Directors' Report

31 December 2021

The Directors present their report together with the consolidated financial statements of the Group comprising of Next Science Limited (**Next Science/Company**), and the entities it controlled at the end of, or during, the year ended 31 December 2021 (**Group**). All amounts are presented in US dollars (USD) unless otherwise stated.

Directors

The Directors of the Company at any time during or since the end of the financial year are:

Mark Compton (Chair)

Judith Mitchell

Bruce Hancox

Daniel Spira

Aileen Stockburger

George Savvides (Chair) Retired 5 May 2021

Dividends

No dividends were paid or declared since the commencement of the year and the Directors do not recommend the declaration of a dividend.

Operating and financial review

Principal activities

The principal activities of the Group during the course of the year were the research, development and commercialisation of technologies which solve issues in human health caused by biofilms. The Company is headquartered in Sydney, Australia and has a research and development centre and sales and marketing functions located in Florida, USA.

Significant changes in the state of affairs and COVID-19 impact

Revenues grew by 160% in 2021 with sales contributions across all of Next Science's products in market and good progress was made in building market awareness for our XBIO™ brand as an answer to the biofilms and bacteria that directly lead to the need for revision (repeat) joint replacement surgeries and for our newly launched product, XPERIENCE™. Revenues showed some early signs of recovery from the negative impacts during 2020 brought about by the COVID-19 shutdown in the USA of elective medical procedures and closure of outpatient wound care clinics. COVID-19 continued to have impact on revenues and establishing relationships with clients, distributors and others in 2021. Whilst COVID-19 is likely to continue to provide a level of disruption during 2022, we expect our customer following to continue to grow across all of our direct product lines as we continue to partner with our customers to provide them with the best tools to serve their patients.

The Group made progress in expanding our addressable market opportunities and taking more direct control of distribution. During March/April 2021, the global distribution rights to Blast-X transitioned back to Next Science from 3M and Next Science resumed a direct distribution model, selling Blast-X directly to US hospitals and wound care clinics.

On 23 April 2021, Next Science received 510(k) clearance from the U.S. Food and Drug Administration (**FDA**) for the sale of XPERIENCE™ in the USA and soon thereafter, Next Science began selling XPERIENCE™ directly to US hospitals and Ambulatory Service Centres.

The former Chair of Next Science, George Savvides AM, did not seek re-election at the Company's 2021 Annual General Meeting on 5 May 2021 and retired at the conclusion of the meeting. Mark Compton AM was elected by the Board to the role of Chair thereafter.

On 26 May 2021, Next Science received Therapeutic Goods Administration (TGA) clearance for Blast-X permitting sales in Australia.

In June 2021, Next Science agreed to open negotiations with Zimmer, Inc (**Zimmer**), Next Science's distribution partner for the Bactisure product, in relation to the commercialisation and distribution rights to XPERIENCE™. The negotiations followed the filing of a complaint by Zimmer in the United States District Court, Northern District of Indiana, alleging that they had global commercial exclusivity rights over XPERIENCE™. Next Science denied the allegations and advised that it would defend the complaint if and when it was served on Next Science by Zimmer.

Next Science Limited

ACN: 622 382 549

Directors' Report

31 December 2021

Operating and financial review (continued)

Significant changes in the state of affairs and COVID-19 impact (continued)

Next Science and Zimmer reached agreement in January 2022, in respect of a new US distribution agreement in relation to the supply of a white labelled version of XPERIENCE™ under Zimmer's own labelling (excluding the US plastic reconstructive surgery market which is covered by TELA Bio, Inc's distribution agreement detailed below).

The distribution agreement with Zimmer for XPERIENCE™ has a 5 year term plus a 5 year renewal option and confirms Next Science's intellectual property ownership and rights in respect of XPERIENCE™. In conjunction with the signing of the new distribution agreement, Zimmer withdrew its District Court proceedings. The complaint was dismissed "with prejudice" (meaning that Zimmer cannot reassert the claims) with each party paying its own costs.

Zimmer's joint replacement sales team of approximately 2600 staff are responsible for selling Zimmer's white label version of XPERIENCE™, with Zimmer's US product launch expected in H2 2022. Next Science's commercial team is continuing its own XPERIENCE™ commercialisation efforts as is their partner, TELA Bio, in the US plastic surgery market with its white labelled product 'Site Guard Surgical Solution'.

On 30 August 2021, Irrimax Corporation, a competitor of Next Science in the wound irrigation sector, served a complaint on Next Science which it had filed in the United States District Court for the Northern District of Georgia alleging common law unfair competition and false advertising regarding XPERIENCE™. Next Science denies the allegations and is vigorously defending Irrimax's complaint.

On 8 November 2021, Next Science received TGA clearance for XPERIENCE™ permitting sales in Australia.

In November 2021, Next Science signed a 10 year exclusive distribution agreement with NASDAQ listed medical technology company, TELA Bio, Inc in relation to the supply of a white labelled version of Next Science's proprietary XPERIENCE™ across the US plastic reconstructive surgery market. TELA Bio, Inc has begun marketing and selling the white labelled version of XPERIENCE™ under a proprietary brand name – Site Guard Surgical Solution. The agreement includes an annual licensing fee plus transfer price arrangement and minimum purchase amounts that must be met to retain exclusivity.

In the opinion of the Directors, other than the events previously stated, there were no further significant changes in the state of affairs of the Group that occurred during the financial year.

Shareholder returns

	2021	2020
Revenue	\$8,947,591	\$3,440,975
Loss attributable to owners of the company	(\$9,349,639)	(\$11,912,004)
Basic earnings per share (EPS) (cents)	(\$4.75)	(\$6.36)
Share price as at 31 Dec (A\$)	AUD\$1.245	AUD\$1.25
Return on capital employed	(77.8%)	(59.7%)

Review of operations

The loss for the Group for the financial year to 31 December 2021 after providing for income tax amounted to \$9,349,639 (2020: \$11,912,004).

Revenue increased by 160% for the period, increasing from \$3,440,975 in the prior corresponding period to \$8,947,591, reflecting some of the recovery from the impacts of the COVID-19 pandemic during the 2020 financial year across surgical procedures and in wound care clinics.

Gross profit for FY21 was \$6,940,122 compared to \$2,916,841 in the prior corresponding period. Gross margin as a percent of sales was 78% compared with 85% in the prior corresponding period as a result of a change in composition of revenue.

Next Science Limited

ACN: 622 382 549

Directors' Report

31 December 2021

Operating and financial review (continued)

Review of operations (continued)

Selling and distribution expenses were \$7,394,871, an increase of \$1,724,187 compared with \$5,670,684 in the prior corresponding period. The increase in spend in 2021 mainly related to an increase in headcount, with corresponding increases in travel and other employee related expenditure as well as increases in advertising and promotional spend on Blast-X (associated with the resumption of direct sales of Blast-X following the termination of the 3M distribution agreement), as well as promotional spend associated with the launch of XPERIENCE™ in April 2021 and the post launch awareness campaign thereafter.

Administration expenses were \$4,105,918, an increase of \$762,874 compared with \$3,343,044 in the prior corresponding period. \$524,564 of the increase related to legal fees with the majority of the increase related to defending the legal suits brought by Zimmer, Inc and Irimax Corporation referred to above.

Research and development expenses were \$5,046,875 a decrease of \$1,387,539 compared with \$6,434,414 in the prior corresponding period. 2020 was a year of significant research and development and regulatory investment to bring XPERIENCE™ through the FDA 510(k) clearance process, with FDA 510(k) clearance being successfully obtained in April 2021.

Cash and cash equivalents at 31 December 2021 amounted to \$7,000,869 compared to \$8,100,416 at 31 December 2020. Term deposits at 31 December 2021 amounted to \$367,129 compared to \$7,238,986 at 31 December 2020 as a result of capital raisings in Q4 2020.

Likely developments and expected results of operations

Further information about likely developments in the operations of the Group and the expected results of those operations in future financial years has not been included in this report because disclosure of the information would be likely to result in unreasonable prejudice to the Group.

Matters subsequent to the end of the financial year

As detailed above, in January 2022, Next Science and Zimmer reached agreement in respect of a new US distribution agreement in relation to the supply of a white labelled version of XPERIENCE™ under Zimmer's own labelling (excluding the US plastic reconstructive surgery market which is covered by TELA Bio, Inc's distribution agreement detailed below), and Zimmer withdrew its District Court proceedings.

In conjunction with agreeing the new XPERIENCE™ distribution agreement, Next Science and Zimmer also agreed a refreshed distribution arrangement for Bactisure. The revised Bactisure arrangements include a revised agreement term. The agreement term will end on 31 December 2026 with Zimmer having the option to extend the agreement for an additional five year period by providing 6 months' prior notice.

The Group announced on 23 February 2022 that it was undertaking a capital raising by way of placement and a share purchase plan.

There has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event, other than those matters detailed above, of a material and unusual nature likely, in the opinion of the directors of the Company, to affect significantly the operations of the Group, the results of those operations, or the state of affairs of the Group, in future financial years.

Environmental regulation

The Group's operations are not subject to significant environment regulations under either Commonwealth or State legislation. The Board believes that the Group has adequate systems in place for the management of environmental requirements.

Government regulation

The Group is subject to varying degrees of governmental regulation in the countries in which operations are conducted, and the general trend is toward increasingly stringent regulation. In the U.S., the drug, device, diagnostics and cosmetic industries have long been subject to regulation by various federal and state agencies, primarily as to product safety, efficacy, manufacturing, advertising, labelling and safety reporting. The exercise of broad regulatory powers available to the U.S. Food and Drug Administration (the "FDA") can result in increases in the amounts of testing and documentation required for FDA clearance of new drugs and devices and a corresponding increase in the expense of product introduction. Similar trends are also evident in major markets outside of the U.S.

Next Science Limited

ACN: 622 382 549

Directors' Report

31 December 2021

The Group relies on global supply chains, and production and distribution processes that are complex and are subject to lengthy regulatory approval processes and ongoing regulatory requirements which can affect sourcing, supply and pricing of materials used in the Group's products.

Information on Directors

Name:	Mark Compton AM
Title:	Chair and Independent Non-Executive Director
Special responsibilities:	Member of the Audit and Risk Committee and Member of the People, Culture and Remuneration Committee
Qualifications:	Bachelor of Science (Pharmacology, Physiology and Biochemistry) and an MBA, University of New South Wales. Directors' Report

31 December 2021

Directors' interests

The relevant interest of each Director in shares and options over such instruments issued by the Group, as notified by the Directors to the ASX in accordance with section 205G(1) of the Corporations Act 2001 at the date of this report is as follows:

Director	Fully paid ordinary shares	Share options
	Number	Number
Mark Compton	137,438	520,000
Judith Mitchell	6,560,000	-
Bruce Hancox	530,000	520,000
Daniel Spira	723,437	260,000
Aileen Stockburger	44,837	520,000
Total	7,995,712	1,820,000

Shares under option

At the date of this report, there are 2,890,000 options over ordinary shares on issue (2020: 8,092,500 options), representing 1.46% (2020: 4.17%) of the Company's undiluted total share capital, granted to employees and directors under an equity incentive plan.

Indemnity and insurance of officers

The Group has indemnified the Directors and executives of the Group for costs incurred, in their capacity as a director or executive, for which they may be held personally liable, except where there is a lack of good faith.

During the financial year, the Group has paid a premium in respect of a contract to insure the Directors and executives of the Company against a liability to the extent permitted by the *Corporations Act 2001*. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

Indemnity and insurance of auditor

The Company and the Group have not, during or since the end of the financial year, indemnified or agreed to indemnify the auditor of the Company or any related entity against a liability incurred by the auditor.

During the financial year, the Company has not paid a premium in respect of a contract to insure the auditor of the Company or any related entity.

Proceedings on behalf of the company

No person has applied to a court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

Non-audit services

Details of the amounts paid or payable to the auditor for non-audit services provided during the financial year by the auditor are outlined in note 30 to the financial statements.

The Directors are satisfied that the provision of non-audit services by the auditor during the financial year is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*.

The Directors are of the opinion that the services as disclosed in note 30 to the financial statements do not compromise the external auditor's independence requirements under the *Corporations Act 2001* for the following reasons:

- All non-audit services have been reviewed and approved to ensure that they do not impact the integrity and objectivity of the auditor; and
- None of the services undermine the general principles relating to auditor independence set out in APES 110 *Code of Ethics for Professional Accountants* (including *Independence Standards*) issued by the Accounting Professional and Ethical Standards Board, including reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the Company, acting as advocate for the Company or jointly sharing economic risks and rewards.

Officers of the Company who are former partners of KPMG

No officer of the Company was an audit partner of KPMG, being the auditors during the financial year, at a time when the audit firm undertook an audit of the Company.

Next Science Limited

ACN: 622 382 549

Directors' Report

31 December 2021

Auditor's independence declaration

The auditor's independence declaration is set out on page 21 and forms part of the Directors' Report for the financial year ended 31 December 2021.

Auditor

KPMG continues in office in accordance with section 327 of the *Corporations Act 2001*.

Remuneration Report (audited)

This Remuneration Report forms part of the Directors' Report for the year ended 31 December 2021. This Report outlines the details of the remuneration arrangements for the key management personnel of the Group, including remuneration strategy, framework and practices, in accordance with the requirements of the *Corporations Act 2001* and its Regulations.

For the purposes of this Report, key management personnel (**KMP**) are defined as those persons having authority and responsibility for planning, directing and controlling the activities of the Group, directly or indirectly, including any Director of the Company (non-executive or executive).

The information in this Remuneration Report is set out under the following headings:

- Key management personnel (KMP)
- Remuneration governance
- Service agreements and remuneration policy
- Non-Executive Directors' remuneration
- Employee incentive arrangements and link between performance and reward
- Share option plans and performance rights over equity instruments
- KMP Remuneration
- KMP Equity Holdings

Key management personnel (KMP)

The KMP of the Group during the financial year and the positions held are summarised below:

Non-Executive Directors

Mark Compton

Bruce Hancox

Daniel Spira

Aileen Stockburger

George Savvides Retired 5 May 2021

Managing Director

Judith Mitchell

Other KMP

Jacqueline Butler (Chief Financial Officer)

Matthew Myntti (Chief Technology Officer)

Jon Swanson (Chief Operating Officer)

Dustin Haines (Chief Commercial Officer)

Remuneration governance

The People, Culture and Remuneration-Committee currently comprises of:

- Daniel Spira (Chair)
- Mark Compton
- Aileen Stockburger

The role and responsibilities, composition, structure and membership requirements of the People, Culture and Remuneration Committee are documented in the People, Culture and Remuneration Committee Charter available at www.nextscience.com/corp-governance.

The People, Culture and Remuneration Charter provides that the Committee should comprise at least three members, all of whom are Non-Executive Directors and a majority of whom are independent Directors.

Next Science Limited

ACN: 622 382 549

Directors' Report

31 December 2021

Remuneration governance (continued)

The Chair of the Committee should be an independent Director who is not Chair of the Board.

The Charter requires the Committee to meet at least twice each year.

All of the current members of the People, Culture and Remuneration Committee have been assessed by the Board as being independent Non-Executive Directors and the Chair of the Committee is not Chair of the Board.

Service agreements and remuneration policy

Executives are employed under executive employment agreements with the Group.

In determining remuneration, the Group considers:

- industry based remuneration benchmarking (Australia and USA);
- market developments affecting remuneration practices;
- the remuneration expectations of an executive whom the Company wants to employ;
- future outlook for the Group and market generally;
- the Company's performance over a performance period; and
- the link between remuneration and the successful implementation of the Company's strategy and achievement of strategic objectives.

Executive incentives comprise fixed and variable elements linked to Company and individual performance as detailed in this Report.

Directors' Report

31 December 2021

Non-Executive Directors' Remuneration

Each of the Non-Executive Directors have entered into appointment letters with Next Science confirming the terms of their appointment and their roles and responsibilities.

Under the Constitution, the Board decides the amount paid to each Non-Executive Director as remuneration for their services as a Director. However, the Constitution and the ASX Listing Rules stipulate that the total amount of fees paid to Non-Executive Directors (excluding any special exertion fees) must not exceed the amount approved by the Company's shareholders. This amount has been fixed initially in the Company's Constitution at A\$750,000 per annum and may only be varied by ordinary resolution in general meeting.

The annual fee for Non-Executive Directors is AUD\$90,000 per annum (inclusive of superannuation) and for the Chair is AUD\$250,000 per annum (inclusive of superannuation). The Chair's fees reflect the additional responsibilities of the role. An additional fee of AUD\$10,000 per annum is paid for performing the role of Chair of the Audit and Risk Committee or People, Culture and Remuneration Committee. The Company paid special exertion fees to Aileen Stockburger during 2021. These exertions were to assist the Board in ensuring the Company's activities in the US received appropriate oversight and support whilst the Managing Director was unable to visit the US due to COVID-19 travel and isolation restrictions.

Employee incentive arrangements and link between performance and reward

Short Term Incentive (STI) Plan for Executives

The Managing Director, CFO, CTO and COO were invited to participate in the Company's short-term incentive plan (STI Plan), effective from the Company's admission to the ASX in April 2019. The CCO was invited to participate in the STI plan following his appointment in June 2020.

Participants in the STI Plan, must be employed with the Company, or wholly owned subsidiary of the Company, for at least six months during the Plan year and still be employed until after the announcement of the Group's results to the ASX following the relevant Plan year. Participation is by invitation from the Board and is not automatic. Participants who resign or are terminated before the end of a Plan year are not eligible for any payments under the Plan unless the Board determines otherwise, in its sole discretion.

The STI Plan objectives are to:

- reward executives for their contribution in ensuring that the Group achieves its annual financial performance targets;
- enhance the Group's opportunity to attract, motivate and retain high calibre and high performing executives; and
- link part of executive remuneration directly to the achievement of Group and individual KPIs.

The making of any payment under the STI Plan is subject to the achievement of three gateway hurdles; at least 90% of a base consolidated revenue target; 100% of a base consolidated EBITDA target; and an individual performance rating of a least 3 out of 5.

The maximum STI opportunity is 100% of Total Fixed Remuneration (TFR) for the Managing Director and 80% of TFR for the CFO, CTO, COO and CCO. To receive the maximum STI opportunity, executives must achieve performance targets for consolidated revenue, consolidated EBITDA and individual performance.

As a number of the members of the executive team already have significant security holdings in Next Science, any payments under the STI Plan will be paid in cash to ensure that the STI opportunities operate as true incentives.

No STI payments were made in respect of the financial year ended 31 December 2021 (2020: Nil) as revenue and EBITDA targets were not achieved.

Long-Term Incentive (LTI) Plan for Executives

At the time of the Company's IPO in April 2019, the Board of the Company established a long-term incentive plan under which incentives are issued in the form of Performance Rights to eligible participants (LTI Plan).

The Managing Director, CFO, CTO, CCO and COO are entitled to participate in the LTI Plan. If Group performance hurdles are achieved in the financial year ending 31 December 2022, and thereafter, the Managing Director has the opportunity to be granted performance rights worth 200% of her Total Fixed Remuneration (TFR) and the other participants in the LTI Plan have the opportunity to be granted performance rights worth 150% of their TFR.

Next Science Limited

ACN: 622 382 549

Directors' Report

31 December 2021

Employee incentive arrangements and link between performance and reward (continued)

The number of Performance Rights granted will be based on the volume weighted average price (VWAP) of shares in the Company for the period 1 January until the day before the release on ASX of the Company's relevant preliminary full year results.

The vesting of Performance Rights issued under the LTI Plan is dependent on satisfaction of the following vesting conditions:

- 50% of Performance Rights will vest if the compound annual total shareholder return (TSR) is at least 15% per annum; and
- 100% of Performance Rights will vest if the compound annual TSR is at least 30% per annum.

If compound TSR is less than 15% per annum, no Performance Right will vest.

Subject to vesting conditions being satisfied, Performance Rights automatically convert to shares, on a one-for one basis, three years after the date on which they are granted. If vesting conditions have not been satisfied, the Performance Rights will automatically lapse. Participants must be employed by the Company or a wholly owned subsidiary at the date of vesting.

No Performance Rights have been issued in relation to the financial year ending 31 December 2021 (2020: Nil) as vesting conditions were not met.

The Company's LTI Plan will operate in future years with grants based on the relevant revenue and/or other Group performance measures. It is not intended to change the size of the grant to participants or the vesting conditions.

In recognition of the CCO's extensive work in 2020 to prepare the Company for the launch of XPERIENCE™ in 2021, and to provide longer term upside opportunity to the CCO similar to that available to the other executive KMPs from the options awarded to them prior to the Company's admission to ASX, in February 2021, the Company granted the CCO USD\$315,000 worth of performance rights. The vesting of the CCO's performance rights was subject to continued tenure and was to be over three years with 1/3 vesting in 1 year, 1/3 in 2 years and 1/3 in 3 years from the grant date. However, due to employment ceasing on 20 April 2022 the performance rights in year 2 and 3 will not vest.

Options and rights over equity instruments

Prior to the Company being admitted to the ASX, the Group established an Equity Incentive Plan (ECP) for US employees and an Employee Share Option Plan (ESOP) for Australian employees and directors (see note 27). With the exception of the Managing Director, Judith Mitchell, as described below, the only vesting condition applicable to the options granted under these earlier plans was that the individual be employed by the Company, or any wholly owned subsidiary of the Company at the vesting date.

There were no options over ordinary shares issued as compensation to KMP during the year ended 31 December 2021 (2020: Nil). Details of the options over ordinary shares issued under the ECP or ESOP which were held by KMP as at 31 December 2021 are set out below:

KMP	Grant date	Expiry date	Vesting date	Fair value at grant date		Exercise price (USD)
				Pre-share split (USD)	Post-share split (USD)	
<i>Non-Executive Directors</i>						
Mark Compton	17 Dec 2018	17 Dec 2023	17 Dec 2021	2,138	0.33	0.56

Next Science Limited

ACN: 622 382 549

Directors' Report

31 December 2021

Options and rights over equity instruments (continued)

There were 340,602 rights over ordinary shares issued as compensation to KMP during the year ended 31 December 2021 (2020: Nil). There were no previous rights issues.

	Number of rights granted	Grant date	Expiry date	Vesting condition	Fair value at grant date
<i>Other KMP</i>					
Dustin Haines	340,602	22 Feb 2021	22 Feb 2024	Continued employment	0.92

The rights were to vest over three years with 1/3 vesting after 1 year, 1/3 after 2 years and 1/3 after 3 years from the grant date. However, due to employment ceasing on 20 April 2022 the performance rights in year 2 and 3 will not vest.

The movement for the year ended 31 December 2021, in the number of rights and options over ordinary shares in Next Science Limited held, directly, indirectly or beneficially, by each KMP, including their related parties was as follows:

KMP	Balance as at 1 Jan 2021 No.	Granted No.	Exercised No.	Lapsed No.	Balance as at 31 Dec 2021 No.	Vested during the year	Vested and exercisable No.	Un-vested No.

Dustin Haines	-	-	-	-	-	-	-

Exercise of options granted as compensation

During the reporting period, there were 3,250,000 shares issued upon the exercise of options previously granted as compensation, to KMP:

USD	Number of shares	Amount paid \$/share	Value of options exercised \$ (i)	Value of shares received upon exercise of options \$
Judith Mitchell	1,560,000	0.42	913,941	1,569,141
Daniel Spira	1,040,000	0.42	703,870	1,140,670
Jacqueline Butler	650,000	0.42	439,918	712,918

- (i) The value of the options exercised during the year is calculated as the market price of shares of the Company as at the close of trading on the date the options were exercised less the price paid to exercise the option.
- (ii) There are no amounts unpaid on the shares issued as a result of the exercise of the options in the 2021 financial year. There were no other share options held by KMP granted, exercised or lapsed during the reporting period other than as disclosed above.

Next Science Limited

ACN: 622 382 549

Directors' Report

31 December 2021

Analysis of movements in options and performance rights

The value of rights or options over ordinary shares in the Company granted and exercised by each KMP during the reporting period is detailed below.

KMP	Granted in year \$ (i)	Value of rights or options exercised in year \$ (ii)
Judith Mitchell	-	913,941
Daniel Spira	-	703,870
Jacqueline Butler	-	439,918
Dustin Haines	315,000	-

(i) The value of rights granted during the financial year is the fair value of the rights calculated at grant date. The total value of the rights granted is included in the table above. This amount is allocated to remuneration over the vesting period.

(ii) The value of options exercised during the year is calculated as the market price of shares of the Company as at the close of trading on the date the options were exercised less the price paid to exercise the options.

Details of equity incentives affecting current and future remuneration

KMP	Instrument	Number	Grant date	% vested in year	Financial years in which grant vests

Year ended 31 December 2021

KMP (USD)	Cash salary and fees (i)	Other cash service (ii)	Long service Leave	Super -annuat ion	Share-based payments		Total	Performance Related (v)
					Options (iii)	Rights (iv)		
	\$	\$	\$	\$	\$	\$	\$	%
<i>Executive Director</i>								
Judith Mitchell	283,239	-	3,696	17,051	(101,211)	-	202,775	-
<i>Non-Executive Directors</i>								
Mark Compton	144,570	-	-	-	71,729	-	216,299	-
Bruce Hancox	68,388	-	-	6,663	71,729	-	146,780	-
Daniel Spira	73,385	-	-	1,667	35,865	-	110,917	-
Aileen Stockburger	83,860	-	-	-	71,729	-	155,589	-
George Savvides	66,493	-	-	-	(132,471)	-	(65,978)	-
<i>Other KMP</i>								
Matthew Mynntti	350,000	6,516	-	-	-	-	356,516	-
Jon Swanson	254,155	651	-	-	-	-	254,806	-
Jacqueline Butler	198,231	-	3,126	16,990	-	-	218,347	-
Dustin Haines	320,235	106	-	-	-	96,250	416,591	-
	1,842,556	7,273	6,822	42,371	17,370	96,250	2,012,642	

- (i) On 5 May 2021, George Savvides, AM retired as Chair and Mark Compton assumed the role of Chair.
- (ii) Other cash service includes motor vehicle allowance and/or other minor benefits. For the year ended 31 December 2021 threshold Group performance targets were not met and hence no amounts were awarded to KMP under the STI Plan.
- (iii) The value of the share options granted to KMP is calculated at the grant date using the Black-Scholes formula. This value is allocated to each reporting period evenly over the period from grant date to vesting date. The value disclosed is the portion of the fair value of the options recognised as an expense in each reporting period. Certain tranches of previous options awarded did not vest and lapsed during the year as vesting conditions were not met. In accordance with Australian Accounting Standards previous expenses related to the lapsed portion of options were reversed in the current year.
- (iv) The fair value of the right is calculated at the date of grant using the 60 day volume weighted average price of Next Science shares in the period immediately prior to the offer date. The rights disclosed is the portion of the fair value of the rights recognised as an expense in the reporting period.
- (v) Disclosed above are the relative proportions of each individual's remuneration that are related to performance; the remaining proportion being fixed remuneration.

<i>Non-Executive Directors</i>								
George Savvides	161,960	-	-	10,771	69,878	-	242,609	-
Bruce Hancox	63,098	-	-	5,994	55,902	-	124,994	-
Daniel Spira	51,302	-	-	1,421	27,951	15,547	96,221	-
Mark Compton	62,183	-	-	-	55,902	-	118,085	-
Aileen Stockburger	48,810	-	-	-	55,902	13,992	118,704	-
<i>Other KMP</i>								
Matthew Myntti	350,000	-	-	-	-	-	350,000	-
Jon Swanson	250,000	-	-	-	115,338	-	365,338	-
Jacqueline Butler	171,124	-	1,985	14,751	-	-	187,860	-
Dustin Haines	173,250	20,879	-	-	-	-	194,129	-
	1,593,333	20,879	5,023	47,613	381,833	29,539	2,078,220	

- (i) Dustin Haines was appointed Chief Commercial Officer and commenced employment on 10 June 2020. Mr Haines' employment will end on 20 April 2022.
- (ii) For the year ended 31 December 2020 threshold Group performance targets were not met and hence no amounts were awarded to KMP under the STI Plan.
- (iii) Other cash benefits include an amount of \$20,879 for relocation expenses paid to Dustin Haines as part of the arrangements agreed in respect of his engagement.
- (iv) The value of the share options granted to KMP is calculated at the grant date using the Black-Scholes formula. This value is allocated to each reporting period evenly over the period from grant date to vesting date. The value disclosed is the portion of the fair value of the options recognised as an expense in each reporting period.
- (v) Amounts included under share-based payments for Daniel Spira and Aileen Stockburger are in relation to shares paid in lieu of their Director fees. The Company received a waiver from the ASX that in respect of ASX Listing Rule 10.11 to allow Aileen and Daniel, as Non-Executive Directors, to elect to be issued shares in lieu of their fees for the first 12 months after the Company's admission to the ASX.
- (vi) Disclosed above are the relative proportions of each individual's remuneration that are related to performance; the remaining proportion being fixed remuneration.

*Other changes represent shares that were purchased during the year.

- (i) The Company was granted a waiver from Listing Rule 10.11 to the extent necessary to permit the Company to issue shares without shareholder approval to Non-Executive Directors, Aileen Stockburger and Daniel Spira, in lieu of director fees for the first 12 months after the Company's admission to the official list of the ASX. The shares issued were fully paid ordinary shares in the capital of the Company on the same terms and conditions as the Company's existing shares and were issued at the Offer Price of A\$1 for the first quarter after admission. For later quarters, the shares were issued at the 10 day Volume Weighted Average Price (VWAP) of the Company's shares for the first 10 trading days of the relevant quarter.

This concludes the remuneration report (audited).

This report is made in accordance with a resolution of directors, pursuant to section 298(2)(a) of the Corporations Act 2001.

On behalf of the directors:

Mark Compton

Chair

Dated at Sydney this 23rd day of February 2022

Lead Auditor's Independence Declaration under Section 307C of the Corporations Act 2001

To the Directors of Next Science Limited

I declare that, to the best of my knowledge and belief, in relation to the audit of Next Science Limited for the financial year ended 31 December 2021 there have been:

- i. no contraventions of the auditor independence requirements as set out in the *Corporations Act 2001* in relation to the audit; and
- ii. no contraventions of any applicable code of professional conduct in relation to the audit.

Next Science Limited

ACN: 622 382 549

Notes to the Consolidated Financial Statements

For the Year Ended 31 December 2021

1 Corporate Information

Next Science Limited (the "Company") is a company domiciled in Australia.

The Group is a for-profit entity and primarily involved in the research, development and commercialisation of technologies which solve bacterial related issues.

These consolidated financial statements comprise the Company and its subsidiaries (collectively the "Group" and individually "Group companies") for the year ended 31 December 2021 and comparative information for the year ended 31 December 2020.

2 Basis of Preparation

(a) Statement of compliance

The consolidated financial statements are general purpose financial statements which have been prepared in accordance with accounting standards adopted by the Australian Accounting Standards Board ("AASB") and the Corporations Act 2001. The consolidated financial statements comply with International Financial Reporting Standards ("IFRS") adopted by the International Accounting Standards Board ("IASB").

The financial statements were approved by the Board of Directors and authorised for issue on 23 February 2022.

(b) Basis of measurement

The financial statements have been prepared on a historical cost basis unless otherwise stated.

(c) Functional and presentation currency

The financial statements are presented in United States Dollars, which is the Group's presentation currency. Entities within the Group hold functional currencies of AUD or USD as appropriate to the individual entity.

(d) Use of judgements and estimates

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of the Group's accounting policies and the reported amounts of assets, liabilities, income, expenses and disclosure of contingent liabilities. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Notes to the Consolidated Financial Statements For the Year Ended 31 December 2021

2 Basis of Preparation (continued)

(d) Use of judgements and estimates (continued)

The key judgements, estimates and assumptions are discussed below:

Impairment of non-financial assets

The Group assesses impairment of non-financial assets at each reporting date by evaluating conditions specific to the Group and to the particular asset that may lead to impairment. This involves value-in-use calculations, which incorporate a number of key estimates and assumptions.

Recoverable amount being the net amount of discounted future cash flows materially exceeds the carrying value of non-current assets. The recoverable amount of these cash generating units, at balance date, was estimated based on its value in use.

Value in use for the cash-generating units ('CGU') was determined by discounting the future cashflows to be generated from the CGUs and is based on the following key assumptions:

- Cashflows were projected based on forecast operating results over a 5 year period plus a terminal value.
- Average annual revenue growth rates and approved budgets were used for revenue projections.
- Discount rate of 12% based on the weighted average cost of capital.
- Changes in key assumptions would impact recoverable amount calculations.

Estimation of useful lives of assets

The consolidated entity determines the estimated useful lives and related depreciation and amortisation charges for its property, plant and equipment and finite life intangible assets. The useful lives could change significantly as a result of technical innovations or some other event. The depreciation and amortisation charge will increase where the useful lives are less than previously estimated lives, or technically obsolete or non-strategic assets that have been abandoned or sold will be written off or written down and the incremental borrowing rate is estimated.

Recovery of deferred tax assets

Deferred tax assets for tax losses are only recognised if the Group considers it is probable that future taxable amounts will be available to utilise those tax losses against.

Notes to the Consolidated Financial Statements For the Year Ended 31 December 2021

2 Basis of Preparation (continued)

(e) Going concern

The financial report has been prepared on a going concern basis, which assumes continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business for a period of at least twelve months from the date this financial report is approved.

For the financial year ended 31 December 2021, the Group incurred a loss of \$9,349,639 and had net cash outflows from operations of \$8,264,354. As at 31 December 2021, the Group had net current asset and net asset positions of \$8,691,761 and \$10,766,495 respectively.

The Group continues the commercialisation of its product range through distribution/royalty agreements with its partners. Alongside this, the Group directly commercialises its product range by marketing its products and investing in sales capability and infrastructure as well as developing further products. The Group's commercialisation strategy means that the Group will continue to use its cash reserves and in order to continue to execute its strategy the Group announced on 23 February 2022 that it was undertaking a capital raising by way of placement and a share purchase plan.

After considering the above, the Directors have concluded that the Group will be able to fulfil all obligations as and when they fall due for the foreseeable future, being at least twelve months from the date of signing this financial report.

Notes to the Consolidated Financial Statements

For the Year Ended 31 December 2021

3 Significant Accounting Policies

The Group has consistently applied the following accounting policies to all periods in these financial statements.

(a) Parent entity information

In accordance with the *Corporations Act 2001*, these financial statements present the results of the Group only. Supplementary information about the parent entity is disclosed in note 24.

(b) Basis of consolidation

(i) Business combinations

The Group accounts for business combinations using the acquisition method when control is transferred to the Group, unless it is a combination involving entities or businesses under common control. The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognised in profit or loss immediately. Transaction costs are expensed as incurred, except if related to the issue of debt or equity securities.

Common control transactions record assets and liabilities acquired at their book value at the date of acquisition, rather than their fair value. The difference between the fair value of the consideration given and the carrying value of the assets and liabilities acquired is recognised as a common control reserve.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss.

(ii) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

(iii) Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interest and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

(iv) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated. Unrealised gains arising from transactions with equity-accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

Notes to the Consolidated Financial Statements

For the Year Ended 31 December 2021

3 Significant Accounting Policies (continued)

(c) Foreign currency

(i) *Foreign currency transactions*

Transactions in foreign currencies are translated to the functional currency of the Group at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Foreign currency differences are generally recognised in profit or loss and presented within finance costs.

(ii) *Foreign currency operations*

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into the presentation currency at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into the functional currency at the average exchange rates for the period, unless exchange rates fluctuated significantly during that period, in which case the exchange rates at the dates of the transaction are used.

Foreign currency differences are recognised in equity and accumulated in the translation reserve.

(d) Revenue from contracts with customers

Revenue from contracts with customers is recognised when a customer obtains control of the goods or services and when performance obligations have been satisfied assessing the following criteria:

(i) *Identification of distinct elements and separate performance obligations*

In the case where the customer contract includes a sublicense and transfer of goods, the assessment must be made as to whether a separate performance obligation exists for each element. For current contracts held, whilst a license to specific IP has been given related to the Group's product, this only includes rights to distribute, not to use the IP to manufacture the product. Therefore, the licence transferred is not deemed to be a distinct element of the contract and only one performance obligation exists to transfer product to the distributor.

(ii) *Transfer of goods*

Title and control pass to some of Next Science's customers at the point when the Group fulfils its obligation to deliver, and goods are available at the customer's premises. For these customers, the performance obligation (including the license) transfers at the point in time when each good is delivered. Therefore, revenue is recognised at the point in time when the product is delivered. For other customers, title and control pass when the product is delivered to the courier, with revenue being recognised at this point in time.

Notes to the Consolidated Financial Statements For the Year Ended 31 December 2021

3 Significant Accounting Policies (continued)

(d) Revenue from contracts with customers (continued)

(iii) *Measurement of transaction price*

Consideration of the contract can comprise a fixed element (upfront payment plus minimum annual purchase amounts) and variable elements (milestone payments).

Under AASB 15 the variable consideration is only included in the transaction price if it is 'highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur'.

In the case where milestone payments are received upon signing the contract and are not subject to regulatory approval, these amounts will be initially recognised as contract liabilities to be recognised over the life of the contract once product sales have commenced. However, where the milestone payments are subject to regulatory approval, for the variable consideration to be deemed 'most likely', this will only be included once regulatory approval has been received and recognised over the remaining life of the contract.

(iv) *Change in estimate*

On 23rd November 2020, Next Science announced to the ASX that the distribution agreement with 3M for Blast-X, would not be renewed at the end of 2021 and that Blast X would be transitioned back to Next Science in the first half of 2021.

As a result of the non-renewal of the 3M contract, a change has been made to the time frame for recognition of the performance obligation in relation to the milestone payments received from 3M. The milestone payments would previously have been recognised as revenue over the period until the end of the 3M contract on 31 December 2021. The milestone payments have now been recognised as revenue over a shorter time period ending 1H 2021, as the transition of Blast-X back to Next Science was completed during 1H 2021.

(e) Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

(f) Finance income and finance costs

Finance income comprises interest income, dividend income and foreign currency gains. Interest income is recognised in profit or loss as it accrues using the effective interest method.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instruments to the gross carrying amount of the financial asset or the amortised cost of the financial asset.

In calculating income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit impaired, then the calculation of interest income reverts to the gross basis.

Notes to the Consolidated Financial Statements

For the Year Ended 31 December 2021

3 Significant Accounting Policies (continued)

(f) Finance income and finance costs (continued)

Finance costs comprise interest expense on borrowings, lease liabilities and converting notes, foreign currency losses and impairment losses recognised on financial assets. Foreign exchange gains and losses on intercompany assets and liabilities that are not eliminated upon consolidation are recognised in OCI. Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

Interest expenses includes interest in relation to lease liabilities and is calculated based on the bank borrowing rate as appropriate for the lease contract, with a range of 5.4% to 5.5% on current leases held.

Foreign currency gains and losses are reported on a net basis as either finance income or finance cost depending on whether foreign currency movements are in a net gain or net loss position.

(g) Income tax

Income tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in OCI.

The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received.

(i) Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date. Current tax also includes any tax liability arising from dividends.

Current tax assets and liabilities are offset only if certain criteria are met.

(ii) Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss, or on taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

Notes to the Consolidated Financial Statements For the Year Ended 31 December 2021

3 Significant Accounting Policies (continued)

(g) Income tax (continued)

(ii) *Deferred tax (continued)*

The measurement of deferred tax reflects the tax consequences that could follow the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if certain criteria are met.

(h) Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the Group's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in the Group's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

(i) Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. For the statement of cash flows presentation purposes, cash and cash equivalents also includes bank overdrafts, which are shown within borrowings in current liabilities on the statement of financial position.

(j) Trade and other receivables

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses. Trade receivables are generally due for settlement between 30 and 60 days.

The Group has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. To measure the expected credit losses, trade receivables have been grouped based on days overdue.

Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

(k) Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the first in, first out principle.

Notes to the Consolidated Financial Statements For the Year Ended 31 December 2021

3 Significant Accounting Policies (continued)

(l) Property, plant and equipment

(i) Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the asset. If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

An item of property, plant and equipment is derecognised upon disposal or when there is no future economic benefit to the consolidated entity. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss. Any revaluation surplus reserve relating to the item disposed of is transferred directly to retained profits.

(ii) Subsequent expenditure

Subsequent expenditure is capitalised only when it is probable that the future economic benefits associated with the expenditure will flow to the Group.

(iii) Depreciation

Depreciation is calculated based on the cost of property, plant and equipment less their estimated residual values using the straight-line basis over their estimated useful lives, and is generally recognised in profit or loss. Right-of-use assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term. Land is not depreciated.

The estimated useful lives of property, plant and equipment are as follows:

Fixed asset class	Useful life
Leasehold improvements	5-15 years
Plant and equipment	5 years
Furniture and fittings	5 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(m) Right-of-use assets

A right-of-use asset is recognised at the commencement date of a lease. The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and, except where included in the cost of inventories, an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset.

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the Group expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life. Right-of use assets are subject to impairment or adjusted for any remeasurement of lease liabilities.

Notes to the Consolidated Financial Statements

For the Year Ended 31 December 2021

3 Significant Accounting Policies (continued)

(m) Right-of-use assets (continued)

The Group has elected not to recognise a right-of-use asset and corresponding lease liability for short-term leases with terms of 12 months or less and leases of low-value assets. Lease payments on these assets are expensed to profit or loss as incurred.

(n) Intangibles

(i) *Recognition and measurement*

Research and development expenditure

Expenditure on research activities is recognised in profit or loss as incurred. Development expenditure is capitalised only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Group intends to and has sufficient resources to complete development and to use or sell the asset. Otherwise it is recognised in profit or loss as incurred. Subsequent to initial recognition, development expenditure is measured at cost less accumulated amortisation and any accumulated impairment losses.

Patents

Expenditure is capitalised in relation to patent application costs and amortised over the remaining life of the base patent as relevant. Costs will be no longer capitalised in the event that a patent application is no longer being pursued with any existing capitalised costs being impaired as an expense in the profit or loss.

Computer software

Computer software comprises computer application system software and licenses. Costs incurred in developing products or systems and costs incurred in acquiring software and licenses that will contribute to future period financial benefits through revenue generation and/or cost reduction are capitalised to computer software. Costs capitalised include external direct costs of materials and services, direct payroll and payroll-related costs.

(ii) *Subsequent expenditure*

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in profit or loss as incurred.

(iii) *Amortisation*

Amortisation is calculated based on the cost of intangible assets less their estimated residual values using the straight-line method over their estimated useful lives, and is generally recognised in profit or loss.

The estimated useful lives of intangible assets are as follows:

- | | |
|---------------------------|------------|
| • Development expenditure | 8 years |
| • Computer software | 2-3 years |
| • Patents | 8-15 years |

Notes to the Consolidated Financial Statements

For the Year Ended 31 December 2021

3 Significant Accounting Policies (continued)

(n) Intangibles (continued)

(iii) *Amortisation (continued)*

Amortisation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

Intangible assets, other than goodwill, have finite useful lives.

(o) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

(p) Contract liabilities

Contract liabilities represent the consolidated entity's obligation to transfer goods or services to a customer and are recognised when a customer pays consideration, or when the Group recognises a receivable to reflect its unconditional right to consideration (whichever is earlier) before the Group has transferred the goods or services to the customer.

(q) Leases

(i) *Definition of a new lease*

The determination of whether a contract contains a lease is on the basis of whether the customer has the right to control the use of an identified asset for a period of time in exchange for consideration. The Group has applied this definition to all lease contracts currently held.

(ii) *Lessee accounting*

For all contracts determined to constitute a lease, right-of-use assets and lease liabilities are recognised in the consolidated statement of financial position, initially measured at the present value of future lease payments. When measuring these lease liabilities, the Group discounted lease payments using the interest rate implicit in the lease contract.

Right-of-use assets are tested for impairment in accordance with AASB 136 Impairment of assets. Lease incentives, if relevant, are recognised as part of the measurement of the right-of-use assets and lease liabilities. Depreciation is expensed on right-of-use assets and interest on lease liabilities, both recognised in the consolidated statement of profit or loss.

For presentation purposes, the total amount of cash paid in relation to leases is separated into a principal portion (presented within financial activities) and interest on lease liabilities, both recognised in the consolidated statement of profit or loss.

For short-term leases (lease term of 12 months or less) and leases of low-value assets, the Group has opted to recognise a lease expense on a straight-line basis. This expense is presented within other expenses in the consolidated statement of profit or loss.

Notes to the Consolidated Financial Statements

For the Year Ended 31 December 2021

3 Significant Accounting Policies (continued)

(r) Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably and if it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as a finance cost.

(s) Employee benefits

(i) Short-term employee benefits

Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled within 12 months of the end of the financial year in which employees render the related service. Short-term employee benefits include salaries and wages plus related on-costs such as payroll tax, superannuation and workers compensation insurance and are measured at the undiscounted amounts expected to be paid when the obligation is settled.

(ii) Long-term employee benefits

Long-term employee benefits include employees' long service leave and annual leave entitlements not expected to be settled within 12 months of the end of the financial year in which employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, duration of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on corporate bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

(iii) Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to employees' defined contribution plans are recognised as an expense as the related service is provided. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

(iv) Share-based payment arrangements

The fair value of performance rights and options granted is recognised as an employee expense with a corresponding increase in equity, on a straight line monthly basis over the vesting period in which the performance and/or service conditions are fulfilled after which the employee becomes unconditionally entitled to them. The cumulative expense recognised for share-based payments at each reporting date until the vesting date reflects the extent to which the vesting period has ended and the Group's best estimate of the number of equity instruments that will ultimately vest. The expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of the period. No expense is recognised for awards that do not ultimately vest, except for equity-settled transactions for which vesting are conditional upon a market or non-vesting condition. These are treated as vesting irrespective of whether or not the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Notes to the Consolidated Financial Statements

For the Year Ended 31 December 2021

3 Significant Accounting Policies (continued)

(t) Financial instruments

(i) Recognition and initial measurement

The Group initially recognises trade receivables issued on the date that they are originated. All other financial assets and financial liabilities are recognised initially on the trade date.

(ii) Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at amortised cost or fair value through profit or loss ("FVTPL").

Financial assets at amortised cost are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Financial assets at FVTPL are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

Financial liabilities

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as

such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

(iii) Derecognition

Financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred or it neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control over the transferred asset. Any interest in transferred financial assets that is created or retained by the Group is recognised as a separate asset or liability.

Financial liabilities

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expired.

(iv) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

Notes to the Consolidated Financial Statements

For the Year Ended 31 December 2021

3 Significant Accounting Policies (continued)

(u) Impairment

The Group recognises loss allowances for expected credit losses ("ECL") on financial assets and contract assets. Loss allowances where relevant are measured at an amount equal to a 12 month ECL.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL's, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 90 days past due.

The Group considers a financial asset to be in default when the borrower is unlikely to pay its obligations to the Group in full or the financial asset is more than 130 days past due.

ECLs are a probability-weighted estimate of credit losses and are measured as the present value of all cash shortfalls discounted at the effective interest rate. Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognised in profit or loss and reflected in an allowance account against loans and receivables. Interest on the impaired asset continues to be recognised. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

(v) Share capital

Ordinary shares

Incremental costs directly attributable to the issue of ordinary shares, net of any tax effects, are recognised as a deduction from equity.

Notes to the Consolidated Financial Statements

For the Year Ended 31 December 2021

3 Significant Accounting Policies (continued)

(w) Fair value measurement

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Group has access at that date. The fair value of a liability reflects its non-performance risk.

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. When one is available, the Group measures the fair value using the quoted price in an active market. A market is regarded as 'active' if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

If there is no quoted price in an active market, then the Group uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs.

The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

(x) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker ("CODM"). The CODM is responsible for allocating resources and assessing performance of the operating segments.

(y) Earnings per share

(i) *Basic earnings per share*

Basic earnings per share is calculated by dividing the profit or loss attributable to the owners of the Company excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the financial year.

(ii) *Diluted earnings per share*

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

(z) Goods and Services Tax ('GST') and other similar taxes

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the tax authority. In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the tax authority.

Notes to the Consolidated Financial Statements
For the Year Ended 31 December 2021

4 Standards issued but not yet effective

A number of new standards are effective for annual periods beginning after 1 January 2022 and earlier application is permitted; however, the Group has not early adopted the new or amended standards in preparing these consolidated financial statements.

The Group plans to apply the amendments when they become effective and they are not expected to have a significant impact on the Group's consolidated financial statements:

- 1) Sale or Contribution of Assets between an Investor and its Associate or Joint Venture
(Amendments to AASB 2014-10)
- 2) Annual Improvements 2018-2020 Cycle (Amendments to AASB 1, 3, 9, 116, 137, 141)
(Amendments to AASB 2020-3)
- 3) AASB 2021-3 Amendments to Australian Accounting Standards - Covid-19 - Related Rent Concessions beyond 30 June 2021

10 Finance Costs

	2021	2020
In USD	\$	\$
Interest expense on lease liabilities	16,476	21,179

11 Income Tax Expense

Income tax expense comprises current and deferred tax expense and is recognised in profit or loss, except to the extent that it relates to a business combination or items recognised directly in equity or other comprehensive income. The components of tax expense comprise:

	2021	2020
In USD	\$	\$
Current tax	-	-
Deferred tax	-	-
Reconciliation of income tax to accounting profit:		
Loss before income tax	(9,349,639)	(11,912,004)
Prima facie tax benefit on profit from ordinary activities before income tax at 26% (2020: 27.5%)	(2,430,906)	(3,275,801)
Tax effect of:		
Permanent differences	(23,777)	242,329
Effect of tax rate in foreign jurisdictions	(319,306)	(251,448)
Tax losses not brought to account	2,968,169	3,284,920
Prior period over/(under) provision	(194,180)	-
Total income tax expense	-	-

The unused tax losses as at 31 December were as follows:

	2021	2020
	\$	\$
Australia gross unused tax losses (in AUD)	43,126,968	30,652,663
USD gross unused tax losses (in USD)	27,889,973	21,503,856

Tax losses are recognised only to the extent that it is probable that the future taxable profit will be available against which the benefits can be utilised. Management has considered all the facts and circumstances and believe there is no material uncertainty over the availability of the tax losses.

Notes to the Consolidated Financial Statements

(xi) On 3 May 2021, 438,000 round 4 Equity Incentive Plan (ECP) employee share options converted to 438,000 ordinary shares at a price of AUD\$0.72.

Ordinary shares

Fully paid ordinary shares

Ordinary shares participate in dividends and the proceeds on winding up of the Company in proportion to the number of shares held. At shareholders' meetings, each ordinary share is entitled to one vote when a poll is called.

Partly paid ordinary shares

The partly paid ordinary shares are called on in accordance with their underlying arrangements (due for payment April 2020) and as required by the Company. In any case, on winding up the company, the balance of partly paid shares, if any, may be called up. The proceeds on winding up are proportional to the amounts paid on partly paid shares. Partly paid shares carry equal dividend participation and voting rights as fully paid shares, although any dividends must be first be applied to the unpaid balance on the shares.

Notes to the Consolidated Financial Statements

For the Year Ended 31 December 2021

23 Capital and Reserves (continued)

(b) Reserves

In USD	2021 \$	2020 \$
Foreign currency translation reserve	(1,349,143)	(801,736)
Common control reserve	(42,596,715)	(42,596,715)
Share option reserve	2,140,298	2,125,541
Performance rights reserve	96,250	-
	<u>(41,709,310)</u>	<u>(41,272,910)</u>

Foreign currency translation reserve

The translation reserve comprises all foreign currency differences arising from the translation of the financial statements of foreign operations where their functional currency is different to the Group's presentation currency.

Common control reserve

The acquisition of the share capital of Microbial Defense Systems Holdings Inc ("MDS") by the Company on 22 December 2017 was accounted for as a common control transaction. As a consequence, the difference between the fair value of the consideration paid (\$43,862,500) and the existing book values of assets and liabilities of MDS (\$1,265,785) were debited to a common control reserve, directly within equity.

Share option reserve

The share option reserve comprises the value of the share-based payment arrangements recognised in equity.

(c) Dividends

No dividends were paid or declared by the Company during the financial year.

(d) Dividend franking account

The Company has franking credits available to shareholders of Nil.

(e) Capital management

The Group's objectives when managing capital are to safeguard its ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders, maintain sufficient financial flexibility to pursue its growth objectives and maintain an optimal capital structure to reduce the cost of capital.

Notes to the Consolidated Financial Statements For the Year Ended 31 December 2021

24 Parent Entity Information (continued)

Capital commitments - Property, plant and equipment

The parent entity had no capital commitments for property, plant and equipment as at 31 December 2021 and 31 December 2020.

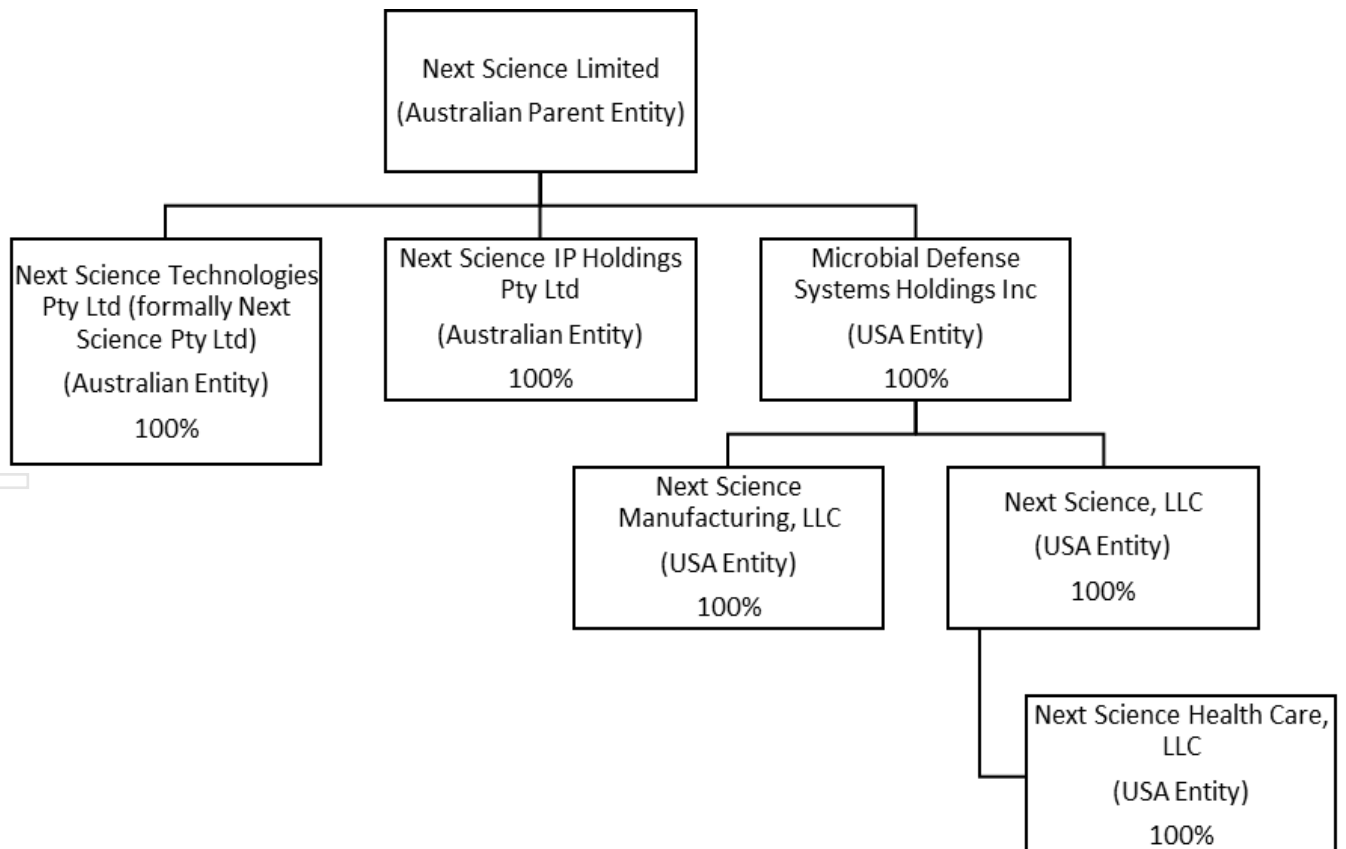

Significant accounting policies

The accounting policies of the parent entity are consistent with those of the consolidated entity, as disclosed in note 3, except for the following:

- Investments in subsidiaries are accounted for at cost, less any impairment.

25 Group Entities

Set out below is the Group structure listing all subsidiaries as at 31 December 2021.

Notes to the Consolidated Financial Statements

For the Year Ended 31 December 2021

26 Related Parties

(a) Key management personnel compensation

Key management personnel ("KMP") are defined as those persons having authority and responsibility for planning, directing and controlling the activities of the Group, directly and indirectly, and include the Directors, executive and non-executive, as well as certain other senior executives. The totals of remuneration of the KMP of the Company included within employee expenses are as follows:

	2021	2020
In USD	\$	\$
Short term employee benefits	1,849,829	1,614,212
Other long term employee benefits	6,822	5,023
Post employment benefits	42,371	47,613
Share-based payment benefits	113,620	411,372
Total	2,012,642	2,078,220

Short term employee benefits

Short term employee benefits includes salary, fringe benefits and cash bonuses paid to the executive directors and other KMP as well as fees and benefits awarded to the non-executive directors.

Post-employment benefits

Post-employment benefits are the cost of superannuation contributions made during the year.

(b) Key management personnel transactions

KMPs of the Company hold 11.02% (2020: 13.9%) of the issued capital of the Company as at 31 December 2021.

Notes to the Consolidated Financial Statements

For the Year Ended 31 December 2021

27 Share-Based Employee Incentive Arrangements

Equity Incentive Plan (equity-settled)

Prior to listing on the ASX, the Group established an Equity Incentive Plan (ECP) and an Employee Share Option Plan (ESOP). The purpose of the Plans is to attract and retain the types of employees, consultants and directors who will contribute to the Company's long term success; provide incentives that align the interests of Employees, Consultants and Directors with those of the shareholders of the Company; and promote the success of the Company's business. As at 31 December 2021, there are 2,890,000 options over ordinary shares on issue (2020: 8,092,500 options), representing 1.46% (2020: 4.17%) of the Company's total share capital, granted to the employees and Directors of the Company.

The grant dates, vesting dates and exercise prices of options issued vary and are as follows:

Grant date and vesting conditions (i)	Expiry date	No of options as at 31 Dec 2020	Granted	Exercised (ii)	Lapsed	No of options as at 31 Dec 2021	Vested as at 31 Dec 2021
16-Apr-18 (1)	16-Apr-21	734,500	-	(734,500)	-	-	-
16-Apr-18 (5)	16-Apr-21	2,340,000	-	(1,560,000)	(780,000)	-	-
16-Apr-18 (4)	16-Apr-21	1,040,000	-	(1,040,000)	-	-	-
16-Apr-18 (2)	16-Apr-22	78,000	-	-	-	78,000	78,000
17-Dec-18 (3)	17-Dec-23	2,470,000	-	-	(650,000)	1,820,000	1,820,000
17-Dec-18 (2)	17-Dec-23	1,430,000	-	(438,000)	-	992,000	992,000
Totals		8,092,500	-	(3,772,500)	(1,430,000)	2,890,000	2,890,000

(i) Vesting conditions are as follows:

- (1) 1 year service from grant date
- (2) 2 years service from grant date
- (3) 3 years service from grant date
- (4) Immediately upon grant
- (5) Various, including financial and non-financial conditions; relating to Judith Mitchell's share options

Notes to the Consolidated Financial Statements
For the Year Ended 31 December 2021

27 Share-Based Employee Incentive Arrangements (continued)

(ii) The weighted average share price for the options exercised during the year was USD \$0.44 (2020: USD \$0.35).

As at 31 December 2021, 2,890,000 options have vested (2020: 4,842,500).

The fair value has been measured using the Black-Scholes formula. Service and non-market performance conditions attached to the arrangements were not taken into account in measuring fair value.

The inputs used in the measurement of the fair values at grant date and measurement date were as follows:

	Grant date		
	16-Apr-18	17-Dec-18	19-Feb-19
FV at grant date (USD)	0.20 - 0.22	0.33	0.02
Share price at grant date (USD)	0.42	0.56	0.57
Exercise price (USD)	0.42	0.56	0.57
Expected volatility		91%	
Expected life		3 -4 years	
Expected dividends		0%	
Risk-free interest rate		2.25% - 5.0%	

Expected volatility is measured based on peer companies and expected life is the number of days until expiry.

The fair value of the performance rights granted to Dustin Haines is deemed to represent the value of Dustin Haines's services received over the vesting period. These values were calculated applying the following inputs to performance rights issued:

	Performance rights
Grant date	22 February 2021
Weighted average fair value per performance right	USD \$0.9248
Number of performance rights issued	340,602
Remaining life of the performance rights	3 years

The fair value of performance rights was measured as the 60 day volume weighted average share price of Next Science Limited shares prior to the performance rights being issued.

Next Science Limited

ACN: 622 382 549

Notes to the Consolidated Financial Statements

For the Year Ended 31 December 2021

28 Contingent Liabilities and Capital Commitments

In August 2021, Irrimax Corporation, a competitor of Next Science in the wound irrigation sector, filed a complaint and subsequently served on its complaint in the United States District Court for the Northern District of Georgia alleging common law unfair competition and false advertising regarding XPERIENCE™. Next Science denies the allegations and is vigorously defending the complaint.

The Group has no capital commitments as at 31 December 2021 (2020: nil).

29 Events Occurring After the Reporting Date

As detailed above, in January 2022, Next Science and Zimmer reached agreement in respect of a new US distribution agreement in relation to the supply of a white labelled version of XPERIENCE™ under Zimmer's own labelling (excluding the US plastic reconstructive surgery market which is covered by TELA Bio, Inc's distribution agreement detailed below), and Zimmer withdrew its District Court proceedings.

In conjunction with agreeing the new XPERIENCE™ distribution agreement, Next Science and Zimmer also agreed a refreshed distribution arrangement for Bactisure. The revised Bactisure arrangements include a revised agreement term. The agreement term will end on 31 December 2026 with Zimmer having the option to extend the agreement for an additional five year period by providing 6 months' prior notice.

The Group announced on 23 February 2022 that it was undertaking a capital raising by way of a placement and a share purchase plan.

There has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event, other than those matters detailed above, of a material and unusual nature likely, in the opinion of the directors of the Company, to affect significantly the operations of the Group, the results of those operations, or the state of affairs of the Group, in future financial years.

32 Financial Risk Management

(a) Overview

The Group's activities expose it to various financial risks including: credit risk, liquidity risk and market risk.

This note presents information about the Group's exposure to each of these risks, its objectives, policies and processes for measuring and managing risk.

(b) Risk management framework

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework with assistance from the Audit and Risk Committee (as detailed below). The Group's risk management framework has been established to identify and analyse the material risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to the risk appetite set by the Board. The Group's risk management framework is reviewed at least annually by the Audit and Risk Committee and the consideration of changes in the Group's risk profile and mitigating actions and controls is a standing item at Audit and Risk Committee meetings.

Notes to the Consolidated Financial Statements For the Year Ended 31 December 2021

32 Financial Risk Management (continued)

(b) Risk management framework (continued)

Audit and Risk Committee

The Audit and Risk Committee responsibilities in relation to risk management are to:

- a) oversee the establishment, and maintenance by management, of processes to ensure that there is an adequate and effective system to identify and manage material business risks;
- b) monitor the Group's Risk Register to confirm that key risks have been identified and adequate controls are in place to mitigate risks so far as reasonably practicable;
- c) receive reports from management on new and emerging sources of risk and the proposed risk controls to mitigate those risks;
- d) receive reports from management and the external auditor on any material incident involving fraud or a breakdown of the Group's risk controls and the lessons learned;
- e) review, at least annually, the Group's risk management framework to confirm that it continues to be sound and that the Group is operating with due regard to the risk appetite set by the Board;
- f) monitor the need for, and if considered necessary, require, an internal or external audit of critical areas of risk;
- g) oversee the establishment of procedures for the receipt, handling and investigation of whistleblower disclosures;
- h) oversee the establishment of, and monitor, assurance mechanisms for monitoring:
 - the Group's culture and compliance with the Group's Values; and
 - compliance with the Group's corporate governance policies and procedures, contractual obligations and the laws applicable to the Group and its operations;
- i) oversee the Group's annual insurance program, having regard to the Group's business and the insurable risks within its business;
- j) assess the adequacy of controls, including disaster recovery and business continuity plans, for preserving and re-establishing financial and operational information in the event of a disaster; and
- k) review and make recommendations to the Board in relation to public disclosures made by the Group regarding material business risks.

The Board considers the Group's risk management framework to be appropriate for the size and level of operations of the Group.

Notes to the Consolidated Financial Statements

For the Year Ended 31 December 2021

32 Financial Risk Management (continued)

(c) Credit risk

Cash and cash equivalents

The Group held cash and cash equivalents of USD \$7,000,869 and USD \$367,129 in term deposits at 31 December 2021 (2020: USD \$8,100,416 in cash and USD \$7,238,986 in term deposits). The cash and cash equivalents are held with credit worthy bank and financial counterparties. The expected credit loss of each of these banks and counterparties are considered to be extremely low; accordingly any expected credit losses are deemed to be insignificant.

Trade receivables and contract assets

Credit risk on trade receivables is the risk of financial loss if a customer fails to meet its contractual obligations.

The carrying amounts of financial assets represents the maximum credit exposure.

Maximum exposure to credit risk for trade receivables by type of counterparty was as follows:

	2021	2020
In USD	\$	\$
Distribution & Licensing Partners	593,644	3,295,464
Hospitals & Surgery Centres	272,187	42,919
Other	-	-
	<u>865,831</u>	<u>3,338,383</u>

As at 31 December 2021, Zimmer Surgical Inc (worldwide) accounted for over 67% of the trade receivables (2020: Zimmer Surgical Inc accounted for over 75% of the trade receivables).

(i) Risk management

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry and country in which customers operate. Details of concentration of revenue are included in Note 5.

The Audit and Risk Committee has established a credit policy under which each new customer is analysed individually for creditworthiness before the Group's standard payment and delivery terms and conditions are offered. The Group's review of new customers includes customer due diligence and credit agency information (Dun & Bradstreet Corporation), if available. Sale limits are established for each customer and reviewed periodically. Any sales exceeding those limits require approval according to an approval matrix.

The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements.

In monitoring customer credit risk, customers are grouped according to their credit characteristics, including whether they are an individual hospital or surgery centre or whether they are a distribution partner with which Next Science has a licensing or distribution agreement. Further consideration is given to their geographic location and trading history with the Group and existence of any previous financial difficulties.

Notes to the Consolidated Financial Statements

For the Year Ended 31 December 2021

32 Financial Risk Management (continued)

(c) Credit risk (continued)

(ii) Impaired trade receivables

Generally, trade receivables are written off when there is no reasonable expectation of recovery. Indications of this include significant financial difficulties of the debtor, the failure of a debtor to engage in a repayment plan, no active enforcement activity and a failure to make contractual payments for an extensive period of time.

Impairment losses are recognised in the profit or loss statement within selling and distribution expenses. Subsequent recoveries of amounts previously written off are credited against selling and general expenses.

As at 31 December 2021, trade receivables with a nominal value of \$Nil (2020: Nil) were considered impaired and fully provided for.

(iii) Past due not impaired

As at 31 December 2021, trade receivables of \$67,247 (2020: \$105,505) were past due but not impaired. These relate to customers for whom there is no recent history of default.

The aging analysis of trade receivables is as follows:

	2021	2020
In USD	\$	\$
0 - 30 days	781,855	3,009,686
31 - 60 days	62,302	162,775
61 - 90 days	21,006	165,922
91 - 120 days	668	-
More than 120 days	-	-
Total	865,831	3,338,383

Notes to the Consolidated Financial Statements

For the Year Ended 31 December 2021

32 Financial Risk Management (continued)

(d) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. The Group manages liquidity risk by monitoring net cash balances, actual and forecast operating cash flows.

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted and include estimated interest payments and exclude the impact of netting agreements.

	Less than 6 months	6-12 months	Between 1 and 5 years	Total contracted amounts
As 31 December 2021				
In USD	\$	\$	\$	\$
Trade and other payables	1,172,996	-	-	1,172,996
Lease liabilities	91,540	74,695	109,802	276,037
Total	1,264,536	74,695	109,802	1,449,033
At 31 December 2020				
Trade and other payables	1,064,365	-	-	1,064,365
Lease liabilities	74,762	96,183	115,889	286,834
Total	1,139,127	96,183	115,889	1,351,199

The cash flows in the maturity analysis are not expected to occur significantly earlier or be for a significantly different amount than contractually disclosed above.

(e) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates, will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Interest rate risk

The Group is not exposed to any significant interest rate risk. There is minimal exposure to the impact of adverse changes in benchmark interest rates. The Group is exposed to variable interest rate risks at the reporting date on cash and short-term deposits. A reasonably possible change of 100 basis points in interest rates at the reporting date would have increased or decreased profit after tax by \$42,906 (2020: \$122,864). This analysis assumes that all other variables, in particular foreign currency rates, remain constant.

Notes to the Consolidated Financial Statements

For the Year Ended 31 December 2021

32 Financial Risk Management (continued)

(e) Market risk (continued)

Currency risk

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The source and nature of this risk arise from operations and translation risks. The Group's reporting currency is United States Dollars ("USD"). However, the international operations give rise to an exposure to changes in foreign exchange rates as amounts of expenditure are from Australia and denominated in currencies other than USD.

The carrying amounts of the Group's foreign currency denominated financial assets (trade and other receivables including accrued income) and financial liabilities (trade and other payables) at the reporting date were as follows:

	2021	2020
	\$	\$
In USD		
AUD financial assets converted to USD	4,006,776	7,282,214
AUD financial liabilities converted to USD	(300,868)	(137,932)
Net exposure in statement of financial position	<u>3,705,908</u>	<u>7,144,282</u>

A reasonably possible strengthening (weakening) of the United States Dollar against all other currencies at 31 December 2021 would have affected the measurement of financial instruments denominated in a foreign currency and affected profit or loss and equity by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

	%	Profit before tax strengthen	Profit before tax weaken	Equity strengthen	Equity weaken
In USD	\$	\$	\$	\$	\$
2021					
Australian Dollars	10%	(370,591)	370,591	(370,591)	370,591
2020					
Australian Dollars	10%	(714,428)	714,428	(714,428)	714,428

The percentage change is the expected overall volatility of the significant currencies, which is based on management's assessment of reasonable possible fluctuations taking into consideration movements over the last 12 months and the spot rate at each reporting date.

Next Science Limited

ACN: 622 382 549

Directors' Declaration

- 1. In the opinion of the Directors of Next Science Limited (the "Company"):
 - a. The consolidated financial statements and notes that are set out on pages 22 to 69 and the Remuneration Report on pages 9 to 20 in the Directors' Report, are in accordance with the Corporations Act 2001, including:
 - (i) giving a true and fair view of the financial position of the Group as at 31 December 2021 and of its performance for the financial year ended on that date; and
 - (ii) complying with Australian Accounting Standards and the Corporations Regulations 2001; and
 - b. there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.
- 2. The Directors have been given the declarations required by Section 295A of the Corporations Act 2001 from the chief executive officer and chief financial officer for the financial year ended 31 December 2021.
- 3. The Directors draw attention to Note 2(a) to the consolidated financial statements, which includes a statement of compliance with International Financial Reporting Standards.

Signed in accordance with a resolution of Directors:

Director

Mark Compton, AM
Chair

Dated: 23 February 2022

Independent Auditor's Report

To the shareholders of Next Science Limited

Report on the audit of the Financial Report

Opinion

We have audited the **Financial Report** of Next Science Limited (the Company).

In our opinion, the accompanying Financial Report of the Company is in accordance with the *Corporations Act 2001*, including:

- giving a true and fair view of the **Group's** financial position as at 31 December 2021 and of its financial performance for the year ended on that date; and
- complying with *Australian Accounting Standards* and the *Corporations Regulations 2001*.

The **Financial Report** comprises:

- Consolidated statement of financial position as at 31 December 2021
- Consolidated statement of profit or loss and other comprehensive income, Consolidated statement of changes in equity, and Consolidated statement of cash flows for the year then ended
- Notes including a summary of significant accounting policies
- Directors' Declaration.

The **Group** consists of the Company and the entities it controlled at the year-end or from time to time during the financial year.

Basis for opinion

We conducted our audit in accordance with *Australian Auditing Standards*. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report.

We are independent of the Group in accordance with the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the Financial Report in Australia. We have fulfilled our other ethical responsibilities in accordance with these requirements.

Key Audit Matters

Key Audit Matters are those matters that, in our professional judgement, were of most significance in our audit of the Financial Report of the current period.

This matter was addressed in the context of our audit of the Financial Report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

Revenue recognition – USD 8,947,591

Refer to Note 5 to the Financial Report

The key audit matter	How the matter was addressed in our audit
<p>We focused on revenue recognition as a key audit matter due to the significant audit effort required by us to test the Group's revenue given the:</p> <ul style="list-style-type: none"> • Significance of revenue to the financial statements; • Varying terms and conditions within each customer contract such as product sales, advance deposits, true up payments and milestone payments. This increases the effort required by the audit team to evaluate the timing and measurement of revenue recognised by the Group, and associated contract liabilities; • Group has manual processes and controls which may increase the risk of error in recognition of revenue at the end of the reporting period due to differing terms of trade and extended delivery periods of customer contracts. 	<p>Our procedures included:</p> <ul style="list-style-type: none"> • Evaluated the appropriateness of the Group's revenue recognition policies against the requirements of AASB 15 Revenue from Contracts with Customers. • For a sample of transactions, across customer contracts including product sales, advance deposits, true up payments and milestone payments, we: <ul style="list-style-type: none"> ○ checked the terms and conditions of the customer contract for consistency to the Group's policy for timing and measurement of revenue recognition; ○ checked the amount, nature and date of revenue recognition through evaluation of the terms and conditions in the underlying customer contract, date of completion of freight forwarding services from underlying freight documents such as the waybill, underlying sales invoices and bank statement cash receipts. • For the calculation of deferred revenue, we checked the remaining life of the contract in the calculation of deferred revenue to the underlying key customer contract. • Selected a sample of revenue transactions across differing terms of trade and extended delivery periods for the last two weeks of the reporting period and the first two weeks of the next reporting period. For each sample selected, we checked the amount and timing of revenue recorded by the Group to the underlying customer contracts, sales invoice and to freight documents. • Assessed the disclosures in the financial report using our understanding obtained from our testing and against the requirements of the accounting standards.

For personal use only

Other Information

Other Information is financial and non-financial information in Next Science Limited's annual reporting which is provided in addition to the Financial Report and the Auditor's Report. The Directors are responsible for the Other Information.

The Other Information we obtained prior to the date of this Auditor's Report was the Directors' Report and Remuneration Report. The Our Purpose Page, Chairman's Letter, Managing Director's Report, Investor Information and Corporate Directory are expected to be made available to us after the date of the Auditor's Report.

Our opinion on the Financial Report does not cover the Other Information and, accordingly, we do not express an audit opinion or any form of assurance conclusion thereon, with the exception of the Remuneration Report and our related assurance opinion.

In connection with our audit of the Financial Report, our responsibility is to read the Other Information. In doing so, we consider whether the Other Information is materially inconsistent with the Financial Report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We are required to report if we conclude that there is a material misstatement of this Other Information, and based on the work we have performed on the Other Information that we obtained prior to the date of this Auditor's Report we have nothing to report.

Responsibilities of the Directors for the Financial Report

The Directors are responsible for:

- preparing the Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*
- implementing necessary internal control to enable the preparation of a Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error
- assessing the Group and Company's ability to continue as a going concern and whether the use of the going concern basis of accounting is appropriate. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate the Group and Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objective is:

- to obtain reasonable assurance about whether the Financial Report as a whole is free from material misstatement, whether due to fraud or error; and
- to issue an Auditor's Report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with *Australian Auditing Standards* will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Financial Report.

A further description of our responsibilities for the audit of the Financial Report is located at the *Auditing and Assurance Standards Board* website at: https://www.auasb.gov.au/admin/file/content102/c3/ar1_2020.pdf. This description forms part of our Auditor's Report.

Report on the Remuneration Report

Opinion

In our opinion, the Remuneration Report of Next Science Limited for the year ended 31 December 2021, complies with *Section 300A* of the *Corporations Act 2001*.

Directors' responsibilities

The Directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with *Section 300A* of the *Corporations Act 2001*.

Our responsibilities

We have audited the Remuneration Report included in pages 9 to 20 of the Directors' report for the year ended 31 December 2021.

Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with *Australian Auditing Standards*.
