Zoom2u Founder and CEO Steve Orenstein said:

“I am really excited to witness the growth in our core businesses.

H2 FY22 has started well for the Zoom2u business, with continued growth in GMV being achieved versus the pcp.

The Locate2u sales team is gaining traction with a range of small, medium and large businesses that recognize the need to offer transparent and efficient deliveries to their customers.

Whilst we have only owned the Local Delivery Shopify App for a few months, we are working on developments to the product which will benefit existing and new customers. Our early discussions with Local Delivery customers suggests a cross selling opportunity for the Locate2u product.

Our first Locate2u sales representative has commenced in the US and the Indian sales team continues to build its pipeline.

I look forward to keeping Zoom2u shareholders up to date on our progress.”
