In accordance with the requirements of AASB 16, the costs associated with leases of displays, commercial offices and fleet that were previously presented within EBITDA have been excluded from EBITDA shown in FY20 and 1HFY20 as these costs are now reflected within depreciation and amortisation (D&A) and Interest expense. 3 Year strategic focus for delivering shareholder value

Improve profitability to earn the right to grow and reclaim industry leadership.

In response to the rapid and significant changes currently affecting the construction industry, the company has recognized the need to transform the business to improve resilience and profitability. To accomplish this, a dedicated transformation team has been established to:

1. Uplift Capability
2. Enhance Systems
3. Embed Innovation

This initiative will initially address the first horizon of the broader business strategy by “fixing the core” before evolving into a framework to underpin growth and foster innovation.

Current trading conditions and outlook

Focus on core activities and profitable sales channels

Uncertainties with the ongoing COVID-19 pandemic make forward-looking statements problematic. COVID-19 impacts on 2HFY22 may include:

- Ongoing supply chain impacts on the industry in general
- Increased or ongoing infection rates leading to a number of workers and trades isolating and unable to work

Heightened demand has continued post the HomeBuilder stimulus, which has resulted in pressure on trades that have prolonged build periods and impacted trade rates

Industry groups and analysts¹ are forecasting continued positive housing growth in FY22, with a potential slight decline in FY23 and FY24.
