About DDH1 Limited

DDH1 Limited (ASX: DDH) is Australia's largest mineral drilling contractor providing high quality surface and underground drilling services to a diverse group of exploration and mining houses across a balanced spread of mineral commodities. Established in 2006, DDH1 is an industry leader in enabling its clients to secure quality mineral samples with exceptional spatial accuracy.

DDH1 employs around 1,600 people and operates a fleet of 176 highly specified mineral drilling rigs across its four brands, namely DDH1 Drilling, Ranger Drilling, Strike Drilling, and Swick Mining Services. Offering clients, the full suite of mineral drilling services including air core, reverse circulation, and both surface and underground core drilling.

DDH1's drill rig fleet is a strategically important asset within the Australian mining industry. Surface drilling is performed across Australia by DDH1 Drilling, Ranger Drilling, and Strike Drilling while Swick Mining Services has a global presence performing underground drilling services across Australia, North America, and Western Europe. DDH1 has a strong reputation for innovation in rig design and drilling practices that deliver improvements in productivity, safety, and value.

Central to DDH1's strategic approach is the pursuit of long-term relationships with clients, built on quality drilling services and a deep understanding of their business needs.

IMPORTANT NOTICE AND DISCLAIMER

This presentation and these materials (together the “**Presentation**”) have been prepared by DDH1 Limited ABN 48 636 677 088 (ASX Code: DDH) (“**DDH1**”) as a summary of DDH1’s operations and results for the purposes of a presentation to existing or potential investors in DDH1. By participating in this Presentation or reviewing or retaining these materials, you acknowledge and represent that you have read, understood, and accepted the terms of this Important Notice and Disclaimer.

This Presentation should be read in conjunction with DDH1’s Prospectus dated 10 February 2021, the HY22 half-year financial statements and FY21 annual financial statements of DDH1 Limited and FY20 annual financial statements of DDH1 Holdings Pty Ltd, and other periodic and continuous disclosure announcements that have been lodged by DDH1 with the ASX.

This Presentation is not intended as an offer, invitation, solicitation, or recommendation with respect to the purchase or sale of any security in the United States or any other jurisdiction.

Financial Data: All dollar values are in Australian Dollars unless stated otherwise.

Non-IFRS Information: DDH1’s financial reporting complies with Australian Accounting Standards and International Financial Reporting Standards (“IFRS”). This Presentation includes material that contains non-IFRS measures that are not subject to audit. The non-IFRS information has not been audited. DDH1 believes this non-IFRS financial information provides useful information to users in measuring the financial performance and conditions of DDH1. The non-IFRS financial information does not have a standardised meaning prescribed by Australian Accounting Standards and, therefore, may not be comparable to similarly titled measures presented by other entities, nor should they be construed as an alternative to other financial measures determined in accordance with Australian Accounting Standards. Investors are cautioned, therefore, not to place undue reliance on any non-IFRS financial information and ratios included in this presentation. Such non-IFRS financial information is unaudited.

Forward-Looking Statements and Risks: This Presentation may contain forward looking statements concerning activities which are or may be undertaken, outlook or other matters. Any such forward-looking statements are based on assumptions, which may differ materially from the actual circumstances which may arise. Actual results may differ from projections and such variations may be material. You should not place undue reliance on any projections, which are based only on information currently available to DDH1. DDH1 undertakes no obligation to update any forward-looking statements for events or circumstances that occur subsequent to the date of this Presentation or to keep current any of the information provided. Past performance is no guarantee of future performance.

Forward-looking statements involve inherent risks and uncertainties, both general and specific, and there is a risk that those predictions, forecasts and other forward-looking statements will not be achieved. Forward-looking statements, opinions and estimates provided in this Presentation are based on assumptions and contingencies which are subject to change without notice, as are statements about market and industry trends, which are based on interpretations of current market conditions.

This Presentation contains statements that are subject to risk factors associated with DDH1’s industry as well as unknown risks and uncertainties (both general and specific), many of which are outside the control of DDH1. It is believed that the expectations reflected in these statements are reasonable, but they may be affected by a range of variables, some of which are outside DDH1’s control, which could cause actual results or trends to differ materially, including but not limited to earnings, capital expenditure, cash flow and capital structure risks and general business risks. Given this, recipients are strongly cautioned not to place undue reliance on any Projections and forward-looking statements, particularly in light of the current economic climate and the significant volatility, uncertainty and disruption caused by the COVID-19 pandemic.

Disclaimer: Other than as required by law, neither DDH1 nor any other person (including any director, officer or employee of any member of the Group) gives any representation, warranty or assurance (express or implied) in relation to the accuracy or completeness of any forward-looking statement or that the occurrence of any event, results, performance or achievement will actually occur. Except as required by applicable laws or regulations, DDH1 expressly disclaims any obligation or undertaking to provide any updates or revisions to any forward-looking statements in this presentation to reflect any change in expectations in relation to any forward-looking statements or any change in events, conditions or circumstances on which any such statement is based.

The DDH1 Group is a well-established international drilling company providing a complete range of specialised surface and underground drilling solutions to mining and exploration clients.

We aspire to be the world's leading driller through innovation and a continued focus on high quality reliable services.

LEADING FINANCIAL PERFORMANCE

PROFORMA¹ REVENUE

PROFORMA¹ EBITDA

- Track record of growing revenue and EBITDA organically
- Ability to grow and maintain margins
- Market leading proforma ROIC of 31% for the LTM ended 31 December 2021
- Strong balance sheet with a forecast net debt of approx. 0.1x EBITDA at 30 June 2022
- Strong cash generation (circa 90% of operating EBITDA)
- Dividend Policy of 30% – 50% of Operating NPATA. \$17.6m in dividends paid since listing in March 2021

1. Proforma data assume DDH1 Drilling, Strike Drilling, Ranger Drilling and Swick Mining Services were a combined group for all the financial periods

DIVERSIFIED REVENUE

STRONG MINE PRODUCTION AND DEVELOPMENT EXPOSURE, WHICH IS LESS CYCLICAL

STRONG MACRO ENVIRONMENT

- Strong commodity prices particularly gold, iron ore, copper, nickel and lithium
- Supportive capital markets with near record funds raised in CY21 by exploration and resource companies
- A sustained production cycle needs strong exploration spend to ensure mining reserves are not diminished
- Sustained growth in exploration and production drilling to be driven by the energy transition, which requires commodities that DDH1 drill for and are found in abundance in Australia

METALS DEMAND FROM LITHIUM-ION BATTERIES

Source: BloombergNEF. Note: Metals demand occurs at mine, one-year before battery demand. All metals expressed in metric tons of contained metal, except lithium, which is in lithium carbonate equivalent

Canadian Mining Journal, June 2021

INCREASED DEMAND FOR SPECIALISED DRILLING TECHNIQUES

- Mining industry transitioning from shallower to deeper deposits:
 - More complex geology requiring more detailed information for mine planning
 - Increased drilling requirements to locate mineral deposits
- Development of mining technologies improving capability to mine at greater depths
- DDH1 drill fleet capability and technical expertise can deliver deeper, more complex drill programs
- Directional drilling capability contributes to:
 - Increased accuracy of geological information for development and planning
 - Time and financial savings attributed to drilling multiple branch holes from one main hole

WELL POSITIONED TO INCREASE RIG UTILISATION

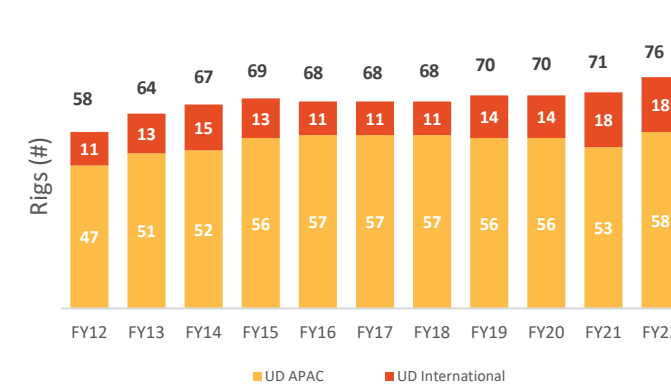

- DDH1 and Swick combined fleet of 179 rigs* is the largest in the Australian market and fifth largest in the world.
- Target of 185 rigs by 30 June 2022, however with current supply delays 4 rigs may be commissioned in July
- Australian drilling industry total rig fleet declined since peak in 2012
- High market utilisation reflects increased demand for drilling services
- Organic fleet growth positions DDH1 to leverage industry fleet shortfall, meet increased demand and maintain high rig utilisation
- Combined fleet has grown at a CAGR of 8% for the last 10 years

Utilisation (%)	74%	76%	76%	73%	-1.2%	3.4%

- Revenue growth for Q3 and YTD compared to prior year, being driven by increases in revenue per shift and fleet size, underpinned by robust demand for drilling services from mining producers and explorers.
- Revenue growth was in spite of the delay in the WA border opening until early March, excessive wet weather and staff contracting COVID, which resulted in significant number of drilling shifts which could not be operated during the quarter, due to staff unavailability
- Whilst the Company is experiencing inflationary pressure on its cost base, particularly labour, it has been steadily working with its customers to increase our drilling charge out rates. Pleasingly during FY22 Q3 the Company's revenue per shift increased 3.8%.

¹The results are provided on a Pro-Forma and un-audited management accounts basis, which means the Company has included the trading results for Swick Mining Services drilling division for all the current reporting periods as well as comparative periods.

WELL POSITIONED TO DELIVER SUSTAINABLE RETURNS

- Strong core business with a consistent track record of leading service delivery
- Skilled workforce and class modern fleet
- Quality recurring revenue and a strong balance sheet
- Pursuing further organic and acquisitive growth
- Dividend Policy of 30% – 50% of Operating NPATA
- Strong industry fundamentals
- YTD FY22 revenue up 14.9% on PCP and a positive outlook for FY22
- Well-positioned to deliver long-term returns to shareholders
