

31 December 2021 Half Year Report

Tanzanian graphite developer Black Rock Mining Limited (ASX:BKT) (Black Rock or the Company) is pleased to release its half year report for the period ended 31 December 2021. During the half-year, and to the date of this report, the Group delivered on a number of significant milestones, including:

- Framework Agreement signed with the Government of Tanzania. The Agreement confirms the Government's 16% Free Carried Interest shareholding and commitment to jointly develop the world-class Mahenge Graphite Mine;
- Term Sheet Signed with strategic partner and cornerstone shareholder, POSCO, for Longform Offtake & US\$10M Prepayment;
- Binding offtake term sheets executed for large flake concentrate, effectively converting two existing Chinese Pricing and Volume Agreements to Binding Term Sheets status;
- Delivered the largest Customer Qualification Works globally with the completion of a 500 tonne qualification campaign;
- MOU signed with URBIX, Inc – US based clean tech graphite processing company that will provide strategic optionality to the POSCO partnership;
- Confirmed 25% increase in Measured Mineral Resource:
 - Mahenge now has the largest Measured graphite mineral resource globally;
 - Confirms the first 10 years of the mine plan (including all of Modules 1 and 2) is now underpinned by the highest confidence mineral resource category; and
 - The upgrade provides additional confidence for lenders and offtake partners in the context of the debt financing process currently underway.
- Debt financing activities in train. Continued discussions with financiers including due diligence activities with the TIB Development Bank;
- Project development activities ongoing across engineering, customer qualification work, resettlement, costs assessment, and partner integration;
- Paul Sims appointed Chief Financial Officer, brings extensive financial and project development experience to complement Black Rock's existing project development experience;
- The Company is funded to complete works ahead of completion of finance into construction, with A\$8.65M cash at bank as at 31 December 2021; and
- Positive market outlook continues for graphite demand which remains one of the highest of all minerals required for clean energy storage technologies.

About Black Rock

Black Rock Mining Limited is an Australian based company listed on the Australian Securities Exchange (ASX:BKT). The Company has a 100% interest in the Mahenge Graphite Project (**Project**) located in Tanzania. The Project has a JORC compliant Mineral Resource Estimate of 213m tonnes at 7.8% TGC. It also has Ore Reserves of 70.5m tonnes at 8.5% TGC. The Ore Reserves support a mine life of up to 340k tonnes of graphite per annum for a reserve life of 16 years. Since the release of the Mineral Resource Estimate, the Company confirms that it is not aware of any new information or data that materially affects the mineral resources estimate.

On 25 July 2019, the Company released an enhanced Definitive Feasibility Study (eDFS) for the Project. The eDFS for the Mahenge Graphite Mine envisages a four phase operation, ultimately producing 340,000 tpa of high-grade graphite, with exceptional financial metrics including:

- *Low Capex*: Lowest peak capital expenditure of US\$116M for phase one*;
- *High Margin*: AISC margin of 63.1%;
- *Low Technical Risk*: Substantial pilot plant operations run of 110 tonnes; and
- *Superior Economics*: IRR of 44.8% with NPV₁₀ of US\$1.16bn (A\$1.65bn**)

Black Rock has obtained all Environmental approvals, Mining Licences and its Resettlement Action Plan with clear title to the eDFS project area. An FCI Agreement was signed with the Government of Tanzania in December 2021.

In June 2020, the Company announced a Strategic Alliance with POSCO Group for the development of the Mahenge Graphite Mine. This included an equity investment of US\$7.5M, signed in February 2021. In December 2021, a Term Sheet was agreed with POSCO for a US\$10M prepay and life of mine fines offtake for Module 1. Black Rock has also allocated planned production through Pricing Framework Agreements (ASX release 8 May 2019) with five other offtake customers.

Following release of the enhanced DFS (eDFS) in July 2019, the Company confirms that it is not aware of any new data or information that materially affects the results of the eDFS and that all material assumptions and, in the case of estimates of Mineral Resources or Ore Reserves, technical parameters underpinning the estimates in the relevant market announcements continue to apply and have not materially changed.

The estimated Ore Reserves and Mineral Resources underpinning the production target has been prepared by competent persons in accordance with the requirements in Appendix 5A (JORC Code).

The Company is construction-ready subject to financing.

REVIEW OF OPERATIONS

The consolidated loss after tax for the six months ended 31 December 2021 was \$1,720,660 (31 December 2020: \$1,259,273).

During the half-year ended 31 December 2021 and to the date of this report, the Group delivered on a number of milestones, including:

- Executed the term sheet with POSCO comprising:
 - US\$10M prepayment commitment, repayable via delivery of product; and
 - Offtake agreement for 100% of planned fines production (-#100) from Mahenge module one
- Completed the 500 tonne large-scale processing plant for customer qualification works underpinning the offtake agreement with POSCO.
- Finalised the new binding term sheets for offtake with the Company's existing offtake customers, Taihe Soar (Dalian) Supply Chain Management and Qingdao Yujinxi New Material Co Ltd.
- Continued discussions with financiers including due diligence activities with the TIB Development Bank.

Mahenge Framework agreement and Free Carried Interest

On 14th December 2021 Black Rock announced that it had signed the Framework Agreement (Agreement) with the Government of the United Republic of Tanzania (Tanzanian Government) to jointly develop the world-class Mahenge Graphite Mine.

Framework Agreement

At a signing ceremony held on 13th December 2021, attended by the President of Tanzania, Her Excellency Samia Suluhu Hassan, the Minister of Minerals Hon. Doto Biteko (MP) signed the Agreement with Black Rock, confirming the Government's commitment to jointly develop the Mahenge Graphite Mine. The Agreement includes the provision for a Free Carried Interest (FCI) which is required by law under Section 10 of the Mining Act whereby a 16% non-dilutable shareholding in the capital of all mining companies is held by the Tanzanian Government.

Under the Agreement, the following structure has been agreed:

- A Joint Venture (JV) Company, Faru Graphite Corporation (Faru), has been established to develop the Mahenge Graphite Mine. Faru is the Swahili word for Rhinoceros. The Tanzanian Government will own a 16% undiluted free-carried interest shareholding in Faru, with 84% owned by Black Rock via its wholly owned United Kingdom subsidiary company, Mahenge Resources Limited;
- A Special Mining Licence (SML) will be granted to unify existing Mining Licence (ML) 611/2019 and ML 612/2019 and a part of Prospecting Licence (PL) 13752/2019;
- Existing approved Environmental Permits and Resettlement Action Plans granted to ML 611/2019 and ML 612/2019 will be grandfathered to the SML; and
- An exemption will be issued to Black Rock from the provisions of the Mines Act 2017 requiring SML developers to issue 5% of stock to local interests and listing of 30% of stock on the Dar es Salaam Stock Exchange.

The key terms of the Framework Agreement are summarised below:

Key Term	Detail
Ownership Structure	Tanzanian Government 16% FCI undiluted / Black Rock 84%. Each share is entitled to 1 vote in accordance with the constitution.
Investing entity	Mahenge Resources Limited (UK) – 100% owned Black Rock subsidiary
Shareholder loans	Not subject to FCI where not interest bearing and registered with Bank of Tanzania
Banking	JV Co to hold all proceeds from sale on mineral products in local and foreign currency accounts in Tanzania
Governing law	Tanzanian law. Arbitration by UNCITRAL rules. Arbitration seat East African Court of Justice
Taxation	Tanzanian corporate tax rate (30%)
Debt	Mahenge Resources Limited (UK) able to pledge equity in JV Company to support third party financing for the purposes of mine development and operations
Board	Initial board with five directors with Black Rock appointing three directors and Tanzanian Government appointing two directors

Corporate and Financial Position

Consolidated net assets at 31 December 2021 were \$34,127,545 against \$33,163,048 at 30 June 2021. Total cash held at the half-year-end was \$8,506,163 (30 June 2021: \$11,298,422).

The auditor's independence declaration is included on page 6 of the half-year report.

Signed in accordance with a resolution of directors made pursuant to s.306(3) of the *Corporations Act 2001*.

Dear Board Members

Black Rock Mining Limited

In accordance with section 307C of the *Corporations Act 2001*, I am pleased to provide the following declaration of independence to the directors of Black Rock Mining Limited.

As lead audit partner for the review of the financial statements of Black Rock Mining Limited for the half-year ended 31 December 2021, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- (i) the auditor independence requirements of the *Corporations Act 2001* in relation to the review; and
- (ii) any applicable code of professional conduct in relation to the review.

Yours sincerely

Independent Auditor's Review Report to the members of Black Rock Mining Limited

Conclusion

We have reviewed the half-year financial report of Black Rock Mining Limited (the "Company") and its subsidiaries (the "Group"), which comprises the condensed consolidated statement of financial position as at 31 December 2021, and the condensed consolidated statement of profit and loss and other comprehensive income, the condensed consolidated statement of cash flows and the condensed consolidated statement of changes in equity for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration as set out on pages 9 to 22.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Group is not in accordance with the Corporations Act 2001, including:

- Giving a true and fair view of the Group's financial position as at 31 December 2021 and of its performance for the half-year ended on that date; and
- Complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Half-year Financial Report section of our report. We are independent of the Group in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's review report.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 in the half-year financial report which indicates that the consolidated entity incurred net losses of \$1,720,660, and experienced net cash outflows from operating activities of \$861,458 and net cash outflows from investing activities of \$3,545,219 for the period ended 31 December 2021. These conditions, along with other matters as set forth in Note 1, indicate that a material uncertainty exists that may cast significant doubt on the consolidated entity's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

For personal use only

Directors' Responsibilities for the Half-year Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Review of the Half-year Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including giving a true and fair view of the Group's financial position as at 31 December 2021 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Directors' declaration

The directors declare that:

- a) In the directors' opinion, there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable; and
- b) In the directors' opinion, the attached financial statements and notes thereto are in accordance with the *Corporations Act 2001*, including compliance with accounting standards and give a true and fair view of the financial position and performance of the consolidated entity.

Signed in accordance with a resolution of the directors made pursuant to s.303(5) of the *Corporations Act 2001*.

Notes to the condensed consolidated financial statements

FOR THE HALF YEAR ENDED 31 DECEMBER 2020

1. SIGNIFICANT ACCOUNTING POLICIES

Statement of Compliance

The half-year financial report is a general purpose financial report prepared in accordance with the *Corporations Act 2001* and AASB 134 'Interim Financial Reporting'. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

The half-year report does not include notes of the type normally included in an annual financial report and should be read in conjunction with the most recent annual financial report.

Basis of Preparation

This condensed consolidated interim financial report for the half-year reporting period ended 31 December 2021 has been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

This condensed consolidated interim financial report does not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2021 and any public announcements made by the Company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except for the policies stated below.

Comparative financial information

Employee Benefit Expense in the condensed consolidated statement of profit or loss and other comprehensive income for the half-year ended 31 December 2021 have been reclassified to provide users a better understanding of the nature of the expenditure incurred in prior periods and to ensure consistency of classification with the current period.

The Employee Benefit Expense amount has been split in the condensed consolidated statement of profit or loss and other comprehensive income for the half-year ended 31 December 2020, as follows:

- Employee Benefit Expense: \$516,365
- Share based payment expense: \$83,804

New or amended standards adopted by the Group

The Group has adopted all of the new or amended accounting standards or interpretations issued by the Australian Accounting Standards Board that are mandatory for the current reporting period.

Any new or amended accounting standards or interpretations that are not yet mandatory have not been early adopted.

The adoption of these accounting standards and interpretations did not have any significant impact on the financial performance or position of the Consolidated Entity.

Going Concern

The interim financial report has been prepared on the going concern basis, which assumes continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business.

The Group incurred net losses of \$1,720,660 (31 December 2020: \$1,259,273) and experienced net cash outflows from operating activities of \$861,458 (31 December 2020: \$1,315,493) and net cash outflows from investing activities of \$3,545,219 (31 December 2020: \$149,321) for the period ended 31 December 2021. As at 31 December 2021 the Group has cash and cash equivalents of \$8,506,163 (30 June 2021: \$11,298,422).

Notes to the condensed consolidated financial statements

FOR THE HALF YEAR ENDED 31 DECEMBER 2021

During the half year the Group deployed its working capital into advancing its graphite prospects in Mahenge, Tanzania by undertaking a number of work streams including but not limited to:

- Continued activities associated with Front End Engineering Design work and completion of its Spherical Purified Graphite Production Trial;
- Execution of an offtake and \$US10m prepayment agreement with POSCO;
- Finalization of the Framework Agreement and Free Carry Interest (FCI) Agreement with the Government of Tanzania; and
- Continued discussions with financiers including due diligence activities with the TIB Development Bank.

Management have prepared a cash flow forecast for the period ending 31 March 2023 reflecting the Group's key objectives. This cash flow forecast indicates that the Group is required to raise additional funding through debt or equity to meet the Group's stated strategic objectives and for general working capital. The forecast assumes expenditure on programmes required to advance the Mahenge Project towards a final investment decision, however the cash flow forecast does not assume that development activities at Mahenge commence in the period ending 31 March 2023. Should a Final Investment Decision be made with respect to the Mahenge Project, the cash flow forecast will be updated to identify any additional funding required for development, be this in the form of debt or equity, or a combination of both.

Based on the Group's history of raising capital, and subject to the general market conditions, the Directors are confident of the Group's ability to raise additional capital as required. Based on this and on the cash flow forecasts, the Directors believe that the going concern basis of preparation is appropriate.

Should the Group be unable to obtain funding through capital raising or alternative sources, or otherwise reduce its operational spending in line with available cash resources, there is a material uncertainty that may cast significant doubt as to whether the group will be able to continue as a going concern and therefore, whether it will realise its assets and extinguish its liabilities as and when they fall due.

The interim financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts, or to the amounts and classification of liabilities that might be necessary should the Group not continue as a going concern.

2. OTHER INCOME

The Group did not earn any other income during the current period. During the half-year ended 31 December 2020 the Group received \$51,106 relating to the Australian Governments cash flow boost programme.

The balance of \$26,234,552 (30 June 2021: \$22,164,704) represents the carrying value of the Groups Mahenge graphite project located in Tanzania.

Mahenge Framework agreement and Free Carried Interest

On 14th December 2021 Black Rock announced that it had signed the Framework Agreement (Agreement) with the Government of the United Republic of Tanzania (Tanzanian Government) to jointly develop the world-class Mahenge Graphite Mine.

Framework Agreement

At a signing ceremony held on 13th December 2021, attended by the President of Tanzania, Her Excellency Samia Suluhu Hassan, the Minister of Minerals Hon. Doto Biteko (MP) signed the Agreement with Black Rock, confirming the Government's commitment to jointly develop the Mahenge Graphite Mine. The Agreement includes the provision for a Free Carried Interest (FCI) which is required by law under Section 10 of the Mining Act whereby a 16% non-dilutable shareholding in the capital of all mining companies is held by the Tanzanian Government.

Under the Agreement, the following structure has been agreed:

For personal use only

- A Joint Venture (JV) Company, Faru Graphite Corporation (Faru), has been established to develop the Mahenge Graphite Mine. Faru is the Swahili word for Rhinoceros. The Tanzanian Government will own a 16% undiluted free-carried interest shareholding in Faru, with 84% owned by Black Rock via its wholly owned United Kingdom subsidiary company, Mahenge Resources Limited;
- A Special Mining Licence (SML) will be granted to unify existing Mining Licence (ML) 611/2019 and ML 612/2019 and a part of Prospecting Licence (PL) 13752/2019;
- Existing approved Environmental Permits and Resettlement Action Plans granted to ML 611/2019 and ML 612/2019 will be grandfathered to the SML; and
- An exemption will be issued to Black Rock from the provisions of the Mines Act 2017 requiring SML developers to issue 5% of stock to local interests and listing of 30% of stock on the Dar es Salaam Stock Exchange.

The Directors consider that the carrying amounts of financial assets and financial liabilities recognised in the consolidated financial statements approximate their fair values.

8. EXPENDITURE COMMITMENTS

a. Exploration

As part of the Company's license conditions with the Tanzanian Energy and Minerals Department, the Company is obliged to pay USD\$100 per square kilometer to maintain the PL 11486/2020 and USD\$150 per square kilometer for the PL 10427/2014 to keep them in good standing.

Additional obligations exist for the new ML's held of USD 2,000 per square meter for ML 612/2019 and ML 611/2019.

The license costs per annum are as follows:

Project Name	License Type	License Number	Area km ²	Rate per km ²	Total
Mahenge North	Mining License	ML 611/2019	9.94	USD 2,000	USD\$19,880
Mahenge North	Mining License	ML 612/2019	9.79	USD 2,000	USD\$19,580
Mahenge North	Prospecting License	PL 11486/2020	118.37	USD 100	USD\$11,837
Mahenge Southwest	Prospecting License	PL 10427/2014	111.6	USD 150	USD\$16,740

As part of the original conditions to acquire the exploration licenses there were minimum exploration expenditure commitments. These had all been met by 31 December 2021. As part of the contract to acquire the graphite exploration licenses, under certain milestone conditions the Company will be obliged to make additional payments. These payments are subject to the following conditions:

PL 10427/2014

- \$250,000 cash or equivalent number of fully paid Black Rock shares (at the election of the vendor) upon announcement of a JORC compliant resource of greater than 250,000 tonnes of contained graphite at >9% total graphite content is announced. Issue price of shares to be calculated based on the preceding seven (7) day VWAP; and
- \$375,000 cash and the equivalent value (\$375,000) in Black Rock shares to be paid when a JORC compliant Resource with greater than 1,000,000 tonnes of contained graphite at >9% total graphite content at the Mahenge Graphite Project is announced by Black Rock on the Australian Stock Exchange. The issue price of Black Rock shares is to be calculated based on the VWAP of Black Rock shares in the 5 days prior to the release of the announcement.

- Completed the infill drill program and bulk metallurgical sampling resulting in a 25% increase in the Measured Mineral Resource as announced to the Australian Securities Exchange on 3rd of February 2022.

10. CONTINGENT LIABILITIES

Resettlement Action Plan (RAP)

Black Rock announced on 11th May 2020 that its Tanzanian based consultant had finalised field activities thereby substantially completing the Mahenge Graphite Project (the Project) Resettlement Action Plan (RAP) process. Completion of RAP fieldwork facilitated the continued progress in relation to financing the Project which is subject to completion and resolution of the FCI negotiations, amongst other matters.

The compensation for the resettlement and relocation of people and assets affected by the Project is a requirement according to the Land Acquisition Act No. 47 of 1967, and some provisions related to land acquisition in the Land Use Planning Act No. 6 of 2007. The valuation process was governed by the Valuation and Valuers Act of 2016 along with its General Regulations of 2018 that which are complemented and supplemented by other acts such as the District Authorities Act (1982), Land Act of (1999) Village land Act (1999) and other laws and regulations that govern different procedure and practices during valuation.

The process was designed to meet the International Finance Corporation's (IFC) Performance Standards on Social and Environmental Sustainability and is a typically mandated condition precedent for debt funding and Mining Licenses. A multi-disciplined Tanzanian team including Surveyors, Valuers, Sociologists, Data Entry and Geographic Information Systems (GIS) experts completed the study. The team's work was overseen by Government Officials to ensure accuracy and compliance with legislation.

As part of Project development activities, Black Rock will need to acquire some land currently used for subsistence agriculture, and relocate some village accommodation proximal to mining operations. All affected persons will be compensated where appropriate and moved to better quality properties with vastly improved amenities. All farming landowners will be compensated with cash, permitting them to buy and establish new farms, or land of their choosing.

At the date of this report, the Company is not in a position to quantify the final costs for all RAP and associated activities, and does not expect to be in that position until it has completed the following work streams:

- Early Contractor Involvement Phase; and
- Detailed Design Phase.

The RAP provides the framework under which the Company can progress land acquisition, should a development decision be made in relation to the Project, at which point land acquisition agreements and related compensation agreements will be finalised.
