

ASX / MEDIA ANNOUNCEMENT (ASX:JNO)

19 JULY 2022

QUARTERLY ACTIVITIES REPORT FOR THE QUARTER ENDED 30 JUNE 2022

HIGHLIGHTS

- The Mount Mason NVCP together with the Project Works Approval and Yunndaga rail siding NVCP, the Project is now fully approved to allow development to proceed.
- Mount Mason major contract tenders updated with a revised scope for an increase in DSO production.
- All the major contracts will be re-priced with the preferred contractors in the September quarter.
- A financial investment decision on Mount Mason is subject to confirming a logistics solution, which is being progressed.

MOUNT MASON DSO HEMATITE PROJECT

Juno Minerals Limited (**Juno** or the **Company**) is progressing the Mount Mason DSO Hematite Project (the **Mount Mason Project** or **Project**), which is a high-grade direct shipping ore (**DSO**) hematite, near-term project. The Project is located 130km by road northwest of the town of Menzies, Western Australia.

Project Approvals

The Company received the final Project approval, the Native Vegetation Clearing Permit (**NVCP**), for the Project in early April. This was a significant milestone in completing all of the statutory approvals, paving the way for Project development.

Logistics and Supply Chain

With the Project now fully approved for development, work remains ongoing to secure the logistics supply chain to export DSO out through the Port of Esperance. Regular discussions are being held with the Southern Ports Authority (**Southern Ports**) in relation to current available capacity and facilitating access to that capacity is currently being examined by Southern Ports and the relevant stakeholders, including Juno.

Discussions have continued with Arc Infrastructure (**Arc**) regarding rail track access to Esperance, which is a critical part of the logistics solution. Discussions with both Southern Ports and Arc have been very positive. In respect of the Yunndaga rail siding site just south of Menzies, the original intent was to defer development until Mount Mason was in production utilising an existing siding further south. However, this approach involved increased road haul distances with higher operating costs, subsequently with pricing received on rail costs it presents a compelling case to develop the Yunndaga rail siding for the commencement of the Project. A geometric rail survey will be undertaken in late July that will allow an 85% design level on both the rail crossing and siding taking into account Arc Infrastructure's inputs and requirements. The Yunndaga

 $^{^{\}scriptsize \bigcirc}$ Level 7, 16 St Georges Terrace, Perth WA 6000

ABN 94 645 778 892

rail siding is an important piece of infrastructure for Juno that significantly reduces the total road haul distance from 287 kilometres to 137 kilometres, whilst increasing the rail component by 125 kilometres to a total of 508 kilometres, thus significantly reducing operating costs.

Juno is also considering options to monetise the Yunndaga rail siding asset by opening it up as a multi-user facility in conjunction with an infrastructure group.

The Menzies Bypass and Yunndaga rail siding area is shown in Appendix 1 to this Report.

Contractor Engagement

Juno and the Project team completed the evaluation and clarifications on all the major contract tenders and shortlisted contractors for all the major packages in December 2021, with the validity of tenders extended to 31 March 2022. Contact has been maintained with the shortlisted contractors keeping them updated on the Project. During the quarter, the mine plan was rescheduled, increasing production from 1 million tonnes per annum (**mtpa**) to 1.35mtpa, with the effected Scopes of Work in the tender documentation updated. All the major contracts will be re-priced in the September quarter and the financial model updated with the revised operating and capital costs.

The main project area is shown in Appendix 2 to this Report.

Project Funding

It is planned to have tender re-pricing retuned to Juno in early August with the financial model updated with the revised operating and capital costs in early September. The Company is exploring options to finance the required start-up capital through debt financing in conjunction with offtake related financing.

MOUNT IDA MAGNETITE PROJECT

Juno also intends to progress the Mount Ida Magnetite Project (the **Mount Ida Project**). Preliminary reviews of past work completed and future work required has commenced to enable the planning to progress the Mount Ida Project. A hydrogeological review was undertaken on both Mount Ida and Juno's extensive water licence exploration tenure with generation of water targets.

A significant amount of work totalling approximately \$50 million was undertaken on the Mount Ida Project from 2007 to 2013 with the Definitive Feasibility Study taken to 70% completion prior to the cessation of work. The Mount Ida Project is on a granted Mining Lease, has significant supporting tenure for infrastructure, and expansive water exploration licences over areas prospective for good quality water. The Mount Ida Project remains the largest magnetite resource and one of the most technically advanced magnetite projects in the Yilgarn.

With magnetite concentrate being a higher grade and consistent product, commanding a premium price over DSO iron ore, it also has the advantage of a lower environmental footprint in the smelting process and is considered as the "green steel" which is becoming the preferred raw material in the steel making process.

ABN 94 645 778 892

The Mount Ida Magnetite Project is a large and significant project, which presents a great opportunity to become a long-life magnetite mine. The Company in the September quarter will commence with a formal process to attract a major partner to earn in at project level with the capacity to develop the project.

Hancock Magnetite Holdings Pty Ltd (**Hancock**) earning in on the neighbouring Mt Bevan Magnetite Project is now commencing a Pre-feasibility Study on Mt Bevan which is very positive for the Yilgarn magnetite projects.

The Yilgarn magnetite projects are shown in Appendix 3 to this Report.

N-4	form amounts are about in items 6.1 or 6.2 your quarterly activity report much include	

Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.

7.	Financing facilities Note: the term "facility' includes all forms of financing arrangements available to the entity. Add notes as necessary for an understanding of the sources of finance available to the entity.	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000	
7.1	Loan facilities	-	-	
7.2	Credit standby arrangements	-	-	
7.3	Other (please specify)	-	-	
7.4	Total financing facilities	-	-	
7.5	Unused financing facilities available at quarter end			
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.			

8.	Estimated cash available for future operating activities	\$A'000
8.1	Net cash from / (used in) operating activities (item 1.9)	(321)
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(57)
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(378)
8.4	Cash and cash equivalents at quarter end (item 4.6)	4,421
8.5	Unused finance facilities available at quarter end (item 7.5)	-
8.6	Total available funding (item 8.4 + item 8.5)	4,421
8.7	Estimated quarters of funding available (item 8.6 divided by item 8.3)	11.7

Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.

8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:

8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Α	n	c	١٨,	۵	r
м	П	5	٧v	u	ı

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Α	ns	W	е	r:

8.8.3	Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
Answe	r:	
Note: wl	here item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.	

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date:	19 JULY 2022
Authorised by:	BY THE BOARD
•	(Name of body or officer authorising release – see note 4)

Notes

- 1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
- 2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
- 3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
- 4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
- If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
