## CHAIRMAN'S REPORT

Dear Shareholders,

As foreshadowed in the 2021 Annual Report, this year has been one of consolidation and positioning for growth. Manufacturing runs were optimised to ensure sufficient inventory was available for the Black Friday and Cyber Week sales, with the Company achieving over \$2 million in sales during November 2021 alone.

The Company has continued to reduce the costs of production as well as focus on production quality which has resulted in continually improving margins and dramatically reduced warranty claims coupled with increased customer satisfaction.

R&D grants have been successfully applied for and awarded in recognition of the Company's continued focus on product improvement and the development of new products. A new FLY12 edition was developed during the year and is poised for launch late in Q1 FY22.

I would like to take this opportunity to thank our team for their significant achievements during the year. In particular the Directors wish to acknowledge Craig Smith-Gander AM for his role as Chairman over the last two years. Craig and the executive team have been instrumental in reviving the fortunes of the Company and we are pleased that Craig remains with the Company in an executive role.

### *FY21 in Review*

The Company's balance sheet improved significantly during the year as legacy debt was paid off and revenue increased. Cash receipts at \$4.5 million were 35% higher than those achieved in 2021. The success of the November 2021 sales period saw over \$2 million in revenue generated in that month alone. Sales for the last quarter (Q4) were 70% higher than the prior corresponding period; providing strong momentum leading into the new financial year.

Deposits for the main production runs for the peak (Q2) sales period were paid in the last quarter. Despite this outlay the Company finished the year with more than \$1 million in cash. Production runs have been increased from previous years as we expect new marketing campaigns to broaden the addressable market for our products.

The Company continues to be in dispute with its joint venture partner in Hong Kong. Litigation in the Hong Kong High Court commenced by the party found in favour of Cycliq with costs awarded to the joint venture partner. The Company continues to seek a final resolution and exit from the joint venture.

### *The Year Ahead*

The Company's new FLY12 product is to be launched in late Q1 and initial trials indicate the new product being a significant improvement on the prior model, positioning it at the premium end of the market. Enhancements have been made to attract the action and sports cycling market to the product, significantly broadening Cycliq's addressable market.

These enhancements will also be attractive to the traditional safety market, allowing for greater vertical penetration of the safety focused cycling market.

Production levels of the existing portfolio of products are being increased to match our enhanced marketing plans. The increase in sales has meant that the Company's products have sold out on occasion over the last financial year. Better forecasting processes have resulted in production volumes being increased to satisfy demand.

Marketing activity will also focus upon increasing interest in UpRide and our 500,000 strong cycling community. This will include the creation of new content focused on action and racing. Engineering work has commenced on simplifying the upload features from the device to the platform in order to attract more user generated content to the site.

Post year end, the Company entered into an agreement with Australia's leading cycling eSports team, Team Aero, to use its intellectual property in the gamified environment of the Metaverse.

Team Aero is already Australia's leading team competing on Zwift – providing further marketing opportunities for the Company. The Team AERO relationship is focused on growing the Company's exposure in eSports through the partnership with OliveX and the Sandbox.

The Board remains confident about the Company's growth prospects and associated financial performance under the leadership of a strong and committed management team.

Xavier Kris

Chairman

## DIRECTORS' REPORT

None

**DIRECTORS' REPORT****Tim Slate** – Company Secretary*(Appointed 2 August 2021)*

Mr Slate provides accounting, secretarial and corporate advice to a number of private and public companies. Mr Slate has over ten years' experience in chartered accounting.

Mr Slate has a Bachelor of Commerce from the University of Western Australia, is a Chartered Accountant, an Associate Member of the Governance Institute of Australia and is a Graduate of the Australian Institute of Company Directors.

**Meetings of Directors**

At the date of this Directors' Report, there are no separate committees for remuneration, audit, nomination, finance, due diligence or operations. The Directors believe that the Company is not currently of a size nor are its affairs of such complexity as to warrant the establishment of these separate committees. Accordingly, all matters capable of delegation to such committees are considered by the Board of Directors in its entirety.

	Number Board Meetings eligible to attend	Number of Board Meetings Attended
Craig Smith-Gander	10	10
Xavier Kris	11	10
David Wheeler	11	11
Chris Mews	11	11

**Interests in the shares and options of the Company and related bodies corporate**

	Fully Paid Ordinary Shares Number	Options Number
Xavier Kris	2,692,418	2,375,000
David Wheeler	-	-
Chris Mews	1,050,000	500,000
Craig Smith-Gander (at resignation)	2,639,966	2,403,572

**DIRECTORS' REPORT****Options****Unissued shares under option**

As at 30 June 2022, there were 7,726,395 un-issued ordinary shares of Cycliq Group Limited under option (listed or unlisted) and 7,142,857 un-issued ordinary shares of Cycliq Group Limited under warrant. The details of the options are as follows:

	Number	Exercise Price \$	Expiry Date
Options approved at 2021 EGM	1,000,000	\$0.08	24-Dec-2022
Options approved at 2021 EGM	4,100,000	\$0.08	24-Dec-2022
Options issued on 6 April 2022	2,626,395	\$0.025	06-Apr-2025
Warrants issued to Partners For Growth	3,392,857	\$0.14	29-Mar-2026
Warrants issued to Partners For Growth	3,750,000	\$0.02	31-Oct-2026

**Shares issued upon exercise of options**

No ordinary shares were issued by the Company as a result of the exercise of options during the year or since the end of the year.

**Non-Audit Services**

There were no non-audit services provided during the year by the auditor.

**Indemnifying Officers or Auditor**

The Company has agreed to indemnify the directors of the Company, the directors of controlled entities and executive officers against all liabilities to other persons (other than the Company or a related body corporate) that may arise from their position as directors of the Company and its controlled entities, except where the liability arises out of conduct involving a lack of good faith. The agreement stipulates that the Company will meet the full amount of any such liabilities, including costs and expenses.

During the year the Company paid insurance premiums to insure Directors and Officers against certain liabilities arising out of their conduct while acting as an officer of the Group. Under the terms and conditions of the insurance contract, the nature of the liabilities insured against and the premium paid cannot be disclosed.

**Environmental Issues**

In the normal course of business, there are no environmental regulations or requirements that the Company is subject to.

The Directors have considered the enacted National Greenhouse and Energy Reporting Act 2007 (the NGER Act) which introduced a single national reporting framework for the reporting and dissemination of information about the greenhouse gas emissions, greenhouse gas projects, and energy use and production of corporations. At the current stage of development, the Directors have determined that the NGER Act has no effect on the Company for the current, nor subsequent, financial year. The Directors will reassess this position as and when the need arises.

## **DIRECTORS' REPORT**

### **Corporate Governance Statement**

The Group's full Corporate Governance Statement can be found attached to the appendix 4G lodged on the ASX.

### **Auditors Independence Declaration**

The lead auditor's independence declaration for the year ended 30 June 2022 has been received and can be found on page 12 of this annual report.

### **Proceedings on Behalf of Company**

No person has applied for leave of court to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or any part of those proceedings.

To the Board of Directors

**Auditor's Independence Declaration under Section 307C of the Corporations Act 2001**

As lead audit Partner for the audit of the financial statements of Cycliq Group Ltd for the financial year ended 30 June 2022, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- any applicable code of professional conduct in relation to the audit.

Yours faithfully,

Hall Chadwick

**HALL CHADWICK**  
Chartered Accountants

**CHRIS NICOLOFF** CA  
Director

Dated at Perth this 25<sup>th</sup> day of August 2022

**DIRECTORS' REPORT – REMUNERATION REPORT (AUDITED)**

The information in this remuneration report has been audited as required by s308(3C) of the Corporations Act 2001.

**Remuneration Policy**

The remuneration policy of Cycliq Group Limited has been designed to align director and management objectives with shareholder and business objectives by providing a fixed remuneration component, and offering specific long-term incentives based on key performance areas affecting the Group's financial results. The Board of Cycliq Group Limited believes the remuneration policy to be appropriate and effective in its ability to attract and retain the best management and directors to run and manage the Group, as well as create goal congruence between directors, executives and shareholders. The Board's policy for determining the nature and amount of remuneration for Board members and senior executives of the Group is as follows:

- ▶ All executives receive a base salary (which is based on factors such as length of service and experience), superannuation, options and performance incentives. The Board reviews executive packages annually by reference to the Group's performance, executive performance, and comparable information from industry sectors and other listed companies in similar industries.
- ▶ Non-Executive Directors and Executives receive superannuation guarantee contributions as required by legislation and do not receive any other retirement benefits. All remuneration paid to Directors and executives is valued at cost and expensed. Options and performance shares given to Directors and employees are valued using Black-Scholes methodology. The Board's policy is to remunerate Non-Executive Directors at the lower end of market rates for comparable companies for time, commitment, and responsibilities.
- ▶ The Group has an incentive option and performance share scheme in place intended to incentivise the Non-Executive Directors. The Board determines payments to the Non-Executive Directors and reviews their remuneration annually based on market practice, duties, and accountability. Independent external advice may be sought when required. The maximum aggregate amount of fees that can be paid to Non-Executive Directors is subject to approval by shareholders at the Annual General Meeting. Fees for Non-Executive Directors are not linked to the performance of the Group. However, to align Directors' interests with shareholder interests, Directors are encouraged to hold shares in the Company.

The remuneration policy has been tailored to increase the direct positive relationship between shareholders' investment objectives and directors' and executives' performance. Currently, this is facilitated through the performance share and incentive option scheme which aims to encourage the alignment of personal and shareholder interests. The Company believes this policy will be effective in increasing shareholder wealth.

**Details of Board Remuneration**

There were no cash bonuses paid during the year and there are no set performance criteria for achieving cash bonuses.

The table on the following page details the various components of remuneration for each member of the key management personnel of the Group. The term "Key Management Personnel" (or "KMP") (as defined in AASB 124 Related Party Disclosures) refers to those persons having authority and responsibility for planning, directing and controlling the activities of the group directly or indirectly including any Director (whether executive or otherwise) of the Group. The Key Management Personnel of the Group are the following Non-Executive and Executive Directors and officers of the Group.

- |                      |  |
|----------------------|--|
| ▶ Xavier Kris        | Non-Executive Chairman                         |
| ▶ David Wheeler      | Non-Executive Director                         |
| ▶ Chris Mews         | Non-Executive Director                         |
| ▶ Craig Smith-Gander | Non-Executive Chairman (resigned 16 June 2022) |

No other employee had authority or responsibility for planning, directing and controlling the activities of the Company, either directly or indirectly, during the financial year.

**DIRECTORS' REPORT – REMUNERATION REPORT (AUDITED)**

1) Following conversion of convertible notes outstanding on 7 July 2021.

2) On 21 July 2021 a 20:1 share consolidation was completed

3) Mr Smith-Gander resigned on 16 June 2022

**DIRECTORS' REPORT – REMUNERATION REPORT (AUDITED)****Performance shares**

There has been no change to the valuation methodology applied to 10,000,000 (50,000 following a share consolidation on 21 July 2021) performance shares issued to employees and consultants in previous periods. The performance milestones and valuation methodology are outlined in the notes to the 30 June 2017 consolidated financial statements.

**Other Transactions with Key Management Personnel****Equity-based Key Management Personnel Transactions**

On 1 April 2021, the Company issued 500,000 convertible notes with a face value of \$1.00. Interest on each Convertible Note accrued at 4% per annum and is calculated on the daily balance of the face value. Following shareholder approval on 7 July 2021, the convertible notes were converted by issuing 500,000 fully paid ordinary shares.

**Convertible note holders**

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

For the year ended 30 June 2022

**NOTE 1 STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES**

These are the consolidated financial statements and notes of Cycliq Group Limited ("Company") and controlled entities ("Consolidated Group" or "Group"). Cycliq Group Limited is a company limited by shares, domiciled and incorporated in Australia.

The separate financial statements of the parent entity, Cycliq Group Limited, have not been presented with this financial report as permitted by the Corporations Act 2001.

The financial statements were authorised for issue on 25 August 2022 by the Directors of the Company.

**a) Basis of preparation**

The financial statements comprise the consolidated financial statements of the Group. For the purpose of preparing the consolidated financial statements, the Company is a for-profit entity. Material accounting policies adopted in the preparation of these financial statements are presented below. They have been consistently applied unless otherwise stated.

**i. Statement of compliance**

These financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards and Interpretations of the Australian Accounting Standards Board (**AAS Board**) and International Financial Reporting Standards (**IFRS**) as issued by the International Accounting Standards Board (**IASB**), and the Corporations Act 2011 (Cth).

Australian Accounting Standards (**AASBs**) set out accounting policies that the AAS Board has concluded would result in a financial report containing relevant and reliable information about transactions, events and conditions to which they apply. Compliance with AASBs ensures that the financial statements and notes also comply with IFRS as issued by the IASB.

**ii. Financial position**

The consolidated financial statements have been prepared on an accruals basis and are based on historical costs unless otherwise stated in the notes. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted. The amounts presented in the financial statements have been rounded to the nearest dollar.

**iii. Going Concern**

The financial report has been prepared on a going concern basis which contemplates the continuity of normal business activity, the realisation of assets and the settlement of liabilities in the ordinary course of business.

During the year the Group incurred a net loss of \$770,832 (2021: \$3,240,191) and incurred net cash outflows from operating activities of \$682,275 (2021: inflow of \$3,142,331). Net assets at 30 June 2022 were \$1,085,769 (30 June 2021 deficiency of \$1,293,107) and the Group held cash assets at 30 June 2022 of \$1,011,310 (2021: \$2,246,682). These factors indicate a material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern. The directors have prepared a cashflow forecast which indicates that the group will have sufficient cashflows to meet all commitments and working capital requirements for the 12-month period from the date of signing this report.

The Directors are confident of the Group's ability to continue as a going concern for the following reasons:

- Management has prepared a cashflow forecast for the next 12 months that indicates the operating cash inflows will be sufficient to meet expenses and other financial obligations when they fall due;
- Management has demonstrated the ability to contain costs in all areas of the business;
- The company is intending to introduce new product lines in the coming quarter providing additional sales opportunities to the existing customer base and to new customers; and
- The ability to raise capital or loans from shareholders or related parties.

Based on the above, the Directors consider the going concern basis of preparation to be appropriate for this financial report.

The ability of the Group to continue to pay its debts as and when they fall due is dependent upon the Group generating consistent profits during the next 12 months from existing operations and, if required, raising additional capital to meet any shortfall should the Group require.

The financial statements do not include any adjustment relating to the recoverability or classification of recorded asset amounts or to the amounts or classifications of liabilities that might be necessary should the Group not be able to continue as a going concern.

**iv. Use of estimates and judgements**

The preparation of consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. These estimates and associated assumptions are based on historical experience and various factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period which the estimate is revised and in any future periods affected.

Judgments made by management in the application of AASBs that have significant effect on the consolidated financial statements and estimates with a significant risk of material adjustment in the next year are discussed in note 1(n).

**v. Comparative figures**

Where required by AASBs comparative (2021) figures have been adjusted to conform with changes in presentation for the current financial year.

Where the Group retrospectively applies an accounting policy, makes a retrospective restatement or reclassifies items in its financial statements, an additional (third) statement of financial position as at the beginning of the preceding period in addition to the minimum comparative financial statements is presented.

**b) Principles of consolidation**

As at reporting date, the assets and liabilities of all controlled entities have been incorporated into the consolidated financial statements as well as their results for the year then ended. Where controlled entities have entered or left the Consolidated Group during the year, their operating results have been included or excluded from the date control was obtained or ceased.

**i. Business combinations**

Business combinations are accounted for using the acquisition method as at the acquisition date, which is the date on which control is transferred to the Group. Control exists when the Group is exposed to variable returns from another entity and has the ability to affect those returns through its power over the entity.

The Group measures goodwill at the acquisition date as:

- ▶ the fair value of the consideration transferred; plus
- ▶ the recognised amount of any non-controlling interests in the acquiree; plus
- ▶ if the business combination is achieved in stages, the fair value of the existing equity interest in the acquiree; less
- ▶ the net recognised amount of the identifiable assets acquired and liabilities assumed.

When the excess is negative, a bargain purchase gain is recognised immediately in profit or loss.

The consideration transferred does not include amounts related to settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss

Costs related to the acquisition, other than those associated with the issue of debt or equity securities, that the Group incurs in connection with a business combination are expensed as incurred.

Any contingent consideration payable is recognised at fair value at the acquisition date. If the contingent consideration is classified as equity, it is not remeasured and settlement is accounted for within equity. Otherwise, subsequent changes to the fair value of the contingent consideration are recognised in profit or loss.

**ii. Subsidiaries**

Subsidiaries are entities controlled by the Group. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

The accounting policies of subsidiaries have been changed when necessary to align them with the policies adopted by the Group. Losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests even if doing so causes the non-controlling interests to have a deficit balance.

A list of controlled entities is contained at note 14 Controlled Entities.

**iii. Loss of control**

Upon the loss of control, the Group derecognises the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognised in profit or loss. If the Group retains any interest in the previous subsidiary, then such interest is measured at fair value at the date control is lost. Subsequently it is accounted for as an equity-accounted investee or as an available-for-sale financial asset depending on the level of influence retained.

**iv. Transactions eliminated on consolidation**

All intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

**c) Income tax**

The income tax expense/(income) for the year comprises current income tax expense/(income) and deferred tax expense/(income).

Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at reporting date. Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well as unused tax losses.

Current and deferred income tax expense (income) is charged or credited outside profit or loss when the tax relates to items recognised outside profit or loss.

Deferred tax assets and liabilities are ascertained based on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets also result where amounts have been fully expensed but future tax deductions are available. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates enacted or substantively enacted at reporting date. Their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Where temporary differences exist in relation to investments in subsidiaries, branches, associates, and joint ventures, deferred tax assets and liabilities are not recognised where the timing of the reversal of the temporary difference can be controlled and it is not probable that the reversal will occur in the foreseeable future.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where a legally enforceable right of set-off exists, the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

**d) Inventories**

Inventories are measured at the lower of cost and net realisable value.

**e) Plant and equipment****i. Recognition and measurement**

Items of plant and equipment are measured at cost less accumulated depreciation (see below) and impairment losses (impairment losses are discussed further in note 1i).

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the asset to a working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located, and an appropriate proportion of production overheads.

Where parts of an item of plant and equipment have different useful lives, they are accounted for as separate items of property, plant and equipment.

Gains and losses on disposal of an item of plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of plant and equipment and are recognised net within "other income" in profit or loss.

The carrying amount of plant and equipment is reviewed annually by Directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the assets employment and subsequent disposal. The expected net cash flows have not been discounted to their present values in determining recoverable amounts.

**ii. Subsequent costs**

The cost of replacing part of an item of plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The costs of the day-to-day servicing of plant and equipment are recognised in the income statement as an expense as incurred.

**iii. Depreciation**

Depreciation is charged to the income statement on a straight-line basis over the asset's useful life to the consolidated group commencing from the time that the assets is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

	2022 %	2021 %
▶ Countertop Display advertising units	50%	50%
▶ Computer equipment	33%	33%
▶ Office furniture and equipment	33%	33%
▶ Test Model	33%	33%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

**f) Intangibles****i. Intangible assets other than goodwill**

Intangible assets acquired as part of a business combination, other than goodwill, are initially measured at their fair value as at the date of the acquisition. Intangible assets acquired separately are initially recognised at cost. Indefinite life intangible assets are not amortised and are subsequently measured at cost less any impairment. Finite life intangible assets are subsequently measured at cost less amortisation and any impairment. The gains or losses recognised in profit or loss arising from the derecognition of intangible assets are measured as the difference between net disposal proceeds and the carrying amount of the intangible asset. The method and useful lives of finite life intangible assets are reviewed annually. Changes in the expected pattern of consumption or useful life are accounted for prospectively by changing the amortisation method or period.

Research costs are expensed in the period which they are incurred. Development costs are capitalised when it is probable that the project will be a success considering its commercial and technical feasibility; the consolidated entity is able to use or sell the asset; the consolidated entity has sufficient resources and intent to complete the development and its costs can be measured reliably. Capitalised development costs are amortised on a straight-line basis over the period of their expected benefit.

**g) Employee benefits****i. Defined contribution superannuation funds**

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions onto a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution superannuation funds are recognised as an expense in the income statement as incurred.

**ii. Short-term benefits**

Liabilities for employee benefits for wages, salaries, superannuation and leave that are expected to be settled within 12 months of the reporting date represent present obligations resulting from employees' services provided to the reporting date and are calculated at undiscounted amounts based on remuneration wage and salary rates that the Group expects to pay at the reporting date including related on-costs, such as workers' compensation insurance and payroll tax. Liabilities for employee benefits expected to be settled in excess of the 12 months from reporting date are recognised as non-current liabilities.

Non-accumulating non-monetary benefits, such as medical care, housing, cars and free or subsidised goods and services, are expensed based on the net marginal cost to the Group as the benefits are taken by employees.

**iii. Termination benefits**

When applicable, the Group recognises a liability and expense for termination benefits at the earlier of the date when the Group can no longer withdraw the offer for termination benefits and the date when the Group recognises costs for restructuring pursuant to AASB 137 *Provisions, Contingent Liabilities and Contingent Assets* and the costs include termination benefits. In either case, unless the number of employees affected is known, the obligation for termination benefits is measured on the basis of the number of employees expected to be affected. Termination benefit that are expected to be settled wholly before 12 months after the annual reporting period in which the benefits are recognised are measured at the (undiscounted) amounts expected to be paid. All other termination benefits are accounted for on the same basis as other long-term employee benefits.

**iv. Equity-settled compensation**

The fair value of options granted is recognised as an employee expense with a corresponding increase in equity. The fair value is measured at grant date and spread over the period during which the employees become unconditionally entitled to the options. The fair value of options granted is measured using the Black-Scholes pricing model, taking into account the terms and conditions upon which the options were granted. The amount recognised is adjusted to reflect the actual number of share options that vest except where forfeiture is only due to market conditions not being met.

**h) Financial instruments****Initial recognition and measurement**

Financial instruments, incorporating financial assets and financial liabilities, are recognised when the entity becomes a party to the contractual provisions of the instrument.

Financial instruments are initially measured at fair value plus transactions costs where the instrument is not classified as at fair value through profit or loss. Transaction costs related to instruments classified as at fair value through profit or loss are expensed to profit or loss immediately. Financial instruments are classified and measured as set out below.

**Classification and subsequent measurement**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the assets or liability, assuming the market participants acts in their economic best interests.

The consolidated entity does not designate any interests in subsidiaries, associates or joint venture entities as being subject to the requirements of accounting standards specifically applicable to financial instruments.

**i. Loans and receivables**

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost.

Loans and receivables are included in current assets, except for those which are not expected to mature within 12 months after the end of the reporting period. (All other loans and receivables are classified as non-current assets.)

**ii. Financial Liabilities**

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost. Gains or losses are recognised in profit and loss through the amortisation process and when the financial liability is derecognised.

**Derivative instruments**

The consolidated entity does not trade or hold derivatives.

**Financial guarantees**

The consolidated entity has no material financial guarantees.

**iii. Classification and Subsequent Measurement****(1) Cash and cash equivalents**

Cash and cash equivalents includes cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of nine (9) months or less, and bank overdrafts. Bank overdrafts are shown within short-borrowings in current liabilities on the Statement of financial position.

**(2) Loans**

Loans are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost.

Loans are included in current assets, except for those which are not expected to mature within 12 months after the end of the reporting period.

**(3) Trade and other receivables**

Receivables are usually settled within 60 days. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Trade and other receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any provision for impairment. Collectability of trade and other receivables is reviewed on an ongoing basis. An impairment loss is recognised for debts which are known or expected to be uncollectible. An impairment provision is raised for any doubtful amounts.

**(4) Trade and other payables**

These amounts represent liabilities for goods and services provided to the Group prior to the end of the financial year which are unpaid and stated at their amortised cost. The amounts are unsecured and are generally settled on 30 day terms.

**(5) Share capital**

Ordinary issued capital is recorded at the consideration received. Incremental costs directly attributable to the issue of ordinary shares and share options are recognised as a deduction from equity, net of any related income tax benefit. Ordinary issued capital bears no special terms or conditions affecting income or capital entitlements of the shareholders.

**iv. Amortised cost**

Amortised cost is calculated as the amount at which the financial asset or financial liability is measured at initial recognition less principal repayments and any reduction for impairment, and adjusted for any cumulative amortisation of the difference between that initial amount and the maturity amount calculated using the effective interest method.

**v. Fair value**

Fair value is determined based on current bid prices for all quoted investments. Valuation techniques are applied to determine the fair value for all unlisted securities, including recent arm's length transactions, reference to similar instruments and option pricing models.

**vi. Effective interest method**

The effective interest method is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) over the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying amount with a consequential recognition of an income or expense item in profit or loss.

**vii. Impairment**

A financial asset is assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount, and the present value of the estimated future cash flows discounted at the original effective interest rate.

Financial assets are tested for impairment on an individual basis.

All impairment losses are recognised in the income statement.

An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognised. For financial assets measured at amortised cost the reversal is recognised in the income statement.

#### viii. Derecognition

Financial assets are derecognised where the contractual rights to cash flow expires or the asset is transferred to another party whereby the entity no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are derecognised where the related obligations are either discharged, cancelled or expired. The difference between the carrying value of the financial liability extinguished or transferred to another party and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

#### ix. Finance income and expenses

Finance income comprises interest income on funds invested (including available-for-sale financial assets), gains on the disposal of available-for-sale financial assets and changes in the fair value of financial assets at fair value through profit or loss. Interest income is recognised as it accrues in profit or loss, using the effective interest method.

Financial expenses comprise interest expense on borrowings calculated using the effective interest method, unwinding of discounts on provisions, changes in the fair value of financial assets at fair value through profit or loss and impairment losses recognised on financial assets. All borrowing costs are recognised in profit or loss using the effective interest method.

Borrowing costs directly attributable to the acquisition, construction or production of assets that necessarily take a substantial period of time to prepare for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. All other borrowing costs are recognised in income in the period in which they are incurred.

Foreign currency gains and losses are reported on a net basis.

#### i) Impairment of non-financial assets

The carrying amounts of the Group's non-financial assets, other than deferred tax assets (see accounting policy 1c) are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and groups. Impairment losses are recognised in the income statement, unless the asset has previously been revalued, in which case the impairment loss is recognised as a reversal to the extent of that previous revaluation with any excess recognised through the income statement. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit on a pro rata basis.

The recoverable amount of an asset or cash-generating unit is the greater of its fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation and amortisation, if no impairment loss had been recognised.

**j) Provisions**

Provisions for legal claims, service warranties and make good obligations are recognised when the group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period.

**k) Revenue and other income**

Interest revenue is recognised in accordance with note 1(h)ix Finance income and expenses.

Revenue from the sale of goods and services is measured at the fair value of the consideration received or receivable, net of returns and allowances. Revenue is recognised in the income statement when the significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or there is a risk of return of goods or there is continuing management involvement with the goods.

All revenue is stated net of the amount of value added taxes (note 1l Goods and Services Tax).

**l) Goods and Services Tax**

Goods and Services Tax (GST) is the term for the broad-based consumption taxes that the Group is exposed to in Australia.

Revenues, expenses, and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of expense. Receivables and payables in the statement of financial position are shown inclusive of GST.

The net amount of GST recoverable from, or payable to, the Australian Taxation Office is included as a current asset or liability in the balance sheet.

Cash flows are presented in the statement of cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

**m) Segment reporting**

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. All operating segments' results are regularly reviewed by the Group's Managing Director to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

**n) Critical Accounting Estimates and Judgments**

Management discusses with the Board the development, selection and disclosure of the Group's critical accounting policies and estimates and the application of these policies and estimates. The estimates and judgments that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

**i. Key judgment: Going Concern**

Refer Note 1(a)iii Going concern.

**ii. Key estimate: Impairment**

At each reporting date, the Group reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. As a result of this review, the Group has determined that no material impairment was required.

**iii. Key estimate: Provision for warranty claims**

The group provides warranties to customers for a number of its products. Judgement is required in determining the warranty provision required to be recognised to fulfil any warranty claims. The amount recognised as a provision is the best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The best estimate is based on historical experience and an understanding of the product base applied against sales within the warranty period.

**iv. Key estimate: Taxation**

Balances disclosed in the financial statements and the notes thereto, related to taxation, are based on the best estimates of directors. These estimates take into account both the financial performance and position of the Group as they pertain to current income taxation legislation, and the directors understanding thereof. No adjustment has been made for pending or future taxation legislation. The current income tax position represents that directors' best estimate, pending an assessment by the Australian Taxation Office.

**v. Key estimate: Share-based payments**

The value attributed to share options and remuneration shares issued is an estimate calculated using an appropriate mathematical formula based on Black-Scholes option pricing model. The choice of models and the resultant option value require assumptions to be made in relation to the likelihood and timing of the conversion of the options to shares and the value and volatility of the price of the underlying shares. Details of share-based payments assumptions are detailed in Note 22.

**o) New, revised or amending Accounting Standards and Interpretations adopted**

The group has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period. The adoption of these Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the group during the financial year.

Any new, revised or amending Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

**p) Accounting Standards that are mandatorily effective for the current reporting year**

The Group has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (the AASB) that are relevant to its operations and effective for an accounting period that begins on or after 1 July 2021.

*Changes in accounting policies on initial application of Accounting Standards*

In the year ended 30 June 2022, the directors have reviewed all the new and revised Standards and Interpretations issued by the AASB that are relevant to the Group's operations and effective for annual reporting periods beginning on or after 1 July 2021. As a result of this review, the Directors have determined that there is no material impact of any new and revised Standards and Interpretations issued by the AASB.

*Standards and Interpretations in issue not yet adopted*

The Directors have also reviewed all of the new and revised Standards and Interpretations in issue not yet adopted for the year ending 30 June 2022. As a result of this review, the Directors have determined that there is no material impact of the new and revised Standards and Interpretations in issue not yet adopted on the Group and therefore no material change is necessary to Group accounting policies.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

For the year ended 30 June 2022

Product development costs relate to development cost of the new product "Fly 6CEGen 3" that was launched during the year. The development costs useful life has been aligned to the expected product lifetime and as a result those development costs are amortised on a straight-line basis over the product lifetime period. The amortisation expense has been included in the line item "depreciation and amortisation" in the consolidated statement of profit and loss and other comprehensive income. The directors do not consider there have been any indicators of impairment of the acquired intangible assets during the year up until the date of this report.

*Timelio Funding Facility*

The Timelio facility allowed Cycliq to draw funds from the facility equivalent to the value of 100% of the finished goods inventory, and up to the value of 90% of sales invoices. Funds are drawn down at a fixed monthly interest rate of 1.1% for Trade Finance and 0.9% for Invoice Finance, payable in AUD and calculated upfront for the actual number of days elapsed during the financing period and on the basis of a 365-day year. Any additions or reduction in calculated interest at settlement date shall be return or payable at the date of settlement. The Timelio funding facility was settled in full on 2 July 2021.

*Convertible notes*

On 1 April 2021, the Company issued 500,000 convertible notes with a face value of \$1.00 each. The key terms of the convertible notes were as follows:

- Interest accrues on each convertible note at 4% per annum and is calculated on the daily balance of the face value;
- Subject to obtaining shareholder approval, the convertible notes will in aggregate convert at \$0.001 per share for an aggregate of 500,000,000 shares;

Following shareholder approval on 7 July 2021, the convertible notes were converted by issuing 500,000 fully paid ordinary shares.

At reporting date	347,516,658	6,450,339,176	16,068,852	15,568,852

On 21 July 2021 a 20:1 share consolidation was completed.

Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the Company in proportion to the number of and amounts paid on the shares held. On a show of hands every holder of ordinary shares present at a meeting in person or by proxy, is entitled to one vote, and upon a poll each share is entitled to one vote.

Ordinary shares have no par value and the Company does not have a limited amount of authorised capital.

**b) Performance Shares**

There has been no change to the valuation methodology applied to 10,000,000 (500,000 following the share consolidation on 21 July 2021) performance shares issued to employees and consultants in prior periods. The performance milestones and valuation methodology are outlined in the notes to 30 June 2017 consolidated financial statements.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

## NOTE 21 RESERVES

	2022 \$	2021 \$
Foreign currency translation reserve	25,674	10,130
Share-based payment reserve (Options)	3,873,501	3,825,551
Share-based payment reserve (Performance shares)	140,000	140,000
Convertible notes reserve	21,150	21,150
Warrants reserve	103,575	103,575
Total reserves	4,163,900	4,100,406

*Foreign currency translation reserve*

The foreign currency translation reserve is used to record exchange differences arising from the translation of the financial statements of foreign subsidiaries. It is also used to record the effect of hedging net investments in foreign operations.

*Share-based payments reserve*

This reserve is used to record the value of equity benefits provided to employees and Directors as part of their remuneration and consultants. For details regarding share-based payments during the period, please refer to Note 22.

*Equity component of convertible note*

The reserve represents the equity component of the \$500,000 convertible noted issued during 2021.

*Warrants reserve*

The reserve represents equity benefit or warrants issued.

*Transactions with non-controlling interests*

This reserve is used to record the differences which may arise as a result of transactions with non-controlling interests that do not result in a loss of control.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2022

## NOTE 22 SHARE BASED PAYMENTS

The following share-based payments were made during the year ended 30 June 2022.

## a. Performance shares

There has been no change to the valuation methodology applied to 10,000,000 performance shares issued to employees and consultants in previous periods. The performance milestones and valuation methodology are outlined in the notes to the 30 June 2017 consolidated financial statements.

## b. Shares

During the period, the company did not issue any shares in lieu of cash in settlement of services provided to the Company.

*Share based payments expense in the profit or loss*

2,626,395 unlisted options were issued to Glory Horse Investments Holdings in partial settlement of a dispute. The fair value of the options was \$47,950.

## c. Options

The following share-based payment arrangements were in place during the current and prior periods:

Number	Grant Date	Expiry Date	Exercise Price	Fair value at grant date	Vesting date
1,000,000 <sup>(1)</sup>	24/12/2020	24/12/2022	\$0.08	52,050	30/06/2021
4,100,000 <sup>(1)</sup>	24/12/2020	24/12/2022	\$0.08	173,723	30/06/2021
37,149,637 <sup>(1)</sup>	17/05/2021	17/05/2023	\$0.03	-	17/05/2023
66,516,529 <sup>(1)</sup>	25/05/2021	25/05/2023	\$0.03	-	25/05/2023
12,500,000 <sup>(1)</sup>	31/05/2021	31/05/2023	\$0.03	337,845	31/05/2021
115,000,000 <sup>(1)</sup>	31/05/2021	10/05/2023	\$0.03	3,128,000	10/05/2023
2,626,395 <sup>(1)</sup>	06/04/2022	06/04/2025	\$0.015	47,950	06/04/2022

(1) On 21 July 2021 a 20:1 share consolidation was completed. There has been no other alteration of the terms and conditions of the above share-based payment arrangements since grant date.

The following table illustrates the number and weighted average exercise prices of and movements in share options issued during the year:

	2022 No.	2021 No.
At the beginning of the period	4,815,894,745	90,571,430
Options Granted	2,626,395	4,725,323,315
Exercised	-	-
Expired	(4,528,572)	-
Share consolidation (20:1)	(4,575,100,000)	-
Balance	238,892,568	4,815,894,745
Options exercisable at balance date	238,892,568	4,815,894,745

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

For the year ended 30 June 2022

The weighted average Exercise price of options on issue at balance date is \$0.03 (2021: \$0.0018)

The fair value of the equity-settled share options granted during the year is estimated at the date of grant using the Black-Scholes model taking into account the terms and conditions upon which the options were granted.

	Directors	Lead Manager	New Options	Underwriter Options
Dividend yield (%)	0%	0%	0%	0%
Expected volatility (%)	220	220	159	239
Risk-free interest rate (%)	0.09	0.08	0.08	0.07
Expected life of option (years)	2	2	2	1.9
Exercise price (cents)	0.004	0.004	0.0015	0.0015
Grant date share price	0.0025	0.0030	0.0015	0.0015

The expected life of the options is based on historical data and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome. No other features of options granted were incorporated into the measurement of fair value.

**NOTE 23 KEY MANAGEMENT PERSONNEL COMPENSATION**

The names and positions of Key Management Personnel ("KMP") during the period are as follows:

- ▶ Xavier Kris Non-Executive Chairman
- ▶ David Wheeler Non-Executive Director
- ▶ Chris Mews Non-Executive Director
- ▶ Craig Smith-Gander Non-Executive Chairman (resigned 16 June 2022)

	2022 \$	2021 \$

## NOTE 27 FINANCIAL RISK MANAGEMENT

## a) Financial risk management policies

This note presents information regarding the Group's exposure to each of the above risks, its objectives, policies and procedures for measuring and managing risk, and the management of capital.

The Group's financial instruments consist mainly of deposits with banks and accounts payable and receivable.

The Group does not speculate in the trading of derivative instruments.

A summary of the Group's financial assets and liabilities is shown below:

	Floating Interest Rate \$	Fixed Interest Rate \$	Non- Interest Bearing \$	2022 Total \$	Floating Interest Rate \$	Fixed Interest Rate \$	Non- Interest Bearing \$	2021 Total \$

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2022

## b) Specific financial risk exposures and management

The main risks that the Group is exposed to through its financial instruments are credit risk, liquidity risk and market risk consisting of interest rate, foreign currency and equity price risk.

The Board has overall responsibility for the establishment and oversight of the risk management framework. The Board adopts practices designed to identify significant areas of business risk and to effectively manage those risks in accordance with the Group's risk profile. This includes assessing, monitoring and managing risks for the Group and setting appropriate risk limits and controls. The Group is not of a size nor its affairs of such complexity to justify the establishment of a formal system for risk management and associated controls. Instead, the Board approves all expenditure, is intimately acquainted with all operations and discuss all relevant issues at the Board meetings. Operational and other compliance risk management have also been assessed and found to be operating efficiently and effectively.

## i. Credit risk

Exposure to credit risk relating to financial assets arises from the potential non-performance by counterparties of contract obligations that could lead to a financial loss to the Group.

The Group does not have any material credit risk exposure to any single receivable or group of receivables under financial instruments entered into by the Group.

The objective of the Group is to minimise the risk of loss from credit risk. The Group trades only with creditworthy third parties.

In addition, receivable balances are monitored on an ongoing basis with the result that the Group's exposure to bad debts is insignificant. The Group's maximum credit risk exposure is limited to the carrying value of its financial assets as indicated on the statement of financial position.

The Group establishes an allowance for impairment that represents its estimate of incurred losses in respect of trade and other receivables.

## ▶ Credit risk exposures

The maximum exposure to credit risk is to the Group's trade receivables and that is limited to the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements.

Credit risk related to balances with banks and other financial institutions is managed by the Group in accordance with approved Board policy. Such policy requires that surplus funds are only invested with financial institutions residing in Australia, wherever possible.

## ▶ Impairment losses

The ageing of the Group's trade and other receivables at reporting date was as follows:

	2022 Gross \$	2022 Past due but not impaired \$	2021 Gross \$	2021 Past due but not impaired \$
Trade receivables				
Not past due	14,074	-	1,944	-
Past due up to 3 months	(167)	-	(3,736)	-
Past due over 3 months	1,523	-	18,737	-
	15,430	-	16,945	-
Other receivables				
Not past due	20,124	-	109,983	-
<b>Total trade and other receivables</b>	<b>35,554</b>	<b>-</b>	<b>126,928</b>	<b>-</b>

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2022

## ii. Liquidity risk

Liquidity risk arises from the possibility that the Group might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities.

The Group manages liquidity risk by continuously monitoring forecast and actual cash flows and ensuring cash is available to meet the current and future commitments of the Group.

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

Typically, the Group ensures that it has sufficient cash to meet expected operational expenses for a period of 60 days, including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted.

The financial liabilities of the Group are confined to trade and other payables and borrowings as disclosed in the statement of financial position. All trade and other payables are non-interest bearing and due within 30 days of the reporting date.

► *Contractual Maturities*

The following are the contractual maturities of financial assets and liabilities of the Group:

	Within 1 year		Greater than 1 year		Total	
	2022	2021	2022	2021	2022	2021
	\$	\$	\$	\$	\$	\$
Financial Assets						
Cash and cash equivalents	1,011,310	2,246,682	-	-	1,011,310	2,246,682
Trade and other receivables	35,554	129,928	-	-	35,554	129,928
<b>Total anticipated inflows</b>	<b>1,046,864</b>	<b>2,376,610</b>	<b>-</b>	<b>-</b>	<b>1,046,864</b>	<b>2,376,610</b>
Financial Liabilities						
Trade and other payables	992,029	1,117,307	-	-	992,029	1,117,307
Borrowings	41,364	567,426	-	-	41,364	567,426
<b>Total contractual outflows</b>	<b>1,033,393</b>	<b>1,684,733</b>	<b>-</b>	<b>-</b>	<b>1,033,393</b>	<b>1,684,733</b>
<b>Net (outflow) / inflow from financial instruments</b>	<b>13,471</b>	<b>691,877</b>	<b>-</b>	<b>-</b>	<b>13,471</b>	<b>691,877</b>

It is not expected that the cash flows included in the maturity analysis could occur significantly earlier or at significantly different amounts than presented.

## iii. Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The Board meets on a regular basis and considers the Group's exposure to interest rate risk.

► *Interest rate risk*

Exposure to interest rate risk arises on financial assets and financial liabilities recognised at the end of the reporting period whereby a future change in interest rates will affect future cash flows or the fair value of fixed rate financial instruments. The Group is also exposed to earnings volatility on floating rate instruments.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

For the year ended 30 June 2022

▶ *Foreign exchange risk*

Exposure to foreign exchange risk may result in the fair value or future cash flows of a financial instrument fluctuating due to movement in foreign exchange rates of currencies in which the Group holds financial instruments which are other than the Australian Dollar presentation currency of the Group.

Foreign exchange risk is naturally hedged with material trade and other receivables and trade and other payables both being held in USD.

▶ *Price risk*

Price risk relates to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices.

**iv. Sensitivity analyses**

The following table illustrates sensitivities to the Group's exposures to changes in interest rates. The table indicates the impact on how profit and equity values at reporting date would have been affected by changes in the relevant risk variable that management considers to be reasonably possible. These sensitivities assume that the movement in a particular variable is independent of other variables.

*Interest rates on borrowings*

	Profit Effect		Equity Effect	
	2022 \$	2021 \$	2022 \$	2021 \$
± 100 basis points change in interest rates	4,135	22,467	1	5,190

**v. Net fair values**

The fair values of financial assets and financial liabilities are presented in the table in this note and can be compared to their carrying values as presented in the statement of financial position. Fair values are those amounts at which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Cash and cash equivalents, trade and other receivables, and trade and other payables are short-term investments in nature whose carrying value is equivalent to fair value.

The methods and assumptions used in determining the fair values of financial instruments are disclosed in the accounting policy notes specific to the asset or liability.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2022

## NOTE 28 PARENT ENTITY DISCLOSURES

## b) Financial performance of Cycliq Group Limited

Profit / (loss) for the year	(1,235,601)	(3,058,816)
Other comprehensive income		-
Total comprehensive income	(1,235,601)	(3,058,816)

## c) Guarantees entered into by Cycliq Group Limited

There are no guarantees entered into by Cycliq Group Limited for the debts of its subsidiaries as at 2022 (2021: none).

## NOTE 29 EVENTS SUBSEQUENT TO REPORTING DATE

There are no events of a material nature or transaction, that have arisen since year end and the date of this report that has significantly affected, or may significantly affect, the Group's operations, the results of those operations, or its state of affairs.

## DIRECTORS' DECLARATION

The Directors of the Company declare that:

1. The financial statements and notes, as set out on pages 19 to 50 are in accordance with the *Corporations Act 2001* (Cth) and:
  - a) comply with Accounting Standards;
  - b) are in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board, as stated in Note 1 to the financial statements; and
  - c) give a true and fair view of the financial position as at 30 June 2022 and of the financial performance for the year ended on that date of the Company and the Consolidated Group.
2. The Chief Executive Officer (equivalent) and Chief Finance Officer (equivalent) have each declared that:
  - a) the financial records of the Company for the financial year have been properly maintained in accordance with s286 of the *Corporations Act 2001* (Cth);
  - b) the financial statements and notes for the financial year comply with the Accounting Standards; and;
  - c) the financial statements and notes for the financial year give a true and fair view.
3. In the Directors' opinion, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors and is signed for and on behalf of the directors by:

Xavier Kris

Non- Executive Chairman

Dated this Thursday, 25 August 2022

## INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF CYCLIQ GROUP LTD

### Report on the Audit of the Financial Report

#### Opinion

We have audited the financial report of Cycliq Group Ltd ("the Company") and its subsidiaries ("the Group"), which comprises the consolidated statement of financial position as at 30 June 2022, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion:

- a. the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:
  - (i) giving a true and fair view of the Group's financial position as at 30 June 2022 and of its financial performance for the year then ended; and
  - (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.
- b. the financial report also complies with International Financial Reporting Standards as disclosed in Note 1(a).

#### Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's *APES 110 Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Material Uncertainty Related to Going Concern

Without qualifying our opinion, we draw attention to Note 1 (aiii) in the financial report which indicates that the Group incurred a net loss of \$770,832 during the year ended 30 June 2022. As stated in Note 1 (aiii), these events or conditions, along with other matters as set forth in Note 1 (aiii), indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in this respect of this matter.

## Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
<p><b>Revenue recognition</b> (Refer to Note 2)</p> <p>During the year the Group generated revenue of \$4,697,034.</p> <p>Revenue recognition is considered to be a key audit matter due to the judgement and estimates involved in determining when the performance obligations are met and revenue is recognised.</p>	<p>Our audit procedures included but were not limited to:</p> <ul style="list-style-type: none"><li>• Documenting the processes and assessing the internal controls relating to revenue processing and recognition;</li><li>• Reviewing the revenue recognition policy for compliance with AASB 15 <i>Revenue from Contracts with Customers</i>;</li><li>• Reviewing a sample of revenue to supporting contracts to ensure revenue was recognised in line with the revenue recognition policy;</li><li>• Assessing cut-off of revenue at year end and ensuring revenue has been recorded in the correct reporting period; and</li><li>• Assessing the appropriateness of the disclosures included in the relevant notes to the financial report.</li></ul>

## Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2022, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error. In Note 1(a), the directors also state in accordance with Australian Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial report complies with International Financial Reporting Standards.

In preparing the financial report, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

## Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Report on the Remuneration Report

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2022. The directors of the Company are responsible for the preparation and presentation of the remuneration report in accordance with s 300A of the *Corporations Act 2001*. Our responsibility is to

express an opinion on the remuneration report, based on our audit conducted in accordance with Australian Auditing Standards.

**Auditor's Opinion**

In our opinion, the Remuneration Report of Cycliq Group Ltd, for the year ended 30 June 2022, complies with section 300A of the *Corporations Act 2001*.
