Adveritas Limited (ASX: AVI) (Adveritas or the Company) is pleased to provide its quarterly activities report for the three months ended 31 March 2022 (Q3 FY22).

Growth in revenue and customer base

Following successful trials, the Company signed several industry leading clients across the betting, retail and fintech sectors to TrafficGuard during Q3 FY22. In addition to winning new clients, several existing customers upgraded their contracts, supporting the Company's "land and expand" strategy.

Commenting on Adveritas' Q3 FY22 performance, Co-founder & CEO Mat Ratty said:

"We are successfully rolling out the Company's enterprise sales strategy through our globally expanded sales team. Our newly appointed Chief Marketing Officer, Chad Kinlay, is playing a key role in building brand and product awareness across

key prospect verticals, scaling enterprise trials and optimising pipeline opportunity conversion metrics.

With a growing sales pipeline and increasing number of enterprise trials in progress, we expect to see higher opportunity win rates and strong annualised revenue growth ahead.”

Google Cloud Marketplace go to market strategy prepared for Q4 launch

TrafficGuard’s Google Cloud relationship progressed strongly over the quarter, reflected in the launch of the Google Cloud Marketplace go to market strategy. The launch took place in April 2022 with dedicated briefings to the Google Cloud Enterprise Account Managers across APAC. These briefings are now yielding introductions from Google into key Enterprise accounts. Further briefings are scheduled through Q4 FY22.

This partnership is a significant milestone for Adveritas as demand for Google Cloud services is rapidly growing from businesses that also have large digital advertising spends through the Google paid ads channel. The TrafficGuard product provides a complimentary solution for these businesses to optimise their return on advertising spend. TrafficGuard is also well positioned to scale adoption as it is the only PPC verification vendor application that can detect ad fraud and provide insights on ad spend with real-time data available on the Google Cloud Marketplace.

Adveritas’ new Chief Marketing Officer commenced in January 2022 and has been focused on producing collateral, workflows, and product awareness to underpin TrafficGuard’s successful Google Cloud Marketplace marketing drive. The Company is confident the leads generated from Google Cloud Marketplace will result in enterprise client sign ups from Q4 FY22, to underpin strong annualised revenue growth in future quarters.

Commenting on the Company’s Google Cloud relationship, Mat Ratty said:

“We scaled up our marketing efforts, and finalised preparations for our go to market launch on the Google Cloud Marketplace, a channel partnership that we believe will be a material driver of enterprise adoption.

“Having worked closely with Google to prepare the necessary marketing collateral and sales strategy, we launched our Google Cloud Marketplace go to market strategy on 1 April 2022. This is a significant milestone, positioning us to scale out TrafficGuard in upcoming quarters.

“We are confident that the Google Cloud Marketplace will be a material sales channel for TrafficGuard, facilitating significant lead generation, which we expect to underpin strong annualised revenue growth. Having trained a large number of Google sales staff across APAC earlier this month, I am excited by the opportunities we have to utilise Google’s experienced and knowledgeable sales team to distribute TrafficGuard widely amongst their customers. Their sales team are highly incentivised to encourage widespread adoption of TrafficGuard, to improve the return on advertising spend on Google PPC, relative to competing channels.”

Freemium subscribers remain at strong levels

A key indicator of future revenue growth is the level of Freemium subscribers. Over Q3 FY22, Freemium subscribers increased another 7% from Q2 FY22 to circa 4,049. Conversion of Freemium subscribers to paying customers remained strong at approx. 10% in Q3 FY22.

The Freemium subscriber base provides a paying customer pipeline with significant cross and upsell potential, and a rich data set across multiple industry verticals and markets, enhancing the value of the Company’s global, proprietary anti-fraud database.

In addition to rolling out the Google Cloud Marketplace sales strategy, Adveritas’ Chief Marketing Officer is focused on broadening the recognition of TrafficGuard amongst potential customers globally. He is putting in place strategies to maximise

the conversion of Freemium subscribers into paying customers.

Balance Sheet strengthened to accelerate growth initiatives

After quarter-end, Adveritas raised \$3 million through the issue of convertible notes to strategic, professional and sophisticated investors. The offer was supported by long-term major shareholders, who have participated in previous capital raisings, and new investors.

The convertible notes have a two-year term, 8% per annum coupon, and a conversion price based on 80% of the Company's 90-day VWAP subject to a ceiling price of \$0.17 per share and a floor price of \$0.08 per share.

Funds raised from the offering strengthen Adveritas' capital position and balance sheet, supporting the acceleration of sales and marketing growth initiatives as the Company executes on its significant growth pipeline, including:

- Multi-channel direct sales and marketing activities and digital advertising for the TrafficGuard solution
- Hiring of additional sales representatives across Asia and Europe
- Supporting the roll-out of TrafficGuard on the Google Cloud Marketplace.

Commenting on the Company's cash position Mat Ratty said:

"This month we raised \$3 million via the issue of convertible notes, preventing dilution that would have occurred if we had conducted a placement. We now have a strengthened balance sheet to support our growth plans, with a pro-forma cash balance of approximately \$8 million once we receive our anticipated R&D grant of \$1 million."

Cash receipts

	Previous quarters				
	Mar 2022 \$'000	Dec 2021 \$'000	Sep 2021 \$'000	Jun 2021 \$'000	Mar 2021 \$'000
Receipts from customers	481	651	422	169	273

Cash receipts were up 76% from Q3 FY21 to \$481k, reflecting the growth in paying customers. Receipts in Q2 FY22 were higher than in other quarters due to an amount of \$179k received from ClearPier Inc to settle a number of overdue invoices.

About Adveritas

Adveritas Ltd (ASX:AVI) creates innovative software solutions that leverage big data to drive business performance. Adveritas' ad fraud prevention software, TrafficGuard, is its first available software as a service. Early adopters of TrafficGuard include LATAM super-app, Rappi and APAC super-app, GO-JEK. Both businesses are well funded with \$2 billion and \$12 billion valuations respectively, and conducting aggressive user acquisition advertising for fast growth. In both cases, TrafficGuard was chosen after a rigorous procurement process that saw the effectiveness of our solution evaluated against a range of competing solutions.

For more information, see <https://www.adveritas.com.au/>

About TrafficGuard

TrafficGuard detects, mitigates and reports on ad fraud before it impacts digital advertising budgets. Three formidable layers of protection block both general invalid traffic (GIVT) and sophisticated invalid traffic (SIVT) to ensure that digital advertising results in legitimate advertising engagement. TrafficGuard uses patent-pending technology and proprietary big data accumulated by the performance advertising business previously operated by the Company.

8.6 If Item 8.5 is less than 2 quarters, please provide answers to the following questions:

1. Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: Yes

2. Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: As announced on 21 April 2022, the Company has raised \$3 million through the issue of convertible notes. In addition, the Company anticipates that it will receive an R&D Grant of approximately \$1.1 million prior to the end of the June 2022 quarter.

3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes. Combining the convertible note proceeds with the anticipated R&D Grant and the Company's current cash reserves provides the Company with sufficient funding for a further 3 quarters.
