could be tested with future exploration activities in alignment with the company's exploration and business strategy.

GRAPHITE GROWTH OPPORTUNITIES

GROWTH OPPORTUNITIES INTO EXISTING AND FORECASTED EXPANDING MARKETS.

GROWTH POTENTIAL SCENARIOS

- **Excess spare capacity** of ~ 23% in current plant utilization – No extra capex.
- **Modular expansion** of existing processing circuits - low capex.
- **Conversion of existing JORC resource** (36mt) to reserves - low capex¹.
- **Near-mine drilling** of known graphite occurrences – potential addition to mineral resource of 15 to 29mt of high-grade large flake graphite - low capex.¹
- Drilling on **neighbouring licences** (~ 20 km radius) - potential addition to mineral resource of 35-71mt of high-grade large flake graphite - low capex.¹
- Drilling of **Kimoingan Project** - potential addition to mineral resource of 22-72mt of med-grade large flake graphite - low capex – *Standalone Operation* – mid capex.¹
- Processing of ~ 8mt of **low-grade stockpiles** at 6% TGC - no capex²
- Downstream development of an **Expandable Graphite plant** - mid capex
- Further downstream opportunities - ?

*Note: The **potential quantity and quality** of the quoted Exploration Target Range outside of the Gilbert Arc Mineral Resource Area is conceptual in nature as there has been insufficient exploration to define a Mineral Resource and it is uncertain if further exploration will result in the determination of a Mineral Resource over any of the additional target areas. It should not be expected that the quality of the Exploration Target is equivalent to that of Mineral Resources. Exploration targets could be tested with future exploration activities in alignment with the company's exploration and business strategy.^{1 and 2} See ASX announcements of 7 March 2019 & 09 June 2021.

ESG APPROACH

WALKABOUT'S ESG PHILOSOPHY

A RESPONSIBLE DEVELOPER OF ESSENTIAL AND CRITICAL MINERALS + METALS

- ESG is an inextricable part of how we do business.
- Working in two different continents both developed and developing sees us remain agile in our focus and expenditure in social and environmental aspects.
- The nature of an economy can influence the priority and scale of investment, e.g. more urgency at the social level for developing economies
- Our attention to governance factors is universal and constant

STRONG ESG PROFILE IN TANZANIA

OUR STRATEGY IS ALIGNED TO THE UNITED NATIONS SUSTAINABLE DEVELOPMENT GOALS

ASX:WKT

EMPLOYING +
UPSKILLING LOCAL
PEOPLE FIRST

- Employing and upskilling local Tanzanians for future generations
- Recruiting Tanzanian first, national second and international third mantra
- Tanzania based management team

TREADING LIGHTLY TO
GLOBAL STANDARDS

- Adopted and contextualised the 17 SDGs for Lindi Jumbo
- Implementing initiatives to lower carbon footprint + minimise impacts
- Natural graphite has superior environmental credentials

SOCIALLY ENRICHING
LOCAL COMMUNITIES

- MOU signed with 3 villages and 5% ownership by Village Trust
- Developing local micro-agriculture enterprises
- Sponsoring employee children at College for Tertiary Education

SAFETY FIRST

- COVID-19 Plan in place for all operations in Tanzania
- Risk Mitigation strategy devised by Lindi Jumbo Project Team
- Comprehensive site risk audits and Australian Standards benchmarked
- On-site training in English and Upskilling

TANZANIAN COVID-19 VACCINATION PROGRAM

100% OF THE LINDI JUMBO PROJECT TEAM ARE VACCINATED

- Committed to educate and protect workers and communities as construction ramps up
- Walkabout engaged local district health authorities to administer the clinics in October.
- Education and demystification about the virus has been a key driver of the vaccine uptake.
- Plans to extend the sessions to surrounding villages which could reach <8,000 locals and include Hep B
- Tanzanian vaccination rate still low with around 1% of population fully vaccinated.

A WELL KNOWN AND RESPECTED CORPORATE CITIZEN

HONOURABLE KASSIM MAJALIWA, TANZANIAN PRIME MINISTER

“Lindi Jumbo’s local initiatives and considerations, such as its 5% ownership by the village trust are setting the standard of how to operate in country.”

**OTHER PROJECTS –
UNLOCKING
EXPLORATION VALUE**

SCOTLAND

HIGH GRADE LEAD-ZINC AND SILVER WITH EXCITING GOLD OPPORTUNITIES

Large landholding (3 tenements, 750 km²)

Polymetallic region, numerous historical workings

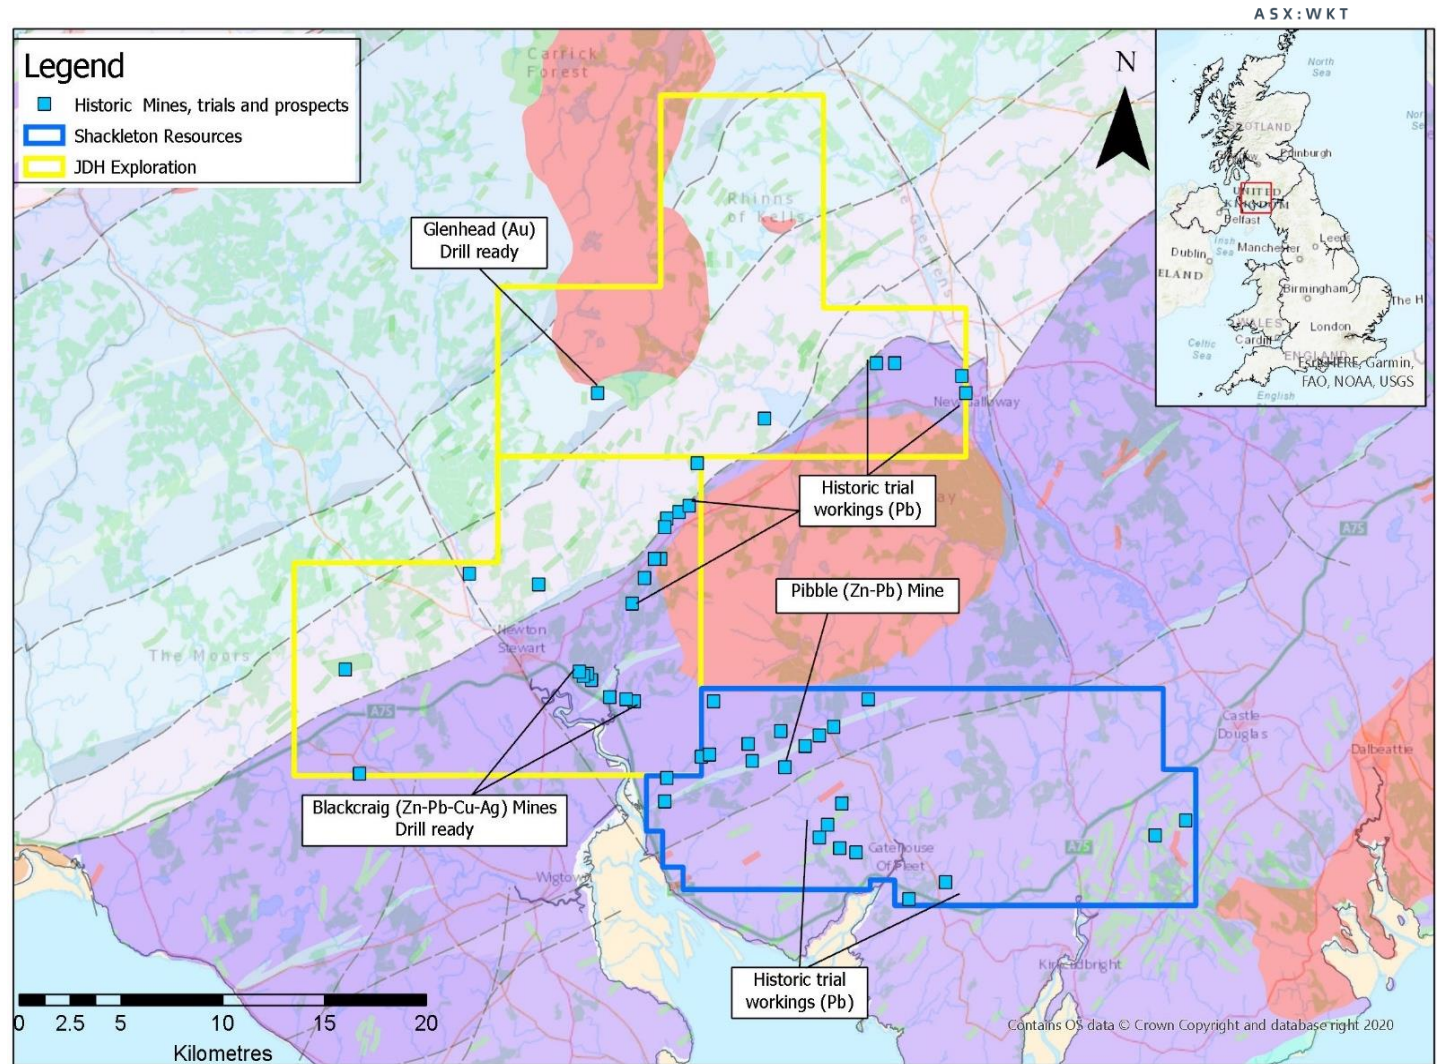

Several targets identified by BGS regional survey (streams): Cu-Au

No regional exploration undertaken since 1970s, no controls/models on known mineralisation, limited outcrop

Regional potential unknown, along strike and parallel systems around known mines unknown

2,500m diamond drilling program underway (Blackcraig Project)

Regional airborne magnetic survey underway.

SCOTLAND – BLACKCRAIG

HIGH GRADE LEAD-ZINC AND SILVER WITH EXCITING GOLD OPPORTUNITIES

BLACKCRAIG (Pb-Zn-Ag)

Legacy mining area (1800's and early 1900's)

Several mines worked independently over 2km strike extent

Mined over 14,000t of Pb, 1,200 t of Zn, 2,000t of Cu

Historically reported high grades up to 74% Pb, 109 g/t Ag, 25-31% Zn and 3.5g/t Au

2,500m drilling program underway at old Blackcraig-west mine (four holes complete and assays expected starting early 2022)

Fig. 7.—Sections showing the workings in the East and West Blackcraig Mines (Newton Stewart), with a diagrammatic plan showing the relations of the whin dyke to the ore.

GLENHEAD (Au)

BGS target – minor drilling campaign in 1970's

Grades of up to 5.85 g/t Au

Rock Chip samples of 12.8 g/t Au

Drill ready

AMANI - TANZANIA

UNEXPLORED GOLD REGION

Historical alluvial gold mining area (1990's)

Estimated > 2.5 tonnes of gold removed from one 2km stretch of alluvial workings adjacent to WKT tenure.

Regional Area has never been subjected to modern exploration techniques

Potential to host high grade orogenic gold similar to Lupa Goldfields (Shanta Gold) 300km to the NW

Few historical "shafts or adits" from the pre-WW1 era

Few artisanal shafts into known hard rock gold occurrences (Samples up to 13g/t Au by WKT geologists).

AMANI - TANZANIA

LIKENED TO THE LUPA AND MPANDA GOLDFIELDS TO THE NORTHWEST

EXPLORATION ACTIVITY – A SYSTEMATIC APPROACH

- ✓ REGIONAL GEOPHYSICAL INTERPRETATION AND TARGETING COMPLETE
- ✓ REGIONAL REMOTE SENSING AND TARGETING COMPLETE
- ✓ BASELINE SOIL SAMPLING COMPLETE
- ✓ BASELINE STREAM SEDIMENT SAMPLING COMPLETE
- ✓ TARGET TESTING UNDERWAY
