

Zoom2u enters agreement with Bunnings Warehouse

- Zoom2u has entered into an agreement with Bunnings Group Limited ("Bunnings"), operator of the Bunnings Warehouse retail network for use of the Zoom2u Platform.
- The agreement follows completion of a trial of the service conducted with Bunnings in selected stores in Australia.

Global provider of innovative delivery solutions, Zoom2u Technologies Limited (ASX: Z2U) ("Zoom2u" or the "Company"), is pleased to announce that it has entered into an agreement with Bunnings, for use of the Zoom2u Platform as an option for the local delivery of products to its customers.

Steve Orenstein, Zoom2u Founder and CEO said:

"I am absolutely delighted to announce this agreement. To be chosen as one of Bunnings' last mile delivery providers is a validation of the Zoom2u Platform."

"It has been a pleasure working closely with Bunnings over the past few months as they trialed the service."

The Zoom2u Platform enables a transparent delivery experience providing customers with valuable data such as a live tracking link showing the real time location of, and an ETA for their delivery.

Pursuant to the terms of the agreement, Bunnings is under no obligation to meet any minimum volume of spend, or fee commitments, and the arrangement is not exclusive. The service will provide Bunnings with an additional last-mile delivery option in major Australian capital cities.

Whilst entering into an agreement with Bunnings is expected to be beneficial to the Company's financial performance, the materiality cannot be quantified as it is dependent on delivery volumes via the Zoom2u Platform.
