Correction and Clarification to LDA Pricing Mechanism

Hawsons Iron Ltd (ASX: HIO) advises that on the 22nd December 2021 the Company announced that *"Hawsons secures A\$200 Million equity funding package"*. Within this release it mentions that "The issue price of the capital call Shares will be 90% of the higher of the average VWAP of Shares in the 30-trading day period *prior to* the issue of the put option notice by HIO (subject to any applicable adjustments) and the minimum acceptable price (MAP) notified to LDA Capital by the Company upon exercise of the put option."

The use of the words "prior to" in the above statement is incorrect. The pricing period starts on and from the first trading day 'after' the day on which LDA Capital receives the applicable Capital Call notice and the corresponding Collateral Shares have been issued. The announcement on the 12th of July 2022 *"Call Notice – LDA Capital"* is accurate in its description.
