Explanation of results

During the period, the Leaf Resources ('the Company' or "Leaf') made further investment into the Research and Development Plant at Apple Tree Creek. Investment went towards completion of the wood chemical extraction plant, and research into the viability of stumps as a feedstock into the chemical extraction process.

On 15 November 2021, Leaf requested a trading halt of its securities after experiencing an explosion at its Apple Tree Creek chemical plant ('site' or 'Plant'). On 17 November 2021 the ASX granted the Company voluntary suspension. The explosion occurred at approximately 9.45pm on Friday 12 November 2021 and five personnel were on site at the time.

Fixed assets with a book value of \$1,621,929 were written off as a result of the explosion. The Group is currently working with its insurance providers to claim for repairs and replacements of damaged machinery and equipment as a result of the incident at the Apple Tree Creek plant. The Group is also working on planning for the rebuild, and as such the sum of claims can only be reliably estimated once planning has been completed.

Review of Operations and Financial Results

The Group's operating loss for the half year period was \$4,391,212, (31 December 2020 loss – \$8,710,103). At 31 December 2021, the Group's net assets totalled \$8,047,064, which included cash assets of \$3,863,849.

Principle Activities

During the period, our principal activities included research and development of environmentally sustainable methods of extracting wood chemicals on an industrial level.

OPERATIONAL UPDATE

Pine Stump Trials

In July 2021 Leaf confirmed the viability of pine stumps as a feedstock to its natural chemical production process which both increases wood supply and yields while regenerating the forest for replanting. Since then, Leaf and HQ Plantations Pty Ltd have committed extensive time and resources to a 1,000-tonne stump trial to refine and optimise harvesting, handling, and processing procedures to maximise productivity while determining occupational health and safety procedures required in a new approach to Australian forestry management. The advantage to Leaf of using stumps is a higher pine chemical content in processed feedstock.

Innovative initiative and refinement in processes has led to the use of excavators with scissors to remove tap roots. The process also removes soil, leaving low yielding organic matter in the forest which improves future soil health in the forest. This means lower transportation cost through minimising soil content which further increases yields of each truckload delivered to Apple Tree Creek. An additional benefit is that large stumps can now be halved or quartered in the forest, creating more uniform supply for efficient processing.

Contractors employed in the trials are now designing and procuring the specialist equipment developed during the stump trials for the commercial supply of stumps to Leaf.

Stump trial data and associated analysis estimate available stump supply from surrounding plantations is ample for the requirements at the Apple Tree Creek Plant.

Also critical to Leaf's proprietary process and optimal use of the stumps is the chipping and sizing of the wood chip to ensure correct flow of biomass through the plant's extractor and desolventiser. Since July, the Company has also been optimising the frontend processing of the stumps, which includes the chipper and a new purpose-built screener which has been installed during the period.

Incident at Apple Tree Creek

On 15 November 2021, Leaf requested a trading halt of its securities after experiencing an explosion at its Apple Tree Creek chemical plant ('site' or 'Plant'). On 17 November 2021 the ASX granted the Company voluntary suspension. The explosion occurred at approximately 9.45pm on Friday 12 November 2021 and five personnel were on site at the time.

The explosion resulted in injuries, with one contractor taken to the Bundaberg Hospital with serious facial injuries and burns while another employee was treated with minor injuries.

Workplace Health and Safety officers have been on site investigating the cause of the accident. Leaf is co-operating with WorkSafe Queensland on this investigation and WorkSafe Queensland has since released the site back to Leaf.

The Company's immediate concern following the explosion has been for the well-being of its employees and contractors, and management has been in direct contact with the injured contractor's family. The Company has offered counselling for all employees and contractors with additional care for personnel directly involved in the incident.

The Company's insurers have been notified and assessors have been on site. The Plant will not operate until all investigations are complete, damage is fully assessed, and necessary repairs are undertaken.

The Company will seek to have the voluntary suspension from the ASX to remain in place until the Company is able to advise the market of the likely cause of the explosion; the full extent of the damage; the likely downtime; viability of and timeframes for remediation and repair program; insurance coverage and estimated financial impact due to loss of revenue and/or assets.

The explosion has been a setback to the Company, but management are currently working on plans for the road forward and as quick a return to operations as is possible.

Corporate

During the period, Leaf undertook a \$8,000,000 capital raising to fund capital expansion of production capacity to 8,000tpa as well as financing the purchase of wood pelleting equipment. The capital raising was undertaken at \$0.10 and resulted in the issue of 80,000,000 ordinary shares. The capital raising was strongly supported by a range of institutional and

sophisticated investors across Australia and New Zealand, representing both new and existing shareholders.

Outlook for 2022

Leaf is currently working closely with WorkSafe Queensland to compile all the information needed for them to complete their investigation into the incident that took place at the Apple Tree Creek plant on 12 November 2021. Staff have returned to the factory and are in the process of completing repairs and replacements of damaged machinery. Management is in the process of sourcing new equipment to replace damaged parts and making improvements to the factory.

The Company is working diligently to solidify a defined plan which will outline how it will achieve 16,000 tonne production, as was targeted prior to the incident. Towards the end of the March 2022 quarter, the Company expects to have an established timeframe for the plant recovery and production schedule. Confidence in our emerging recovery plan is increasing with continued support from both customers and suppliers.

Events arising since the end of the reporting period

Since 31 December 2021 the following matters have arisen which may significantly affect the operations of the Group:

• On 31 January 2022 the Company announced a continuation of the suspension of its securities from the Australian Securities Exchanges until 21 March 2022.

NOTES TO THE FINANCIAL STATEMENTS

1. Nature of operations

The principle activities of Leaf Resources Limited and its Subsidiaries ('the Group') are the commercialisation of the natural pine chemical extraction process and its proprietary Glycell™ process.

2. General information and basis of preparation

The condensed interim consolidated financial statements ('the interim financial statements') of the Group are for the six (6) months ended 31 December 2021 and are presented in Australian Dollars (\$AUD), which is the functional and presentational currency of the Parent Company. These general purpose interim financial reports have been prepared in accordance with the requirements of the *Corporations Act 2001* and AASB 134 Interim Financial Reporting. They do not include all of the information required in annual financial statements in accordance with Australian Accounting Standards and should be read in conjunction with the consolidated financial statements of the Group for the year ended 30 June 2021 and any public announcements made by the Group during the half-year in accordance with continuous disclosure requirements arising under the Australian Securities Exchange Listing Rules and the Corporations Act 2001.

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding reporting period.

The interim financial statements have been approved and authorised for issue by the Board of Directors on 28 February 2022.

3. Going Concern

The financial statements have been prepared on a going concern basis which contemplates the continuity of normal business activities and the realisation of assets and discharge of liabilities in the ordinary course of business.

For the period ending 31 December 2021, the Group has incurred a loss before income tax of \$4,391,212 (Dec 2020: \$8,710,103) and had negative cash flows from operating activities of \$1,555,016 (Dec 2020: \$948,576). These conditions, combined with the impact of the Apple Tree Creek Operating Plant incident described below, indicate that a material uncertainty exists that may cast doubt on the group's ability to continue as a going concern, and therefore the group may be unable to realise its assets and discharge its liabilities in the normal course of business.

On 12 November 2021, an explosion occurred at the Group's Apple Tree Creek Pine Chemical Plant. The incident resulted in significant damage to plant and equipment, and injuries with one contractor taken to the Bundaberg Hospital with serious facial injuries and burns while another employee was treated with minor injuries.

As noted in Note 8, \$1,621,929 of fixed assets were written off as a result of the explosion. The Group is currently working with its insurance providers to claim for repairs and replacements of damaged machinery and equipment as a result of the incident at the Apple Tree Creek plant. The Group is also working on planning for the rebuild, and as such the sum of claims can only be reliably estimated once planning has been completed.

As a result of the incident at the Apple Tree Creek plant, the Company understand that WorkSafe Queensland may raise a penalty as is standard in similar scenarios. Confirmation on the timing and extent of the penalty have not yet been provided. The Group has insurance coverage under its management liability policy in relation to penalties and fines.

The explosion has been a setback to the Company, but management are currently working on plans for the road forward and as quick a return to operations as is possible.

As at 31 December 2021, the Group has positive net current assets of \$4,115,047 (Jun 2021: \$29,323) and positive total net assets of \$8,047,064 (Jun 2021: \$4,517,368). The Group also have available alternatives to support cash flow including funding against R&D tax incentives, and capital raising. Other mitigating factors include the insurance recoveries that will support the reinstatement of the plant, and the potential for additional R&D tax incentives to be claimed for activities relating to the second half of the financial year.

On this basis the Directors believe that the going concern basis of presentation is appropriate. No adjustments have been made relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Group not have the ability to continue as a going concern.

4. New or amended Accounting Standards and Interpretations adopted

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that are mandatory for the current period. This has not had a significant impact on the half-year report.

5. Estimates

When preparing the interim financial statements, management undertakes a number of judgements, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses. The actual results may differ from the judgements, estimates and assumptions made by management, and will seldom equal the estimated results.

The judgements, estimates and assumptions applied in the interim financial statements, including the key sources of estimation uncertainty were the same as those applied in the Group's last annual financial statements for the year ended 30 June 2021.

6. Change in composition of the Group

Leaf Resources Ltd (the "Company") completed the acquisition of 100% of the ordinary shares of Essential Queensland Pty Ltd (Essential Queensland) (the "Transaction") on 22 December 2020 during the previous reporting period. The Transaction has many of the features of a reverse acquisition under Australian Accounting Standards AASB 3 "Business Combinations", notwithstanding the Company being the legal parent of the Group.

As per AASB 3 the Group applied the provisional basis for accounting in the prior period. The reverse acquisition expense of \$7,515,114 was provisionally calculated, with no separately identifiable intangible asset recognised for in process R&D as the Group had not had sufficient time to obtain an independent valuation.

The Group has finalised the accounting for the transaction in the current period and no adjustments have been made to the provisional amounts. The Glycell technology acquired is not currently utilised in the Group's current production and research & development activities, therefore no value has been assigned to an in-process R&D intangible asset.

7. Segment information

Description of segments

The Group has one operating segment: commercialisation of technology & development. Management has determined the operating segment based on the internal reports that are reviewed and used by the Board of Directors (chief operating decision makers) in assessing performance and determining the allocation of resources.

The operating segment undertakes research, development and commercialisation of specific technologies (R&D).

Unless stated otherwise, all amounts reported to the Board of Directors as the chief decision maker with respect to operating segments are determined in accordance with accounting policies that are consistent to those adopted in the annual financial statements of the Group.

15. Lease Liabilities

-

The Company acts as a lessee and has lease contracts on operational sites, motor vehicles and plant and equipment used in its operations: Lease terms consist of:

17 years

- Operational site Isis Central
- Corporate office Maryborough 3 years
- Corporate office Landsborough 5 years
- Motor Vehicles 3 years
- Plant & equipment
 1-5 years

The operational site lease includes an option in favour of the Company for an additional 10 years, and the corporate offices include options for an additional 3 and 5 years respectively. The lease liabilities included below for the operational site and the Maryborough corporate office, have been based on the fixed lease period and do not include the potential option period. For the Landsborough lease, the fixed lease period with an additional 5-year extension has been included. This is based on management's best estimate on whether the options are likely to be exercised.

The Company's obligations under its leases are secured by the lessor's title to the leased assets. Set out below are the carrying amounts of lease liabilities and the movements during the period:

| | 31-Dec-21 | 30-Jun-21 |
|-------------------------|-----------|-----------|
| | \$ | \$ |
| Beginning of the period | 1,637,789 | 1,650,040 |

| Share based payment capitalised transaction costs – Altor Ioan facility | - | 110,898 |
| Balance at the end of the reporting period | 645,850 | 536,119 |

For the performance rights granted in the current period, the valuation model inputs used to determine the fair value at grant date are as follow:

| | Executive Rights |
|---|------------------|
| Exercise Price | Nil |
| Expiry Date | 30-Sep-22 |
| Risk-free rate | 0.25% |
| Volatility | 70% |
| Value per option | \$0.08 |

| Total value of options/rights | \$160,000 |
| Amount expensed in prior years | - |
| Amount expensed in current period | \$53,723 |
| Amount to be expensed in future periods | \$106,277 |

The fair value of the equity-settled share options and performance rights is estimated at the date of grant using an appropriate option pricing model taking into account the terms and conditions upon which the equity securities were granted and any non-market-based performance conditions.

19. Contingent assets, commitments, and contingent liabilities

Contingent Assets

Insurance Claim

The Group is currently working with its insurance providers to claim for repairs and replacements of damaged machinery and equipment as a result of the incident at the Apple Tree Creek plant. The Group is also working on planning for the rebuild, and as such the sum of claims can only be reliably estimated once planning has been completed.

Contingent Liabilities

WorkSafe Queensland Penalty

As a result of the incident at the Apple Tree Creek plant, the Company understands that WorkSafe Queensland may raise a penalty as is standard in similar scenarios. Confirmation on the timing and extent of the penalty have not yet been provided. The Group has insurance coverage under its management liability in relation to penalties and fines.

Wood Supply Contract

The company has entered into a wood supply agreement with HQ plantations. Under the terms of the agreement the Company has the following contingent liabilities at 31 December 2021:

Bank Guarantee:

The Company has provided a bank guarantee in the amount of \$100,000 in favour of HQ plantations as a cover of account for the payment of invoices under the supply agreement.

Take or Pay Provisions:

There are certain take or pay provisions under the wood supply agreement. The Company has a strong working relationship with HQ Plantations, as a result of the incident at the Plant in November 2021, the contract is now operating under force majeure.

20. Events subsequent to balance date

Since 31 December 2021 the following matter has arisen which may significantly affect the operations of the Group:

• On 31 January 2022 the Company announced a continuation of the suspension of its securities from the Australian Securities Exchanges until 21 March 2022.

DIRECTORS' DECLARATION

In the opinion of the directors of Leaf Resources Limited:

- (a) the consolidated financial statements and notes of Leaf Resources Limited for the half year ended 31 December 2021 are in accordance with the Corporations Act 2001, including:
 - (i) giving a true and fair view of its financial position as at 31 December 2021 and of its performance for the half-year ended on that date; and
 - (ii) complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001; and
- (b) there are reasonable grounds to believe that Leaf Resources Limited will be able to pay its debts as and when they become due and payable.

The directors have been given the declarations required by Section 295A of the Corporations Act 2001 from the chief executive officer and chief financial officer for the half-year ended 31 December 2021.

This report is made in accordance with a resolution of the Board of Directors and is signed by authority for on behalf of the Directors.

Independent Auditor's Review Report

To the Members of Leaf Resources Limited

Report on the review of the half-year financial report

Conclusion

We have reviewed the accompanying half-year financial report of Leaf Resources Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2021, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, a description of accounting policies, other selected explanatory notes, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

(a) giving a true and fair view of the Group's financial position as at 31 December 2021 and of its performance for the half year ended on that date; and

(b) complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity.* Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

'Grant Thornton' refers to the brand under which the Grant Thornton member firms provide assurance, tax and advisory services to their clients and/or refers to one or more member firms, as the context requires. Grant Thornton Australia Ltd is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. GTIL and each member firm is a separate legal entity. Services are delivered by the member firms. GTIL does not provide services to clients. GTIL and its member firms are not agents of, and do not obligate one another and are not liable for one another's acts or omissions. In the Australian context only, the use of the term 'Grant Thornton' may refer to Grant Thornton Australia Limited ABN 41 127 556 389 and its Australian subsidiaries and related entities. GTIL is not an Australian related entity to Grant Thornton Australia Limited.

Material uncertainty related to going concern

We draw attention to Note 3 in the financial report, which indicates that the Group incurred a loss for the period of \$4,391,212 (31 Dec 2020: loss of \$8,710,103) and negative operating cash flows of \$1,555,016 during the half-year ended 31 December 2021 (31 Dec 2020: negative operating cash flows of \$948,576). As stated in Note 3, these events or conditions, along with other matters as set forth in Note 3 including the incident at the Apple Tree Creek Operating Plant, indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

Directors' responsibility for the half-year financial report

The Directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the Directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2021 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
