A description of the nature of the consolidated entity's operations and its principal activities are included in the Directors' report, which is not part of the financial statements.

The financial statements were authorised for issue, in accordance with a resolution of directors, on 25 February 2022.

Note 2. Significant accounting policies

These general purpose financial statements for the interim half-year reporting period ended 31 December 2021 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2021 and any public announcements made by the company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

Going concern

The financial statements have been prepared on the going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and settlement of liabilities in the normal course of business.

During the half-year ended 31 December 2021, the consolidated entity incurred a net loss after tax of \$765,509 (31 December 2020: \$516,667) and a cash outflow used in operating activities of \$706,465 (31 December 2020: \$368,554). As at 31 December 2021, the consolidated entity had cash and cash equivalents of \$920,116 (30 June 2021: \$1,670,290), net assets of \$2,112,630 (30 June 2021: \$2,698,778) and net current assets of \$870,066 (30 June 2021: \$1,526,842).

Following nearly two years of growth, the second quarter of the financial year ending 30 June 2022 ('FY 2022') proved challenging. The global supply chain struggles, inflationary pressure, and understandable desire of many customers to visit stores and spend time with friends and family over the holidays, impacted the performance of the business.

Since the December 2021 holiday period, the business has seen website traffic growth and improving sessions and bounce rates (time spent on the website). Further, activities have been undertaken to improve the prominence and discoverability of the Design Milk shop, a challenge it was felt impacted the recent December 2021 holiday trade. There is also a focus on developing more public relations ('PR') and marketing activities to grow awareness further.

To protect the Group's cash position, the directors began reducing operating costs in January 2022 and will recognise further savings throughout the third quarter of FY 2022. Positively, the operating system and structure of Design Milk is light and agile, and the directors have the ability to make more aggressive cuts quickly in the third and fourth quarters of FY 2022 should the need arise to maintain a healthy cash position into FY 2023. At this point, the directors do not anticipate having to activate these additional savings programs as it is believed that the shop-site enhancements and PR/Marketing efforts will accelerate growth for the business.

Note 2. Significant accounting policies (continued)

Based on these considerations, the directors are of the view that the Group will be able to pay its debts as and when they fall due for at least the next 12 months following the date of these financial statements and that it is appropriate for the financial statements to be prepared on the going concern basis.

New or amended Accounting Standards and Interpretations adopted

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period. The adoption of these Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the consolidated entity during the financial half-year ended 31 December 2021 and are not expected to have any significant impact for the full financial year ending 30 June 2022.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Note 3. Operating segments

Identification of reportable operating segments

The consolidated entity's operating segments are based on the internal reports that are reviewed and used by the Board of Directors who are identified as the Chief Operating Decision Makers ('CODM') in assessing performance and in determining the allocation of resources.

The directors have determined that there is one operating segment identified and located in the United States of America. The information reported to the CODM is the consolidated results of the consolidated entity.

The operating segment information is the same information as provided throughout the financial statements and is therefore not duplicated.

The information reported to the CODM is on a monthly basis.

Responsibility of the Directors for the Financial Report

The directors of the Group are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2021 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
