

**ASX RELEASE****21 April 2022**

## **ADVERTITAS STRENGTHENS BALANCE SHEET TO ACCELERATE GROWTH**

**Highlights:**

- **\$3 million raised through the issue of convertible notes to strategic, professional and sophisticated investors**
- **Pro forma cash balance post issue of circa \$8 million, strengthening the balance sheet**
- **Funds raised to be used to accelerate Adveritas' sales and marketing growth initiatives**

Adveritas Limited (ASX: AVI) (**Adveritas** or **Company**) is pleased to announce that a small group of strategic professional and sophisticated investors have subscribed for a total of \$3 million through an offer of unsecured convertible notes (**Convertible Notes**). The offer was supported by both long term shareholders, who have participated in previous capital raisings, and new investors.

The Convertible Notes have a two-year term, 8% per annum coupon and a conversion price based on 80% of the Company's 90-day VWAP subject to a ceiling price of \$0.17 per share and a floor price of \$0.08 per share. The key terms of the Convertible Notes are set out in the schedule to this announcement.

The issue of the Convertible Notes is within the Company's placement capacity restrictions under ASX Listing Rule 7.1 and is not subject to shareholder approval.

The Company's Board of Directors has determined that the terms of the Convertible Notes are more favourable to the Company than a capital raising via the issue of ordinary shares because:

1. It avoids a direct equity raise being conducted at the same time that the Company is focussing on the Google Cloud Marketplace rollout;
2. Favourable conversion terms have been secured from the Company's long term supportive shareholders; and
3. The Company has the option to redeem the Convertible Notes prior to their maturity, providing greater flexibility.

Funds raised from the offering will strengthen Adveritas' capital position and balance sheet, supporting the acceleration of sales and marketing growth initiatives as the Company executes on its significant growth pipeline:

- Multi-channel direct sales and marketing activities and digital advertising for the TrafficGuard solution
- Hiring of additional sales representatives across Asia and Europe; and
- Supporting the roll-out of TrafficGuard on the Google Cloud Marketplace which is now live.

Settlement of the Convertible Notes is expected to occur on or around 22 April 2022.

Commenting on the capital raising, Adveritas Co-founder & Chief Executive Officer Mat Ratty said:

"We have set the foundations for global growth through our three well planned channels of direct sales, land and expand (where existing contracts are upsold to another product) and channel partnerships, such as the Google Cloud Marketplace. I would like to thank our loyal shareholders, and new investors, for supporting the Company through this raise at an exciting juncture in our growth strategy. Given the growth opportunities visible to Adveritas, we are confident that this capital raise is in the best interest of all shareholders as it minimises dilution while further strengthening the balance sheet to support the attractive growth trajectory we see for the business."

**About Adveritas**

Adveritas Ltd (ASX:AVI) creates innovative software solutions that leverage big data to drive business performance. Adveritas' ad fraud prevention software, TrafficGuard, is its first available software as a service. Early adopters of TrafficGuard include LATAM super-app, Rappi and APAC super-app, GO-JEK. Both businesses are well funded with \$2 billion and \$12 billion valuations respectively, and conducting aggressive user acquisition advertising for fast growth. In both cases, TrafficGuard was chosen after a rigorous procurement process that saw the effectiveness of our solution evaluated against a range of competing solutions.
