AUSTRALIAN TRADING BUSINESS

PointsBet Australia – PCP Performance (A\$M)

KEY METRICS – SPORTS BETTING	HY22	HY21	CHANGE VS PCP
Turnover/Handle ¹⁶	1,358.4	1,071.0	+27%
Gross Win Margin	13.3%	12.7%	+0.6pp
Gross Win ¹⁷	180.1	136.1	+32%
Net Win Margin	7.9%	7.9%	0.0pp
Net Win ¹⁸	107.9	84.8	+27%
Net Revenue ¹⁹	97.6	77.2	+27%

During the Reporting Period, Net Revenue for the Australian Trading business increased to \$97.6 million from \$77.2 million in the PCP, representing a 27% increase as the business continued to increase its client base, focused on client retention and rolling out improved and innovative product and technology enhancements. This strong performance demonstrates PointsBet's capability to disrupt and grow market share in a highly competitive environment.

HY22 saw an increase in the percentage of Turnover that was bet on the higher margin multi-bet product compared to the PCP.

For Q2FY22, app download volumes grew by 121% versus Q2FY21.

PointsBet's improved product offering, user experience and brand equity has helped drive growth in Net Revenue and market share.

The Company's marketing strategy continues to maintain a focus on excellence in achieving a return on investment on the Company's marketing spend via an integrated multi-channel effort and in-depth analysis of category target audience.

The company's FY22 marketing strategy was to front-end the marketing expense significantly in to H1FY22 to take advantage of the Shaq campaign through the Spring Racing Carnival. As a result, the H1FY22 marketing expense was \$44.7 million which contributed to an EBITDA loss of (\$16.1) million for the Reporting Period. The positive momentum created off the back of H1FY22 spend, allows the marketing expense to be reduced to circa \$16 million for H2FY22. Therefore, the company expects the Australian Trading Business to be EBITDA positive for FY22.

The Company continued its national broadcast role as the exclusive Channel 7 Victoria odds integration partner for the Spring and Autumn Racing Carnival coverage.

PointsBet Australia continues to benefit from the Company's investment in its platform, product and client experience, and this investment is reflected in the trading results. PointsBet Australia remains well positioned to continue to expand its client base and to continue to grow.

In September 2021, PointsBet became the new Major Partner of the Manly Sea Eagles National Rugby League (NRL) team. The new exclusive multi-year sponsorship deal will see PointsBet take over the main front position on the Sea Eagles NRL jerseys for at least the next four years.

REVIEW OF OPERATIONS

FOR THE 6 MONTHS ENDING 31 DECEMBER 2021

CONTINUED

A number of optimisations were made during Q2FY22, refining PointsBet's approach to tactical promotions with a focus on rewarding a higher value, engaged client cohort and gaining an improved share of wallet from this cohort.

On 13 August 2021, it was announced that PointsBet agreed to provide Resorts World, a wholly owned subsidiary of Genting Group, with B2B mobile sports wagering services in the State of New York. This strategic B2B agreement should be viewed as an accretive and valuable partnership for the Company, but not indicative of a larger B2B strategy for PointsBet.

At present, PointsBet has live sports betting operations in the states of New Jersey, Iowa, Indiana, Illinois, Colorado, Michigan, West Virginia, Virginia, New York and Pennsylvania.

PointsBet has iGaming operations in Michigan, New Jersey and West Virginia, with launches expected in Pennsylvania and Ontario in H2FY22.

PointsBet has assembled a highly experienced iGaming team which has built an in-house proprietary iGaming platform and administrative tools. Owning and controlling in-house iGaming technology stack will become an increasingly important strategic advantage.

PointsBet's priority is to provide a fast and immersive client experience. The Company has licensed third-party iGaming content from premium content suppliers, including live-dealer solutions. PointsBet successfully launched live dealer in Michigan in November and New Jersey in December.

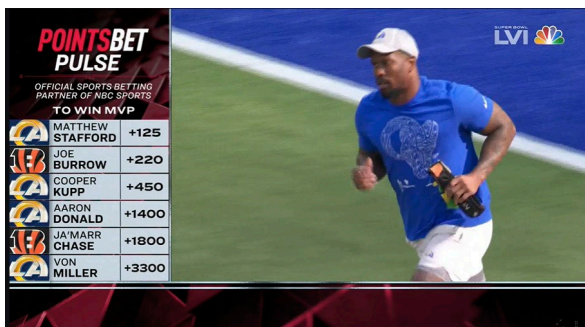

NBC PARTNERSHIP UPDATE

PointsBet is extremely pleased with the progress it has made to date under this partnership. Both teams are aligned to the opportunities ahead and are working to unlock value and execute on PointsBet's brand strategy.

KEY HIGHLIGHTS FOR HY22 INCLUDE:

Key Partnership

On 8 July 2021, PointsBet announced that NFL all-time great Drew Brees officially joined the PointsBet team. Brees, who this season is transitioning to a broadcasting career with NBC Sports (PointsBet's official sports betting partner) will deepen the NBC Sports and PointsBet relationship as the Company continues to expand and realise the growing North American online sports betting and iGaming opportunity in 2021 and beyond. Brees will star in and help develop original content for PointsBet, provide sports betting education and commentary, host events, and steer marketing and promotional concepts, among other areas.

Brand Metrics

In the recent NBC partnership brand analysis²⁴ received in December, survey respondents who were part of the Exposed Group (i.e. respondents who were exposed to PointsBet advertising throughout the NBC campaign) outscored respondents from the Control Group (i.e. respondents who were not exposed to PointsBet advertising throughout the NBC campaign) against all key brand metrics:

- 30% increase in Brand Favourability.
- 29% increase in Consideration Intent.
- 30% increase in Recommendation Intent.
- 41% increase in Target Brand Attributes (e.g. PointsBet utilizes innovative technology).
- 28% increase in Target Partnership Attributes (e.g. Visit the PointsBet app/website to learn more).

Self-identified PointsBet clients, who were also exposed to the NBC partnership, agree that PointsBet delivers on key elements that they are searching for from their sportsbook:

- 90% said PointsBet builds authenticity and trust with their users.
- 89% said PointsBet is redefining sports betting.
- 90% said PointsBet is becoming a more common sportsbook that is used or talked about.

Integrations

NFL

- PointsBet and NBC developed the first ever sports betting integration inside Football Night in America (FNIA), a top rated TV program with an average of ~17 million viewers. The "PointsBet Pulse" segment was led by ambassadors Drew Brees and Chris Simms throughout the season, and featured PointsBet betting markets with analysis from Drew and Chris. The segment finishes by driving viewers to PointsBet's app, promoting immediacy ahead of game-time.
- This activation was further enhanced with a PointsBet branded ticker that ran throughout FNIA, informing viewers of the latest odds in real time for a number of markets for that night's game.
- PointsBet also had a weekly betting integration into Peacock's Sunday Night Football Final, a new postgame show that was developed for this season.

Golf

- In-round integrations have been featured across the Golf Channel since September 2021 and include live odds inside NBC Sports-built graphic packages throughout the entire tournament. This marked the first time an integration of this kind has been seen across the Golf Channel.
- PointsBet also became the title sponsor of 'Golf Today', Golf Channel's premier studio show that airs multiple times per week.

English Premier League (EPL)

- Live odds displayed at the start of the second half of select EPL games.
- 'Goal Summary' feature allowed for additional PointsBet branding to appear on screen when a goal was scored in select EPL games.
- Studio show activations such as displaying EPL futures (e.g. to win the league, to finish top four, Golden Boot) and a PointsBet branded ticker that featured live odds.

Predictor

Leads acquired directly from the free-to-play app, NBC Sports Predictor, exceeded 610,000 at the end of H1FY22. These are leads across all fifty states, providing PointsBet with both the opportunity to reach users in live states with sign up messaging and the chance to grow its leads base when launching in to future states.

CORPORATE

Corporate administrative costs (Board, Finance, Legal, Human Resources, Property and other central functions) are costs that cannot be readily allocated to individual operating segments and are not used by the CODM (Chief Operating Decision Maker) for making operating and resource allocation decisions. The statutory EBITDA loss for the Corporate Segment for the Reporting Period was (\$13.5) million. For HY22, the Corporate Segment includes all costs associated with PointsBet Canada.

Key drivers of this change include:

- Increase in listed company related costs including share registry, and stock exchange costs resulting from capital raising transactions that occurred in HY22
- Increase in external consultant and legal costs from capital raising and corporate transactions; and
- An increase in employment benefits (including share-based payment expenses) due to increased headcount of support staff

As at 31 December 2021, PointsBet had A\$523.3 million of corporate cash, part of which is held in US Dollars.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 DECEMBER 2021

1. BASIS OF PREPARATION OF HALF-YEAR REPORT

This condensed consolidated interim report for the half-year reporting period ended 31 December 2021 has been prepared in accordance with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*.

This interim report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2021 and any public announcements made by PointsBet Holdings Limited during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*. The accounting policies used are consistent with those applied in the 30 June 2021 annual financial report, unless otherwise stated.

2. SEGMENT INFORMATION

A) DESCRIPTION OF SEGMENTS

The consolidated entity has determined that its operating segments are its reportable segments. The Group's reportable segments are as follows:

- Australian Trading;
- United States Trading; and
- Technology

This is based on the internal management reports that are reviewed by the Chief Executive Officer (who is identified as the Chief Operating Decision Maker (CODM)) in assessing performance and in determining the allocation of resources. There is no aggregation of operating segments.

Australian Trading includes revenue from online sports and online fixed odds racing betting services provided to Australian customers. The Group reports the gains and losses on all betting positions as revenue, which is measured at the fair value of the consideration received or receivable from customers less free bets, promotions, bonuses and other fair value adjustments net of GST.

The United States Trading segment derives revenue from sports betting (retail and online), iGaming and advance deposit wagering (ADW) services provided to United States customers.

The Technology segment derives its external revenue from B2B services provided to customer and its internal revenue from licensing fees charged to the Australian Trading and United States Trading segments.

Corporate administrative costs (Board, Finance, Legal, Internal Audit, Human Resources, Property and other central functions) cannot be readily allocated to individual operating segments and are not used by the CODM for making operating and resource allocation decisions. Hence, these are shown in the reconciliation of reportable segments to group totals. For the current period, costs involved with the start-up of the PointsBet Canada operations are also allocated to the Corporate segment until the business is operational.

Intersegment transactions

Transactions were made at market rates. Intersegment transactions are eliminated on consolidation.

Accounting policy for operating segments

Operating segments are presented using the 'management approach', where the information presented is on the same basis as the internal reports provided to the CODM. The CODM is responsible for the allocation of resources to the operating segments and assessing their performance.

Major customers

There are no major customers that represented more than 10% of the segment revenue.

B) SEGMENT RESULTS

The CODM primarily uses a measure of earnings before interest, tax, depreciation and amortisation (EBITDA, see below) to assess the performance of the operating segments. However, the CODM also receives information about the segments' revenue on a monthly basis. Assets and liabilities information is reported internally in total and not by reportable segment and, accordingly, no information is provided in this note on assets and liabilities split by reportable segment.

13. FAIR VALUE MEASUREMENT

The following table provides the consolidated entity's assets and liabilities, measured or disclosed at fair value, using a three level hierarchy, based on the lowest level of input that is significant to the entire fair value measurement, being:

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

Disclosed fair values

There were no transfers between levels during the year. There were no changes in the Group's valuation processes, valuation techniques, and types of inputs used in the fair value measurements during the period.

The carrying amounts of trade and other receivables and trade and other payables are assumed to approximate their fair values due to their short-term nature.

Pending bets have been valued based on the amount of unsettled bets at period end, adjusted for the average net win in each open market.

The fair value of financial liabilities is estimated by discounting the remaining contractual maturities at the current market interest rate that is available for similar financial liabilities.

The following table presents the changes in level 3 items for the half-year ended 31 December 2021:

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Group's financial position as at 31 December 2020 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
