

Incannex Completes Acquisition of APIRx Pharmaceuticals to Aggregate the World's Largest Portfolio of Patented Medicinal Cannabinoid Drug Formulations

Melbourne, Australia, August 05, 2022 – Incannex Healthcare Limited (Nasdaq: IXHL) (ASX: IHL), ('Incannex' or the 'Company') a clinical-stage pharmaceutical company developing unique medicinal cannabinoid pharmaceutical products and psychedelic medicine therapies for unmet medical needs, advises that it has finalised the acquisition of APIRx Pharmaceuticals ('APIRx').

The stakeholders of APIRx ('sellers') have been issued 218,169,497 new shares in IHL at a notional value of \$A0.573 per share, which represents the consideration paid in shares as agreed by Incannex and APIRx and executed in a binding terms sheet announced on March 24, 2022. IHL share purchase consideration is equivalent to approximately 8,726,780 IXHL American Depositary Shares (ADS). The sellers have entered a 12-month voluntary escrow deed restricting the disposal of any interest in any of the shares issued for a period of 12 months from completion of the acquisition.

Founders of APIRx, Dr George Anastassov and Mr Lekhram Changoer have joined the Incannex team as non-executive director and chief technology officer respectively.

CEO and managing director of Incannex, Mr Joel Latham said; "The acquisition of APIRx follows a long relationship with Dr Anastassov and Mr Changoer that first began in 2018 when Incannex transitioned its business towards the development of pharmaceutical cannabinoids".

"After extensive due diligence and corporate strategy assessments of the APIRx assets, we are excited and readied to commence development activities over our newly acquired portfolio of drug candidates. Investors in Incannex on both ASX and NASDAQ will be updated of progress ongoingly".

Twenty-two (22) additional clinical and pre-clinical research and development projects have been transferred to Incannex, representing aggregate addressable markets of approximately US\$400B per annum. These projects are underpinned by an intellectual property portfolio that includes 19 granted patents and 23 pending patents.

In conjunction with patent applications derived through development of the Company's combination cannabinoid drug candidates, Incannex has the world's largest portfolio of patented medicinal cannabinoid drug formulations and psychedelic treatment protocols.

Initial high-priority drug candidates resulting from the acquisition are:

- MedChew Dronabinol for chemotherapy induced nausea and vomiting
- MedChew Rx for pain and spasticity in patients with multiple sclerosis

- CanQuit and CanQuitO – chewables that combine nicotine and cannabinoids and cannabinoids and opioid antagonists for smoking cessation and opioid addiction, respectively
- CheWell – high-bioavailability chewable tablet to be implemented in adolescent drug addiction studies, among other indications
- CanChew – patented high-bioavailability and long-acting CBD chewing gum for the over-the-counter market.

This announcement has been approved for release to ASX by the Incannex board of directors.
