By Electronic Lodgement

Dear Sir/Madam,

LODGEMENT OF HALF YEAR REPORT (APPENDIX 4D)

In accordance with the Listing Rules, please find attached the Half Year Report (Appendix 4D) for XTEK Ltd (XTE) for the half-year period ended 31 December 2021. The information contained in this report should be read in conjunction with the 2021 Annual Report.

Should you require any further information in respect to this matter please contact the Group Chief Executive Officer, Mr. Scott Basham by email scott.basham@xtek.net in the first instance.

Yours sincerely,

Lawrence A. Gardiner Company Secretary

Attachment: XTEK Limited Half Year Report for half-year ended 31 December 2021.

XTEK Limited and Controlled Entities

APPENDIX 4D

HALF YEAR REPORT FOR THE PERIOD ENDED 31 DECEMBER 2021

SUMMARY OF RESULTS FOR ANNOUNCEMENT TO THE MARKET

| Key Information | Half Year 2021 \$'000 | Half Year 2020 \$'000 | Change % |
|---|-----------------------------|-----------------------------|-------------|
| Revenue from ordinary activities | 11,525 | 12,402 | 7% |
| Loss after tax from ordinary activities | (6,837) | (3,547) | 93% |
| Loss attributable to members | (6,837) | (3,547) | 93% |

Note: XTEK recorded a loss for the current half year period of \$6,836,695 and a loss of \$3,547,490 in the comparative period to 31 December 2020. The loss in H1 includes a one off, non-cash impairment of inventory totalling \$2,486,374.

| Dividends | Amount per security | Franked amount per security | | |

Directors' Report

Half-year Ended 31 December 2021

Your Directors submit the financial report for the half-year ended 31 December 2021.

Directors

The names of Directors who held office during the half-year ended 31 December 2021, are:

Mr. Uwe Boettcher

Mr. Christopher Fullerton

Mr. Christopher Pyne

Mr. Mark Smethurst

Mr. Philippe Odouard (resigned on 30thJul 2021)

Key Highlights

- Restructure of business operations Following the adoption of recommendations from the external Arican Strategic Review of July 2021, the XTEK Board has implemented a restructuring of business operations to right-size our cost base, reduce overheads, and sustainably manage its working capital. In addition, it has targeted its efforts on core domestic and international Defence and Law Enforcement market opportunities. These actions have been spearheaded by Mr. Scott Basham who was appointed Group Chief Executive Officer (Group CEO) on 31 July 2021.
- Focus on core market sales – In line with the Strategic Review recommendations, the Group CEO has recruited new business development and sales staff to sharply focus on core Defence and Law Enforcement market verticals, in order to grow profitable revenue from the Group's unique Ballistic Division and Technology Division products and solutions. Significant effort has been expended by this new team during the reporting period to address these specific core business markets. There have been delays caused by COVID-19, supply chain disruptions and other related matters which have impacted the timelines of some major Defence opportunities originally expected in H1 FY22. However, a strong pipeline of realistic domestic and international opportunities now exists, which are being aggressively pursued.
 - Focus on cost savings During the reporting period, the Group CEO has restructured the management of the Australian manufacturing facility in Adelaide and appointed a new highly competent Manager who has driven production efficiencies and implemented lean manufacturing processes. These efforts, combined with other rightsizing activities undertaken in the Technology Division, have achieved annualised cost savings of approximately \$3m. XTEK expects to see cost savings of at least \$1.4m in H2 FY22.
 - Capital raise During the reporting period, XTEK successfully raised \$7m, net of expenses, through a Share Placement and Non-Renounceable Entitlements Offer (NREO).

Board Appointments/Changes - Post Reporting Period

- On 23rd February 2022, Mr Uwe Boettcher submitted his resignation as Chairman and Non-Executive Director of the XTEK Group due to ongoing medical issues. In accepting his resignation, the Board acknowledged the long-term stewardship and support given to the Group by Mr. Boettcher, who served with distinction as a Director and the Chairman of the Group for over 13 years. On behalf of the entire Group, the Board expressed its gratitude to Mr Boettcher for his significant contribution and wished him well for the future.
- On 23rd February 2022, Mr Mark Stevens was appointed as a Non Executive Director and the new Chairman of the XTEK Group. Mr Stevens has deep connections with and experience in Defence Industry and has advised many major groups, both domestic and foreign, on their engagement and ongoing dealings with the defence vertical. Further, Mr. Stevens has a detailed understanding of XTEK's business operations, its world class technology and its outstanding potential for growth, having led a Strategic Review of the Group in July 2021. The Board believes that Mr Stevens will

provide outstanding strategic guidance as XTEK continues to sharpen its focus on the core Defence and Law Enforcement markets, for both its Ballistics and Technology Divisions' offerings.

• On 23rd February 2022, Mr Ben Harrison was appointed as a Non - Executive Director of the XTEK Group. Mr Harrison has a strong financial background, gained from his 15 years of experience in advising and investing in companies. He is a founder and Chief Investment Officer of Altor Capital and is active in the private equity and private credit sectors in Australia. Mr Harrison currently holds board and advisory roles with several private and public companies. Mr Harrison's extensive investment and financial background knowledge will provide additional financial experience to the XTEK Board.

Review of Operations

Financial Overview

For the half-year ended 31 December 2022, XTEK achieved revenue of \$11.68m (H1 FY21: \$12.6m) and recorded a first half loss of \$4.5m from normal operations increased to a loss for H1 of \$6.8m after including one off abnormal costs (H1 FY21: \$3.7m).

In addition to a smaller margin contribution from lower sales, the half-year loss incorporates expenditure to complete the commercialisation of XTEK's proprietary sensor and software technologies and investment in important new tooling and machining equipment, required for the development and manufacturing of a new ultra-lightweight body armour product line at its Adelaide Manufacturing Centre, to be launched in early FY23.

Commencing in October and finishing in November 2021, XTEK raised a total of ~\$7.7m, before expenses through a Share Placement and Non-Renounceable Entitlements Offer (NREO) to existing shareholders and new investors. This consisted of:

- ~\$2.7m raised in an oversubscribed Placement at an offer price of \$0.26 per share, supported by existing and new investors.
- ~\$5.0m raised in an NREO, which exceeded the initial target of \$3m, and
- A total of ~19.2m new ordinary shares were allotted and issued to eligible shareholders and investors.

As mentioned, proceeds raised from the Placement and the NREO are being used to fund an expansion of the range of ultra-lightweight and high-performance hard armour body plates and ballistic helmets made using the XTclaveTM process. Further investment has been made to accelerate the commercialisation of proprietary sensor and software products, and for general working capital.

Cost Control & Rightsizing – Following the appointment of the new Group CEO on 31 July 21 and the Capital Raising completed in November 2021, XTEK has made significant inroads in rightsizing its operational cost base as part of the restructuring and refocusing of the business onto its core Defence and Law Enforcement markets. Head count has been reduced by ~45% across the Australian operations, with underperforming international consultancy agreements being terminated. The consolidation of some infrastructure sites is also under review.

Cash Position – As of 31 December 2021, the Group held \$4.49m in cash.

Operations Overview

In line with the Board's directive to restructure the Group's business operations, action has been taken to create two distinct business divisions. The Group CEO, Mr Scott Basham now exercises executive control over both business divisions (including HighCom Armor), these being:

<u>Ballistics Division</u> – Incorporates the HighCom Columbus Manufacturing Centre (CMC) and the XTEK Adelaide Manufacturing Centre (AMC) facilities, with all ballistic products made in these locations now unified globally under the "HighCom Armor" brand. The Ballistics Division is primarily focused on designing, manufacturing, and supplying critical lifesaving body armour and helmets to global military, law enforcement, and first responder customers.

As a result of the restructuring measures implemented during the period, there has been a significant increase in the unification and collaboration across the Ballistics Division's CMC and AMC facilities. Market intelligence and customer feedback, which is rapidly driving new product development and innovation across the full range of our unique high-performance ultra-lightweight ballistic helmets, body armour, vests, carriers and associated products.

XTEK's world class, patented XTclave technology allows for the creation of unique personal ballistic protection solutions that incorporate advanced composite materials consolidated into complex shapes with difficult geometries that could never be made in conventional and widely used pressing machines. An example is XTEK's new lightweight "Inclusive" body armour range that is about to be launched into the US and Australian markets, which will for the first time offer customers standardised large form multi-curve body armour plates for use by women and large chested men.

Additionally, XTEK's XTclave is now scaling out the production of our advanced ARDITI "rifle rated" helmets for sale in Australia, the US and elsewhere. The ARDITI helmet is unique as it can withstand AK-47 rounds at "point blank" range. XTEK continues to be very positive about the market potential for XTclave manufactured lightweight and high ballistic performance products and is actively pursuing sales opportunities around the globe.

<u>Technology Division</u> – Co-located within the XTEK Group Headquarters in Canberra, the Technology Division is focused on manufacturing and supplying global Defence and Security Agencies with world-leading Australian-made and globally sourced systems and solutions, comprising:

- Systems Unmanned Aerial Vehicles (UAVs) (AeroVironment) & Unmanned Ground Vehicles (UGVs) (Telerob, Milrem Robotics, & Recon Robotics)
- Sensors Chemical Detection (XTEK)
- Software 3D Mapping & Modelling SW (XTEK)
- Support System Integration, Training, & Service Support (XTEK)

XTEK's Technology Division continues to supply unmanned systems from world leading OEMs that are in demand from the Australian Defence Force. Additionally, the Division also provides support services for all the solutions that its manufactures and / or sells.

During the reporting period, XTEKs Technology Division has responded to the following tenders and sales opportunities:

- Tender to the Australian Department of Defence for the provision of Telerob Explosive Ordnance Disposal (EOD) robots. This Land 154-4 Remote Positioned Vehicle (RPV) tender is currently under evaluation, and XTEK expects to hear the outcome of its submission in the coming months once all system testing and evaluation processes have been completed.
- Various proposals have been submitted to Defence for the Milrem Robotics Themis UGVs system for specific end user applications. We are in ongoing discussions with these various user groups in Defence to progress these proposals to funded activities.
- XTEK is also in late-stage negotiations to supply its SARBI Chemical Detection Sensor to the US based company Recon Robotics, to supply SARBI into their sales distribution network as a unique payload for use by US military and US law enforcement customers. XTEK expects to close this agreement by end Q3 FY22, with supply commencing into the US in Q4 FY22.
- During the reporting period, XTEK continued to engage closely with Defence for the provision of new AeroVironment UAVs and expects to be submitting tender responses valued at \$10m-\$15m for new systems over the coming weeks. In addition, XTEK continues to provide support to the existing AeroVironment "Wasp" UAV under its ongoing multi-year contract with Defence.

Virolens Update – Under the distribution agreement XTEK signed and announced in March 2021 with Key Options, the Master Agent for Virolens responsible for the Asia Pacific region, Key Options are fully responsible for obtaining all necessary TGA approvals for Virolens for use in Australia. To date Key Options has not been able to secure the necessary regulatory approvals, which consequently has

meant that XTEK has not been able to execute on the potential market opportunities in Australia for the technology.

XTEK has been working closely with Key Options to convert the inventory to cash, by seeking to sell it to other jurisdictions where approvals and certifications have progressed more rapidly than they have in Australia and New Zealand.

There has been interest expressed to Key Options for the XTEK inventory. Key Options has received a conditional purchase order which would be fulfilled using the XTEK holding. Notwithstanding this, the Board has taken a conservative and prudent position and, in consultation with its auditors, decided to fully impair the inventory.

The Board is committed to seeking a sale of the inventory. Whilst this one-off impairment has impacted the financial H1 FY22 results, importantly there is no cash impact. If the company is successful in selling all or some of the inventory, this will result in a write back of inventory value, boosting financial results, and an equivalent cash injection into the company.

Outlook

The Board has implemented the majority of the restructuring recommendations identified in the Arican Strategic Review of July 2021. While there remain some specific tasks to be finalised the business is now in a far stronger position. Further, the new Group CEO, Mr Scott Basham, and his executive team have been instrumental in undertaking this critical role to drive the changes that the Board required to be made.

Mr Basham has subsequently implemented a range of measures that will significantly influence the outlook of the Group going forward, including:

- Rightsizing of the operational cost base of the XTEK business
- Realigning the focus of the business back onto its core Defence Industry and Law Enforcement markets
- Engaging with key international suppliers to increase the gross margins applicable on XTEK's reseller sales of their products
- Driving the commercialisation for sale of XTEK's own sensor and software products for domestic and international opportunities
- Unifying the once disparate Ballistic Division operations in Adelaide and the United States

Whilst there have been some unforeseen and unexpected delays caused by COVID-19 impacts on the business's operations during H1, the Group continues to strongly engage with its key Australian Defence stakeholders and its US Military and Law Enforcement customers in the pursuit of large-scale growth opportunities.

XTEK's growth potential through H2 FY22 and FY23 continues to be based on its:

- World leading Systems exclusively sourced by our Technology Division to meet increasing demand in the ANZ markets
- Intellectual Property portfolio covering Sensors, Software, and advanced Ballistic Products, all with performance advantages
- Attractive Defence Industry fundamentals underpin future growth potential ADF expected to spend
 \$270bn over next 10 years
- Major focus on Australian-made sovereign industrial capabilities for ADF future procurement
- Improved Gross Margins targeted from the Group's own advanced Ballistics solutions and Australian-made Technology
- Significant annualised savings to be achieved from rightsizing cost base
- Improved revenue growth, focus on large, qualified sales opportunities.

XTEK's growth strategy continues to be sharply focused on:

- Developing new and innovative advanced ballistic protection products using our patented worldleading XTclave process, and differentiating through our superior lightweight and protection performance features and benefits
- Develop new and innovative Australian-made Systems, Sensors, and Software solutions to meet increasing demand from the ADF
- Leveraging "HighCom Armor" as XTEK Group's global armour brand in order to continue to grow global ballistic sales revenues
- Provide exceptional customer service across all divisions to generate repeat purchases and recurring annuity support income

The Group remains optimistic that given the focus of its operational divisions and world leading technologies, it is well positioned to capitalise on a range of future opportunities and deliver on shareholder expectations of realistic revenue growth and a return to profitability as quickly as possible.

Auditor's Independence Declaration

The lead auditor's independence declaration under s 307C of the *Corporations Act 2001* is set out on page 6 for the half-year ended 31 December 2021.

This Directors' Report is signed in accordance with a resolution of the Board of Directors.

Notes to the Financial Statements

Half-year Ended 31 December 2021

The consolidated financial report covers XTEK Limited and Controlled Entities (XTEK). XTEK is a for-profit company limited by shares, incorporated and domiciled in Australia.

Each of the entities within XTEK prepare their financial statements based on the currency of the primary economic environment in which the entity operates (functional currency). The consolidated financial statements are presented in Australian dollars which is the parent entity's functional and presentation currency (unless stated otherwise).

The financial report was authorised for issue by the Directors on 28 February 2022.

Comparatives are consistent with prior years, unless otherwise stated.

Basis of Preparation

This condensed consolidated half year financial report for the reporting period ending 31 December 2021 has been prepared in accordance with the requirements of the Corporations Act 2001 and Australian Accounting Standard AASB 134: Interim Financial Reporting.

The half year financial report is intended to provide users with an update on the latest annual financial statements of XTEK Limited and controlled entities (XTEK or the Group). As such it does not contain information that represents relatively insignificant changes occurring during the half year within XTEK. This condensed consolidated financial report does not include all the notes normally included in an annual financial report. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of XTEK for the year ended 30 June 2021, together with any public announcements made during the half year.

The same accounting policies and methods of computation have been followed in this half year financial report as were applied in the most recent annual financial statements.

Summary of Significant Accounting Policies

(a) Going concern

This report has been prepared on the going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and settlement of liabilities in the normal course of business.

XTEK has incurred a loss of \$6,836,695 for the half-year ended 31 December 2021 (full year ended 30 June 2021: Loss of \$3,974,948 and half-year ended 31 December 2020: Loss of \$3,547,490).

Accumulated losses to 31 December 2021 total \$30,134,281 (accumulated losses to 30 June 2021 of \$23,297,586 and accumulated losses to 31 December 2020 total \$22,870,128).

The balance of cash and cash equivalents was \$4,491,489 as at 31 December 2021 (as at 30 June 2021: \$5,901,223 and as at 31 December 2020: \$10,070,412).

Notes to the Financial Statements

Half-year Ended 31 December 2021

The Directors have reviewed XTEK's financial position and cash flow forecasts, which show that XTEK will be able to meet its debts as and when they fall due and payable and are, therefore, of the opinion that the use of the going concern basis of accounting is appropriate. This is based on the expectation that XTEK will meet projected revenue from its value added reseller, product development business and from other funding sources, and that XTEK will be able to retain overheads at budgeted levels.

(b) Derivative financial instruments

XTEK uses forward currency contracts to hedge its risks associated with foreign currency fluctuations. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured to fair value. Changes in fair value are recognised immediately in profit or loss in income or expenses. Forward currency contracts are recognised as an asset when their value is positive and as a liability when their value is negative.

Half-year Ended 31 December 2021

4 Expenses

Corporate and Administrative Expenses include the following.

| Empleyed honofite | Half-year ended 31 December 2021 | Half-year ended 31 December 2020 |
|--|---|---|
| Employee benefits | \$ | \$ |
| Salaries and wages ¹ | 3,752,879 | 3,082,717 |
| Superannuation | 307,781 | 258,520 |
| Payroll tax | 309,674 | 255,654 |
| Workers compensation | 53,679 | 38,616 |
| Depreciation | | |
| Plant and equipment | 286,693 | 99,336 |
| Motor vehicles | 2,839 | 2,839 |
| Office furniture and equipment | 112,469 | 80,406 |
| Computer software | 52,134 | 39,998 |
| Demonstration equipment | 11,488 | 12,507 |
| Leasehold property improvements | 65,194 | 46,250 |
| Operational expenditure | | |
| Accounting, audit, tax fees | 95,632 | 99,312 |
| Bank charges | 58,139 | 42,250 |
| Directors' fees | 153,750 | 133,000 |
| Finance costs | | |
| Interest on lease liabilities ² | 84,695 | 95,719 |
| Total finance costs | 84,695 | 95,719 |
| Corporate and Administrative Expenses – abnormal Inventory impairment ³ | 2,486,374 | - |

³ Inventory impairment consists of \$167,965 of stock written-off as part of the business's regular assessment of carrying values and \$2,318,409 of inventory associated with Virolens. See the Directors' report pages 3 & 4.

¹ Salaries and Wages includes payments to facilitate the company's cost reduction initiative. A total of ~\$330,000 worth of payments was made to staff whose employment was terminated; this is made up of ~\$208,000 of termination payments and ~\$122,000 of payments for unused Annual Leave and Longs Service Leave.

² The "Interest on lease liabilities" refers not to borrowings but is the application of AASB16. It is the internal interest component of the lease on rented properties.)

Notes to the Financial Statements

Half-year Ended 31 December 2021

5 Government Grants

(a) AusIndustries R&D Tax Incentive

No cash back is expected to be received for the 2021-22 year due to revenue threshold restrictions.

No cash back was received in the 2020-21 year.

6 Cash and Cash Equivalents

Notes to the Financial Statements

Half-year Ended 31 December 2021

17 Operating Segments

The XTEK Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (chief operating decision makers) in assessing performance and allocation of resources.

XTEK is managed primarily on the basis of product category and service offerings as the diversification of the Company's operations inherently have different risk profiles and performance assessment criteria.

(a) Revenue by geographical region

In presenting information on the basis of geographical segments, segment revenue is based on the geographical location of the customers of the Group.

| New Zealand | 6,539 | 39,270 |
| Other | 539,635 | 658,131 |
| | 11,525,182 | 12,402,124 |

(b) Major customers

The major customer is private industry: 61% (previously 63%), and government clients 39% (previously 37%). The largest source of customers for the Group is now in the US: 60%. This comes about through the distribution network serviced by HighCom, In the half year ended December 2020: 63%. This marks a significant diversification in XTEK's customer base.

18 Contingencies

As at 31 December 2021, there are no contingent liabilities.

At 31 December 2020, a contingent liability of USD253,000 was noted. The liability did not arise.

The US subsidiary received a forgivable loan in the 2019-20 FY as part of the US Government's Covid 19 stimulus package. As the conditions for the loan were met, the loan was forgiven.

19 Events Occurring After the Reporting Date

The Group has determined that there are no going concerns risks arising from the impact of Covid-19 and has mitigation strategies in place with regards to the outbreak and other ongoing impacts. The Board has determined that the Group maintains an adequate cash position and a stable revenue stream for the remainder of the year.

No matters or circumstances have arisen since the end of the financial half year which significantly affected or could significantly affect the operations of XTEK, the results of those operations, or the state of affairs of XTEK in future financial years.

Directors' Declaration

The Directors of the Company declare that:

- 1. The consolidated financial statements and notes, as set out on page 7-21 are in accordance with the *Corporations Act 2001*, including:
 - (a) complying with Accounting Standard AASB 134: Interim Financial Reporting; and
 - (b) give a true and fair view of the consolidated group's financial position as at 31 December 2021 and of its performance for the half-year ended on that date.
- 2. In the Directors' opinion, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors.

Independent Auditor's Review Report to the members of XTEK Limited and Controlled Entities

Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of XTEK Limited and Controlled Entities, which comprises the consolidated condensed statement of financial position as at 31 December 2021, the consolidated condensed statement of profit or loss and other comprehensive income, the consolidated condensed statement of changes in equity and the consolidated condensed statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the Directors' declaration.

Directors' Responsibility for the Half-Year Financial Report

The Directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the Directors' determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the company's financial position as at 31 December 2021 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of XTEK Limited and Controlled Entities, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independent Auditor's Review Report to the members of XTEK Limited and Controlled Entities

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the Directors of XTEK Limited and Controlled Entities, would be in the same terms if given to the Directors as at the time of this auditor's report.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of XTEK Limited and Controlled Entities is not in accordance with the Corporations Act 2001 including; giving a true and fair view of the company's financial position as at 31 December 2021 and of its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and Corporations Regulations 2001.
