The loss for the consolidated entity after providing for income tax and non-controlling interest amounted to \$956,841 (30 June 2020: \$6,280,415).

The loss for the consolidated entity after providing for income tax and non-controlling interest amounted to \$956,841 (30 June 2020: \$6,280,415) attributable to the following:

- The main source of income was derived from hotel operations during the year. Despite the challenges caused by the pandemic with restrictions and lockdowns, it was pleasing to report the hotel finished the financial year with a positive net result.
- The employee expenses included \$230k of termination cost as a result of closing down and suspension of the retail businesses in the FY 2021.
- The Company has implemented rigorous cost control measures by minimising fixed operating costs. During the financial year, the Company terminated two lease contracts resulting in a substantial decrease in on-going occupancy and operational expenses hence resulting in decreased losses compared to last financial year.
- Management remains open to once again playing an active role in the "health and well-being" sector in the inbound tourist retail market as demand for travel increases as restrictions ease globally.
