REVIEW OF OPERATIONS

Completion of the Public Offer

The Company has met all conditions of the Public Offer under the Prospectus and completed the issue of 25,000,000 Shares at an issue price of \$0.20 each, raising \$5,000,000 in total before costs.

Under the Public Offer, the Company issued 2,000,000 Options exercisable at \$0.25 each and expiring on 26 October 2026 to Trident Capital Pty Ltd (or its nominees) and other AFSL holders (or their nominees) who assisted with procuring successful applications.

Completion of the Acquisition Agreements

The Company confirms that all the conditions precedent under the Acquisition Agreements have been satisfied and the Company has completed the Acquisitions.

DIRECTORS' REPORT (CONTINUED)

Reedy Creek Project, NSW

During the period, a diamond drilling program commenced at the Reedy Creek project. The program continued into 2022 and recently finished in March 2022 (see ASX Announcements 15 February and 8 March 2022). A total of 7 diamond holes were drilled.

This drilling was designed to confirm the significant historical high-grade zones of copper, lead, zinc, manganese, silver and gold (see ASX announcement December 9, 2021) and to test the extensions of the mineralization between the Reedy Creek Mine and Endeavour 1 prospects.

Areas of visual sulphides as well as native copper and copper oxide minerals were encountered during the drilling.

Historical drilling intercepts around the historical Reedy Creek mine include:

- 12.4m @ 1.13% Cu from 33.2m, within 48.1m @ 0.66% Cu, from 30.3m (DDH-3)
- 17m @ 1.04% Cu, including 8m @ 1.31% Cu from 9m (RCR-4) o 27m @ 1.3% Zn from 18m, including 7m @4.2% Zn, 1.0% Pb and 37ppm Ag (RCR-11)
- 11m @ 1.91g/t Au from 25m to EOH, including 6m @ 3.1g/t Au
- 7m @14.4% Mn from 14m to EOH; within 17m @ 9.2% Mn from 4m

Sampson Tank Project, NSW

An extensional and infill soil geochemistry survey (Figure 2) had been completed over and around the P-47 and P-54 exploration targets at the Sampson Tank Project during the period (see ASX announcement December 14, 2021).

The Project is centered approximately 130km north-west by road of Parkes & 20km north-west of Tottenham, NSW.

The soil data will help identify areas for immediate follow-up targeting high-grade deformed and remobilized Besshi-type volcanic associated massive sulphide (VAMS) Cu-Au deposits.

The extensional and infill soil survey was designed to advance the small systematic soil sampling across the P-47 and P-54 prospects during the 2019-2020 period. This initial soil survey delineated a significant 1,200 m x 350 m Cu-Au-Co in soil anomaly at P-47 and a 800 m x 600m Cu-Co-Zn-Ba-Au anomaly at P-54. Both anomalies remained open and are associated with magnetic high features (Figure 2 and Figure 3).

Soil samples were collected using the same procedure as the initial program and are currently in the laboratory undergoing chemical analysis. The analytical results and interpretation are expected to be completed during the current quarter.

A heliborne Versatile Time Domain Electromagnetic (VTEM) geophysical survey will take place over the entire license in late February 2022.

Torrens Projects, SA

At the end of the half year the Company was informed by the South Australian Department for Energy and Mines (DEM) that the application covering the 4 prospective areas within the (ELA2020/00205) Mount Samuel group application required to be split into separate applications. These applications were subsequently submitted to the DEM in January 2022. Application ELA 2020/00219 is still an active application and was not affected with the DEM request (see ASX Announcement 14 February 2022).

The tenement applications reside within the Olympic Dam iron oxide copper gold (uranium) ("IOCG") province of the Stuart Shelf in central South Australia. The IOCG province is a Palaeoproterozoic and Mesoproterozoic tectonic and lithostratigraphic domain that extends for some 700km along the eastern margin of the Gawler Craton.

DIRECTORS' REPORT (CONTINUED)

Within the dominant Adelaidean and Cambrian sediments of this area, possible types of mineralisation could include:

- Sediment-hosted copper deposits, of the Zambian Copperbelt style or associated with brecciated diapiric structures
- Mississippi Valley type ("MVT") lead-zinc-copper-silver mineralisation systems
- Structurally hosted gold deposits associated with large fault systems in the Adelaidean sediments.
- Disseminated sediment-hosted gold deposits
- Willemite (zinc silicate) mineralisation, similar to the deposits at the Puttapa Mine
- Tertiary silcrete carnotite Uranium (Yeerlirrie) style deposits

Within the Mesoproterozoic basement rocks under the majority of the tenements, the main exploration target are the Olympic Dam style Cu-Au deposits also known as IOCG's.

Stadler's Project, WA

No significant work was undertaken during the reporting period.

DIVIDENDS

No dividend is recommended in respect of the current financial period.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

There were no significant changes in state of affairs during and subsequent to the end of the financial period.

MATTERS SUBSEQUENT TO THE REPORTING PERIOD

On 21 February 2022, C29 Metals announced that it has entered into an option agreement with Isa Tenements Pty Ltd (100% owned subsidiary of GBM Resources Limited, ASX: GBZ) ("Vendor") pursuant to which it has been granted an exclusive option to acquire 100% of the Mayfield Copper-Gold (IOCG) project near the Trekelano and Tick Hill mines in Queensland. The agreement terms are as follows:

- C29 has an exclusive option for sixty (60) business day to conduct due diligence on the Mayfield project; by paying an initial option fee of \$20,000 (plus GST) and a second \$20,000 (plus GST) when the Exploration Licence is granted.
- Subject to C29 exercising the option, the following consideration will be made to the Vendor:
 - Cash payment of \$210,000 within fifteen (15) days of exercise of the Option; and
 - issue GBM or nominee the greater of 1.25 million C29 shares or the value of \$250,000 in C29 shares, based on a 7 day VWAP.
- The option is conditional on the exploration licence being renewed, successful due diligence, and other customary conditions.
- The project has an inherent 2% net smelter return royalty held by a third party.

The impact of the Coronavirus (COVID-19) pandemic is ongoing and while it has not significantly impacted the Group up to 31 December 2021, it is not practicable to estimate the potential impact, positive or negative, after the reporting date. The situation is rapidly developing and is dependent on measures imposed by the Australian Government and other countries, such as maintaining social distancing requirements, quarantine, travel restrictions and any economic stimulus that may be provided.

No other matter or circumstance has arisen since 31 December 2021 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 SIGNIFICANT ACCOUNTING POLICIES

These general purpose financial statements for the interim half-year reporting period ended 31 December 2021 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Accounting Standard 34 'Interim Financial Reporting'.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2021 and any public announcements made by the Group during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

Principles of Consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of C29 Metals Limited ('Company' or 'C29 Metals') as at 31 December 2021 and the results of all subsidiaries for the year then ended. C29 Metals Limited and its subsidiaries together are referred to in these financial statements as the "Group" or "consolidated entity".

Subsidiaries are all those entities over which the consolidated entity has control. The consolidated entity controls an entity when the consolidated entity is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the consolidated entity. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities in the consolidated entity are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the consolidated entity.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Where the consolidated entity loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The consolidated entity recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

NOTE 1 SIGNIFICANT ACCOUNTING POLICIES (Continued)

Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to the owners of C29 Metals Limited, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the financial year.

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

Comparatives

The Group's current accounting period is the half-year ended 31 December 2021 and its comparative accounting period is from 19 October 2020 to 31 December 2020.

New or amended Accounting Standards and Interpretations adopted

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)**NOTE 2 OPERATING SEGMENTS**

The Group operates only in one reportable segment being predominately in the area of copper mineral exploration in Australia. The Board considers its business operations in copper mineral exploration to be its primary reporting function. Results are analysed as a whole by the chief operating decision maker, this being the Board of Directors.

- Subject to C29 exercising the option, the following consideration will be made to the Vendor:
 - Cash payment of \$210,000 within fifteen (15) days of exercise of the Option; and
 - issue GBM or nominee the greater of 1.25 million C29 shares or the value of \$250,000 in C29 shares, based on a 7 day VWAP.
- The option is conditional on the exploration licence being renewed, successful due diligence, and other customary conditions.
- The project has an inherent 2% net smelter return royalty held by a third party.

The impact of the Coronavirus (COVID-19) pandemic is ongoing. It is not practicable to estimate the potential impact, positive or negative, after the reporting date. The situation is rapidly developing and is dependent on measures imposed by the Australian Government and other countries, such as maintaining social distancing requirements, quarantine, travel restrictions and any economic stimulus that may be provided.

Apart from the matters noted above, no other matter or circumstance has arisen since 31 December 2021 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

DIRECTORS' DECLARATION

In the Directors' opinion:

- a) the attached financial statements and notes comply with the Corporations Act 2001, Australian Accounting Standard AASB 134 'Interim Financial Reporting', the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- b) the attached financial statements and notes give a true and fair view of the Group's financial position as at 31 December 2021 and of its performance for the financial half-year ended on that date; and
- c) there are reasonable grounds to believe that the Company and Group will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of directors made pursuant to section 303(5)(a) of the Corporations Act 2001.

**INDEPENDENT AUDITOR'S REVIEW REPORT
TO THE MEMBERS OF
C29 METALS LIMITED**

Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of C29 Metals Limited which comprises the consolidated statement of financial position as at 31 December 2021, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2021 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of C29 Metals Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of C29 Metals Limited, would be in the same terms if given to the directors as at the time of this auditor's review report.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of C29 Metals Limited is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2021 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and *Corporations Regulations 2001*.
