

DRONESHIELD

Quarterly Report

For the period ending
31 March 2022

DroneShield Limited (ASX:DRO)

ASX Release

ABN 26 608 915 859

DroneShield Limited (ASX:DRO) ("DroneShield" or the "Company") is pleased to release its business update and Appendix 4C for the three-month period ended 31 March 2022.

Highlights

- \$2.5 million customer and grant cash receipts for the 1Q22 quarter, **up 32%** on 1Q21.
- \$10.6 million revenue for the 2021 year, **up 89%** on 2020.
- **\$155 million sales pipeline¹** (prior to risk weighting applied to each project) for remainder of 2022 (with a further \$175 million pipeline for 2023), with growing focus towards the more business-transparent US and Australian Government customer base. Large opportunities continue globally, notably in the Middle East and the current situation in Ukraine.
- Strong inventory balance of **\$14 million** by sale value (including long lead raw inventory), mitigating supply chain risk and enabling rapid sales.
- Bank balance as at 31 March 2022 at **\$8 million**, with monthly gross outflows (before revenues) of approximately \$1.1 million/month. The bank balance remained approximately the same as of the date of this report.

Australia

- Continued on-target progress on:
 - \$3.8 million 2-year Electronic Warfare contract with the Australian Department of Defence (DoD), and
 - 12-month \$800,000 contract relating to Artificial Intelligence in multi-domain applications. The work relates to both the counterdrone space as well as more general military/Government agency applications.
- Commencement of Sydney-based manufacturing of drone smart jammers, following receipt of the first exemption permit of its kind to undertake advanced testing and manufacturing of the Company's Electronic Warfare and counterdrone portfolio in Australia by the Australian Communications and Media Authority (ACMA), the regulator of the communications spectrum nationally. This permit accelerates the development and optimisation of advanced Artificial Intelligence-powered electronic warfare and counter-terrorism technologies here in Australia.
- Participation in several large Australian DoD and public safety program bids as subcontractor of global defence primes.

United States

- Continued growth in the US market, which now includes a customer base that spans Department of Defense, Federal and State level government, Public Safety, and commercial organisations and integrators.
- In February, DroneShield entered into a 5-year Contract Framework with the State of Texas, enabling a more streamlined purchasing process.
- Initial \$530k U.S. General Services Administration (GSA) order to a Homeland Security agency for a DroneSentry™ variant.

¹ *Necessarily, not all, and there can be no assurance that any, of the Company's sales opportunities will result in sales*

- Progressing through two major acquisition program processes with separate US Government agencies, with results due this year.
- U.S. Congress Continuing Resolution (CR) was passed in mid-March, releasing funds to several of DroneShield's U.S. Government customers who were awaiting on it.

Europe and Other Geographies

- The current Ukraine situation has resulted in multiple enquiries, including "purchase all stock on hand", from various military aid channels. DroneShield is continuing these discussions and will update the market when appropriate.
- \$2 million order received from an international Government customer, expected to be completed and delivered this quarter.

Airports

- Airports in the US (via FAA), Australia (via Air Services Australia) and globally are actively evaluating counterdrone deployments, with DroneShield well positioned as a mature, long range, passive/non-emitting solution.
- DroneShield is currently shortlisted on a major airport tender, as part of a global prime contractor solution, with its RfOne™ long-range drone detection product, with expected ordering in the next 2-3 months.

Products and Partnerships

- Continued move to a SaaS model, via three subscription products:
 - Quarterly firmware updates to drone detection Artificial Intelligence (AI) engine software running on hardware of RfPatrol™, DroneSentry-X™ and RfOne™. 2Q22 Update was released mid-April to the global customer base.
 - Quarterly firmware updates to the camera AI engine DroneOptID™ for optical and thermal based drone detection, ID and tracking.
 - DroneSentry-C2™ Command-and-Control and analytics software for DroneShield and third party sensors, across counterdrone and general base security solutions. This platform has been launched as a paid subscription product this quarter, with Nearmap mapping module as the premium mapping option.
- On the hardware side, the range includes RfPatrol™ body worn detection, DroneGun™ portable defeat, DroneSentry-X™ on-vehicle/on-ship detect-and-defeat and DroneSentry™ fixed site modular detect-and-defeat.
- High profile partnerships – strengthening and additional work with Thales globally, and new work with Teledyne FLIR (including a joint deployment to a marquee defence customer) and Allen Vanguard released during the quarter.
- Highly favourable macro environment for DroneShield:
 - rapidly rising counterdrone expenditure globally, as drone incidents continue: <https://www.droneshield.com/uas-incidents>
 - ongoing increase in local defence capability by the Australian Government.

Payments to related parties of the entity and their associates

- Board fees paid to Non-Executive Directors and salary to CEO amounted to \$122,498.

This announcement has been approved for release to ASX by the Board.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
