1. Managing Director's letter

9 August 2022

Dear Lincoln Shareholder,

Offer for your Lincoln Shares

On behalf of Quantum Graphite Limited, I am pleased to make this Offer to acquire all of your Lincoln Shares.

The implied value of the Offer is approximately \$0.0102 per Lincoln Share, based on the two day volume weighted average price for Quantum Shares of \$0.4067 as at 8 August 2022, being the last full Trading Day prior to the Announcement Date. The implied value of the Offer represents an attractive premium of more than 30% to Lincoln's most recent share price (prior to its ASX suspension) and a 210% premium to the minimum conversion price (\$0.005) of the Convertible Notes proposed to be issued to APMI, a related party of the Company's former director (who also controls Poly Mineral Investment Ltd, a substantial holder of Lincoln).

There are a number of other reasons why you should choose to participate in the Offer including;

- (a) Quantum's management team and world leading extensive technical capability has demonstrated expertise and experience in Lincoln's assets and will ensure that an appropriate evaluation of the assets is undertaken to determine their prospectivity and ultimate commercial exploitation;
- (b) the development of Lincoln's assets within the Quantum business has the potential to deliver significant synergies that will generate greater value for Lincoln shareholders compared to the development of these assets by Lincoln on a standalone basis; and
- (c) acceptance of the Offer delivers immediate liquidity for Lincoln shareholders.

About Quantum

Quantum is the owner of the Uley flake graphite mineral deposits located south-west of Port Lincoln, South Australia. Quantum's Uley 2 Graphite Project represents the next stage of development of the century old Uley Mine, one of the largest high-grade natural flake deposits in the world.

Quantum's downstream business, the QSP, is the joint venture with The Sunlands Company Pty Ltd (ACN 131 765 583) (**Sunlands Co.**) for the manufacture of coarse natural flake based thermal storage media. The flake will be sourced exclusively from the Quantum's Uley Mine. The manufactured media will be fitted within Sunlands Co's long duration energy storage cells. This business represents direct participation in the new energy market and underpins Quantum's diversified commercial strategy of exposure to multiple markets.

Conclusion

Details of the Offer, including its terms, are set out in this Bidder's Statement. I encourage you to read this Bidder's Statement carefully, and to accept the Offer as soon as possible.

The Offer is open for your acceptance until [insert] (Melbourne time) on [insert], unless otherwise extended.

2. Why you should accept the Offer

2.1 Summary

The key reasons why you should accept the Offer, which are summarised below in section 2.2, include:

- (a) the implied value of the Offer is a material premium to Lincoln's traded value; and
- (b) You will become a shareholder of Quantum which has:
 - (i) liquidity and scale;
 - (ii) a proven management team with world leading technical capability and demonstrated performance in delivering resource projects; and
 - (iii) deep local knowledge of the area in which the Lincoln assets are located and established local relationships.

2.2 Reasons to accept the Offer

- (a) **The value of the Offer represents a premium to the most recent trading price of Lincoln Shares**

Under the Offer Price, you will receive one (1) Quantum Shares for every forty (40) of your Lincoln Shares if the Offer becomes unconditional.

The implied value of the Offer is approximately \$0.0102 per Lincoln Share, based on the two day volume weighted average price for Quantum Shares of \$0.4067 as at 8 August 2022, being the last full Trading Day prior to the Announcement Date. The implied value of the Offer represents an attractive premium of more than 30% to Lincoln's most recent share price (prior to its ASX suspension), and a 210% premium to the minimum conversion price (\$0.005) of the Convertible Notes proposed to be issued to APMI, a related party of the Company's former director (who also controls Poly Mineral Investment Ltd, a substantial holder of Lincoln).

- (b) **If you accept the Offer and the Offer becomes unconditional, you will become a shareholder of Quantum, which has liquidity and scale**

By accepting the Offer, you will receive Quantum Shares if the Offer becomes unconditional. Quantum has a current market capitalisation of approximately \$140 million on a fully diluted basis¹, and during the 1 month ending 8 August 2022, an average of approximately 132,748 Quantum shares were traded per day. The volume weighted average price of Quantum Shares during the month ended 8 August 2022 was \$0.423.

- (c) **Lincoln has been suspended from trading since September 2020**

Lincoln has been suspended from official ASX quotation since 20 September 2020. The suspension was imposed by ASX, due to its determination that Lincoln's operations were not adequate to warrant the continued quotation of its securities, and therefore the company was in breach of ASX Listing Rule 12.1.

ASX advised, via the Suspension from Official Quotation announcement dated 21 September 2020, that Lincoln will stay suspended until it is able to demonstrate

¹ Refer to Quantum's current capital structure, as outlined in section 5.1(a).

compliance with Listing Rule 12.1, which states that “the level of an entity’s operations must, in ASX’s opinion, be sufficient to warrant the continued quotation of the entity’s securities and its continued listing”.

As at the date of this Bidder’s Statement, no disclosures have been made by Lincoln which demonstrate its compliance with Listing Rule 12.1.

Under Guidance Note 33, ASX’s policy is to remove entities from the official list if their securities have been suspended from quotation for a continuous period of 2 years. The removal will usually take effect from the open of trading on the first trading day after the expiration of the 2 year period. ASX may agree to a short extension of this 2 year deadline if an entity can demonstrate that it is in the final stages of implementing a transaction that will lead to the resumption of trading in its securities.

As at 20 September 2022, Lincoln will have been suspended from the official list for a total of 2 years. As such, in accordance with Guidance Note 33, unless Lincoln can demonstrate that it will imminently implement a transaction to resume trading, Quantum expects that Lincoln will be removed from the official list on **21 September 2022**.

- (d) **If you accept the Offer and the Offer becomes unconditional, you will become a shareholder of Quantum which will be the owner of one of the developed world’s largest holders of graphite assets.**

The combination of the graphite assets of Quantum and Lincoln delivers a diversity and scale of resources that provides Quantum with the potential to an industry leader the sustainable supply of coarse flake from the developed world.

Quantum's key project is the Uley 2 Graphite Project, which is part of the Uley flake graphite mineral deposits located south-west of Port Lincoln, South Australia. The company's Uley 2 Graphite Project represents the next stage of development of the century old Uley Mine, one of the largest high-grade natural flake deposits in the world.

The Uley Mine has a long history of producing high purity coarse flake graphite with a product mix serving several thermal applications including refractories and oil and gas drilling fluids.

Recent investments in proprietary advanced processing technologies has positioned Quantum to expand its customer markets to Li-ion batteries and high temperature thermal applications such as expanded graphite.

Utilising Sunlands Co. technologies, QSP is developing a manufacturing process for the supply of flake graphite based thermal storage media for Sunlands Co.'s long duration energy storage cells.

The Uley 2 Graphite Project is fully described in the technical documents and reports forming part of Quantum's definitive feasibility for the Uley 2 Graphite Project and include:

6. Information on Lincoln

6.1 Disclaimer

The information on Lincoln has been prepared by Quantum using publicly available information prior to the announcement of the Offer. The information has not been independently verified and Quantum does not make any representation or warranty, express or implied, as to the accuracy or completeness of that information.

The information on Lincoln in this Bidder's Statement should not be considered comprehensive. Further information relating to Lincoln may be included in the Target Statement which Lincoln must provide to the Lincoln Shareholders in response to this Bidder's Statement.

6.2 Overview of Lincoln²

Lincoln is a mining exploration company which holds key mineral licences in the South Australian Eyre Peninsula. Within these licences, Lincoln has defined Mineral Resources including graphite, magnetite and hematite resources, copper and gold prospects in a region with a long history of graphite, iron ore, copper and gold mining. It aims to develop a sustainable and profitable business structure to enable the development of its flagship graphite project, Kookaburra Gully Graphite Project.

Lincoln formed its wholly-owned subsidiary, Australian Graphite Pty Ltd (**AGL**) in mid-2013 to hold key graphite assets, including ML 6460. ML 6460 relates to the Kookaburra Gully Graphite Project, which is discussed further at 6.4(d) below.

6.3 Lincoln's Business Strategy³

Lincoln's business strategy is to provide capital growth through exploration, discovery, development and sustainable mining of economic mineral deposits, in particular graphite, gold, iron ore and copper. Its strategy is to focus on metallogenic provinces close to established infrastructure within a stable political environment – two factors strongly evident across the Company's extensive Eyre Peninsula tenement holdings.

Lincoln is exploring graphite, gold, copper, zinc-lead-silver, iron and manganese targets on the Eyre Peninsula. The Eyre Peninsula is part of the highly endowed Gawler Craton mineral province that hosts iron ore mines of the Middleback Ranges but also the Olympic Dam, Prominent Hill, Carapateena mines and other notable copper deposits such as Oak Dam and Hillside.

The Eyre Peninsula is Australia's foremost graphite province and home to one of the largest resources of this strategically important mineral in Australia. Graphite is a key component of lithium-ion batteries that power electric vehicles and renewable energy storage systems. A key focus of all of Lincoln's operations is sustainable environmental and workplace health and safety management.

Below is a summary of the Issued securities of Lincoln.

Type of security	Currently on issue
Listed fully paid ordinary shares	574,983,686 ⁹
Convertible Notes	Up to 1,600,000

(Note: see *Error! Reference source not found.* and 7.4 below).

7.3 Information regarding convertible notes¹⁰

- (a) On 23 December 2021, Lincoln announced its entry into a convertible note agreement with Australia Poly Minerals Investments Pty Ltd (**APMI**) (a related party of the company's former Director, James Tenghui Zhang, who also controls a substantial shareholder of Lincoln, Poly Mineral Investment Ltd).

Based on Lincoln's ASX disclosures, the convertible note agreement contemplates the proposed issue of 1,600,000 unsecured convertible notes to APMI (**Convertible Notes**) subject to shareholder approval, with the following key terms:

Subscription amount: \$1,600,000, to be subscribed for in separate tranches¹¹

Interest Rate: 8% per annum

Maturity Date: 31 December 2022

⁹ Based on information disclosed in Lincoln's 2021 Annual Report and verified by an ASIC company extract dated 8 August 2022.

¹⁰ Based on information sourced from:

- (a) Convertible Note funding announcement released by the ASX on 23 December 2021;
- (b) TOV: Lincoln Minerals Limited – Panel Receives Application announcement released by the ASX on 10 February 2022;
- (c) Postponement of AGM announcement released by the ASX on 21 February 2022;
- (d) Postponed AGM update announcement released by the ASX on 24 February 2022;
- (e) Correction to terms of convertible note announcement released by the ASX on 2 March 2022;
- (f) Quarterly Activities Report and Appendix 5B announcement lodged on 13 July 2022; and
- (g) the Takeovers Panel media release TP22/20 titled 'Lincoln Minerals Limited – Panel Accepts Undertaking and Declines to Conduct Proceedings' and dated 7 March 2022.

¹¹ As reported in Lincoln's Quarterly Activities Report and Appendix 5B lodged on 13 July 2022, a total of \$510,000 has been advanced by APMI as at 30 June 2022. At least \$200,000 of this loan does not have conversion rights (according to the Notice of Annual General Meeting lodged on 21 January 2022).

- Conversion Price:** the *higher of*¹² \$0.005, and a 15% discount to the issue price/exercise price of shares/options offered under a capital raising of greater than \$500,000 prior to the Maturity Date;
- Conversion:** Lincoln has the exclusive right to elect to convert the Convertible Notes into shares *at any time prior to the Maturity Date*.
- Default Events:** The Company breaches the Convertible Note agreement and fails to rectify within 30 business days.
- Insolvency, failure to pay or repay amounts due to the note holder, **change of control**, failure to convert a Convertible Note, delisting from ASX, disposal of assets without note holder approval.
- Shareholder approval:** The issue of the Convertible Notes is subject to shareholder approval. If shareholder approval is not obtained, Lincoln must repay all monies advanced, plus any accrued interest.

Shareholder approval has not yet been received for the issue of the Convertible Notes. Lincoln issued a Notice of Annual General Meeting on 21 January 2022, however this Notice was withdrawn, and the AGM postponed, due to the Takeovers Panel matter described in 7.4 below.

- (b) Based on Lincoln's ASX disclosures, the consequences of failing to obtain shareholder approval for the Convertible Notes means that Lincoln will be required to repay any loan amounts advanced (currently \$510,000 per the Quarterly Activities/Appendix 5B Cash Flow Report lodged on 13 July 2022) plus interest.

7.4 Takeovers Panel application¹³

On 10 February 2022, the Takeovers Panel announced that it had received an application for Olary Holdings Limited (**Olary**) in relation to Lincoln's proposed issue of Convertible Notes. Olary alleged that the convertible notes were to be issued at an "extremely low price", and conversion would give APMI a relevant interest in Lincoln shares of **48.55%** (assuming a conversion price of \$0.005).

Olary's application was based on the conversion price originally disclosed by Lincoln on 23 December 2021, being the **lower of** \$0.005, and a 15% discount to the issue price/exercise price of shares/options offered under a capital raising of greater than \$500,000 prior to the Maturity Date.

The Takeovers Panel declined to conduct proceedings in relation to Olary's application, on the basis that it received an undertaking from Lincoln that it would (among other things):

- (a) Immediately advise the market that the conversion price for the Convertible Notes was erroneously described in the Notice of Annual General Meeting (by substituting the word "**lower**" with "**higher**"); and

¹² See section 7.4. Lincoln previously announced the conversion price being the "*lower of*" these measures. However this was subsequently corrected following action from the Takeovers Panel.

¹³ Based on information from the Takeovers Panel media release TP22/20 titled 'Lincoln Minerals Limited – Panel Accepts Undertaking and Declines to Conduct Proceedings' and dated 7 March 2022.

- (b) Issue a supplementary Notice of AGM which addresses the disclosure concerns of the Panel, including (among other things):
- (i) Further details of the Convertible Note terms; and
 - (ii) The fact that, upon issue of the Convertible Notes, APMI will be able to require the issue of shares over time relying on the “3% creep” exception¹⁴ (**3% Creep**), which will ultimately give it more than 19.91% of Lincoln shares without the need for shareholder approval,

(Undertaking).

As at the date of this Bidder’s Statement, Lincoln has not yet issued a supplementary Notice of AGM, nor has it set a date for the postponed AGM.

In the event that Lincoln does not comply with its Undertaking, the Takeovers Panel has the power to apply to the Court to order Lincoln to comply with the Undertaking, pay compensation to any person who has suffered loss due to Lincoln’s breach, or any other order considered appropriate by the Court.

7.5 Substantial holders of Lincoln

The substantial holders of Lincoln are set out in section 6.6.

7.6 Quantum and its Associates’ in Lincoln’s securities

As at the date of this Bidder’s Statement and the date of the Offer:

- (a) Quantum does not have any Voting Power in Lincoln; and
- (b) Quantum does not have a Relevant Interest in any Lincoln securities.

7.7 Disclosure of interests of Quantum Directors in Lincoln Shares

No Quantum Director has a Relevant Interest in Lincoln Shares.

8. Effect of the Offer on Quantum and the profile of the Combined Group

8.1 Overview of the Combined Group

Other than as referred to elsewhere in this Bidder’s Statement, the acquisition of Lincoln is not expected to have a material effect on the existing assets and operations of Quantum.

Quantum is focused on the ongoing exploration and development of its Uley 2 Graphite Project and it is not anticipated that the strategy in relation to this will be altered as a result of the Offer.

8.2 Effect on capital structure of Combined Group

At various acceptance levels and based on the terms of the Offer (1 Quantum Share for every 40 Lincoln Shares), the effect on the capital structure of the Combined Group will be as follows:

¹⁴ The “3% Creep” is an exception to the general rule under the Corporations Act that a person cannot acquire voting securities in a company if it would result in their voting power exceeding 20%. The 3% Creep permits a person to increase their holding above 20% if it does so via gradual “creeping” acquisitions of no more than 3% voting power in a six month period.

Consideration shares at various acceptance levels						
Acceptance level assumption	50.1%	60.1%	70.1%	80.1%	90.1%	100.0%

Consideration shares as a percentage of expanded Quantum issued share capital	2.17%	2.60%	3.02%	3.43%	3.84%	4.25%

The maximum effect of the Offer on the capital structure of Quantum on a post completion basis is as follows:

8.3 Pro forma historical consolidated statement of financial position for the Combined Group

(a) Introduction and basis of preparation

The unaudited pro forma statement of financial position provided in this section 8.3 indicates the financial impact on Quantum of Quantum acquiring all of the Lincoln Shares under the Offer. The financial information is provided for illustrative purposes only. In considering the information Lincoln Shareholders must take into account the following matters:

- (i) the carrying value of the Lincoln assets have not been subject to impairment reviews;
- (ii) the Offer Price is as stated under the terms of the Offer; and

¹⁵ Maximum Quantum Shares to be issued under the Offer are subject to any fractional entitlements of Lincoln Shareholders. Lincoln Shareholders who accept the Offer will be rounded:

- (a) up to the nearest whole number of Quantum Shares (if equal to a fraction of 0.5 or greater); or
- (b) down to the nearest whole number of Quantum Shares (if equal to a fraction of less than 0.5).

- (iii) it is assumed that 100% ownership of Lincoln is achieved under this Offer and hence the accounts of Lincoln are fully consolidated on a line-by-line basis.

The unaudited pro forma statement of financial position for the Combined Group has been prepared based on the Quantum audited consolidated statement of financial position as at 30 June 2021 and the Lincoln audited statement of financial position as at 30 June 2021¹⁶. The pro forma statement of financial position is set out in the table below for illustrative purposes as a guide to assist Lincoln Shareholders in considering the effect of completion of the Offer by Quantum. By its nature, pro forma financial information is only illustrative of the types of impacts which a particular set of assumed transactions can have on underlying financial information. The pro forma statement of financial position of the Combined Group has been produced by aggregating the individual statements of financial position of Quantum as at 30 June 2021 and of Lincoln as at 30 June 2021.

The pro forma information has been prepared using IFRS and reflects the accounting policies of Quantum. Its 30 June 2021 financial statements have been prepared on a going concern basis, which contemplates continuity of normal business activities and the realisation of assets and discharge of liabilities in the normal course of business.

Amounts in the table have been rounded. The pro forma statement of financial information assumes the acquisition of Lincoln by Quantum had been completed at 30 June 2021. The actual dates of the acquisition will be at a later date, following which Quantum will assess the fair value of identifiable net assets of Lincoln.

The pro forma statements of financial positions are unaudited and are for illustrative purposes only and based on assumptions that may or may not reflect the actual financial position of the Combined Group after completion of the Offer. In addition, these pro forma statements of financial position are presented in a summary format and do not contain all the disclosures applicable to IFRS standards.

Financial information relating to Lincoln has been sourced from its audited financial statements for the year ended 30 June 2021. Quantum has relied on this publicly available information, and this has not been independently verified by Quantum or its Directors, to prepare the pro forma financial information in this section. Quantum does not, except as required by law, make any representations or warranty, express or implied, as to the accuracy or completeness of this information. Risks may exist in relation to Lincoln (which may affect the Combined Group) of which Quantum is unaware. If any material risks are known to the Directors of Lincoln, they must be disclosed in the Target's Statement to be issued by Lincoln. Accordingly, subject to any applicable laws, Quantum makes no representations or warranties (express or implied) as to the accuracy and completeness of such information.

¹⁶ Based on information disclosed in Lincoln's 2021 Annual Report.

9. Quantum's intentions in relation to Lincoln

9.1 Introduction

This section sets out Quantum's intentions in relation to:

- (a) the continuation of the business of Lincoln;
- (b) any major changes to the business of Lincoln and any redeployment of the fixed assets of Lincoln;
- (c) the compulsory acquisition and delisting of Lincoln;
- (d) any major changes to the board of Lincoln; and
- (e) any impact on employees of Lincoln.

The intentions of Quantum have been formed on the basis of publicly available facts and information known about Lincoln and the general business environment that is known to Quantum as at the date of preparation of this Bidder's Statement. Final decisions regarding these matters will only be reached by Quantum in light of material information, facts and circumstances at the relevant time. Accordingly, the statements set out in this section 9 are statements of current intention only and may vary as new information becomes available or circumstances change. The statements in this section should be read in this context.

9.2 Intentions for Lincoln as a wholly-owned controlled entity

(a) Summary

This section 9.2 describes Quantum's intentions if Quantum acquires a Relevant Interest in 90% or more of the Lincoln Shares, with the result that Quantum becomes entitled to proceed to compulsory acquisition of outstanding Lincoln in accordance with Part 6A.1 of the Corporations Act.

(b) Corporate matters

Quantum intends to:

- (i) proceed with compulsory acquisition of the outstanding Lincoln Shares in accordance with the provisions of Part 6A.1 of the Corporations Act;
- (ii) apply for Lincoln to be removed from the official list of the ASX;
- (iii) replace Lincoln non-executive Directors with the nominees of Quantum; while terminating the current executive Directors of Lincoln. Replacement Lincoln non-executive directors have not yet been identified by Quantum and their identity will depend on the circumstances at the relevant time. However, it is expected that the majority of the replacement Lincoln non-executive Directors will be members of the Quantum board or management team; and
- (iv) if required to do so under section 663A of the Corporations Act, Quantum intends to give notices to holders of Lincoln Convertible Notes offering to acquire their Convertible Notes in accordance with section 663C of the Corporations Act.

(c) Operational matters

Quantum considers Lincoln's flake graphite assets to be an extension of its greater Mikkira flake graphite deposit. Combining these assets delivers a major opportunity to

derive significant economic and environmental efficiencies from their joint development.

Lincoln's main flake graphite assets consist of the Kookaburra Gully Graphite Project (**Project**).

The Project's local geology hosting the graphite flake mineralisation exhibits similar features and bears many of the same characteristics as that of the broader Uley geology. Importantly, the mineral resources of this Project contain an orebody whose metallurgical properties are similar to those of the Quantum's Uley Project's mineral reserves and resources.

The preferred mining method and the processing path for each of these projects is indistinguishable. Production from the Project would be marketed under the same commercialisation and marketing strategy planned for Uley.

Quantum has established a detailed intermodal framework for the transport of its material to the Port Adelaide Outer Harbour. This same logistics framework could be used for the Project which is en route to the Uley production's ultimate destination at Port Adelaide. Combining the production would generate significant economies of scale especially in relation to container handling and trucking schedules.

Combining the assets offers a several options for the processing of the Project's ore. These options deliver significant synergies and are otherwise not available to Lincoln were the Project developed on a standalone basis.

These synergies include the processing of the Project's run of mine (**ROM**) at the Uley Mine (including after the completion of the crushing of ROM at the Project site) and the development of separate processing paths at each site for certain products. The latter option increases the efficiency of each of the project's mine operations by concentrating fewer products at each plant thereby gaining economies of scale.

Regardless of the final processing path selected, the combination of the assets and their joint development will result in a reduced environmental impact. Unnecessary duplication will be eliminated, all the processing options outlined above will minimise the environmental impact at one or both sites and greater investment can be allocated to the continuous improvement of environmental outcomes.

In respect of Lincoln's non-flake graphite mineral titles, Quantum intends to undertake a review of the prospectivity of these assets prior to making any decision regarding their development.

(d) **Impact on Employees**

As a result of the implementation of the above intentions, in addition to the Executive Directors of Lincoln it is possible that certain operational functions, for example, those relating to the maintenance of Lincoln's listing on the ASX, and some head office functions will become redundant. Further, some operational roles may also become redundant. Some job losses may occur as a result, however, the incidence, extent and timing of such job losses cannot be predicted in advance.

Where possible, Quantum will seek to minimise job losses through redeployment of the relevant employees elsewhere in Quantum. If redundancies do occur, the relevant employees will receive benefits in accordance with their contractual and other legal entitlements.

9.3 Intentions for Lincoln as a part owned controlled entity

This section 9.3 describes Quantum's intentions if Lincoln becomes a controlled entity of Quantum, but Quantum is not entitled to proceed to compulsory acquisition of outstanding Lincoln Shares in accordance with Part 6A.1 of the Corporations Act.

(a) Corporate actions

If Quantum and its associates have Relevant Interests in less than 90.0% but more than 50.0% of Lincoln, then Quantum intends that:

- (i) it will cause Lincoln to apply for removal from the official list, in accordance with ASX Guidance Note 33; and
- (ii) seek to appoint a number of nominees of Quantum to the board of Lincoln, such that Quantum has a majority of Directors of Lincoln. Such nominees have not yet been identified by Quantum and their identity will depend on the circumstances at the relevant time.

The ability of Quantum to implement the intentions set out in this section 9.3 is subject to the legal obligations of the Directors of Lincoln in relation to the interests of Lincoln and all Lincoln Shareholders, and the requirements of the Corporations Act and the ASX Listing Rules relating to transactions between related parties. Quantum will only make a decision on the above-mentioned courses of action following legal and financial advice in relation to those requirements.

(b) Operational matters

Within the limits of its ownership seek to manage and commercially develop Lincoln's assets as outlined in section 9.2(c).

(c) Further acquisition of Lincoln Shares

Quantum may, at some later time, acquire further Lincoln Shares in a manner permitted by the Corporations Act.

If Quantum becomes entitled at some later time to exercise the general compulsory acquisition rights under Part 6A.2 of the Corporations Act, it may exercise those rights.

9.4 Intentions for Lincoln if not controlled by Quantum

(a) Summary

Quantum reserves its right to declare the Offer free from the 50.1% minimum acceptance condition (or any other condition) to the Offer. However, it has made no decision as to whether it will do so.

(b) Corporate actions

This section 9.4 describes Quantum's intentions if Quantum were to declare the Offer free of the 50.1% minimum acceptance condition and if Lincoln does not become a controlled entity of Quantum.

In that circumstance, Quantum does not expect to be in a position to give effect to the intentions set out in sections 9.2 or 9.3 of this Bidder's Statement. In this case:

- (i) Quantum intends to seek the appointment of nominees of Quantum to the Lincoln board in such a proportion as at least equates to Quantum's proportionate shareholding interest in Lincoln; and
- (ii) Quantum intends to seek to influence the ongoing management of Lincoln and its assets, businesses, operations and personnel with a view to maximising returns for Quantum and its security holders.

9.5 Other Intentions

Subject to the matters described above in this section 9 and elsewhere in this Bidder's Statement, it is the intention of Quantum, on the basis of the facts and information concerning Lincoln that are known to it and the existing circumstances affecting the assets and operations of Lincoln at the date of this Bidder's Statement, that:

- (a) the business of Lincoln will be conducted in the same manner as at the date of this Bidder's Statement;
- (b) there will be no redeployment of the fixed assets of Lincoln; and
- (c) the present employees of Lincoln will, for the most part, continue to be employed by Lincoln or its subsidiaries.

9.6 Limitation on Intentions

The ability of Quantum to implement the intentions set out in this section 9, will be subject to the legal obligations of Directors of Quantum to have regard to the interests of Lincoln and all Lincoln Shareholders, and the requirements of the Corporations Act, including without limitation, in relation to transactions between related parties.

10. Risk factors

10.1 Introduction

If the Offer becomes unconditional, Lincoln Shareholders who accept the Offer will become Quantum Shareholders. In that event, Quantum will acquire an interest in Lincoln and Quantum Shareholders will continue to be indirectly exposed to the risks associated with having an interest in Lincoln's assets and general economic, share market and industry risks. There are also additional risks relating to Quantum and the Combined Group, to which Lincoln Shareholders will be exposed through their holding of Quantum Shares.

The value of Quantum Shares is influenced by a range of factors, many of which are beyond the control of the Combined Group. These risk factors are divided into:

- (a) specific risks relating to the Offer;
- (b) Risks relating to Quantum and the creation of the Combined Group;
- (c) the mining and exploration sector; and
- (d) other general risks.

You should carefully consider the following risk factors, as well as the other information provided by Quantum, and consult your financial and legal advisers before making a decision as to whether to accept the Offer.

Additional risks and uncertainties not currently known may also have an adverse effect on Quantum's business and the value of Quantum Shares. The information set out in this section 10 does not purport to be, nor should it be construed as representing, an exhaustive summary of the risks that may affect the performance of Quantum and Quantum Shares.

These risk factors do not take into account the investment objectives, financial and tax situation, or the particular needs, of individual Lincoln Shareholders.

10.2 Risks relating to the Offer

(a) Issue of Quantum Shares as consideration

Lincoln Shareholders are being offered a specified number of Quantum Shares (1 Quantum Share for every 40 Lincoln Shares), rather than a number of Quantum Shares with a specified market value. As a result, the value of the Offer will fluctuate depending upon the market value of the Quantum Shares.

There is a risk that Lincoln Shareholders who elect to participate in the Offer may wish to sell their Quantum Shares shortly after receipt. This may adversely impact the price of Quantum Shares.

(b) Integration risks

There are risks that any integration between the businesses of Quantum and Lincoln may take longer than expected and that anticipated efficiencies and benefits of that integration may be less than estimated. These risks include possible differences in the management culture, inability to achieve synergy benefits and cost savings, and the potential loss of key personnel.

(c) Accounting

Quantum will be required to perform a fair value assessment of all of Lincoln's assets and liabilities if the Offer is successful. This assessment may result in increased non-cash depreciation and amortisation charges. There is a risk that these charges may be substantially greater than those that would exist in Quantum and Lincoln as separate businesses. This may reduce the future earnings of the Combined Group.

(d) **Risks associated with Quantum holding less than 100% of Lincoln Shares**

If, in connection with or following the Bid, Quantum ultimately acquires less than 90% of the Lincoln Shares, Quantum and its shareholders will be exposed to a non-wholly owned interest in Lincoln. As a result, Quantum's ability to obtain the benefits of its interest in Lincoln will necessarily be limited by its ownership exposure. Quantum's ability to effect its intentions with respect to Lincoln will also be subject to the legal obligations of nominee Directors to have regard to the interests of all Lincoln Shareholders, and the requirements of the Corporations Act, including without limitation, in relation to transactions between related parties.

(e) **Risks associated with retention of a minority stake**

There are some risks associated with the Offer for Lincoln Shareholders who do not accept the Offer and remain Lincoln Shareholders. If, in connection with or following the Bid, Quantum acquires between 90% and 100% of the Lincoln Shares, Quantum may be entitled to compulsorily acquire the remaining shares of the Lincoln Shareholders.

If, in connection with the Offer, Quantum acquires more than 50 % but less than 90% of Lincoln Shares, Quantum will hold a controlling interest in Lincoln. The remaining Lincoln Shareholders will be in a minority position in a company with a large controlling shareholder whose objectives for the company may differ from their own. They could also encounter a lower level of liquidity in Lincoln Shares than exists today, which could result in a lower price for those Lincoln Shares should they wish to sell them in future.

If, following the End Date, Quantum does not acquire a Relevant Interest of at least 50.1% of the Lincoln Shares, it may choose to waive the 50.1% condition of its Offer resulting in Quantum holding a non-controlling interest in Lincoln. If this occurred, it is possible that Quantum and another person or persons could each hold large minority interests in Lincoln. In such a situation, any commercial misalignment between large minority Lincoln Shareholders could impact on the efficient and effective governance of Lincoln Gold and could adversely affect its ongoing performance.

(f) **Lincoln information**

In preparing the information relating to Lincoln contained in this Bidder's Statement, Quantum has relied on publicly available information. Risks may exist in relation to Lincoln (which may affect the Combined Group) of which Quantum may be unaware. However, as Lincoln is an ASX listed entity, any substantial threats to Lincoln's business should have been disclosed pursuant to Lincoln's continuous disclosure obligations. If any material risks are known to Torrens directors, they must be disclosed in the Target's Statement to be issued by Lincoln.

(g) **Sale of Quantum Shares**

Under the Offer, Quantum may issue a significant number of new Quantum Shares. Some holders of Lincoln may not intend to continue to hold their Quantum Shares and may wish to sell them. There is a risk that this may adversely impact the price of Quantum Shares.

Quantum Shares that would otherwise be issued to Foreign Lincoln Shareholders under the Offer will be sold on ASX and the net proceeds distributed amongst those shareholders. The sale of these Quantum Shares could also adversely impact the price of Quantum Shares.

(h) **Taxation**

The acquisition and disposal of Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All potential investors in Quantum are urged to obtain independent financial advice about the consequences of acquiring Shares from a taxation point of view and generally. To the maximum extent permitted by law, Quantum, its officers and each of their respective advisers accept no liability and responsibility with respect to the taxation consequences of accepting the Offer.

10.3 Risks relating to Quantum and the Combined Group

The following risks have been identified as being key risks relevant to Quantum's business. These risks have the potential to have a significant adverse impact on Quantum and may affect Quantum's financial position or prospects, or the price or value of Quantum's securities.

Quantum's business, financial condition, results of operations or prospects could also be harmed by risks and uncertainties that are not presently known to Quantum or that Quantum currently believes are not material. If any of the risks actually occur, Quantum's business, financial condition, results of operations and prospects could be materially and adversely affected.

(a) **Risks associated with exploration and mining**

The future viability and profitability of Quantum and the Combined Group as an exploration and mining company will be dependent on a number of factors including, but not limited to, the following:

- (i) commodity prices and exchange rates and, in particular, the price of natural flake graphite;
- (ii) risks inherent in exploration and mining including, among other things, successful exploration and identification of ore reserves, satisfactory performance of mining operations (including risks relating to continuity of ore deposit, fluctuations in grades and values of the product being mined, and unforeseen operational and technical problems) and competent management;
- (iii) risks associated with negative exploration results, including statutory or voluntary relinquishment (in whole or in part) of tenements or not exercising an option to acquire equity, even though a viable mineral deposit may be present, but undiscovered;
- (iv) poor weather conditions over a prolonged period which might adversely affect mining and exploration activities and the timing of earning revenues;
- (v) risks associated with the financial failure or default by a participant in any of the joint ventures or other contractual relationships to which Quantum is, or may become, a party.

The specific risks associated with exploration and mining are outlined further in section 10.4.

(b) **Reliance on plant and equipment**

Quantum's ongoing operations are dependent on certain plant and equipment and the mine structure.

There are risks associated with maintaining exploration and mining properties and, the costs of maintaining such properties requires Quantum to have access to sufficient development capital.

Further, unforeseen major failures, breakdowns or repairs required to key items of exploration and mining plant and equipment or mine structure may result in significant delays, notwithstanding regular programmes of repair, maintenance and upkeep, which can have an adverse impact on Quantum's viability and profitability.

(c) **Retaining key personnel**

Quantum's ongoing success depends to a significant extent on its key personnel. These individuals have extensive knowledge of the exploration and mining industry and Quantum's business. The loss of key personnel (including Directors) and an inability to recruit suitable replacement personnel may adversely affect the Combined Group's future financial performance.

Further, the future viability and profitability of the Combined Group as an exploration and mining business is dependent on its workforce. As a result, the Combined Group is exposed to the risks that exploration and mining may be adversely affected or hampered by industrial disputes.

(d) **Liability and insurance risk**

Quantum's insurance arrangements may not be adequate to protect Quantum against liability for losses relating to public liability, property damage, product liability, business interruption and other risks that may arise in the course of its operations. Should Quantum be unable to maintain adequate insurance to cover these risks or experience claims for losses in excess of the level of its insurance coverage, Quantum's financial performance could be materially affected.

(e) **Litigation and dispute risk**

From time to time, Quantum may be involved in litigation in relation to issues such as contractual, personal injury, employee and other claims, which may arise in the ordinary course of business.

Litigation may adversely impact upon the operational and financial performance of Quantum, and may also negatively impact on Quantum's share price. In addition, should Quantum decide to pursue claims against a third party, including any party with whom the Company has entered into agreements, this process may incur significant management and financial resources, and a positive outcome for Quantum cannot be guaranteed.

Further, even if Quantum was successful in obtaining a judgment against a third party, Quantum may be unable to recover any monies from that party. For example, the relevant third party may have inadequate financial resources to cover any damages judgment, which is awarded in favour of Quantum.

(f) **Financing requirements**

Quantum's Directors expect that Quantum will have sufficient capital resources to enable it to achieve its immediate business objectives. However, if circumstances arise that require further financing, there can be no assurance that further financing will be obtained on reasonable or acceptable terms.

10.4 Risks relevant to the mining and exploration sector

(a) Grant, Renewal and Valuation of Tenements

The future viability and profitability of the Combined Group as an exploration and mining business will be dependent on exploration and mining tenements. There are risks associated with obtaining grant of any exploration or mining tenements which are applications or renewal of tenements upon expiry of their current term.

Further, no valuation has been completed of the exploration projects of Quantum. Quantum makes no representation in this Bidder's Statement as to the value of the exploration assets. It is recommended that Shareholders and their advisors make their own assessment as to the value of the exploration projects and the tenements.

(b) Speculative nature of mineral exploration

A significant risk for the Combined Group is that any proposed exploration programmes will not result in exploration success. Mineral exploration by its nature is a high-risk endeavour and consequently there can be no assurance that exploration of the project areas described in this Bidder's Statement, or any other projects that may be acquired in the future, will result in discovery of an economic mineral deposit.

Should a discovery be made, there is no guarantee that it will be commercially viable. While the Directors will make every effort to reduce these risks through their experience in the exploration and mining industry, the fact remains that a commercially viable mineral discovery is very much the exception rather than the rule and success can never be guaranteed.

(c) Native title, Aboriginal lands and land access

There may be risks arising because of native title and/or Aboriginal land rights which may affect the Combined Group's ability to gain access to prospective exploration areas to obtain production titles; compensatory obligations may be necessary in settling native title claims lodged over any of the tenements held or acquired by the Combined Group in the future; the level of impact of these matters will depend, in part, on the location and status of the tenements acquired by the Combined Group.

Further, Commonwealth and State legislation obliges mining entities to protect sites of significance to Aboriginal custom and tradition. Some sites of significance may be identified within the tenements. It is therefore possible that one or more sites of significance will exist in an area which the Combined Group considers to be prospective. Quantum's policy is to carry out clearance surveys prior to conducting exploration which would cause a disturbance to the land surface

(d) Fluctuations in commodity prices and global economic volatility

The Combined Group will generally be a price-taker in the markets in which it will operate. The prices the Combined Group obtains for its products will be determined by, or linked to, prices in world commodity markets (in particular the price of natural flake graphite), which have historically been subject to substantial volatility. Commodity

prices are affected by underlying global economic and geopolitical factors, industry demand and supply balances, trade wars, product substitution and national tariffs.

Quantum cannot provide any assurances as to the prices the Combined Group will achieve for its products. Changes in commodity prices, may have a positive or negative effect on the Combined Group's project development and production plans and activities, together with its ability to fund those plans and activities.

Quantum customers may change over time depending on market conditions and market pricing opportunities.

(e) **Actions by governments or political events**

The Combined Group and its business could be adversely affected by new government regulations, such as controls on imports, exports and/or prices. Increasing requirements relating to regulatory and environmental approvals may affect existing operations or potentially cause delays in and adversely affect the expansion of existing operations. There may be changes in laws and obligations owed in respect of native title claimants.

In addition, the Combined Group and its business could be exposed to the risk of terrorism, civil unrest, nationalisation, renegotiation or nullification of existing contracts, leases, permits or other agreements, changes in laws and policy (including changes in exchange control policies regulating the repatriation of earnings or capital out of the relevant jurisdiction) and governmental reviews and investigations (including historical tax audits), as well as other unforeseeable risks in the jurisdictions in which it operates that could have an adverse impact upon the profitability of an operation.

(f) **Environmental risk**

The minerals and mining industries have become subject to increasing environmental responsibility and liability. The potential for liability is an ever-present risk. The use and disposal of chemicals in the mining industry is under constant legislative scrutiny and regulation. There are environmental management issues with which the Combined Group may be required to comply from time to time.

Exploration work will be carried out in a way that causes minimum impact on the environment. Consistent with this, it may be necessary in some cases to undertake baseline environmental studies prior to certain exploration or mining activities, so that the environmental impact can be monitored, and as far as possible, minimised. While Quantum is not aware of any endangered species of fauna and flora within any of its project areas, no baseline environmental studies have been undertaken to date, and discovery of such could prevent further work in certain areas.

10.5 General risks

(a) **The future price of Quantum Shares is subject to the uncertainty of equity market conditions**

There are general risks associated with an investment in the share market. Such risks may affect the value of Quantum Shares. The value of Quantum Shares may rise or fall depending on the financial position, operating performance and dividends of Quantum.

Further, broader market factors affecting the price of shares are unpredictable and may be unrelated or disproportionate to the financial performance of Quantum. Such factors may include the rate of inflation, changes in interest rates, the economic conditions in

Australia and overseas, investor sentiment in the local and international stock markets, consumer sentiment, changes in fiscal, monetary, regulatory and other government policies, changes in laws, global political and economic stability, interest and inflation rates and foreign exchange rates.

(b) **Unexpected natural or operational catastrophes**

The operations of the Combined Group may both be affected by various factors outside of their control, including natural disasters, and operational and technical catastrophes.

These include, but are not limited to: flooding or adverse weather conditions, earthquakes, fires, explosions, rock falls, and unusual or unexpected rock formations that affect the exploration, development or mining operations of the Combined Group.

(c) **Forward looking statements**

Forward looking statements, opinions, estimates and projections are dependent on various factors, many of which are outside of the control of Quantum. There is a risk that assumptions and contingencies upon which forward statements, opinions, estimates and projections are based may differ from what may actually result. This could impact upon the value of Quantum Shares.

(d) **Economic environment**

Economic conditions in Australia and globally will affect the business and financial condition of the Combined Group. Any protracted slowdown in, or adverse changes to, economic conditions, such as the level of inflation, interest rates, exchange rates, consumer confidence, government policy (including fiscal, monetary and regulatory policies) and employment rates, among others, are outside the control of the Combined Group and may result in materially adverse impacts on the Combined Group.

(e) **Tax risks**

Future changes in taxation law in Australia, including changes in interpretation or application of the law by courts and taxation authorities in Australia, may affect tax treatment of an investment in Quantum Shares, or holding or disposal of those Quantum Shares. Further changes in taxation law, or the way in which Quantum operates, may impact significantly on Quantum's tax liabilities.

 - (xii) irrevocably authorised Quantum (and any nominee) to transmit a message in accordance with Rule 14.17 of the ASX Settlement Operating Rules to transfer your Lincoln Shares to Quantum's Takeover Transferee Holding, regardless of whether it has paid the consideration due to you under this Offer;
 - (xiii) agreed, subject to the conditions of this Offer in section 12.9 being fulfilled or freed, to execute all such documents, transfers and assurances, and do all such acts, matters and things that Quantum may consider necessary or desirable to convey the Lincoln Shares registered in your name and rights to Quantum; and

- (d) The undertakings and authorities referred to in this section 12.6(c) will remain in force after you receive the consideration for your Lincoln Shares and after Quantum becomes registered as the holder of your Lincoln Shares.

12.7 Provision of consideration

- (a) Subject to this section 12.7 and sections 12.5(b) and 12.8, and subject to the Corporations Act, Quantum will provide the consideration due to you for your Lincoln Shares on or before the earlier of:
 - (i) one month after the date of your acceptance or, if this Offer is subject to a defeating condition when you accept, within one month after this Offer becomes unconditional; and
 - (ii) 21 days after the end of the Offer Period.
- (b) Where the Acceptance Form requires an additional document to be delivered with your Acceptance Form (such as a power of attorney):
 - (i) if that document is given with your Acceptance Form, Quantum will provide the consideration in accordance with section 12.7(a);
 - (ii) if that document is given after your Acceptance Form and before the end of the Offer Period while this Offer is subject to a defeating condition, Quantum will provide the consideration due to you on or before the earlier of one month after this Offer becomes unconditional and 21 days after the end of the Offer Period;
 - (iii) if that document is given after your Acceptance Form and before the end of the Offer Period while this Offer is not subject to a defeating condition, Quantum will provide the consideration due to you on or before the earlier of one month after that document is given and 21 days after the end of the Offer Period; and
 - (iv) if that document is given after the end of the Offer Period, and the Offer is not subject to a defeating condition, Quantum will provide the consideration within 21 days after that document is given. However, if at the time the document is given, the Offer is still subject to a defeating condition that relates only to the happening of an event or circumstance referred to in section 652C(1) or (2) of the

- (d) Quantum may require you to provide all documents necessary to vest title to Rights in Quantum, or otherwise to give it the benefit or value of Rights. If:
- (i) you do not give those documents to Quantum;
 - (ii) you have (or any previous holder of your Lincoln Shares has) received the benefit of those Rights; or
 - (iii) the benefit of those Rights will not be received because the relevant Lincoln Shares did not exist at the record date in respect of such Rights (where such record date is on or after the Announcement Date),

Quantum may deduct from the consideration otherwise due to you the amount (or value, as reasonably assessed by Quantum) of those Rights, together with the value (as reasonably assessed by Quantum) of the franking credits, if any, attached to the Rights. This may involve a reduction in the number of Quantum Shares due to you under the Offer.

 - (ii) dispatching or procuring the dispatch to you by pre paid post to your address recorded in Lincoln's register of members at 9:00am (Melbourne time) on the Register Date, an uncertificated holding statement in your name (for Issuer Sponsored Holdings) or a confirmation of issue (for CHESS Holdings). If your Lincoln Shares are held in a joint name, an uncertificated holding statement will be issued in the name of, and forwarded to, the holder whose name appears first in Lincoln register of members at 9:00am (Melbourne time) on the Register Date.
- (h) If at the time you accept the Offer, any authority, clearance or approval is required for you to receive any consideration for your Lincoln Shares, including (but not limited to) any authority, clearance or approval of:

- (i) the Reserve Bank of Australia (whether under the Banking (Foreign) Exchange Regulations 1959 (Cth) or otherwise);
- (ii) the Minister for Foreign Affairs (whether under the Charter of the United Nations Act 1945 (Cth), the Charter of the United Nations (Dealing with Assets) Regulations 2008 (Cth) or any other regulations made thereunder), or otherwise;
- (iii) the ATO; or
- (iv) any other person as required by any other law of Australia that would make it unlawful for Quantum to provide any consideration for your Lincoln Shares,

then you will not be entitled to receive any consideration for your Lincoln Shares until all requisite authorities, clearances or approvals have been received by Quantum.

12.8 Ineligible Foreign Shareholders

- (a) If you are an Ineligible Foreign Shareholder, you will not be entitled to receive Quantum Shares as the consideration for your Lincoln Shares. In this event, Quantum will:
 - (i) arrange for the issue to a nominee approved by ASIC (the **Nominee**) of the number of Quantum Shares to which you and all other Ineligible Foreign Shareholders would have been entitled but for section 12.2(b) and the equivalent provision in each other offer under this Offer;
 - (ii) cause the Quantum Shares so issued to be offered for sale by the Nominee on the ASX as soon as practicable and otherwise in the manner, at the price and on such other terms and conditions as are determined by the Nominee; and
 - (iii) cause the Nominee to pay to you the amount ascertained in accordance with the formula:

$$\frac{N \times VS}{TS}$$

where:

'**N**' is the amount which is received by the Nominee upon the sale of all Quantum Shares under this section 12.8 less brokerage and sale expenses;

'**VS**' is the number of Quantum Shares which would, but for section 12.2(b), otherwise have been allotted to you; and

- (c) Payment will be made by cheque posted to you at your risk by ordinary mail (or, if you have an overseas address, by airmail) at the address provided on your Acceptance Form within the period required by the Corporations Act.
- (d) Under no circumstances will interest be paid on your share of the proceeds of the sale of Quantum Shares by the Nominee, regardless of any delay in remitting these proceeds to you.
