

Mako Gold

MAKO DELIVERS MAIDEN RESOURCE WITH RAPID GROWTH PATHWAY

Noosa Mining Investor Conference Presentation
20-22 July 2022

ASX: MKG

DISCLAIMER

This Presentation (“Presentation”) is for informational purposes only and is not a prospectus, disclosure document or offer document under the Corporations Act 2001 (Cth) (“Corporations Act”) or any other law. This Presentation does not constitute, and is not to be construed as, an offer to issue or sell, or a solicitation of an offer or invitation to subscribe for, buy or sell securities in Mako Gold Limited ACN 606 241 829 (“Mako”). The material in this presentation has been prepared by the Company and contains summary information about the Company’s activities. The truth or accuracy of the information in this presentation cannot be warranted or guaranteed by the Company. The information in this presentation is of a general background nature and does not purport to be complete or contain all the information security holders would require to evaluate their investment in the Company. It should be read in conjunction with the Company’s other periodic and continuous disclosure announcements which are available at www.makogold.com.au. Other than to the extent required by law (and only to that extent) the Company and its officers, employees and professional advisors make no representation or warranty (express or implied) as to, and assume no responsibility or liability for, the contents of this presentation.

This Presentation does not purport to contain all information that recipients may require to make an informed assessment of Mako or its securities. Statements in this Presentation are made only as at the date of this Presentation unless otherwise stated and remain subject to change without notice. No representation or warranty, express or implied, is made as to the fairness, accuracy or completeness of the information or opinions contained in this Presentation, or any omission from this Presentation. To the maximum extent permitted by law, Mako disclaims any responsibility to inform any recipient of this Presentation on any matter that subsequently comes to its notice which may affect the information contained in this Presentation, and undertakes no obligation to provide any additional or updated information whether as a result of new information, future events or results or otherwise.

This Presentation contains forward-looking statements regarding Mako and the potential of its current and future projects. Forward-looking statements can be identified by the use of forward-looking language such as “plans”, “expects”, “budgets”, “schedules”, “forecasts”, “anticipates”, “believes”, or variations thereof, and statements that certain actions or results “may”, “could”, “would”, “might”, “will occur” or “will be achieved”. Forward-looking statements are based on the opinions and estimates of Mako as at the date such statements are made. Forward-looking statements are subject to known and unknown risks that may cause the actual results, performance or achievements of Mako to be materially different from those expressed or implied by such forward-looking statements. Although Mako has attempted to identify and account for these risks, there can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, Recipients should not place undue reliance on forward-looking statements contained in this Presentation. Mako does not undertake to update any forward-looking statements except in accordance with applicable securities laws.

Not financial product advice or offer - Information in this presentation, including forecast financial information, should not be considered as advice or a recommendation to investors or potential investors in relation to holding, purchasing or selling securities. Before acting on any information, you should consider the appropriateness of the information having regard to these matters, any relevant offer document and in particular, you should seek independent financial advice.

Competent Person’s Statement - The information in this report that relates to Exploration Results is based on information compiled by Mrs Ann Ledwidge B.Sc.(Hon.) Geol., MBA, who is a Member of The Australian Institute of Geoscientists. Mrs Ledwidge is a full-time employee and a shareholder of the Company. Mrs Ledwidge has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which she is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the ‘Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves’. Mrs Ledwidge consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

The information relating to the Mineral Resource at the Napié Project is extracted from the ASX Announcement titled: ‘Mako Delivers 868koz Maiden Resource to Provide Strong Growth Platform at Napié’ dated 14 June 2022. The report is available to view on the Mako Gold website www.makogold.com.au. The report was issued in accordance with the 2012 Edition of the JORC Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. The company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and, in the case of estimates of Mineral Resources or Ore Reserves that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The company confirms that the form and context in which the Competent Person’s findings are presented have not been materially modified from the original market announcement.

This presentation is authorised by Peter Ledwidge, Managing Director.

INVESTMENT HIGHLIGHTS

Napié 868koz maiden
Mineral Resource

Resource represents only 13%
of prospective Napié fault

Rapid pathway to resource
growth through drill ready
extensional & regional targets

Tier-1 Exploration team
credited for five significant
West African gold discoveries

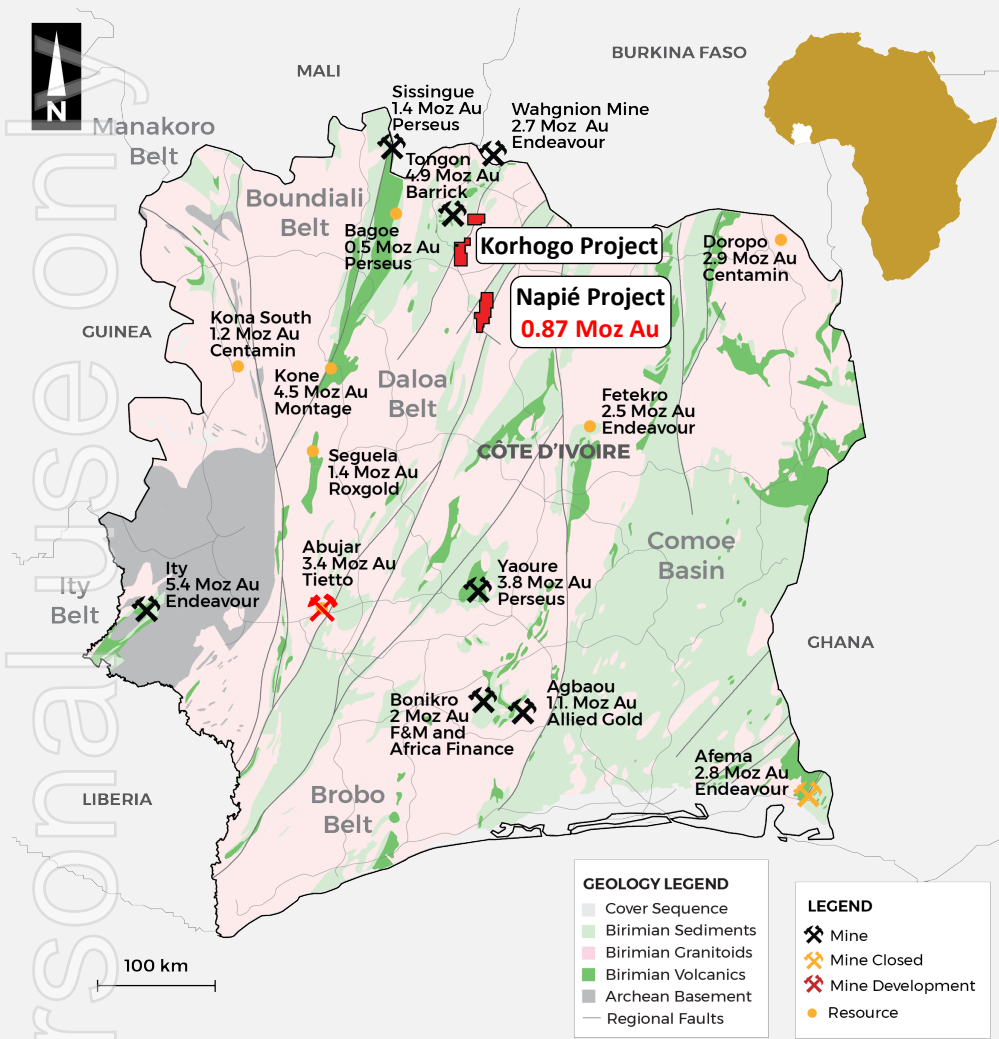

Exploring in proven gold jurisdiction
with >400Moz gold discovered

ersonal use only

THE MAKO GOLD PORTFOLIO

Flagship Napié Project (224km²)

- ❖ 90% Mako ownership¹
- ❖ In the same belt as Tietto's (ASX:TIE) 3.4Moz Abujar Project (targeting first gold in Q4-CY22²)
- ❖ **Hydroelectricity (green energy)**, bitumen road and water on permit

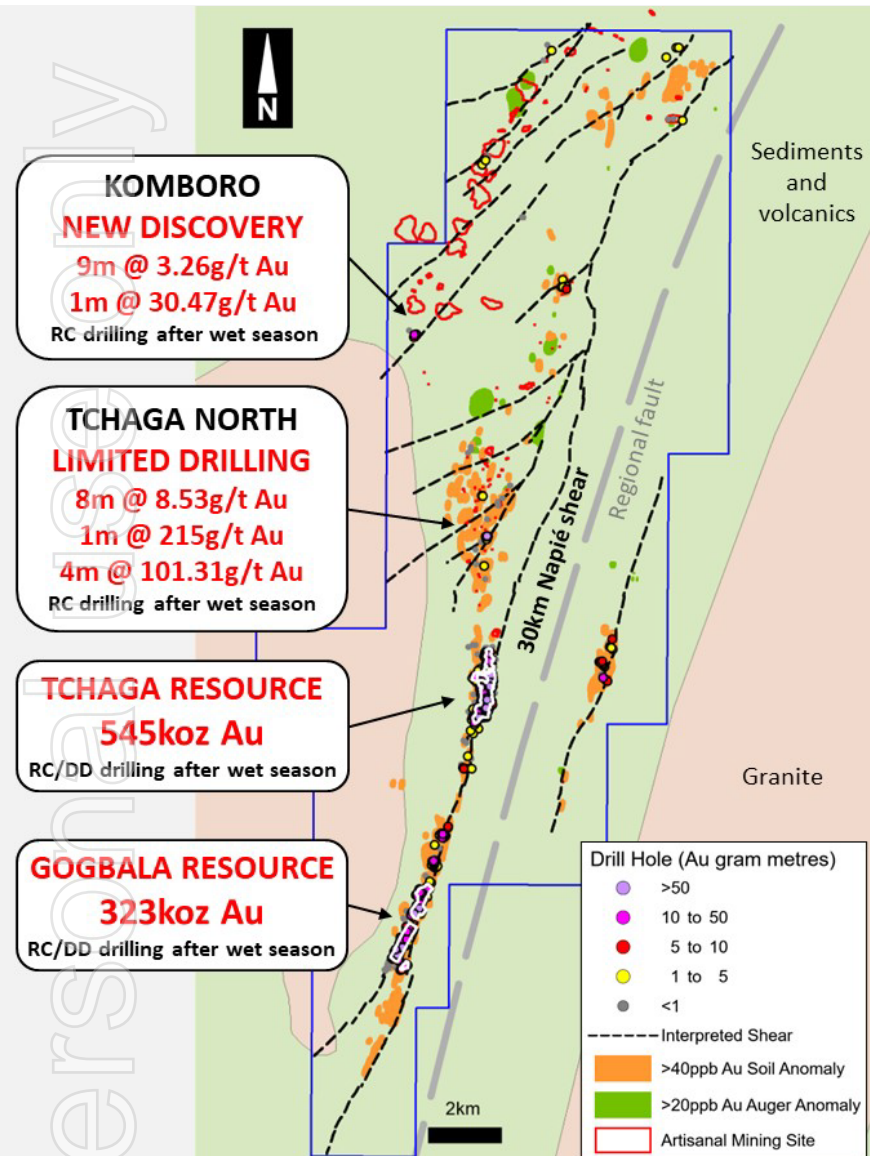

Korhogo Project (296km²)

- ❖ 100% Mako ownership
- ❖ Adjacent to Barrick's 4.9Moz Tongon gold mine and in same belt as Endeavour's 2.7Moz Wahgnion Mine in Burkina Faso
- ❖ Covers 17km of faulted greenstone/ granite contact (high-grade gold targets)

¹ Refer to ASX announcement dated 29 June 2021

² Refer to Tietto ASX announcement dated 18 January 2022

NAPIÉ MAIDEN MINERAL RESOURCE 868KOZ

Deposit	Category	Tonnes (Mt)	Gold Grade (g/t)	Cont. Au (koz)
Tchaga	Inferred	14.6	1.16	545
Gogbala	Inferred	7.8	1.29	323
Global Resource	Total	22.5	1.20	868

Resources reported at a cut-off grade of 0.6g/t gold

Potential for rapid resource growth

- ❖ Only 4.4km of 30km Napié shear (13%) systematically drilled for MRE
- ❖ 93% of the resource (808koz) sits within 150m of surface
- ❖ New gold discovery at Kombokoro Prospect
- ❖ Drilling planned on all prospects following wet season
- ❖ Aim to identify multi-million ounce mineral resource

RESOURCE GROWTH STRATEGY

Three-tier approach to near-term resource expansion

- 1) Shallow drilling on 4.5km gap of Napié shear between Tchaga & Gogbala with previous positive drill results
- 2) Shallow drilling along undrilled portions of the faults at Gogbala
- 3) **Deeper drilling** at Tchaga and Gogbala which **should increase grade**

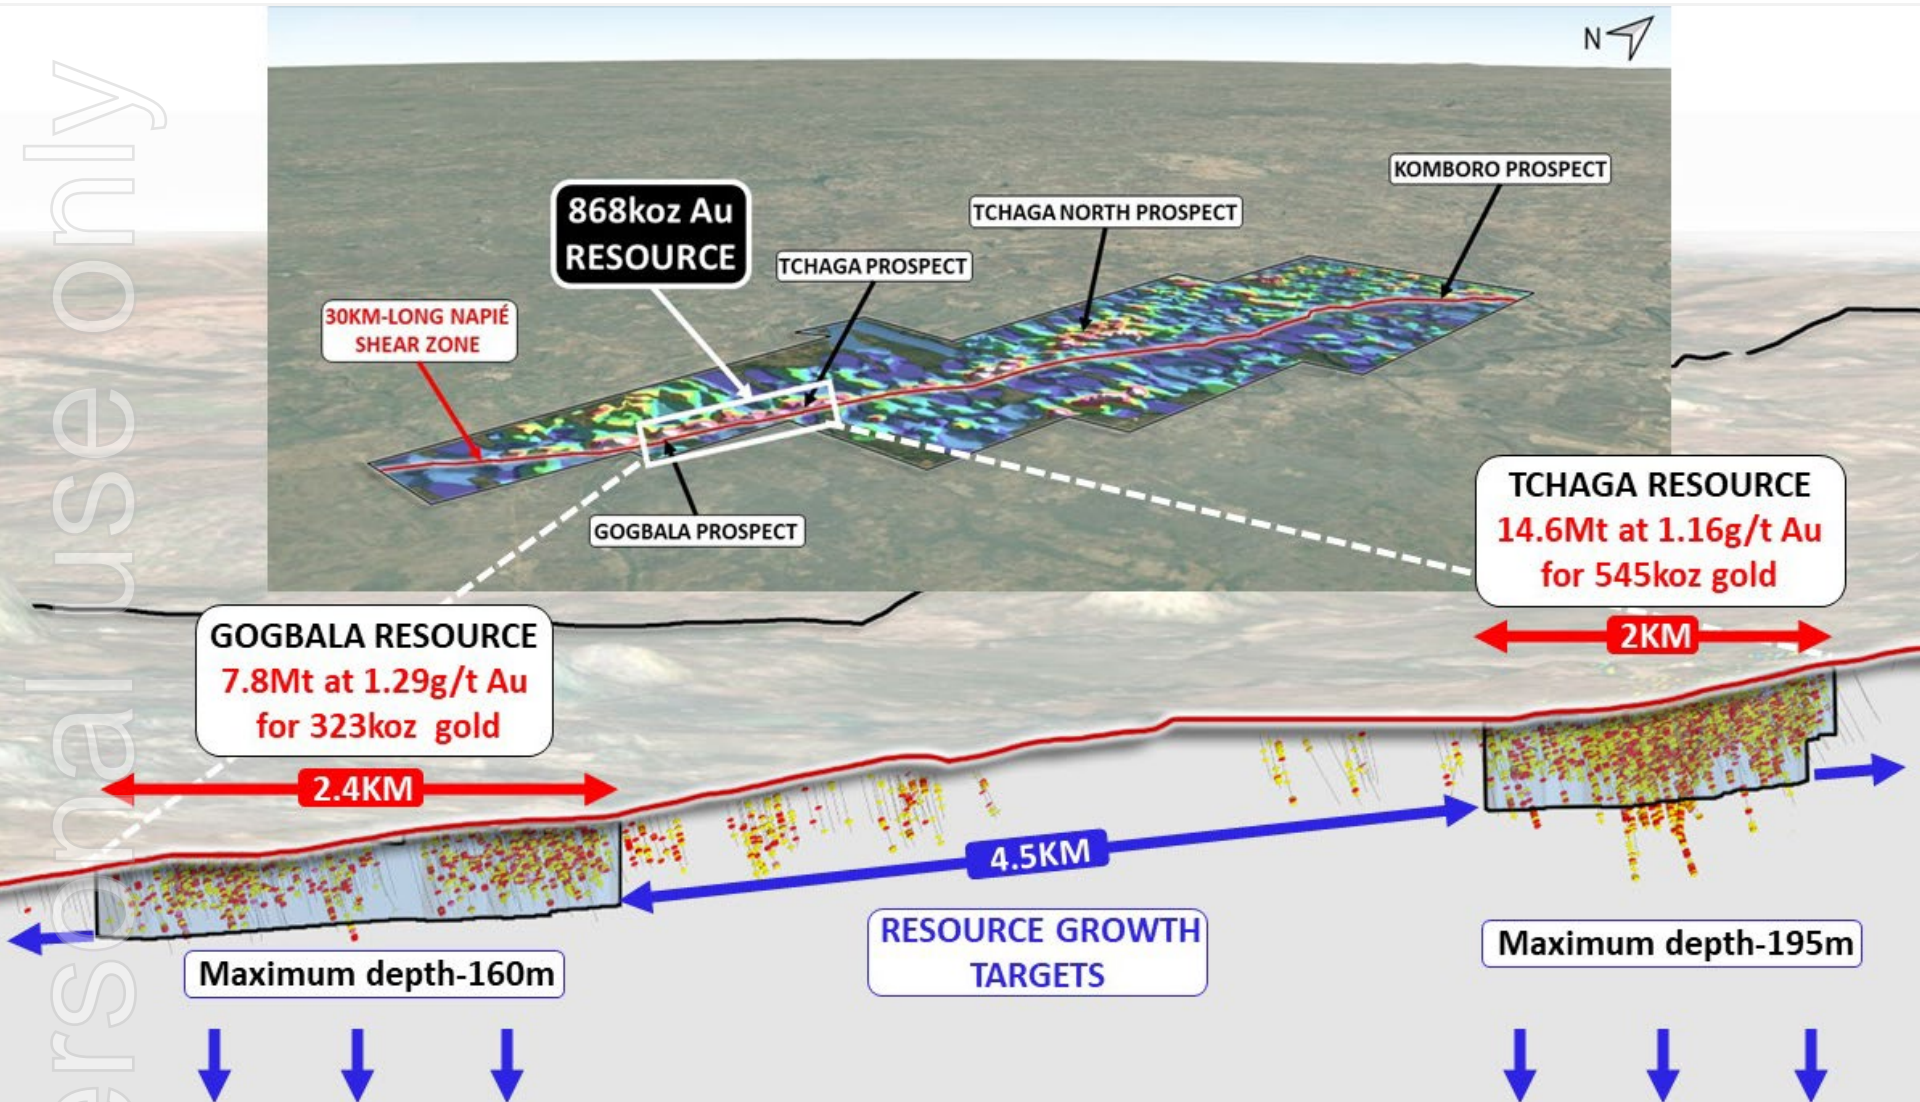

Grade increases
with depth

Depth Interval m	Tchaga			Gogbala			Combined		
	Tonnes Mt	Grade g/t Au	Cont. Metal Au oz	Tonnes Mt	Grade g/t Au	Cont. Metal Au oz	Tonnes Mt	Grade g/t Au	Cont. Metal Au koz
0 -50	4.8	1.09	170	2.8	1.19	108	7.7	1.13	278
50-100	5.5	1.08	191	2.9	1.29	122	8.5	1.15	313
100-150	3.1	1.33	132	1.9	1.38	85	5.0	1.35	217
150-BOR	1.2	1.38	52	0.1	1.90	7	1.3	1.42	60
Total	14.6	1.16	545	7.8	1.29	323	22.5	1.20	868

Resources reported at a cut-off grade of 0.6g/t gold. BOR = Base of Resource. Differences may occur in totals due to rounding.

NAPIÉ - 868KOZ SHALLOW RESOURCE WITH SIGNIFICANT GROWTH POTENTIAL

Personal use only

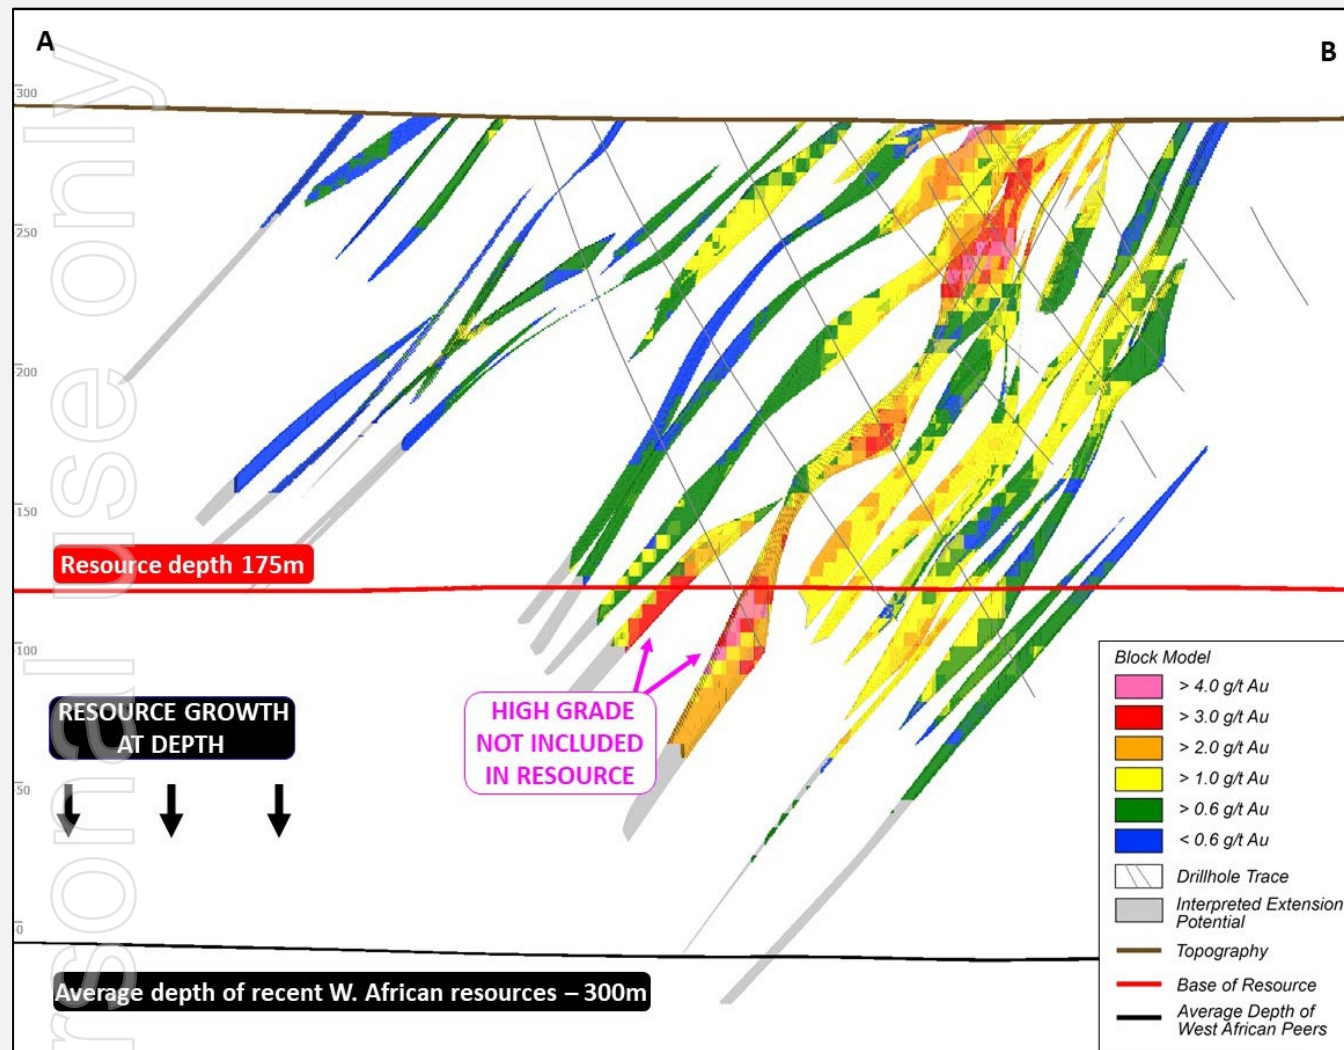

TCHAGA - RESOURCE WITH GROWTH POTENTIAL

Shallow 545koz resource delineated over 2km strike-length

Multiple high-grade lodes (red and pink) provide pathway to increase grade and size with deeper drilling

TCHAGA - SHALLOW RESOURCE

Quick path to resource growth

- ❖ Resource currently extends to a maximum vertical depth of 195m (vs. average depth of 300m for recent West African resources)
- ❖ High-grade lodes lie below resource base (not in current MRE)
- ❖ Significant resource expansion potential through drilling at depth

Cross Section A-B looking north-east
(location shown on previous slide)

GOGBALA - RESOURCE WITH EXPANSION POTENTIAL

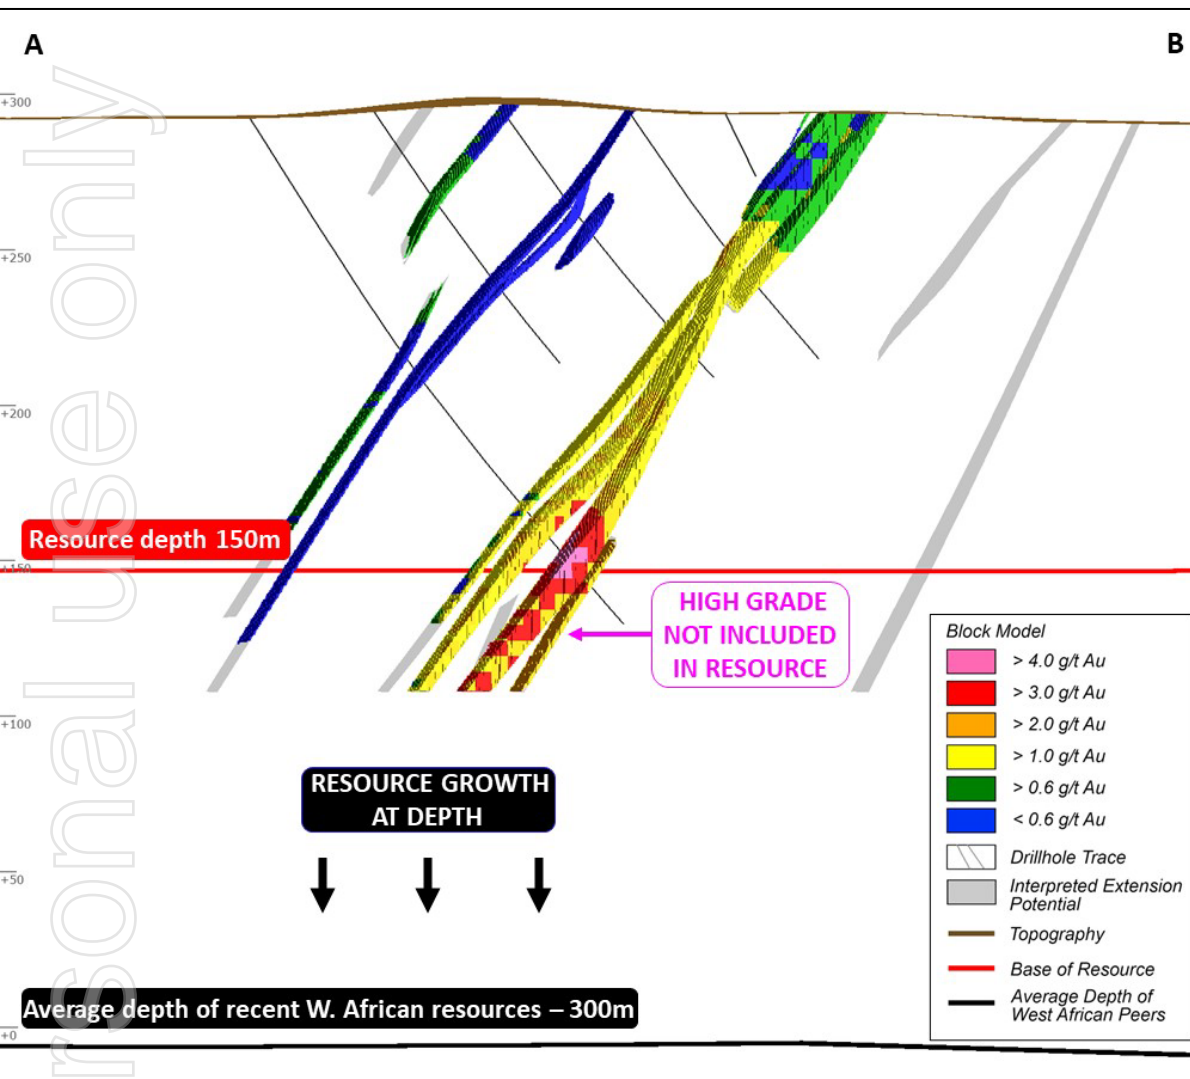

Shallow 323koz resource delineated over 2.4km along faults

❖ Shallow drilling along undrilled portions of the faults presents the lowest cost pathway to rapid resource growth

Plan view of grade zones through block model

GOGBALA - SHALLOW RESOURCE OPEN AT DEPTH

Path to rapid resource growth

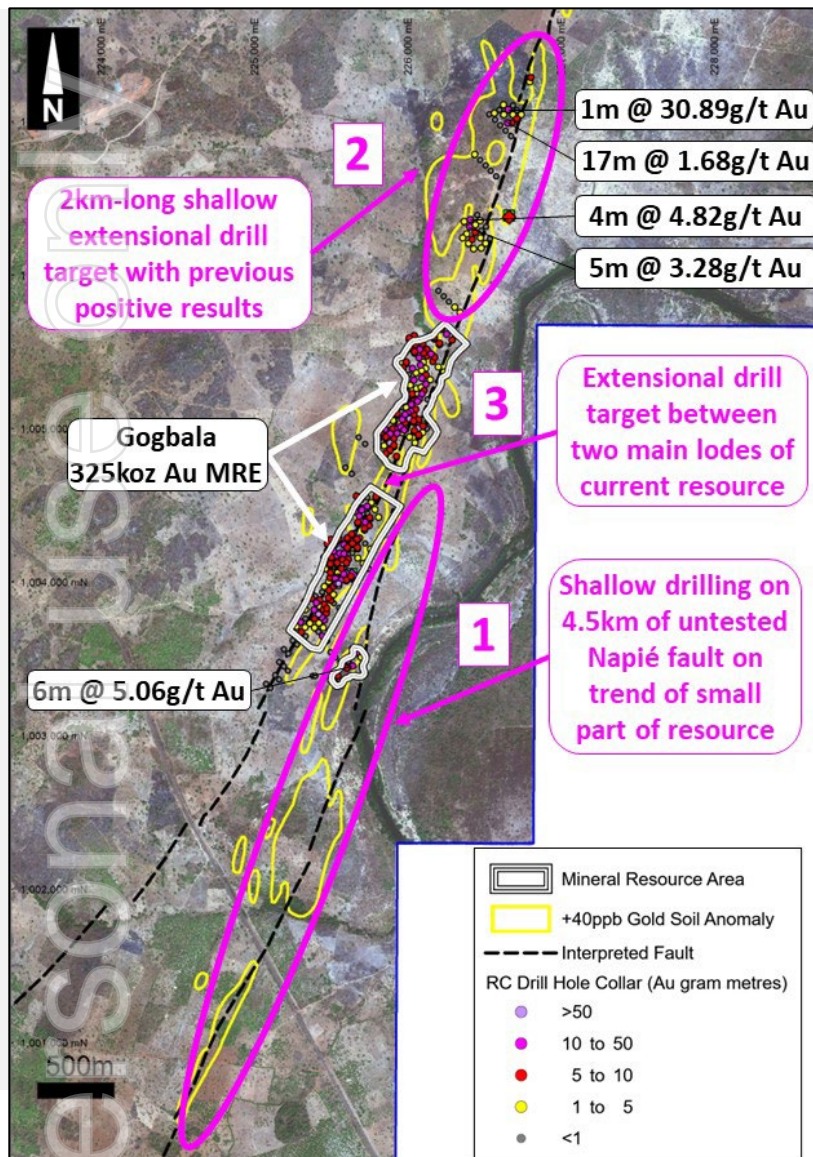

- ❖ Resource extends to a maximum vertical depth of 150m
 - 45m shallower than Tchaga
 - 150m shallower than West African peers
- ❖ High-grade lodes lie below resource base (not yet in MRE)
- ❖ Grade increases with depth (grade is 1.9g/t Au below 150m)
- ❖ Potential to significantly increase resource by drilling at depth

Cross Section A-B looking north-east
(location shown on previous slide)

GOGBALA - QUICK PATH TO SHALLOW RESOURCE GROWTH

Priority focus on extending shallow gold mineralisation along strike

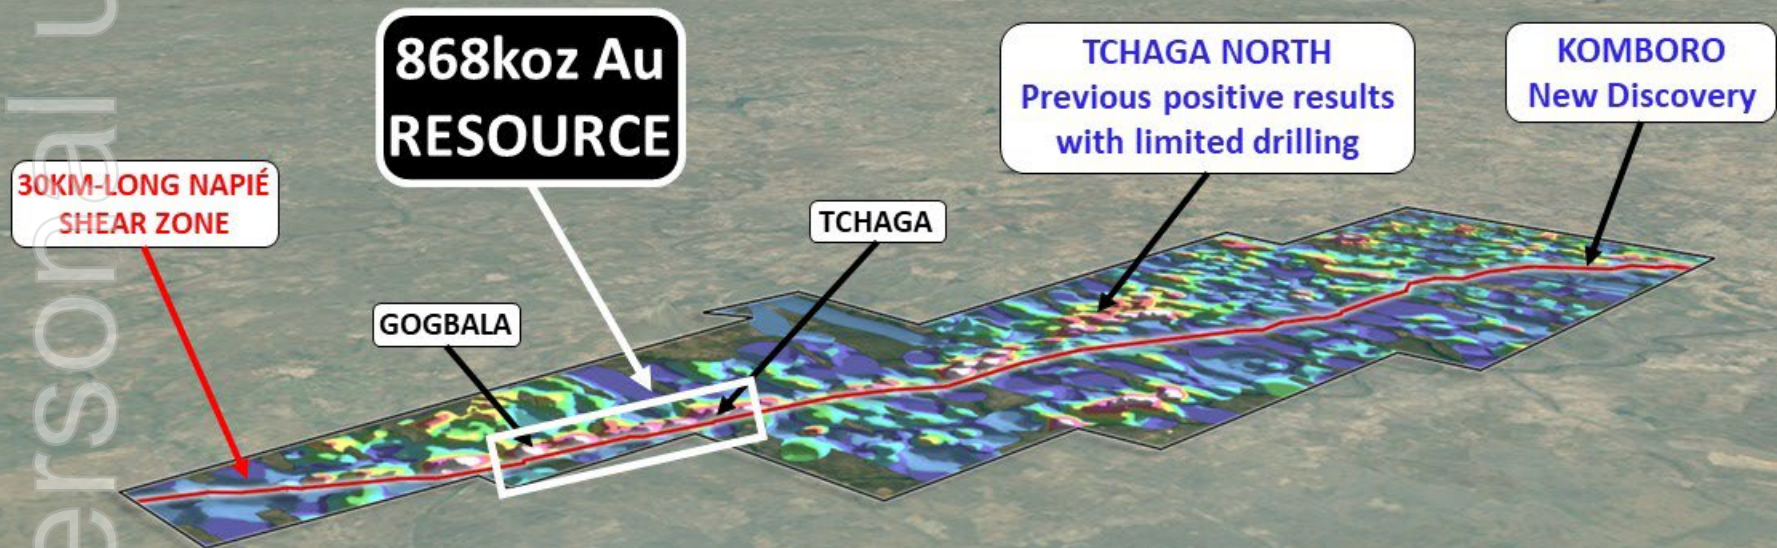

- 1) Significant shallow resource growth potential on 4.5km east splay of Napié fault and soil anomaly
 - Recent drilling that delivered up to **6m at 5.05g/t Au** in east Napié splay with small block included in the MRE
 - Highest priority drill target when drilling resumes
- 2) More shallow growth potential along 2km fault immediately north of MRE with previous positive drill results
- 3) Undrilled gap between two resource lodes

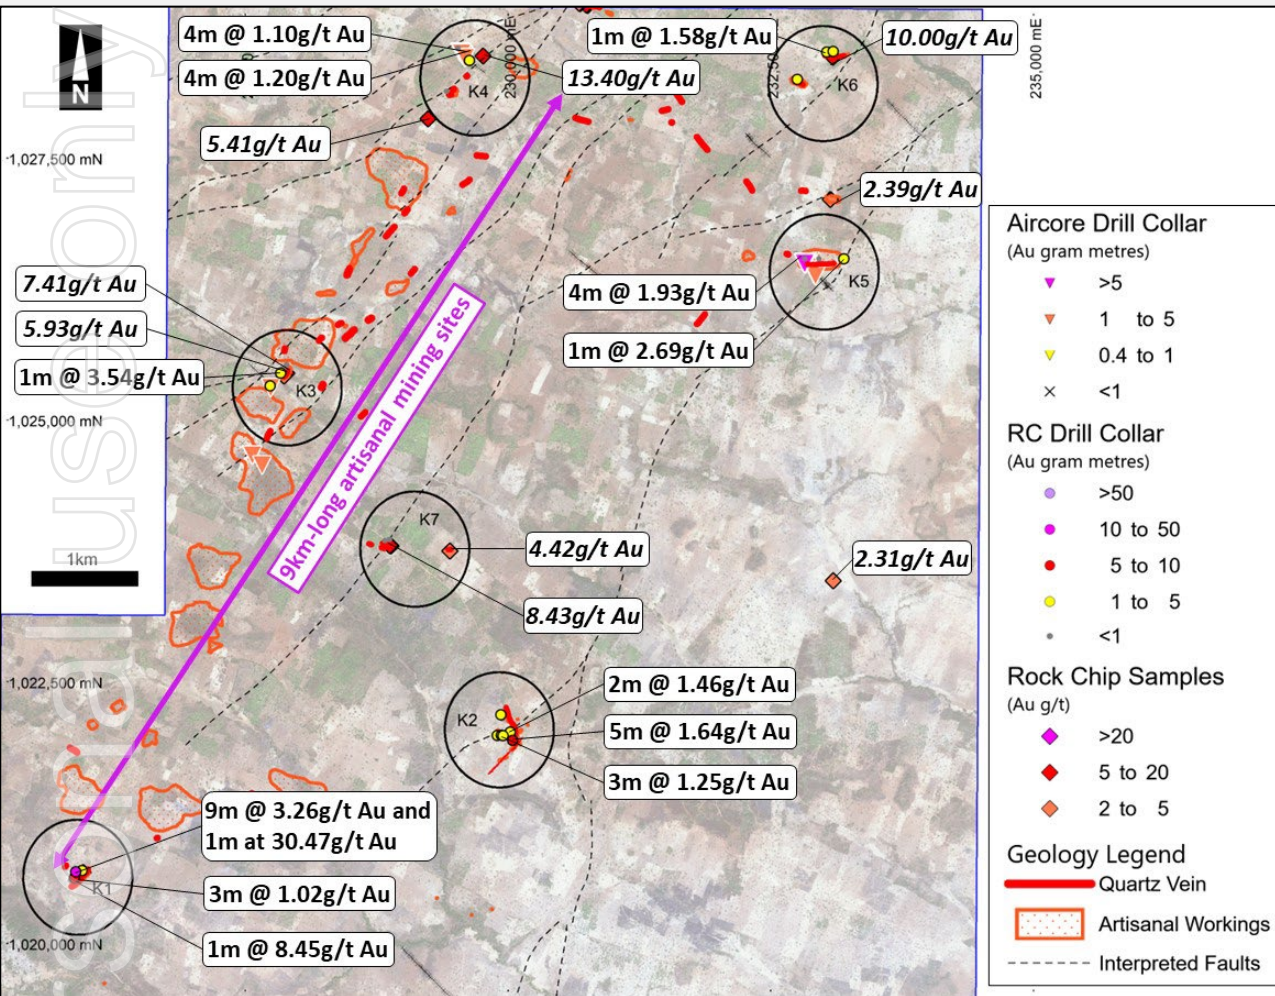

REGIONAL GROWTH STRATEGY

Advanced regional prospects are pathways to new resource targets

- ❖ **Komboro – New discovery – further drilling planned**
 - 9km-long artisanal mining site coincident with structure
- ❖ **Tchaga North – further drilling planned**
 - 2km high priority drill target with previous high grade drilling results
- ❖ **+25km of underexplored Napié shear**
 - Target generation and evaluation through low cost, first pass exploration (i.e. soil sampling, geochem, mapping etc.)

REGIONAL GROWTH KOMBORO – NEW DISCOVERY

Komboro Upside

- Discovery results include 9m @ 3.26g/t Au, 1m @ 30.47g/t Au and 5m @ 1.64g/t Au¹
- 9km-long artisanal mining site coincident with structure
- Multiple AC assays >4m @ 1g/t Au and rock chip samples >5g/t Au²
- Further drilling planned as new potential resource target

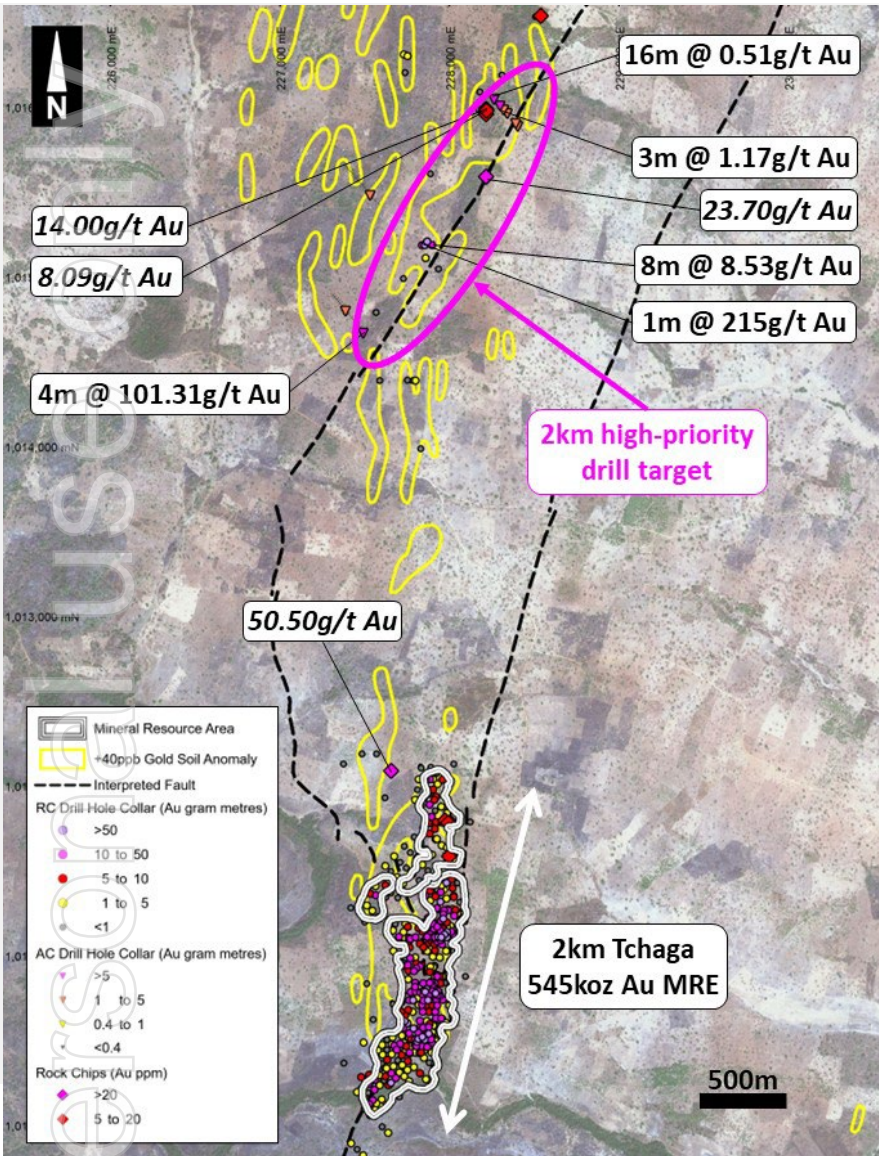

¹ Refer to ASX announcement dated 11 July 2022

² Refer to Mako Gold Supplementary Prospectus dated 16 April 2018, and ASX announcement dated 1 June 2022

REGIONAL GROWTH

TCHAGA NORTH – ANOTHER RESOURCE TARGET

Tchaga North Upside

- ❖ 2km high priority drill target
- ❖ AC results up to 4m at 101g/t Au
- ❖ RC results include 8m @ 8.53g/t Au and 1m @ 215g/t Au
- ❖ Multiple rock chip samples >10g/t Au incl. 23g/t Au¹
- ❖ RC drilling planned following wet season
- ❖ Potential resource drilling target

PLANNED FOLLOW UP TO PRELIMINARY METALLURGY

Recovery in oxide and fresh rock at Tchaga averaged over 94%¹

- ❖ Interval which returned 7.7m at 11.65g/t Au in NARC058DD²
- ❖ Gold is associated with pyrite but not locked within pyrite (explains good recovery)

¹ Bottle roll tests - Refer to ASX announcement dated 25 September 2019

² Refer to ASX announcements dated 5 March 2020

NAPIÉ IN SAME BELT AS TIETTO'S ABUJAR DEPOSIT

Mako aiming for similar rapid growth path as Tietto through resource expansion

KORHOGO PROJECT - POTENTIAL FOR NEW DISCOVERY

1,400m maiden RC drill program completed

- ❖ Multiple drill targets identified by geophysics and soil/ auger programs
- ❖ Target areas similar in size as nearby 4.9Moz Tongon gold mine which suggest potential for large deposits
- ❖ Further mapping, rock-chip sampling and trenching ongoing and planned in preparation of resumption of maiden drill program

HELPING LOCAL COMMUNITIES (ESG)

- ❖ Drilled and installed water bore
- ❖ Improve local roads
- ❖ Local employment and training
- ❖ Promoting diversity

EXPERIENCED WEST AFRICAN TEAM

- ❖ Mako promotes local employment (100% in-country team is local)
- ❖ Key in-country managers have been working with Mako management for 10+ years

TEAM WITH STRONG WEST AFRICAN CREDENTIALS

BOARD OF DIRECTORS

MICHELE MUSCILLO - NON-EXECUTIVE CHAIRMAN

Partner - Hopgood Ganim Lawyers

- Ex Orbis Gold, Cardinal
- Partner - Hopgood Ganim Lawyers
- Negotiated Orbis and Cardinal takeover

PETER LEDWIDGE - FOUNDER & MANAGING DIRECTOR

Geologist - 30+ years experience

- Ex Orbis Gold
- Acquired all Orbis permits and led team on Nabanga Discovery in Burkina Faso

STEVE ZANINOVICH - NON-EXECUTIVE DIRECTOR

Mine Development – 20+ years experience

- Ex Gryphon & Teranga Gold
- Completed feasibility on Wahgnion Mine now operated by Endeavour

MANAGEMENT

PAUL MARSHALL - CFO & COMPANY SECRETARY

Chartered Accountant - 30+ years experience

- 20+ years experience as CFO & Company Secretary
- Strong experience in financial reporting and corporate governance

ANN LEDWIDGE - FOUNDER & GENERAL MANAGER EXPLORATION

Geologist - 30+ years experience

- Ex Orbis Gold
- Led Orbis team on 2 discoveries in Burkina Faso including the 2Moz Bounbou Mine now operated by Endeavour

IBRAHIM BONDO - FOUNDER & OPERATIONS MANAGER

Geological Technician/Manager - 20+ years experience

- Ex Orbis Gold, Barrick, Orezone
- Logistical Manager and Business Development with Orbis. Involved in all discoveries with Orbis

BOUKARE GUIGMA - CHIEF GEOLOGIST

Geologist - 15+ years experience

- Ex Orbis Gold, Semafo, Volta
- Involved in Orbis and Volta discoveries

1. The stated Market Cap represents full diluted value of takeover offer by B2 Gold as announced by Oklo Resources 26 May 2022. The MKG EV has been calculated by subtracting \$5.9M cash as reported on 31 March 2022

CÔTE D'IVOIRE - A GOLDEN DESTINATION

Attractive Investment Jurisdiction

- ❖ Hosts 35% of West Africa's greenstone belts
- ❖ Significantly underexplored – emerging district for world-class discoveries
- ❖ Politically stable pro-mining government
- ❖ Modern & transparent mining code with favourable fiscal regime
- ❖ Outstanding infrastructure, power supply & logistics network

Abidjan, Côte d'Ivoire, Africa 2011

NEXT STEPS

- ❖ Shallow drilling at and around Tchaga and Gogbala to expand the resource base
- ❖ Deeper drilling at Tchaga and Gogbala to extend resources at depth
- ❖ Further drilling at Komboro and Tchaga North prospects to target next resource
- ❖ Continue exploration on Korhogo Project
