

PETROCHINA SIGNS MOU WITH TMK ENERGY LTD ON GURVANTES XXXV

Talon Energy Ltd (Talon or the **Company**) refers to the recently announced binding Memorandum of Understanding (**MOU**) between PetroChina Daqing Tamsag LLC (**DATAMO**), a wholly owned subsidiary of PetroChina, and TMK Energy Ltd (**TMK**), owner of the Gurvantes XXXV Coal Seam Gas Project (**Gurvantes**) located in Southern Mongolia, and in which Talon is currently farming into a 33% interest.

Under the MOU DATAMO and TMK have agreed to work together on a non-exclusive basis to enhance and accelerate the exploration, evaluation and development of the Gurvantes XXXV Coal Seam Gas Project, with the underlying principle of collaboration for the responsible development of the Project. The MOU envisages a process whereby DATAMO may proceed towards on investment in Gurvantes, through either a direct investment in the Project or in TMK.

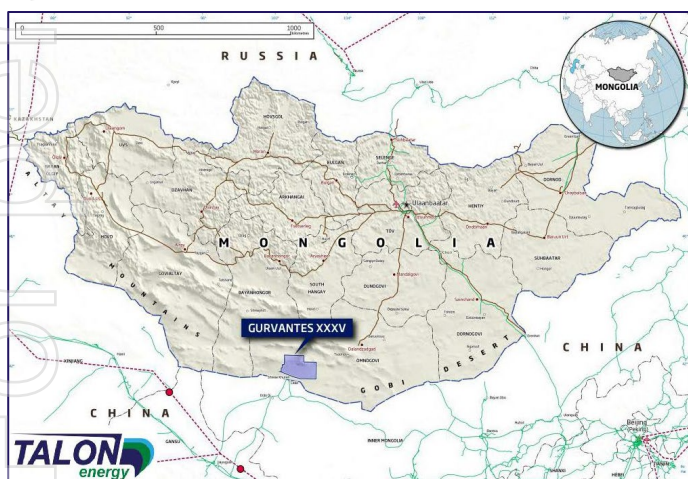

Talon welcomes the partnership between TMK and DATAMO, and the local knowledge and development expertise that DATAMO would bring to the Project should it decide to support or invest in the Project.

Talon's farm in activities currently include funding the drilling and analysis of a minimum of 4 core holes, with 3 of the holes now completed. Details of the exploration activities at Gurvantes XXXV to 30 June can be found in Talon's 30 June 2022 Quarterly Activity Report released on the 29th of July 2022.

Details of the MOU between DATAMO and TMK can be found in TMK's ASX announcement released on 11 August 2022, titled "PetroChina Aligns with TMK Energy".

About the Gurvantes XXXV GSG Project

Talon is party to a Farm-in Agreement with Telmen Resource LLC (**Telmen**) (a wholly owned subsidiary of ASX listed TMK Energy Limited (**TMK**)) to acquire a 33% Participating Interest in the Gurvantes XXXV Production Sharing Agreement (**PSA**). The Gurvantes XXXV exploration licence covers a significant area of 8,400km² and is situated in what is considered one of the most prospective coal seam gas basins globally. Gurvantes XXXV is situated less than 20km from the Chinese-Mongolian border and close to the extensive Northern China gas transmission and distribution network. It is also proximate to several large-scale mining operations with high energy needs, as such Gurvantes is ideally placed for future gas sales to satisfy both local Mongolian, as well as Chinese, energy requirements.

Cautionary Statement: The estimated quantities of petroleum that may potentially be recovered by the application of future development projects relate to undiscovered accumulations. These estimates have both an associated risk of discovery and a risk of development. Further exploration appraisal and evaluation is required to determine the existence of a significant quantity of potentially moveable hydrocarbons. For more information on the above Prospective Resources, refer to ASX announcement dated 18 August 2021. Talon confirms that it is not aware of any new information or data that materially effects the information contained in that Announcement and that all material assumptions and technical parameters underpinning the estimates contained in that Announcement have not materially changed. Talon notes that exploration work is ongoing at Gurvantes XXXV.
