Overview of operating results

Revenue from ordinary activities in 2022 of \$82 million was up \$3.4 million, or 4%, from \$78.6 million, despite the challenging conditions faced in Q3. Atomos released the first of its Series 2 'connected' products in June 2022 (Shogun Connect, Atomos Connect and Zato Connect), which have each been well-received.

Net loss after tax for the year was at \$6.0 million as compared to a profit of \$4.2 million in 2021. This was primarily driven by:

- Drop in gross profit of \$4.8 million due to several one-off items, including temporary price drops/promotions on Ninja V / V+ to drive yearend sales, clearance of discontinued products, increased input costs and downward pressure on selling prices;
- Increase in operating costs of \$3.1 million primarily due to resumption of tradeshows;
- No jobkeeper subsidy or gain on modification of lease aggregating to \$1.3 million; and
- Increase in depreciation and amortisation and finance costs aggregating to \$1 million

Notes to the Consolidated Financial Statements

Review of Operations

FY22 was impacted by several one-offs including temporary price drops/promotions, increases in headcount (not required and since removed), costs to establish cloud services and founder transtion costs.

Revenue of \$82 million was up \$3.4 million, despite challenging conditions faced in Q3. Atomos also released the first of its Series 2 'connected' products in June 2022 (Shogun Connect, Atomos Connect and Zato Connect), which have each been well-received. These devices have the groundbreaking ability to connect to cloud-based workflows and support live streaming to a range of online services, including Facebook Live, Twitch, and YouTube.

Review of Operations (continued)

Revenue

Revenue of \$82 million was 4% higher than 2021 primarily due to growth in demand for the company's products.

Gross Profit

Gross Profit margin dropped by \$4.8 million due to several one-off items, including temporary price drops/promotions on Ninja V / V+ to drive yearend sales, clearance of discontinued products, increased input costs and downward pressure on selling prices.

Operating Costs

Operating costs of \$33.9 million were \$4.6 million or 16% up on 2021 operating costs. These costs included non-recurring items aggregating to \$3.8 million. Operating costs adjusted for non-recurring items of \$30.1 million compared to \$29.3 million in 2021.

EBITDA

The EBITDA loss of \$1.2 million is impacted by the factors above. The underlying EBITDA after adjusting for one-off/non-recurring items is \$4.5 million which is \$3.7 million or 45% lower than 2021.

Finance Costs

Finance costs increased by \$0.3 million primarily due to the new debt facility.

Depreciation and Amortisation

Depreciation and amortisation increased by \$0.7 million primarily driven by higher depreciation/amortisation on production related assets.

Income Tax Expense

Income tax expenses incurred of \$0.4 million during the period relates to non-Australian 100% owned subsidiaries where a taxable profit was reported, offset by unwinding of deferred tax liability.

Net Profit / (Loss) After Tax

The consolidated loss of the Group for the financial year after providing for income tax amounted to \$6.0 million (2021: profit \$4.2 million).
