Chairman's Letter

The 2022 financial year was a difficult year for smaller companies. The back end of calendar year 2021 saw lockdowns reintroduced, and at the same time we had global reflation which brought with it a re-pricing of risk and growth assets as would be expected for a rising interest rate environment. This re-pricing saw a sell-off in equity markets exacerbated in the smaller end of the market as investors reduced their exposure to growth and risky assets. The uncertainty in the market continued into the second half, with the events in the Ukraine and the flow-on effect of trade embargoes creating a challenging environment to be an equity investor. The S&P/ASX Small Ordinaries Accumulation Index was down (-19.5%) for the financial year, this is in comparison to the S&P/ASX 100 Accumulation Index which was only down (-5%) for the financial year as investors reduced their equity market exposure and within that smaller companies' holdings. Glennon Small Companies Limited underperformed the benchmark by 3.1% for the 2022 financial year.

Smaller undervalued growing companies were hit to a greater extent than their value-based counterpart who were often able to rely on yield support to provide a floor to downward share price movements. There was a reduction in liquidity in the portfolio companies we won, and as some investors panicked and sold good companies down for no reason or at best some investors were reacting to short-term noise which had no bearing on the actual investment. We take some comfort that the businesses we own are continuing to execute their plans; and while our healthcare businesses like Pacific Smiles and Healthia saw a reduction in patient numbers and issues with healthcare professionals being concerned about contracting Corona virus due to the close contact working conditions in which they operate, their grow plans in terms of store rollouts and acquisitions, in the case of Healthia, still remain on track.

The rising interest rate environment has caused a re-assessment of asset prices as some of the bubble pricing that had occurred historically, especially with concept stocks and companies trading on multiples of revenue, were reversed. Presently we are seeing those holders of unlisted assets, who were reporting good performance due to the limited repricing of those assets, are now experiencing write-downs of those non-income producing assets or more realistic valuations being applied to their equity. For context, the S&P/ASX 300 Information Technology index on a price basis was down (-37%) for the financial year. That means that there may be a potential large valuation discrepancy between listed and unlisted technology businesses.

During the second half of the financial year, we were able to take advantage of some situations where boring old businesses with cash flow were oversold to levels that represented outstanding value, though these were businesses we generally did not want to hold longer-term.

The start of the calendar year 2022 also saw a strong rally in resource companies, as changes to global supply and demand shifted with trade embargoes imposed on Russia and China flexing their power in the Asia region, forcing companies to lock in supplies of commodities to ensure continued production. Russia had been a larger exporter of thermal coal to Europe and with this supply being restricted, we saw large increases in spot prices for coal as buyers scrambled to secure supply in the spot market. We traditionally do not have a high exposure to resource companies, which have also suffered from a lack of institutional buying due to ESG concerns, removing many of the potential pool of buyers who would normally be longer-term holders of these companies, namely the large Australian Superannuation Funds. We have progressively reduced some of these positions as those companies have become more fully valued.

We saw some funds increase their turnover during this period to try and time the market and make some short-term gains. Our turnover decreased during the period, preferring to maintain our investment thesis on the companies we believe have attractive long-term ability to add value for shareholders and grow. The LIC structure suits this long-term strategy and ensures that we did not have to sell into an already illiquid market to manage redemptions and outflows. In the medium-term, we expect money to flow back to these companies for the share prices to reflect that value being created for shareholders.

Our turnover decreased from prior years as we bedded down and took surety from the fact that our core investments were performing well or as well as could be, given the current environment.

The 2023 financial year has seen some of the aforementioned issues abate somewhat, with the market having priced in further interest rate rises and equity market valuation which is at more normal levels. I think we are well positioned with a strong portfolio of companies that will deliver returns to shareholder over the next 12 months. In addition to this, there are opportunities in oversold companies that we expect to take advantage of in the coming months.

As a large shareholder with a very strong vested interest in growing the NTA, I would like to take this opportunity to thank our loyal shareholders in what has been a challenging investment environment for smaller companies.

Remuneration report (Audited) (continued)

Relationship between remuneration and the Company's performance

The remuneration policy has been specifically designed to ensure that the Company's shareholders can determine whether the aggregate remuneration of Directors should or should not be increased. As such, the Directors' aggregate and individual remuneration levels are not directly dependent upon the Company's performance or a performance condition. However, practically, whether shareholders vote for or against an increase in the aggregate remuneration will depend upon, amongst other things, how the Company has performed over the number of years.

Under the ASX Listing Rules the maximum fees payable to non-executive directors may not be increased without prior approval from the Company at a general meeting. Directors will seek approval from time to time as deemed appropriate.

Insurance and indemnification of officers and auditors

During the financial year, the Company paid a premium in respect of a contract insuring the Directors of the Company, the Company Secretary and any related body corporate against liability incurred as such by a Director or Secretary to the extent permitted by the *Corporations Act 2001*. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

No indemnities have been given or insurance premiums paid during or since the end of the financial year, for any person who is or has been an auditor of the Company.

For personal use only

Proceedings on behalf of the Company

No person has applied to the Court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party, for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

No proceedings have been brought or intervened in on behalf of the Company with leave of the Court under section 237 of the *Corporations Act 2001*.

Non-audit services

The Company's Audit and Risk Committee oversees the relationship with the Company's auditors. Non-audit services were provided by the auditors of the Company during the period. The directors are satisfied that the provision of the non-audit services during the year is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*.

Details of the amounts paid to the auditors and their related parties are disclosed in Note 17 to the financial statements.

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 14.

1 General information

Glennon Small Companies Limited ("the Company") is a listed public company domiciled in Australia. The address of Glennon Small Companies Limited's registered office is Level 26, 44 Market Street, Sydney, NSW 2000. The Company is primarily involved in making investments, and deriving revenue and investment income from listed securities in Australia.

The Company was registered with the Australian Securities and Investments Commission (ASIC) on 29 April 2015 and commenced operations on 21 August 2015. The financial statements of Glennon Small Companies Limited are for the year ended 30 June 2022.

2 Significant accounting policies

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated. The financial statements are for the entity Glennon Small Companies Limited.

(a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001*. Glennon Small Companies Limited is a for-profit entity for the purpose of preparing the financial statements.

The financial statements were authorised for issue by the Board of Directors on 17 August 2022.

(i) Compliance with International Financial Reporting Standards (IFRS)

The financial statements of the Glennon Small Companies Limited also comply with IFRS as issued by the International Accounting Standards Board (IASB).

(ii) New and amended standards adopted by the Company

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning on or after 1 July 2021 that have a material impact on the accounts recognised in the prior periods or will affect the current or future periods.

(iii) Historical cost convention

Except for the Statement of Cash Flows, these financial statements have been prepared under the accruals basis and are based on historical cost convention, as modified by the revaluation of financial assets and liabilities at fair value through profit or loss.

(iv) Critical accounting estimates

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 5.

(v) New standards and interpretations not yet adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning on or after 1 January 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Company.

(b) Revenue recognition

(i) Investment income

Profits and losses realised from the sale of investments and unrealised gains and losses on securities held at fair value are included in the Statement of Comprehensive Income in the year they are incurred in accordance with the policies described in Note 2(g).

2 Significant accounting policies (continued)

(b) Revenue recognition (continued)

(ii) Dividends

Dividends are recognised as revenue when the right to receive payment is established.

The Fund currently incurs withholding tax imposed by certain countries on investment income. Such income is recorded net of withholding tax in the Statement of Comprehensive Income.

(iii) Interest income

Interest income is recognised as it accrues, taking into account the effective yield on the financial asset.

(iv) Other income

The Company recognises other income when the amount of revenue can be reliably measured and it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Company's activities.

(c) Income tax

The income tax expense/(benefit) for the year comprises current income tax expense/(benefit) and deferred tax expense/(benefit).

Current income tax expense charged to profit or loss is the tax payable on taxable income. Current tax liabilities/(assets) are measured at the amounts expected to be paid to/(recovered from) the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year.

Current and deferred income tax expense/(benefit) is charged or credited outside profit or loss when the tax relates to items that are recognised outside profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled and their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where: (a) a legally enforceable right of set-off exists; and (b) the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

(d) Cash and cash equivalents

For the purpose of presentation in the Statement of Cash Flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(e) Due from/to brokers

Amounts due from/to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet delivered by the end of the year. Trades are recorded on trade date, and for equities normally settled within two business days.

2 Significant accounting policies (continued)

(f) Trade and other receivables

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for expected credit loss. Trade and other receivables are generally due for settlement within 30 days. They are presented as current assets unless collection is not expected for more than 12 months after the reporting date.

(g) Financial assets and liabilities

The Company classifies its investments in the following measurement categories:

- those to be measured at fair value through profit or loss; and
- those to be measured at amortised cost.

Classification

(i) Financial assets

The Company classifies its investments based on its business model for managing those financial assets and the contractual cash flow characteristics of the financial assets.

The Company's portfolio of financial assets is managed and performance is evaluated on a fair value basis in accordance with the Company's documented investment strategy. The Company's policy is to evaluate the information about these financial assets on a fair value basis together with other related financial information.

For equity securities and derivatives, the contractual cash flows of these instruments do not represent solely payments of principal and interest. Consequently, these investments are measured at fair value through profit or loss.

Other financial assets (including cash and cash equivalents and receivables) are classified as amortised cost.

Recognition and derecognition

Purchases and sales of financial assets at fair value through profit or loss are recognised on trade-date, the date on which the Company commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all the risks and rewards of ownership.

Measurement

At initial recognition, the Company measures a financial asset at fair value excluding transaction costs that are directly attributable to its acquisition. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the Statement of Comprehensive Income.

Subsequent to initial recognition, all instruments at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the Statement of Comprehensive Income.

When an investment is disposed, the gain or loss from disposal is recognised as realised gains and losses from the sale of financial instruments in the Statement of Comprehensive Income.

The Company's accounting policy on fair value measurements is discussed in Note 4.

Determination of Fair Value

AASB 13 *Fair Value Measurement* defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal, or in its absence, the most advantageous market to which the Company has access at that date. The fair value of a liability reflects its non-performance risk.

The Company uses the last sale price as a basis of measuring fair value.

2 Significant accounting policies (continued)

(g) Financial assets and liabilities (continued)

Impairment

The Company considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

(h) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months from the reporting date. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

(i) Other financial liabilities

Resetable Redeemable Convertible Preference Shares ("RRCPS") are classified as a financial liability for accounting purposes under Australian Accounting Standard *AASB132 Financial Instruments Presentation*. They are initially recognised at fair value less transaction costs. After initial recognition, the liabilities are carried at amortised cost using the effective interest method.

In accordance with this Standard, a financial expense on the liability is brought to account which includes the amortisation, using the effective interest rate method, of any difference between the original proceeds net of transaction costs and the settlement value of the obligation over the term of the RRCPS.

(j) Finance costs

Finance costs are recognised as expenses in the year in which they are incurred using the effective interest rate method.

Dividends on RRCPS are recognised within finance costs in the Statement of Comprehensive Income.

(k) Issued capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(l) Profits reserve

A profits reserve has been created representing an amount allocated from current year earnings that is preserved for future dividend payments.

(m) Dividends

Provision is made for the amount of any dividend declared on fully paid ordinary shares, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

In accordance with the *Corporations Act 2001*, the Company may pay a dividend where the Company's assets exceed its liabilities, the payment of the dividend is fair and reasonable to the Company's shareholders as a whole and the payment of the dividend does not materially prejudice the Company's ability to pay its creditors.

Franking credits are generated by receiving fully franked dividends from ordinary shares held in the Company's investment portfolio, and from the payment of corporate tax on its other investment income, unfranked income and net realised gains.

2 Significant accounting policies (continued)

(n) Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company, excluding any costs of servicing equity other than ordinary shares; and
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year and excluding treasury shares.

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares, and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

(o) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Where applicable, the Company qualifies for Reduced Input Tax Credits (RITC) at a rate of at least 75%; hence fees for these services have been recognised in the Statement of Comprehensive Income net of the amount of GST recoverable from the taxation authority.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the Statement of Financial Position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the taxation authority, are presented as operating cash flows.

(p) Functional and presentation currency

The functional and presentation currency of the Company is Australian dollars.

(q) Rounding of amounts

The Company is of a kind referred to in *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191* issued by the Australian Securities and Investments Commission (ASIC) relating to the 'rounding off' of amounts in the financial statements. Amounts in the financial statements have been rounded off to the nearest thousand dollars in accordance with that *ASIC Corporations Instrument*, unless otherwise indicated.

(r) Comparatives

Where necessary, comparative information has been reclassified to be consistent with current reporting period.

3 Financial risk management

The Company's activities expose it to a variety of financial risks: market risk (including interest rate risk, foreign exchange risk and price risk), credit risk and liquidity risk. The Board of the Company has implemented a risk management framework to mitigate these risks.

(a) Market risk

Market risk is defined as the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices.

(i) Foreign exchange risk

In addition to investments in Australian entities, the Manager may invest in entities outside Australia. Hence the Company may assume currency exposure and there is a risk that adverse movements in exchange rates will reduce their value in Australian dollar terms.

As at 30 June 2022 and 30 June 2021, the Company is not directly exposed to currency risk as all of its investments are quoted in Australian dollars.

(ii) Price risk

The Company is exposed to equity securities price risk. This arises from investments held by the Company and classified in the Statement of Financial Position as financial assets at fair value through profit or loss.

The Company seeks to manage and constrain market risk by holding a diversified portfolio of typically between 20 and 40 ASX listed companies and holding cash of up to 75%.

The Company's portfolio is split into the following industry classifications as at 30 June:

Sector	2022 (%)	2021 (%)
Information technology	6	17
Financial services	20	17
Energy	11	-
Health care	25	19
Industrials	4	7
Consumer discretionary	13	9
Materials	6	14
Communications services	14	16
Unlisted	1	1
Total	100	100

As at 30 June 2022, the Company held shares in Lovisa Holdings Limited (ASX: LOV), Metgasco Limited (ASX: MEL), Sequoia Financial Group (ASX: SEQ), Healthia Limited (ASX: HLA), Pacific Smiles Group Limited (ASX: PSQ), Uniti Group Limited (ASX: UWL), and Dicker Data Limited (ASX: DDR) which represented over 5% of the portfolio (2021: Family Zone Cyber Safety Limited (ASX: FZO), Resimac Group Ltd (ASX: RMC), Healthia Limited (ASX: HLA), Pacific Smiles Group Limited (ASX: PSQ), Johns Lyng Group Limited (ASX: JLG) and Uniti Group Limited (ASX: UWL) which represented over 5% of the portfolio).

(a) Market risk (continued)

Sensitivity

The following table illustrates the effect on the Company's equity from possible changes in other market risk that were reasonably possible based on the risk the Company was exposed to at reporting date, assuming a flat tax rate of 30%:

	Impact on post-tax loss	
	2022 \$'000	2021 \$'000
Decrease 5%	(1,183)	(1,486)
Increase 5%	1,183	1,486
Decrease 10%	(2,366)	(2,973)
Increase 10%	2,366	2,973

Post-tax loss for the year would increase/(decrease) as a result of gains/(losses) on equity securities classified as at fair value through profit or loss.

At balance date, the equity securities net portfolio position was \$33,802,000 (2021: \$42,471,000).

(iii) Cash flow and fair value interest rate risk

The Company's interest bearing financial instruments (except RRCPS) expose it to risks associated with the effects of fluctuations in the prevailing market interest rates on its financial position and cash flows. The risk is measured using sensitivity analysis. The Company's RRCPS are subject to fixed interest rates and are carried at amortised cost. RRCPS are not subject to interest rate risk as defined in AASB 7 *Financial Instruments: Disclosures*, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

Net exposure to interest rate risk	<u>11,109</u>	<u>(5,598)</u>	<u>39,277</u>	<u>44,788</u>

Sensitivity

At 30 June 2022, if interest rates had increased by 75 or decreased by 75 basis points from the year end rates with all other variables held constant, post-tax loss for the year would have been \$30,000 higher/\$30,000 lower (2021: changes of 75 bps/75 bps: \$58,000 higher/\$58,000 lower), mainly as a result of lower interest income from cash and cash equivalents.

(b) Credit risk

Credit risk is defined as the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

The maximum exposure to credit risk, excluding the value of any collateral or other security, at balance date to recognised financial assets, is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the Statement of Financial Position and Notes to the Financial Statements. The Company is also exposed to counterparty credit risk on cash and cash equivalents, amounts due from brokers and other receivables.

The Company manages credit risk by only entering into agreements with credit worthy parties (see Note 8).

(c) Liquidity risk

Liquidity risk is defined as the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

The Manager manages liquidity risk by monitoring the asset size of the Company as a whole on executing transactions.

The assets of the Company are largely in the form of readily tradeable securities which can be sold on-market if necessary.

4 Fair value measurements

The Company measures and recognises the following assets at fair value on a recurring basis:

- Financial assets at fair value through profit or loss (FVTPL)

The Company has no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

(a) Fair value hierarchy

AASB 13 requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- (b) inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (level 2); and
- (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

4 Fair value measurements (continued)

(a) Fair value hierarchy (continued)

(i) Recognised fair value measurements

The following table presents the Company's assets and liabilities measured and recognised at fair value at 30 June.

At 30 June 2022	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Financial assets				
Listed equity securities	33,522	-	-	33,522
Unlisted equity securities	-	280	-	280
Total financial assets	33,522	280	-	33,802

At 30 June 2021	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Financial assets				
Listed equity securities	41,764	427	-	42,191
Unlisted equity securities	-	280	-	280
Total financial assets	41,764	707	-	42,471

The investments included in Level 2 of the hierarchy are unlisted equity securities and placements and therefore represent investments in an inactive market without observable inputs for valuation. The unlisted equity securities were purchased as part of a Pre-Initial Public Offering and have been valued at the latest equity raising price which the Board consider to represent fair value in absence of any market price available. To this date, the investee company remains unlisted.

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

There were transfers between levels 1 and 2 for recurring fair value measurements relating to the placement in a listed company in June 2021, the shares of which became tradeable at the beginning of the current financial year.

(ii) Disclosed fair values

The Company also has RRCPS which are not measured at fair value within the Statement of Financial Position. Details of the carrying amount and fair value are shown below.

	Year ended	
	30 June 2022 \$'000	30 June 2021 \$'000
Carrying amount	5,618	5,598
Fair value	5,985	5,996

The fair value of the RRCPS as at 30 June 2022 amounting to \$5,985,000 was determined by reference to the latest published price quotation of \$10.50 on each RRCPS ticker ASX: GC1PA as at 30 June 2022.

The carrying amounts of trade and other receivables and payables are assumed to approximate their fair values due to their short-term nature. For all other financial instruments other than RRCPS, carrying amounts approximate their fair values due to their short-term nature.

5 Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the entity and that are believed to be reasonable under the circumstances.

(a) Critical accounting estimates and assumptions

The Company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results.

(i) Estimated fair values of level 2 and level 3 investments

The Company carries its investments at fair value with changes in the fair values recognised in Statement of Comprehensive Income. At the end of each reporting period, the Directors update their assessment of the fair value of securities which are categorised under level 2 and level 3 in the fair value hierarchy. Refer to Note 4 for information on level 2 and level 3 securities.

(ii) Income taxes

The Company has recognised deferred tax assets relating to capitalised share issue costs, carry forward losses and other temporary differences of \$4,485,000 at 30 June 2022 (2021: \$2,561,000). The deferred tax assets of \$2,179,000 as at 30 June 2021 are expected to be utilised against the taxable temporary differences (deferred tax liabilities on unrealised gains on investments and other temporary differences) relating to the same taxation authority.

6 Segment information

The Company has only one reportable segment. The Company is engaged solely in investment activities conducted in Australia, deriving revenue from dividend income and from sale of its investments.

7 Income tax benefit/(expense)

(a) Risk exposure

The Company's exposure to interest rate risk is discussed in Note 3. The maximum exposure to credit risk at the end of the reporting year is the carrying amount of each class of cash and cash equivalents mentioned above.

Cash investments are made with the following financial institutions:

	Standard & Poor's Rating
Australia and New Zealand Banking Group Ltd	AA-
J.P. Morgan Chase Bank N.A. (Sydney Branch)	A+

The individual investments comprising these values are disclosed on page 3 of the Annual Report.

Changes in fair values of financial assets at fair value through profit or loss are recorded in investment income in the Statement of Comprehensive Income.

(a) Investment transactions

The total number of contract notes that were issued for transactions in securities during the financial year was 226 (2021: 684). Each investment transaction may involve multiple contract notes.

The total brokerage paid on these contract notes was \$57,000 (2021: \$297,000).

(b) Risk exposure and fair value measurements

Information about the Company's exposure to price risk and about the methods and assumptions used in determining fair value is provided in Note 3.

RRCPS are resettable, redeemable and convertible preference shares in the capital of the Company. The key terms of the RRCPS are:

RRCPS Face Value: \$10 per RRCPS

Offer Structure: The Offer comprises Priority Offer and Broker Firm Offer. The Priority Offer was made to all Company shareholders (on record date of 6 November 2020) and all Benjamin Hornigold Ltd ("BHD") shareholders (on record date of 23 October 2020) who have a registered address in Australia and New Zealand, and closed on 20 November 2020. The Broker Firm Offer was made to clients of participating brokers and closed on 26 November 2020. The Company and BHD share common directors, Michael Glennon and Sulieman Ravell.

Issue Date: 2 December 2020

Maturity Date: 30 September 2030 (unless exchanged earlier)

Reset Date: The first reset date will be 30 September 2024. On any Reset date, the Company may change any or all of the next Reset Date, Dividend Rate, and the Conversion Price.

For personal use only

13 Other financial liabilities (continued)

Dividend Rate: The RRCPS are entitled to a preferred, cumulative, unfranked dividend payable semi-annually in arrears at 5.60% per annum until the first Reset Date, unless a Trigger Event subsists in which case the Dividend Entitlement will be increased by 2.00% per annum until such time as the Trigger Event ceases to subsist. The Dividend Rate may be increased or decreased on Reset Dates.

Dividend Payment: The dividend is payable semi-annually in arrears on 31 March and 30 September each year up to and including the earlier of the date of the RRCPS are Exchanged or the Maturity Date, with the first Dividend paid on 31 March 2021.

Conversion/Redemption: Upon conversion, each RRCPS will convert into a number of Ordinary Shares determined by dividing the Conversion Amount, which is equal to the Face Value of the RRCPS being converted plus the balance of any dividend that is due but remains unpaid, by the Conversion Price of \$0.86, subject to adjustment for certain dilutionary and other capital transactions by the Company. A holder may request Conversion of the holder's RRCPS into the Conversion Shares at least 10 business days prior to any Dividend payment date, unless the Dividend payment date is a Reset Date or the Maturity Date by giving appropriate notice. Holders may require the Company to convert or repurchase the holder's RRCPS by giving notice within 10 business days or on a Reset Date after appropriate notice is issued. RRCPS will be repurchased on the Maturity Date at Face Value, if not converted or repurchased prior to that date.

Issuer exit rights: Subject to a holder's right to convert, the Company as the issuer may elect to repurchase all of the RRCPS on a Reset Date upon a Tax Event or Clean-Up Event at Face Value, or a Change of Control Event at 104% of Face Value.

Voting rights: Holders have no right to vote at meetings except in certain circumstances.

Return of capital: On a winding up, RRCPS rank for repayment of capital behind all creditors of the Company but ahead of Ordinary Shares and any other preference shares stated to rank behind RRCPS.

Loan-to-value (LTV) ratio: This is calculated as follows:

$$\text{LTV Ratio} = \frac{\text{Total Debt - (Cash and Cash Equivalents)}}{\text{Market Value of all Marketable Securities held by or on behalf of the Company as at such time}}$$

As at 30 June 2022, using the face value of \$10 per RRCPS as Total Debt, the LTV ratio was 0.11% determined as follows:

$$\text{LTV Ratio} = \frac{\$5,700,000 - \$5,662,000}{\$33,802,000}$$

The Company undertakes that for the period that the RRCPS remain on issue, the LTV ratio will not exceed 50%.

There were no Trigger Events that occurred during the year.

(c) Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the Company in proportion to the number of shares and amounts paid on the shares held.

Every holder of ordinary shares is entitled to one vote when a poll or meeting is called. All substantive resolutions at a meeting of shareholders are decided by a poll rather than by a show of hands.

(d) Options

On 27 April 2020, the Company issued a prospectus and announced the terms for a bonus issue of options for nil consideration, and a potential additional loyalty issue of options for nil consideration.

The 1 for 5 bonus issue of options, totalling 8,765,489 bonus options, to acquire ordinary shares in the Company at an exercise price of \$0.75 had an expiry date of 29 October 2021. During the year, 4,868,352 bonus options were exercised. At the end of the term, 5,673,821 bonus options were exercised.

The 1 for 1 loyalty issue of options, totalling 8,765,489 loyalty options, to acquire ordinary shares in the Company at an exercise price of \$0.95 have an expiry date of 28 April 2023. During the year, 2,240 loyalty options were exercised. There are 8,763,249 loyalty options outstanding as at year end, of which 3,795,898 are eligible under the loyalty bonus conditions. Since the end of the year, nil loyalty options have been exercised. There are 8,763,249 loyalty options outstanding at the date of this report.

14 Issued capital (continued)

(d) Options (continued)

Bonus option holders who exercised and still held at least the same number of ordinary shares as they held on record date 1 May 2020 were eligible to receive loyalty options.

(e) Dividend Reinvestment Plan

The Company has established a dividend reinvestment plan (DRP) under which holders of ordinary shares may elect to have all or part of their dividend entitlements satisfied by the issue of new ordinary shares rather than by being paid in cash. Shares are issued under the plan at a discount to the market price as specified by the Company from time to time in accordance with the *Corporations Act 2001* and the Listing Rules.

(f) Capital risk management

The Board's policy is to maintain a strong capital base so as to maintain investor and market confidence.

To achieve this, the Board of Directors monitor the monthly NTA results, investment performance, the Company's Indirect Cost Ratio and share price movements.

The Company is not subject to any externally imposed capital requirements.

15 Dividends

(a) Ordinary shares

Interim and final dividends paid were fully franked at 30% (2021: interim dividends paid were fully franked at 30% and final dividends were unfranked).

	Dividend Rate \$	Total Amount \$'000	Date of Payment	Percentage Franked

Ordinary shares - final 2020	0.02	881	16/10/2020	0%

(b) Dividends not recognised at the end of the reporting period

In addition to the above dividends, since the end of the financial year the Directors have declared the payment of a final ordinary dividend of 2 cents per fully paid share, unfranked, with an ex date of 14 September 2022 and a record date of 15 September 2022, to be paid on 30 September 2022, out of the profits reserve at 30 June 2022.

(c) Resetable redeemable convertible preference shares

Dividends on RRCPS are recorded as finance costs (rather than "dividends") for accounting purposes.

Interim and final dividends on Resetable Redeemable Convertible Preference Shares ("RRCPS") were unfranked.

**Independent Auditor's Report
to the Members of Glennon Small Companies Limited
ABN 52 605 542 229**

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Glennon Small Companies Limited ("the Company"), which comprises the statement of financial position as at 30 June 2022, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion the accompanying the financial report of Glennon Small Companies Limited is in accordance with the *Corporations Act 2001*, including:

- i. giving a true and fair view of the Company's financial position as at 30 June 2022 and of its financial performance for the year then ended; and
- ii. complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis of Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Company in accordance with auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* ("the Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the Directors of the Company, would be on the same terms if given to the Directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current year. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the matter
<p>Existence and Valuation of Financial Assets Refer to Note 4: Fair value measurements, Note 10: Current assets - Financial assets at fair value through profit or loss</p>	
<p>We focused our audit effort on the valuation and existence of the Company’s financial assets as they represent the most significant driver of the Company’s Net Tangible Assets and Profit.</p> <p>The Company’s investments are considered to be non-complex in nature with fair value based on readily observable data from the ASX or other observable markets.</p> <p>Consequently, these investments are classified under Australian Accounting Standards as either “Level 1” (i.e. where the valuation is based on quoted prices in active markets) or “Level 2” (i.e. where key inputs to valuation are based on other observable inputs).</p>	<p>Our procedures included, amongst others:</p> <ul style="list-style-type: none"> ▪ Obtaining an understanding of and evaluating the investment management processes and controls; ▪ Reviewing and evaluating the independent auditor’s report on the design and operating effectiveness of internal controls (ASAE 3402 <i>Assurance Reports on Controls at a Service Organisation</i>) for the Administrator and Custodian; ▪ Making enquiries as to whether there have been any changes to these controls or their effectiveness from the periods to which the audit report relates; ▪ Obtaining confirmation of the investment holdings directly from the Custodian; ▪ Assessing and recalculating the Company’s valuation of individual investment holdings using independent pricing sources, or, if market prices aren’t available, with reference to independent sources such as shareholder updates and the most recent audited financial report of the company; ▪ Evaluating the accounting treatment of revaluations of financial assets for current/deferred tax and unrealised gains or losses; and ▪ Assessing the adequacy of disclosures in the financial statements.

Key audit matter	How our audit addressed the matter
<p>Accuracy of Management and Performance Fees Refer to Note 12: Current liabilities - Trade and other payables, Note 19: Related party transactions</p>	
<p>We focused our audit effort on the accuracy of management and performance fees as they are significant expenses of the Company and their calculation requires adjustments and key inputs.</p> <p>Adjustments include company dividends, tax payments, capital raisings, capital reductions and other relevant expenses. Key inputs include the value of the portfolio, the performance of the relevant comparable benchmark and application of the correct fee percentage in accordance with the Investment Management Agreement between the Company and the Investment Manager.</p> <p>In addition, to their quantum, as these transactions are made with related parties, there are additional inherent risks associated with these transactions, including the potential for these transactions to be made on terms and conditions more favorable than if they had been with an independent third-party.</p>	<p>Our procedures included, amongst others:</p> <ul style="list-style-type: none"> ▪ Obtaining an understanding of and evaluating the processes and controls for calculating the management and performance fees; ▪ Making enquiries with the Investment Manager and those charged with governance with respect to any significant events during the period and associated adjustments made as a result, in addition to reviewing ASX announcements and Board meeting minutes; ▪ Testing of adjustments such as company dividends, tax payments, capital raisings, capital reductions as well as any other relevant expenses used in the calculation of management and performance fees; ▪ Testing of key inputs including the value of the portfolio, the performance of the relevant comparable benchmark and application of the correct fee percentage in accordance with our understanding of the Investment Management Agreement; and ▪ Assessing the adequacy of disclosures made in the financial statements.

Other information

The Directors are responsible for the other information. The other information comprises the information in the Company's Annual Report for the year ended 30 June 2022, but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially consistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The Directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal controls as the Directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

For personal use only

In preparing the financial report, the Directors are responsible for assessing the ability of the Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 9 to 12 of the Directors' Report for the year ended 30 June 2022. In our opinion, the Remuneration Report of Glennon Small Companies Limited for the year ended 30 June 2022, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The Directors of Glennon Small Companies Limited are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
