Quarterly Activities Report

For the quarter ending 31 March 2022

ActivePort Group Ltd (“**ActivePort**” or “**the Company**”), (**ASX:ATV**) is pleased to report strong software revenue growth for the quarter, demonstrating the success of the Company’s strategy to deliver cash flow from high margin software sales.

Highlights:

- Year-to-date revenue stands at \$10.27M, a 52% increase from H1 FY22 into Q3 FY22.
- Software revenue is now 29.7% of total revenue up from 7.9% in the previous quarter.
- Contracted software revenue will contribute significantly to quarterly cash inflows.
- Gross profit has risen from 32% in Q2 to 62% in Q3, demonstrating the positive impact software sales have on the profitability of the business.

Overall, the business is executing on its strategy and seeing strong take-up of the core software products. Software revenue is highly profitable and will make a significant cash contribution to the Company’s bottom line in coming quarters.

Group Revenue

Total group revenue is showing strong growth and steadily increasing quarter-on-quarter. A large one-off hardware contract in December increased the Q2 revenue above the average but the increase from Q1 to Q3 shows the underlying average revenue growth is accelerating.

The revenues shown in the chart above are proforma and assume the consolidated group was in place during those periods. The effective date of consolidation was 27 September 2021.

Software Revenue

Software revenue as a percentage of total revenue is accelerating, reaching 29.7% of total sales for the quarter, up from 7.9% in the previous quarter. Software revenue has high gross profit and therefore the \$1.04M of software revenue in Q3 will make a significant contribution to the Company's cash reserves.

The revenues shown in the chart above are proforma and assume the consolidated group was in place during those periods. The effective date of consolidation was 27 September 2021.

Capital Consumption

ActivePort executive continues to focus on cost management to maintain a consistent operating cost base. This is complemented by a positive cash contribution from software sales that should see total cash burn reduce to circa \$0.7M by the end of Q4 and trend toward positive early in FY23.

Substantial contracted revenues underpinning near-term cashflows

Note: this table is provided for illustrative purposes and is based on the information available to the company at the time of release. It should not be used as a guarantee of future performance or forecast.

Q4 Objectives

Q4 will see the company launch the Global Edge platform and deliver a self-service, edge-to-cloud, SD-WAN orchestration portal. This will add another channel to market for ActivePort's software that has a shorter cycle from order to cash than the Company's enterprise software sales.

The sales team will continue to drive enterprise software sales to the global telecommunications sector, building on the successes experienced in Q3 and continue to work with our MSP and ISP partners globally, to grow the SD-WAN licence revenue base with their customers.

CEO and MD Karim Nejaim said:

"Quarter 2 and Quarter 3 have been foundational for ActivePort, and we are very proud that the revenue from our software products is now being realised as planned. We have a strong pipeline of customers both local and international and an increasing number of strategic deals that will make a strong positive cash contribution to the Company heading into FY23."
