

**ASX Announcement**

24 June 2022

**Damstra Technology**

(ASX: DTC)

**DAMSTRA SIGNS 3 YEAR AGREEMENT WITH CAPSTONE COPPER****Highlights**

- 3-year agreement with Capstone Copper Corp, International Copper Miner headquartered in Canada
- Have operations in North America, Mexico, and Chile
- The total value of the three year contract is estimated to be at least USD\$615,000

Damstra Holdings Limited (ASX:DTC) (**Damstra** or the **Company**), an Australian-based global provider of integrated workplace management solutions, today announces that its wholly owned subsidiary, Damstra Technology, LLC, and Pinot Valley Mining Corp (**PVMC**), a wholly owned US subsidiary of Capstone Copper Corp (TSX:CS) (**Capstone**) have signed a three year agreement.

Damstra has signed Capstone<sup>1</sup> as a new international client, where Capstone will implement Damstra's Enterprise Protection Platform (**EPP**) with the Workforce & Contractor Management, Security, Health, Safety, Training, Compliance & Incident Management modules. Capstone is headquartered in Canada and listed on the Toronto Stock Exchange, with operating mine sites in North America, Mexico, and Chile.

Rollout will commence immediately at its Pinto Valley mine in Arizona. With Capstone, Damstra will displace one of its international competitors, which helps validate the competitiveness of Damstra's EPP on an international scale.

The total value of the three-year contract is estimated to be at least ~USD\$615,000 (~AUD\$892,000)<sup>2</sup>. Commercial construct of the agreement is user-based pricing per module. Under the agreement, Capstone will deploy 5 different Damstra modules.

While the Company expects Capstone to deploy the EPP at other mine locations, there is no guarantee that Damstra and Capstone will enter into further contracts at other mine locations following the rollout at Pinto Valley mine. Accordingly, while the Board considers the agreement with Capstone to be strategically important for Damstra, the current total value of the three-year contract is not considered material.

Damstra Chief Executive Officer, Christian Damstra, said:

*"We are extremely pleased to announce another new international mining client. This agreement reflects Capstone's broad operational requirement covering 5 individual Damstra modules. I was personally pleased to also have the opportunity to meet the Capstone Management team on my recent visit to North America. Capstone, along with other new North American clients, demonstrates we are building a business of scale in North America."*

<sup>1</sup> Contracting entity entering into the agreement is Pinto Valley Mining Corporation ("PVMC"), a wholly owned US subsidiary of Capstone.

<sup>2</sup> As set out in Order Form which is for a 3 year term. Based on the annual subscription fee plus one time set-up and implementation fees. Currency assumption (USD/AUD 1:1.45).

## Summary Scope of Damstra Solution

Capstone will implement the Damstra EPP with the Workforce & Contractor Management, Security, Health, Safety, Training, Compliance & Incident Management modules. Below is a general overview of the scope of the solution to be provided:

- Digitising and automating how workers are onboarded, inducted, trained, tracked, and managed to ensure compliance.
- Deployment of operational dashboards and reports to track key performance indicators and out-of-compliance situations.
- Automation and delivery of training, including eLearning, calendaring classes, and toolbox talks, using digital forms for supervisor/observation checklists and the auto generation and attachment of MSHA 5000-23 forms to individual worker records.
- Contractor on-boarding portal with a managed service to directly support contractor companies and workers, ensuring uploading and maintenance of documentation and credentials with Damstra verifying the documents.
- A policy document repository and management of change functionality to facilitate and track changes to policies and procedures.
- Solutions for incident management, audits, permits and other EH&S requirements.
- Seamless integration with Access Control, Payroll, Human Resources and Procurement systems to promote single source of truth, minimal duplication of data and continuous, frequent, and automated updates.

Damstra Chief Executive Officer, Christian Damstra, commented:

*“What is exciting about Capstone is that it helps validate our EPP product positioning and strategy where we can offer to clients one module or, as in the case of Capstone, five modules, under the EPP where all the modules work in an integrated fashion”.*

**Ends**

Authorised for release to ASX by the Board of Damstra Holdings.
