SYDNEY, Australia, September 13, 2022: Imugene Limited (ASX:IMU), a clinical stage immuno-oncology company, is pleased to announce a Placement of A\$80 million at \$0.20 per share. The Placement is being subscribed by two leading institutional investors with significant healthcare and biotechnology expertise.

The funds raised under the Placement, in addition to the Company's existing cash position, will provide an extended runway for Imugene's deep pipeline of clinical programmes. Partnering and licensing opportunities and R&D rebates have the potential to extend the runway further.

Imugene Founder and Executive Chairman Paul Hopper said: "This capital raising ensures a long runway for the existing programmes while also providing flexibility to add complementary assets should attractive opportunities present. The ability to introduce two high calibre institutional investors onto the share register following what has been a volatile period across biotechnology indices speaks to the quality of the Company's unique clinical platforms. With minimal dilution to existing shareholders of only 6.8%, and with such a definitive statement of investment support for Imugene by two prominent funds, the Board believes we have a significant opportunity to maximise value for all Imugene shareholders."

Imugene Managing Director and CEO Leslie Chong said: "We are pleased to strengthen the company's balance sheet and give ourselves an unimpeded runway to progress the numerous clinical trials that

¹ Based on 30 June 2022 reported cash position, less offer costs

we have ongoing. By having these multiple shots on goal well-funded gives them the best chance of success, which we expect will translate into shareholder value and improved patient outcomes.”
