ARDIDEN LIMITED CHAIRMAN'S LETTER

Dear Fellow Shareholders,

I am exceptionally pleased to present the Annual Report for Ardiden Limited for the financial year 2022. I joined Ardiden in December 2021, after closely following the Company's successes for some time, and it has been thoroughly rewarding to join this exciting venture throughout the remainder of FY2022 and beyond.

The financial year has proven to be an extremely eventful period for Ardiden Limited in which the Company significantly progressed systematic gold exploration and increased its strategic landholding at the highly prospective Pickle Lake Gold Project within the internationally recognised Uchi Geological Sub-Province in Ontario, Canada. Meanwhile, the Company has maintained its exposure to the battery metals market through its strategic lithium holdings and also made key board and management appointments.

Ardiden boasts the largest continuous land holding in the Uchi Belt through its flagship Pickle Lake project and its strategy is to build value for shareholders by systematically exploring high-value targets to uncover economic quantities of gold, while also continuing to expand this already sizable land holding.

It should also be noted the Company's ESG principles are central to this strategy, with the Company continuing its focussed engagement with First Nation groups and other stakeholders. The ESG activities are important for the community but also have wide ranging benefits for the Company. For example, during the year Ardiden received multiple 3-year exploration work permits across the project without delay, primarily due to our ESG track-record and positive reputation.

In terms of the execution of Ardiden's strategy, it has been a highly active year. Ardiden seized the opportunity to stake attached tenure in areas identified as prospective for gold, increasing its project size by 25% to 1,088 square kilometres.

At the Western Hub, Ardiden undertook a significant diamond core drill program during the period across the Esker, Tonsil, Dorothy and Dobie prospects to test structural targets defined from geophysics as well as to verify historical results at several prosects.

A total of 43 drill holes for 5,939 metres along 20km of the hub were completed during the period, targeting the Golden Patricia geological sequence both to the north-west and to the south-east of the historical underground mine.

Importantly, the narrow high-grade and wide lower grade gold results Ardiden has received to date from 15 holes of the 43-hole programme have been extremely encouraging.

Drilling at four of Ardiden's gold prospects along the Western Hub underscores the expansive upside to the remaining gold prospects held by the Company.

While Ardiden still awaits the majority of results from the 6,000m drill campaign on the Western Hub, the assays received so far have gone a long way to supporting Ardiden's current geological model while enhancing our knowledge and confidence as we work to unlock the full gold potential at the Western Hub.

The Company remains excited to highlight three types of shallow mineralisation styles across the Western Hub; there is nuggety high grade gold over short intervals with up to 472g/t gold, moderate 4m to 8m intervals running at 3g/t to 8g/t Au, and thick intervals at a lower gold grade, such as 20.65m at 3.6g/t Au and 30.65m @ 1.57g/t Au at Dorothy (Refer ASX 17 August 2022).

To assist with the next phase of drill targeting, Ardiden's geology team is in the process of constructing a robust geological model which will provide an updated understanding of the mineralisation styles along the Western Hub.

During the period, Ardiden has also retained upside exposure to the battery metals market through its 20% free-carried Project interest at Seymour, Root and Wisa Lithium properties and from its 5.14% ownership of ASX-listed, Green Technology Metals (ASX: GT1).

GT1 has been very active on the exploration front throughout FY22, commencing drilling at the Seymour Lithium Project, updating the Seymour Mineral Resource Estimate to 9.9Mt @ 1.04% Li2O based on an

ARDIDEN LIMITED CHAIRMAN'S LETTER

additional 26,234m of diamond core drilling (Refer GT1 release 23 June 2022) and commencing drilling at Root Lake, a second joint-ventured lithium project located 40km southwest of Pickle Lake post period-end.

On the corporate front, Ardiden welcomed veteran entrepreneur and experienced New York-based investor relations specialist Michelle Roth as an Independent Non-Executive Director. Michelle's appointment has greatly assisted us with our connections in key investor markets throughout North America and Europe and has complemented the significant, existing mining and corporate experience on our board.

I would also like to take this opportunity to recognise Robin Longley's efforts as Managing Director and CEO over the past few years and wish him all the best in his future endeavours. A comprehensive process is now underway to recruit a new CEO to lead the executive team and deliver on the Company's strategy and objectives moving forward.

Lastly, I would like to thank our loyal shareholders for their unwavering support over the past year. With the extensive systematic exploration programme we have underway at Pickle Lake, I genuinely feel that we have a remarkable opportunity on our hands. Coupled with our upside exposure to the battery metals market via our 20% free-carried Project interest on Lithium properties and 5.14% stake in Green Technology Metals, the upside potential is significant in FY2023 and I can't wait to share our successes with you during the coming year.

STRATEGY

NATURE OF OPERATIONS AND PRINCIPAL ACTIVITIES

Ardiden Limited (ASX: ADV) is an ASX-listed exploration company focused on creating shareholder value by exploring, making discoveries, and building gold resources at its Pickle Lake Gold Project, located in northwest Ontario. The Company's 1,088km² (108,800 hectare) District-Scale Gold Project is the largest continuous gold land holding in the Uchi Belt, where Barrick, Newmont Kinross and Evolution all hold significant gold mining and exploration assets. Pickle Lake produced over 3 Moz of gold up to 1997 and has remained vastly under-explored since.

Figure 1 – Location of the Pickle Lake Gold Project within the Uchi Geological Subprovince of NW Ontario

Ardiden also has a free carried 20% interest in a Lithium Joint Venture with Green Technology Metals (ASX:GT1). Ardiden's free carry is until the earlier of completion of a positive Bankable Feasibility Study or a GT1 Decision to Mine. In addition, under the JV, each party retains off-take / marketing rights in the same percentage as their respective JV interest. In addition to the 20% Lithium Project ownership, Ardiden also owns ~13 million shares in GT1 currently valued at ~\$10.1M¹

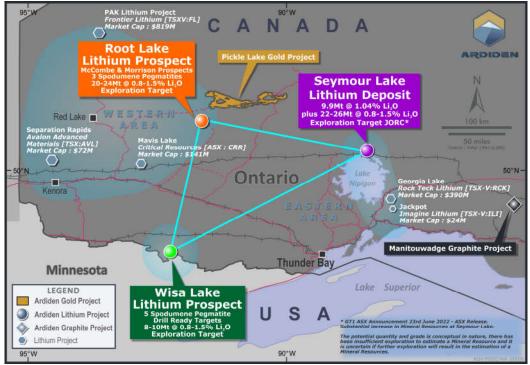

Figure 2 - Location of Ardiden's Three Joint Ventured Lithium assets in northwest Ontario.

¹ Calculated on closing price of GT1 on 20 September 2022 of \$0.78. The Shares are subject to escrow until November 2023.

The Pickle Lake Gold Project consists of three advanced gold deposits (Kasagiminnis, Dorothy and Dobie) and around 23 other identified brownfields and greenfields gold prospects over a 100km wide belt.

Figure 3 - Pickle Lake's Western, Eastern and Southern Hubs, showing the 23 Gold Prospects already identified

Refer ASX 10 September 2019. The potential quantity and grades stated for the Exploration Target at Kasagiminnis is conceptual in nature and there has been insufficient exploration to define Mineral Resources across the exploration target area. It is uncertain if further exploration of these targets will produce results that permit additional Mineral Resources to be estimated.

Ardiden's strategic gold landholding is situated on the same geological belt as Red Lake, also within the Uchi Belt. Red Lake has produced over 30Moz of gold to date and is where new Tier-1 gold discoveries are still being made, such as Great Bear Resource's Dixie Project, which is now under new ownership following the successful CAD\$1.6 billion acquisition by Kinross Gold Corporation during the year.

Ardiden is ranked second overall for landholding in the Uchi Greenstone Belt behind fellow Australian gold company, Evolution Mining Ltd which has mining operations in Red Lake and significant exploration ground immediately south of the Company's Pickle Lake Gold Project.

Aside from Ardiden's 1,088 km² Pickle Lake Gold Project, the northwest region of Ontario also hosts gold projects of:

 Majors: Barrick (Hemlo, Golden Patricia/Pickle Lake, Kenorland -South Uchi), Kinross (Dixie), Newmont (Musselwhite) and Evolution Mining (Red Lake, Bateman/Red Lake, Pickle Lake);

• Mid-tiers: Pure Gold (Madsen/Red Lake), First Mining Gold (Springpole), Newgold (Rainy River) Treasury Metals (Goliath) and Auteco (Pickle Crow/Pickle Lake).

OPERATIONS REVIEW

PICKLE LAKE GOLD PROJECT

The Pickle Lake Gold Project ("Pickle Lake" or "the Project") is an extensive exploration land package that includes brownfield exploration opportunities along strike of past producing gold mines at Golden Patricia (Barrick), Dona Lake (Newmont) and the Central Patricia mine (privately owned). Ardiden's gold acreage also encompasses large areas of under-explored greenfield exploration potential. During the year, the Company increased the project size by 25% from 870km² to 1,088km² by staking attached available tenure in areas identified as prospective for gold.

The Company also received multiple exploration 3-year work permits across the gold project. The acceleration of permitting during the period is testament to Ardiden's enactment of responsible ESG principles and underpins our excellent reputation and good standing in the region as responsible operators with both stakeholders and permitting agencies.

The work permits are being awarded to the Company without delay which is built largely on Ardiden's regular consultation with First Nation groups and other stakeholders across the area, and the Company's willingness to accommodate cultural and seasonal traditions when designing work activities across the expansive gold project. Ardiden has a large choice of fully permitted areas to work and is continually pursuing opportunities to engage with local services and labour as part of its ESG initiatives.

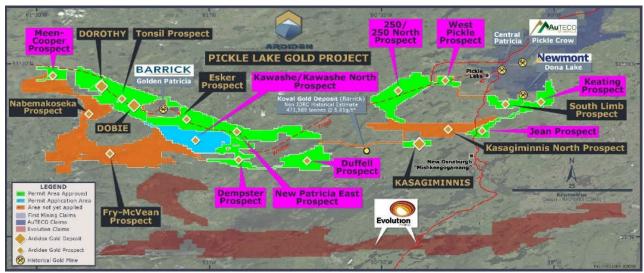

Figure 5 - Ardiden's Gold Prospects at the Pickle Lake Gold Project.

The Western Hub, Pickle Lake Gold Project: The Western Hub encompasses a 60km strike length of under-explored highly favourable geology and structural settings for gold mineralisation either side of the Golden Patricia mine (Barrick), which produced over 600,000oz of gold.

During the year, Ardiden has completed a 43-hole drill programme along 20km of the Western Hub for a total of 5,939m. Drilling was designed to test structural targets defined from geophysics, as well as to verify historical results at several prospects.

Drilling at the Western Hub so far has completed 43 holes for 5,939m of fully oriented diamond core to a maximum depth of 252m, comprising:

- 1. Esker Prospect 18 holes for 2,206m
- 2. Tonsil Prospect 19 holes for 2,680m
- 3. Dorothy Prospect 3 holes for 655m
- 4. Dobie Prospect 3 holes for 398m

^{*} Non-JORC historical estimates (Seim 1993) by MNDM OFR5869 of the Koval Deposit were summarised in the 1993 non-NI 43-101 report. The historical resource estimates are not reported in accordance with the JORC Code and a competent person has not done sufficient work to classify the historical estimates as mineral resources in accordance with the JORC Code. It is uncertain that following evaluation and further exploration work that the historical estimates will be able to be reported as mineral resources in accordance with the JORC Code.

Ardiden's drilling is targeting the Golden Patricia geological sequence both to the north-west and to the southeast of the historical underground mine. The mine was developed to 750m vertical depth over a 3km strike length and extracted 619,796oz Au @ 15.2g/t Au² and ceased operations in 1997 due to poor gold prices.

Ardiden's drill programme will expand over time to the full 60km length of the entire Western Hub belt and test the Bear Head Fault Zone which is just to the north and parallel to the known Golden Patricia trend of gold mineralisation.

High-grade gold results from the programme (ASX Release 14 June and 17 August 2022) have confirmed the Company's targeting strategy along the Golden Patricia trend and supports a broader vision for what Ardiden anticipates at Pickle Lake as it better understands the controls of gold mineralisation and opportunities to make significant discoveries.

Gold prospectivity along the Western Hub is further evidenced by Ardiden's 100%-owned Dorothy-Dobie Prospects (historical estimate³ of 99,600 oz Au @ 5.7 g/t Au (refer ASX release 2 August 2017) and Barrick's' Golden Patricia Mine (619,796 oz @ 15.2g/t Au production from 1988 to 1997)⁴.

As at the end of the year, results were still being received from the 6,000m drill campaign on the Western Hub at the Dorothy, Tonsil, Dobie and Esker gold prospects. Results from 15 of the 43-hole programme had been received with best intercepts summarised and highlighted in yellow below, alongside historical drilling at these prospects:

Geological Assessment

Ardiden's Geology team will finalise a robust geological model which will further assist with the next phase of drilling via an updated understanding of the mineralisation styles along the Western Hub.

At the Esker Prospect, drilling so far has only been undertaken on the first of four targeted areas immediately south-east of Barricks Golden Patricia Mine (Figure 9).

Each of the remaining three target areas at Esker, identified by detail geophysical and structural modelling, represent a 2km prospective strike length each, underpinning the size and potential within the landholding.

³ Non-JORC historical estimates of the Dorothy and Dobie Deposits, are not reported in accordance with the JORC Code and a competent person has not done sufficient work to classify the historical estimates as mineral resources in accordance with the JORC Code. It is uncertain that following evaluation and further exploration work that the historical estimates will be able to be reported as mineral resources in accordance with the JORC Code

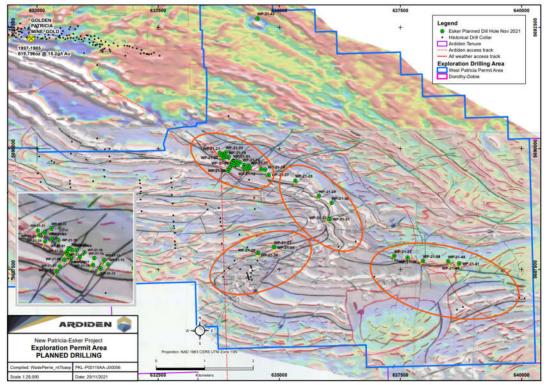

Figure 9: Four Key Target Areas at Ardiden's Esker Prospect, immediately south-east of the Golden Patricia Mine

Drilling at four of Ardiden's gold prospects along the Western Hub at Pickle Lake, underscores the expansive upside to the remaining gold prospects held by the Company. Drill results support Ardiden's current geological model while enhancing our knowledge and confidence as we work to unlock the full gold potential at the Western Hub.

The Company remains excited to highlight three types of shallow mineralisation styles across the Western Hub; there is nuggety high grade gold over short intervals with up to 472g/t gold, moderate 4m to 8m intervals running at 3g/t to 8g/t Au, and thick intervals at a lower gold grade, such as 20.65m at 3.6g/t Au and 30.65m @ 1.57g/t Au at Dorothy.

Ardiden conducted a series of structural and lithological desktop studies in 2021 with Southern Geoscience Consultants and renowned structural geologist, Leigh Rankin, to gain an understanding of the company's "Belt Scale" Pickle Lake Gold Project. The work was centred on a technical assessment from the historical drilling, recent geophysical data obtained from a low-level, high-resolution ground magnetic survey and reprocessed historical government surveys. This generated a series of targets and a hypothesized lithological and structural interpretation of the Western Hub.

Typically, these high-grade systems are present within Archean Greenstone belts such as the Uchi Sub Province. The lode style gold system is characteristically present with stratiform, strata-bound series of mafic volcanics, an upper and lower felsic maker sequence, intermediate volcanics, metamorphic sequence of greenschist to amphibolite facies and iron bearing metasediment rocks.

Ardiden's drilling has confirmed the presence of high-grade gold mineralisation in both the primary and secondary structures and continuity of the Golden Patricia mineralised zone with a strike length over 20km across the four prospects. The current geological model as illustrated in Figure 10 demonstrate extensive mineralisation with the limited drilling across the Western Hub.

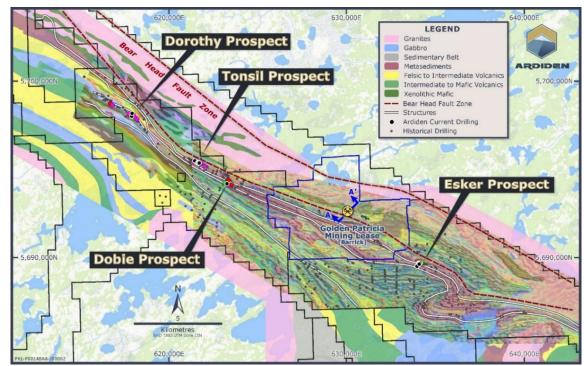

Figure 10-Drilling Locations along the Western Hub – (Cross-section line A—A' through Golden Patricia Mine shown on Figure 3)

As reported in early 2020, Ardiden entered into an earn-in arrangement with Exiro Minerals Corp over their New Patricia landholding at Pickle Lake (refer announcement 6 January 2020). New Patricia includes the Esker Gold prospect, part of the Western Hub where Ardiden has recently been drilling. Ardiden believes it has now completed its aggregate assessment exploration work necessary to meet 100% ownership of the Exiro Claims. The 100% earn-in will be completed conclusively after the Ontario Mines Department and Exiro has received and accepted Ardiden's Assessment work reports. This will result in Ardiden holding 100% ownership over its entire District-scale 1,088km² (108,800 hectare) Gold Project.

LITHIUM JOINT VENTURE

Ardiden retains upside exposure to the battery metals market through its 20% free-carried project interest at Seymour, Root and Wisa Lithium projects and from its 5.14% (as at 22 September 2022) ownership of ASX-listed, Green Technology Metals (ASX: GT1).

During the year, Green Technology Metals, commenced drilling at the Seymour Lithium Project within a few weeks of its November 2021 ASX listing. The Seymour Mineral Resource Estimate was updated to 9.9Mt @ 1.04% Li₂O based on an additional 26,234m of diamond core drilling that was solely funded by Green Technology Metals (Refer GT1 release 23 June 2022).

GT1 commenced drilling in August 2022 at a second joint-ventured Lithium project, Root Lake, located 40km southwest of Ardiden's Pickle Lake Gold Project.

SUMMARY OF FINANCIAL PERFORMANCE

The financial results of the Group for the financial year ended 30 June 2022 and 30 June 2021 are:

		30 June 2022	30 June 2021	% Change
Tot	tal Income(\$)	4,764,923	200,577	2276%
Ne	t profit/(loss) after tax (\$)	2,866,236	(1,234,220)	332%
Ea	rnings/(Loss) per share (cents)	0.12	(0.06)	-
Ca	sh and cash equivalents (\$)	4,372,317	1,239,346	352%
Ne	t Assets (\$)	25,948,238	16,701,723	55%

The net profit of the Group for the year ended 30 June 2022 was \$2,866,236. Included in the revenue total is the \$2,291,906 gain on the 80% disposal of the lithium project during the period to Green Technology Metals (Refer below). In addition, there was a gain on fair value of listed investments of \$2,471,198 arising from the appreciation in market value of the GT1 shares received as part consideration.

During the year ended 30 June 2022 the Group's net cash position increased by \$3,132,971 to \$4,372,137 and the Group has no corporate debt. The increase was predominantly influenced by cash inflows associated with:

- \$3,250,000 cash proceeds received from the 80% disposal of the lithium project during the period to Green Technology Metals; and
- Net placement proceeds of \$6,052,791.

These inflows were offset by outflows associated with:

- Expenditure related to exploration and evaluation of \$4,653,264;
- Payments for plant and equipment of \$121,451; and
- Corporate, administration and wage expenditure of \$1,430,558.

CHANGES IN EQUITY

Shares

The number of shares on issue increased during the year from 2,149,354,216 to 2,668,335,356 as a result of the following:

- (i) On 7 October 2021, the Company issued 3,981,140 shares as part consideration for investor relations services. The shares were issued to Michelle Roth who was not a related party at the time.
- (ii) On 16 December 2021, the Company issued and allotted 15,000,000 ordinary shares to Exiro Minerals Corp (Exiro), the vendor of the New Patricia Gold Prospect. This allotment is part of the consideration under the terms of the agreement announced by the Company on 6 January 2020, to acquire 100% of the New Patricia Gold Prospect.
- (iii) On 18 February 2022, the Company issued 492,307,000 fully paid ordinary shares at \$0.013 per share to sophisticated and institutional investors. A further 7,693,000 fully paid ordinary shares were issued to directors upon receipt of shareholder approval on 14 April 2022 on the same terms and conditions. Total proceeds for both issues were \$6,500,000 before costs.

Options

The number of options on issue increased during the year from 59,625,000 to 71,650,030 as a result of the following:

- (i) In conjunction with the Placement, 40,025,030 unlisted options were issued to Bell Potter Nominees. Each option has an exercise price of \$0.0195 per option and expires on 20 April 2026.
- (ii) On 5 April 2022, the Company issued 17,000,000 Unlisted Incentive Options to employees each having an exercise price of \$0.022 per Option and an expiry date of 4 April 2026.
- (iii) Expiry of 45,000,000 options (various expiry dates and exercise prices) without exercise.

CORPORATE

Board Appointments

During the year, Ardiden appointed highly experienced mining executive, Mr Bruce McFadzean, to the position of Independent Non-Executive Chair. Mr McFadzean, a qualified mining engineer, has over 40 years' experience in company leadership, corporate transformation, strategy, project construction, company mergers and acquisitions. He was the Managing Director of ASX gold miner Catalpa Resources Limited, which under Mr McFadzean's management saw its market capitalisation grow from AUD\$10 million to AUD\$1.2 billion following a merger to create Evolution Mining Limited (ASX: EVN). He was most recently the Managing Director of Sheffield Resources Ltd.

Ardiden bolstered its skills further with the appointment of Michelle Roth as an Independent Non-Executive Director. Ms Roth is a veteran entrepreneur and experienced New York-based investor relations specialist who has formulated comprehensive shareholder engagement solutions for a worldwide client base. She currently serves as a Chairperson of Canadian gold exploration company Maple Gold Mines (TSX.V: MGM, OTCQB: MGMLF) and acts as a strategic advisor to royalty and streaming company Nova Royalty (TSX.V: NOVR).

AGM

Ardiden's Annual General Meeting (AGM) of Shareholders was held in West Perth on 24 November 2021. All resolutions put to shareholders were approved except for resolutions 6-8 which related to the grant of equity incentives to Directors Hackett, Gately, and Longley.

FACTORS AND RISKS AFFECTING FUTURE PERFORMANCE

LIKELY DEVELOPMENTS AND EXPECTED RESULTS

Ardiden will continue to pursue its principal activity of exploration and evaluation, particularly in respect of its Gold Projects, as outlined under the heading 'Review of Operations' of this Report. The Company will also continue to pursue other potential investment opportunities to enhance shareholder value. In addition, its remaining 20% ownership of its Joint Venture Lithium Projects will be advanced by GT1 under the terms of the joint venture.

The material business risks faced by the Group that are likely to impact the financial prospects of the Group, and how the Group manages these risks are:

Exploration Risk

Mineral exploration and development are high-risk undertakings, and there is no assurance that exploration of the tenements will result in the discovery of an economic deposit. Even if an apparently viable deposit is identified there is no guarantee that it can be economically exploited.

Ardiden's future exploration activities may be affected by a range of factors including geological conditions, limitations on activities due to permitting requirements, availability of appropriate exploration equipment, exploration costs, seasonal weather patterns, unanticipated operational and technical difficulties, industrial and environmental accidents, and many other factors beyond the control of the Company.

Future capital needs

Further funding will be required by the Group to support its ongoing activities and operations. There can be no assurance that such funding will be available on satisfactory terms or at all.

General market risks

The Company is exposed to general market and economic condition risks including adverse changes in levels of economic activity, exchange rates, interest rates, commodity prices, government policies, employment rates and industrial disruption.

COVID -19

The COVID-19 pandemic continued throughout the year but did not cause material disruption to the Group's planned activities beyond delays arising from delivery of services. There has been no material impact to the value of the Group's assets and therefore no adjustments have been made to the Group's net results for 30 June 2022 for the impacts of COVID-19.

At the date of this report, the Group expects to be able to execute its operations as planned for 2022/23. However, the scale and duration of possible future Government measures to limit the spread of the COVID-19 virus, and their impact on the Group's operations and financial situation, necessarily remains uncertain. The Group's priority remains the safety and wellbeing of its employees, contractors, and stakeholders, including its First Nations partners. The Company has been pro-active in its response and has developed protocols and procedures in line with Australian and Canadian government health directives.

CORPORATE STRUCTURE

Ardiden Limited is a limited liability company that is incorporated and domiciled in Australia. Ardiden Limited has prepared a consolidated financial report incorporating the entity that it controlled during the financial year as follows:

Ardiden Limited Parent Entity

Ardiden Canada Ltd 100% owned and controlled entity

Uchi Gold Canada Ltd 100% owned and controlled entity (incorporated 20 June 2022)

DIVIDENDS

No dividends were declared or paid during the year and no recommendation is made as to dividends.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

During the year, the Company completed an agreement pursuant to which Green Technology Metals Limited (GT1) acquired up to an 80% interest in Ardiden's Seymour Lake, Root Lake and Wisa Lake Lithium Projects in north-west Ontario, Canada (together, the Lithium Projects).

The material terms of the agreement are as follows:

Consideration

The total consideration paid by GT1 was \$9,200,000⁵ comprised of the following:

- (i) \$1,500,000 was received in cash when shareholders approved the transaction on 15 September 2021;
- (ii) \$4,000,000 was received at completion on 4 November 2021 comprised of:
 - (A) \$1,750,000 in cash; and
 - (B) \$2,250,000 of GT1 shares (ASX: GT1),

(First Tranche Consideration).

A 51% interest in the Lithium Projects was transferred to GT1 upon delivery of the First Tranche Consideration; and

- (ii) As of 28 March 2022, is Ardiden 20% and GT1 80%.

Ardiden also retains an initial free-carry interest in the joint venture, up to completion of a Bankable Feasibility Study or Decision to Mine.

In the opinion of the Directors, there were no other significant changes in the state of affairs of the Consolidated Entity that occurred during the financial period under review not otherwise disclosed in this report or in the financial report.

EVENTS SUBSEQUENT TO REPORTING DATE

On 15 September 2022, Robin Longley resigned as Managing Director and CEO. A comprehensive process to recruit a new CEO to lead the executive team and deliver on the Company's strategy and objectives moving forward is currently underway.

The Board will undertake additional duties to support experienced Exploration Manager, Haydn Daxter, and CFO, Tara Robson, who will assume responsibility for the day-to-day operations of the Company.

Whilst exploration activities have been able to continue, the impact of the Coronavirus (COVID-19) pandemic is ongoing. It is not practical to estimate the potential impact, positive or negative, after the reporting date. The situation is continually developing and is dependent on measures imposed by the Australian and Canadian Governments, and other countries, such as maintaining social distancing requirements, quarantine, travel restrictions and economic stimulus that may be provided.

Apart from the above, no other matters or circumstances have arisen, since the end of the financial year, which significantly affected, or may significantly affect, the operations of the Group, the results of those operations, or the state of affairs of the Group in subsequent financial years.

⁵ Including A\$200,000 non-refundable fee received in the previous year in consideration of its Option exercise.

REMUNERATION REPORT (AUDITED)

The information in this section of the Directors' Report has been audited.

This report outlines the remuneration arrangements in place for Key Management Personnel (KMP) of Ardiden Limited (the Company) in accordance with the requirements of the Corporations Act 2001 and its Regulations. For the purposes of this report, KMP of the Group includes Non-Executive Directors and those Executives with authority and responsibility for planning, directing, and controlling the major activities of the Group.

The details of the KMP during the year are as follows:

Rob Longley	Managing Director and Chief Executive Officer	Full financial year
Neil Hackett	Non-Executive Director (Chair to 1 December 21)	Full financial year
Pauline Gately	Independent Non-Executive Director	Full financial year
Michelle Roth	Independent Non-Executive Director	10 January 2022 - current
Tara Robson	Chief Financial Officer and Company Secretary	Full financial year

Board Committees

On 25 October 2021, the Board resolved that all activities previously undertaken by Committees would be undertaken by the Board as a whole, save circumstances where there is a conflict of interest. The Board believes this is the most efficient manner to undertake these activities given the size of the Board. The Board continues to maintain the charters of each Committee and has nominated an Independent Chair for each Committee to ensure all required activities are undertaken.

Remuneration and Nomination Committee

The Remuneration and Nomination Committee is responsible for reviewing and determining the remuneration policy and structure annually. Pauline Gately, an independent non-executive director, is the Chair of the Remuneration and Nomination Committee. The Committee's charter can be found on the Company website in the corporate governance section.

Remuneration policy

The Company is committed to ensuring its directors and employees are fairly and responsibly compensated for their time, commitment, and responsibilities. Remuneration is determined, having regard to individual and business performance, relevant comparative market remuneration, and comparable duties. Independent external advice is sought when required. During the year, the Remuneration and Nomination Committee engaged remuneration consultant, The Reward Practice, to assist in formulating its remuneration and retention strategies.

The structure of executive remuneration and of non-executive director remuneration is separate and distinct, with a summary of each structure below.

Executive Remuneration

Objective

The specific objectives of the Executive Remuneration Policy are to:

- motivate executives to manage and lead the business successfully and to drive strong long-term growth in line with the Company's strategy and business objectives;
- drive successful performance by incorporating an annual performance incentive and establish longerterm performance objectives;
- (iii) ensure transparency and reasonableness in executive remuneration policy and practices;
- (iv) deliver a balanced solution addressing all elements of total annual remuneration including base salary; superannuation; benefits and short-term incentives; and
- (v) contribute to appropriate attraction and retention strategies for executives.

Remuneration Structure

	Element	Purpose	Performance metrics	Potential value
9	Fixed remuneration (FR/Gross Fees)	To provide a base level of remuneration which is both appropriate to the position and is competitive in the market.	NIL	Reviewed in 2021/22 using external benchmarking
	Short Term Incentives (STI)	Reward for in-year performance by aligning eligible employees' interests with shareholder interests and focuses on stretch performance.	Project exploration advancement, financial performance, shareholder value, corporate compliance, ESG, stakeholder engagement, and investor relations	CEO: Up to 63% of Gross Fees Other KMP Up to 25% of Fixed Remuneration
	Long Term Incentives (LTI)	Reward executives in a manner which aligns with the creation of shareholder wealth.	Premium- priced options with vesting after 3 years continuous employment and expiration 4 years after issue.	CEO: Up to 50% of Gross Fees Other KMP Up to 30% of Fixed Remuneration

Elements

Executive Fixed Remuneration

Fixed remuneration is delivered as a base salary, plus requisite superannuation contribution for employees of the Company. This is reviewed annually by the Remuneration and Nomination Committee, or on promotion, having regard to the Company and individual performance. It is regularly compared with the external market through participation in industry salary surveys and during recruitment activities generally. If required, the Remuneration and Nomination Committee may engage an external consultant to provide independent advice in the form of a written report detailing market levels of remuneration for comparable executive roles.

Executive Variable Pay - Short Term Incentives (STI)

The objective of short-term incentives is to align eligible employees' interests with shareholder interests. STI metrics focus on stretch performance. STI performance measures are based on both financial and other performance measures deemed appropriate for the Company. This ensures that a proportion of remuneration is tied to overall Company performance, measured annually. STIs may be paid in cash or securities at the discretion of the Board.

Short term incentives of \$180,000 were paid to KMP during the 2021/22 financial year, which related to hurdles achieved in during the previous financial year based on the Company's audited accounts. This sum was paid based on measurement of the following performance hurdles and included an additional amount to compensate for the LTI not passed at the November 2020 AGM.

2020/21 Strategic obje	ectives	Performance measure	Weight Attributed Longley	Weight Achieved Longley
Project Explo Advancement		Resource definition; management of exploration costs; advance lithium opportunity	50%	18%
Shareholder \	/alue	Market capitalisation and institutional shareholding representation	15%	8%
Financial		Company adequately funded to achieve exploration objectives by proactively managing costs and applying strong fiscal responsibility.	10%	10%
Corporate Co	mpliance	Compliance with Australian and Canadian legislative requirements	5%	5%
Environment, Governance	Social &	Progress positive engagement with First Nations; Absence of safety breaches	15%	15%
Stakeholder Engagement		Effective and efficient marking program; Fostering positive stakeholder relationships	5%	5%

During the year, the Company reviewed its remuneration framework, with the assistance of an external expert. In response, the Company increased Mr Longley's Fixed Remuneration (FR) to \$351,500, decreased the percentage of STI available to 63% of FR, and also extended the measurement period to 30 September 2022 to facilitate achievement of project advancement KPIs. This initiative was taken in response to LTI's not passing at consecutive AGMs and comparable salary data. The maximum potential STI, on this basis, is \$221,250 (2021: \$225,000), and is payable in cash within 30 days of calculation period by mutual agreement.

In addition to the above, \$20,000, including superannuation, was paid to T Robson for achievements of objectives in financial and corporate compliance.

2021/22 Strategic objectives	Performance measure	Weight Attributed Longley
Project Exploration and Advancement	Resource definition	50%
Shareholder Value	Market capitalisation and institutional shareholding representation	10%
Financial	Proactively managing costs and applying strong fiscal responsibility.	10%
Corporate Compliance	Compliance with Australian and Canadian legislative requirements	5%
Environment, Social & Governance	Progress positive engagement with First Nations; Absence of safety breaches; Fostering positive stakeholder relationships	25%

Mr Longley resigned on 15 September 2022 and accordingly the above objectives will not be measured.

Variable Pay - Long Term Incentives (LTI)

The Company's LTI plan is designed to provide both retention and encourage long term value creation for key employees.

LTI's granted to executives are delivered in the form of performance options or performance rights (Incentives). These Incentives are issued at an exercise price determined by the Board at the time of issue and generally vest over a selected period with vesting also tied to the performance conditions. The quantum of LTI granted is dependent on the Company's recent share price performance, the seniority of the Executive and responsibilities the Executive assumes in the Company. Details of options issued during the year to KMP are included at Note 19.

Assessing performance and claw-back of remuneration

The Remuneration and Nomination Committee is responsible for assessing performance against KPIs and determining the STI and LTI to be paid. To assist in this assessment, the committee receives detailed reports on performance from management and/ or external parties, which are based on independently verifiably data such as financial measures, market share and data from independently run surveys.

In the event of serious misconduct or a material misstatement in the Company's financial statements, the Remuneration Committee can cancel or defer performance-based remuneration and may also claw back performance-based remuneration paid in previous financial years.

Link between remuneration and performance

There is no direct link between the Group's financial and operating performance at this stage of development except for the conditions within the LTIs. The share price is not directly linked to the net loss for the year, but moves independently of it as demonstrated below:

As at 30 June	2022	2021	2020	2019	2018
Net profit/(loss) per year ended	\$2,866,236	(\$1,234,220)	(\$978,692)	(\$1,186,057)	(\$2,755,449)
Earnings/(Loss) per share (cents)	0.12	(0.06)	(0.06)	(0.07)	(0.25)
Share price (cents per share)	\$0.007	\$0.008	\$0.007	\$0.003	\$0.013

Non-Executive Director Remuneration

Objective

Non-Executive Directors are remunerated at market rates, which reflects the demands made on, and responsibilities entrusted to Non-Executive Directors to ensure maximum benefit for the Company through the retention of a high-quality Board with the relevant skills mix to optimise overall performance.

The specific objectives of the Non-Executive Director remuneration policy are to:

- (i) attract and retain appropriately qualified and experienced directors;
- (ii) remunerate directors fairly having regard to their responsibilities, including providing leadership and guidance to management;
- (iii) drive long term strategy and alignment with shareholders; and
- (iv) promote independence, impartial decision-making and to build sustainable shareholder value by encouraging a longer-term strategic perspective, by not linking fees directly to the results of the Company.

Structure

Non-executive directors' fees consist of fixed base fees at comparable market rates for time, commitment, and responsibilities. There are no separate committee fees, nor are there any retirement benefits paid to Non-Executive Directors.

Base fees are reviewed regularly based on recommendations of the Remuneration and Nomination Committee, having regard to comparable remuneration levels within an aggregate fee pool limit, which is approved by shareholders. The pool limit maximum currently stands at \$250,000 and has not changed for several years. It is at the discretion of the Board to distribute this pool amongst the Non-Executive Directors based on the responsibilities assumed. During the year, \$199,580 of the pool was utilised.

Base fees were adjusted on 1 December 2021 upon appointment of additional directors.

	1///21 - 30/11/21	1/12/21 - 30/6/22
Base fees	\$	\$
Chair	75,000 per annum	85,000 per annum
Non-Executive Director	65,000 per annum	55,000 per annum

Base fees for non-executive directors are not linked to the performance of the Group. However, to align directors' interests with shareholders' interests and to conserve cash, from time to time, director's remuneration may include equity-based incentives. Equity based remuneration is subject to Shareholder approval in accordance with ASX listing rules.

ENVIRONMENTAL REGULATIONS

There have been no recorded incidents of non-compliance with any applicable international, national, or local declarations, treaties, conventions, or regulations associated with environmental issues during the reporting period. There have not been any known significant breaches of any environmental regulations during the year under review and up until the date of this report.

PROCEEDINGS ON BEHALF OF COMPANY

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Company, and no proceedings have been brought or intervened in on behalf of the Company with leave of the Court under section 237.

CORPORATE GOVERNANCE

In recognising the need for the highest standards of corporate behaviour and accountability, the directors of Ardiden Limited support and have adhered to the principles of corporate governance and have established a set of policies and manuals for the purpose of managing corporate governance. The Company's detailed Corporate Governance Statement is lodged with ASX and available on the Company's website.

AUDITOR INDEPENDENCE AND NON-AUDIT SERVICES

The auditor's independence declaration for the year ended 30 June 2022, as required under section 307C of the Corporations Act 2001, has been received and is included within the financial report.

Details of amounts paid or payable to the auditor for non-audit services provided during the year by the auditor are outlined in Note 6 to the financial statements. The directors are satisfied that the provision of non-audit services is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001.

The directors are of the opinion that the services do not compromise the auditor's independence as all nonaudit services have been reviewed to ensure that they do not impact the integrity and objectivity of the auditor and none of the services undermine the general principles relating to auditor independence as set out in the APES 110 Code of Ethics for Professional Accountant (including Independence Standards) (the Code) issued by the Accounting Professional & Ethical Standards Board.

Signed in accordance with a resolution of directors.

Bruce McFadzean

Chair

Perth, Western Australia Dated: 21 September 2022

Auditor's independence declaration under Section 307C of the Corporations Act 2001

To the directors of Ardiden Ltd

I declare that, to the best of my knowledge and belief, in relation to the audit for the financial year ended 30 June 2022 there have been:

- (i) no contraventions of the auditor's independence requirements as set out in the Corporations Act 2001 in relation to the audit; and
- (ii) no contraventions of any applicable code of professional conduct in relation to the audit.

ARDIDEN LIMITED NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

1. CORPORATE INFORMATION

The consolidated financial reports for Ardiden Limited (the "Company" or the "Parent") and its subsidiaries (together referred to as the "Group" and individually as "Group entities") for the year ended 30 June 2022 were authorised for issue in accordance with a resolution of the Board of Directors on 21 September 2022.

The Company is a for profit company limited by shares incorporated and domiciled in Australia whose shares are publicly traded on the Australian Securities Exchange. The nature of the operations and principal activities of the Company are described in the Directors' Report. The presentation currency of the Group is Australian dollar (\$).

The nature of the operations and principal activities of the Group are described in the Directors' Report.

2. BASIS OF PREPARATION

The financial report is a general-purpose financial report, which has been prepared in accordance with the requirements of the Corporations Act 2001, Australian Accounting Standards, and other authoritative pronouncements of the Australian Accounting Standards Board. The financial report also complies with IFRS as issued by the International Accounting Standards Board.

The financial report has been prepared on a historical cost basis, except for financial assets that have been measured at fair value.

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of the new and amended accounting standards and interpretations which became mandatory for the first time this reporting period commencing 1 July 2021.

2.1. New, revised or amending Accounting Standards and Interpretations adopted

The Group has adopted all Australian Accounting Standards and Interpretations effective from 1 July 2021.

In the year ended 30 June 2022, the Directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to the Group and effective for the current financial year. None of these had a material impact on the Group.

2.2 Going Concern

These financial statements have been prepared on the going concern basis, which contemplates the continuity of normal business activities and the realisation of assets and settlement of liabilities in the normal course of business.

As disclosed in the financial report, the Group recorded an operating profit of \$2,866,236 (2021: Loss of \$1,234,220) and a cash outflow from operating activities of \$1,428,958 for the year ended 30 June 2022 (2021: \$854,734) and at reporting date had a working capital surplus of \$3,230,992 (2021: \$966,188). As at 30 June 2022 the Group had cash of \$4,372,317. The ability of the Group to continue as a going concern is principally dependent upon the ability of the Group to continue to secure funds by raising capital from equity markets, monetizing non-core assets and managing cash flows in line with available funds.

Should the Group be unsuccessful in securing additional funds or monetizing non-core assets, there is a material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern, however, notwithstanding this, the accounts have been prepared on a going concern basis.

The directors are satisfied that at the date of signing of the financial report, there are reasonable grounds to believe that the Group will be able to continue to meet its debts as and when they fall due and that it is appropriate for the financial statements to be prepared on a going concern basis. The directors have based this on the following pertinent matters:

 The Directors believe that future funding will be available to meet the Group's objectives and debts as and when they fall due, including through raising additional capital through equity placements to

ARDIDEN LIMITED NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

existing or new investors. The Group has a demonstrated a consistent history of success in this regard as demonstrated by the \$6.5m raising completed in February 2022.

- The Company has approved capacity to issue additional equity under the Corporation Act 2001 and ASX Listing Rule 7.1 or otherwise;
- The Company holds a 20% interest in the Ontario Lithium Joint Venture which could be monetized;
- The Company holds a 100% interest in an Ontario Graphite Project (Manitouwadge), which could be monetized;
- The Company's commitment to exploration expenditure is discretionary and expenditure requirements are minimal;
- The Group has the capacity, if necessary, to reduce its operating cost structure in order to minimise its working capital requirements; and
- Subject to successful capital raising and/or monetization of non-core assets, the cash flow forecast for the period to 30 September 2023 indicates sufficient cash available for planned activities and operations.

The financial report does not include adjustments relating to the recoverability or classification of the recorded assets nor to the amounts or classification of liabilities that might be necessary should the Group not be able to continue as a going concern.

Should the Group be unable to continue as a going concern, it may be required to realise its assets and extinguish its liabilities other than in the normal course of business and at the amounts stated in the financial report. The financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or to the amounts and classification of liabilities that might be necessary should the Group not continue as a going concern.

2.3. Principles of Consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at 30 June each year.

Subsidiaries are all those entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and can affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances, and unrealised gains on transactions between entities in the Group are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred.

Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Non-controlling interest in the results and equity of subsidiaries are shown separately in the statement of profit or loss and other comprehensive income, statement of financial position and statement of changes in equity of the Group. Losses incurred by the Group are attributed to the non-controlling interest in full, even if that results in a deficit balance.

Where the Group loses control over a subsidiary, it derecognises the assets including goodwill, liabilities, and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The Group recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

ARDIDEN LIMITED NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

2.4. Critical Accounting Judgments, Estimates and Assumptions

The preparation of the Group's consolidated financial statement requires management to make judgments in the process of applying the Group's accounting policies and estimates that effect the reported amounts of revenue, expenses, assets, and liabilities. Judgements and estimates which are material to the financial report are as follows:

Share-based Payment Transactions

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments transactions would have no impact on the carrying amounts of assets or liabilities within the next annual reporting period but may impact profit or loss or equity. Refer to Note 19 for further details.

Carrying Value of Exploration and Evaluation Costs

The ultimate recoupment of the value of exploration and evaluation assets is dependent on the successful development and commercial exploitation, or alternatively, sale, of the exploration and evaluation assets.

Impairment tests are carried out on a regular basis to identify whether the asset carrying values exceed their recoverable amounts. There is significant estimation and judgement in determining the inputs and assumptions used in determining the recoverable amounts.

The key areas of judgement and estimation include:

- Recent exploration and evaluation results and resource estimates;
- Environmental issues that may impact on the underlying tenements;
- Fundamental economic factors that have an impact on the operations and carrying values of assets and liabilities.

COVID-19 pandemic

Judgement has been exercised in considering the impacts that the COVID-19 pandemic has had, or may have, on the Group based on known information. This consideration extends to the nature of the services undertaken, vendors, supply chain, staffing and geographical regions in which the Group operates. Other than as addressed in specific notes, there does not currently appear to be either any significant impact upon the financial statements or any significant uncertainties with respect to events or conditions which may impact the Group unfavourably as at the reporting date or subsequently as a result of the COVID-19 pandemic.

2.5. Functional and Presentation Currency

The consolidated financial statements are presented in Australian dollars, which is the Company's functional currency.

Both the functional and presentation currency of Ardiden Limited is Australian dollars. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

The functional currency of the foreign operation, Ardiden Canada Ltd is Canadian dollars ("CAD").

Transactions in foreign currencies are initially recorded in the functional currency by applying the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the reporting date.

All exchange differences in the consolidated financial statements are taken to profit or loss with the exception of differences on foreign currency borrowings that provide a hedge against a net investment in a foreign entity. These are taken directly to equity until the disposal of the net investment, at which time they are recognised in profit or loss.

Tax charges and credits attributable to exchange differences on those borrowings are also recognised in equity. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of the initial transaction.

Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

As at the reporting date the assets and liabilities of these subsidiaries are translated into the presentation currency of Ardiden Limited at the rate of exchange ruling at the reporting date and income and expense items are translated at the average exchange rate for the period, unless exchange rates fluctuated significantly during that period, in which case the exchange rates at the dates of the transactions are used.

The exchange differences arising on the translation are taken directly to a separate component of equity, being recognised in the foreign currency translation reserve.

An employee benefits expense is recognised when the entity consumes the economic benefit arising from services provided by an employee in exchange for employee benefits. The Group's employee benefits comprise wages, salaries, superannuation, annual leave expense and long service leave expense. Liabilities for wages and salaries, including non-monetary benefits, and annual leave that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the statement of financial position. See note 15 for the Group's provisions balances.

Employee benefits	16,699	19,507
Other future deductions	155,557	112,190
	4,345,115	3,606,097

The tax benefit of the above Deferred Tax Assets will only be obtained if:

- (a) The Company derives future assessable income of a nature and of an amount sufficient to enable the benefits to be utilised:
- (b) The Company complies with the conditions for deductibility imposed by law; and
- (c) No changes in income tax legislation adversely affect the Company in utilising the benefits.

The corporate tax rate for eligible companies will reduce from 30% to 25% by 30 June 2022 providing certain turnover thresholds and other criteria are met. Deferred tax assets and liabilities are required to be measured at the tax rate that is expected to apply in the future income year when the asset is realised, or the liability is settled. The Directors have determined that the deferred tax balances be measured at the tax rates stated.

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance date.

Deferred income tax is provided on all temporary differences at the statement of financial position date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- when the deductible temporary difference is associated with investments in subsidiaries, associates, or
 interests in joint ventures, in which case a deferred tax asset is only recognised to the extent that it is
 probable that the temporary difference will reverse in the foreseeable future and taxable profit will be
 available against which the temporary difference can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Unrecognised deferred income tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Income taxes relating to items recognised directly in equity are recognised in equity and not in profit or loss.

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority.

Other taxes

Revenues, expenses, and assets are recognised net of the amount of GST/HST except:

- when the GST/HST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST/HST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables, which are stated with the amount of GST/HST included.

The net amount of GST/HST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

Cash flows are included in the Statement of Cash Flows on a gross basis and the GST/HST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority is classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST/HST recoverable from, or payable to, the taxation authority.

Weighted average number of ordinary shares used in calculating basic and diluted earnings per share (No.)	2,339,846,938	2,104,069,953

Basic profit/(loss) per share is calculated as net profit or loss attributable to members of the parent, adjusted to exclude any costs of servicing equity (other than dividends) and preference share dividends, divided by the weighted average number of ordinary shares, adjusted for any bonus element.

Diluted profit/(loss) per share is calculated as net profit or loss attributable to members of the parent, adjusted for:

- costs of servicing equity (other than dividends) and preference share dividends:
- the after-tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses; and
- other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares; divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

	30 June 2022	30 June 2021
	\$	\$
Cash at bank and on hand	4,372,317	1,239,346

Cash at bank earns interest at floating rates based on daily bank deposit rates. The carrying value approximates fair value.

For the purpose of the Statement of Cash Flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts.

9. TRADE AND OTHER RECEIVABLES

Provision for impairment expense	(24,600)	_
Expenditure carried forward	14,181,860	15,510,089

(i) Included in total expenditure of \$5,375,505 (2021: \$4,709,471) is \$165,000 (2021: \$635,000) of expenditure settled by way of share-based payments. The remaining capitalised costs of \$5,210,505 (2021: \$4,074,471) have been included in cash flows from investing activities in the statement of cash flows for the Group.

The recoupment of exploration and evaluation carried forward is dependent on the successful development and commercial exploitation or sale of the respective areas.

Exploration and evaluation expenditures in relation to each separate area of interest are recognised as an exploration and evaluation asset in the year in which they are incurred where the rights of tenure are current, and the following conditions are satisfied:

- the exploration and evaluation expenditures are expected to be recouped through successful development and exploitation of the area of interest, or alternatively, by its sale; or
- exploration and evaluation activities in the area of interest have not reached a stage which
 permits a reasonable assessment of the existence or otherwise of economically recoverable
 reserves, and active and significant operations in, or in relation to, the area of interest are
 continuing.

Costs include acquisition of rights to explore, studies, exploratory drilling, trenching, assaying, sampling and associated activities and an allocation of depreciation and amortised of assets used in exploration and evaluation activities. General and administrative costs are only included in the measurement of exploration and evaluation costs where they are related directly to exploration activities in a particular area of interest.

A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest. Where carried forward expenditure does not satisfy the policy stated above it is written off to the statement of profit or loss and other comprehensive income in the period in which the decision is made to write off. Accumulated costs in relation to an abandoned area are written off to the statement of profit or loss and other comprehensive income in the period in which the decision to abandon the area is made.

Where a decision has been made to proceed with development in respect of a particular area of interest, the relevant exploration and evaluation asset is tested for impairment and the balance is then reclassified to development.

Cost	268,211	137,740
Accumulated depreciation	(81,263)	(37,735)
Net book amount	186,948	100,005

Capitalised costs amounting to \$121,451 (2021: \$31,983) have been included in cash flows from investing activities in the statement of cash flows for the Group.

Plant and equipment is stated at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is calculated over the estimated useful life of the assets as follows:

- Plant and equipment over 5 to 15 years (straight-line value)
- Computer equipment 3 years (straight-line value)
- Leasehold improvements 3 years (life of lease)

The assets' residual values, useful lives and amortisation methods are reviewed, and adjusted if appropriate, at each reporting date.

For an asset that does not generate largely independent cash inflows, recoverable amount is determined for the cash-generating unit to which the asset belongs, unless the asset's value in use can be estimated to be close to its fair value.

An impairment exists when the carrying value of an asset or cash-generating units exceeds its estimated recoverable amount. The asset or cash-generating unit is then written down to its recoverable amount with the impairment loss recognised in the statement of profit or loss and other comprehensive income.

Derecognition and disposal

An item of plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal.

Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the year the asset is derecognised.

13. RIGHT OF USE ASSETS AND LIABILITIES

Principal payments on lease liability Interest payments on lease liability	62,565 4,289	10,204 883

Right-of-use assets

The Company has a lease over its office space, which it entered into in May 2021. A right-of-use asset is recognised at the commencement date of a lease. The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset.

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the Group expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life. Right-of use assets are subject to impairment or adjusted for any re-measurement of lease liabilities.

Prior to May 2021, the Company recognised \$44,624 in the statement of profit and loss for short-term leases.

Lease liabilities

A lease liability is recognised at the commencement date of a lease. The lease liability is initially recognised at the present value of the lease payments to be made over the term of the lease, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate (2.8%). Lease payments comprise of fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, amounts expected to be paid under residual value guarantees, exercise price of a purchase option when the exercise of the option is reasonably certain to occur, and any anticipated termination penalties. The variable lease payments that do not depend on an index or a rate are expensed in the period in which they are incurred.

Lease liabilities are measured at amortised cost using the effective interest method. The carrying amounts are remeasured if there is a change in the following: future lease payments arising from a change in an index, or a rate used; residual guarantee; lease term; certainty of a purchase option and termination penalties. When a lease liability is remeasured, an adjustment is made to the corresponding right-of use asset, or to profit or loss if the carrying amount of the right-of-use asset is fully written down.

(i) Trade payables are non-interest bearing and are normally settled on 30-day terms.

Trade payables and other payables are carried at amortised cost and represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of these goods and services. Trade and other payables are presented as current liabilities unless payment is not due within 12 months.

- (i) On 20 December 2019 the Company announced it had entered into a Controlled Placement Agreement ("CPA") with Acuity Capital. The CPA provides the Company with up to \$2 million of standby equity capital and expired 31 January 2022. On 21 December 2019, the Company placed 88 million shares from its LR7.1 capacity as collateral, at \$nil consideration to Acuity Capital (Collateral Shares). On 21 July 2020, the Company received a total of \$1,056,000 as settlement for the transfer of 88,000,000 shares through the set-off of the collateral shares previously issued under the CPA at the \$0.012 Placement price.
- (ii) On 14 October 2020, the Company issued and allotted 12,500,000 ordinary shares to the vendor of the New Patricia Gold Prospect, Exiro Minerals Corp (Exiro). This allotment is part of the consideration under the terms of the agreement announced by the Company on 6 January 2020, to acquire 100% of the New Patricia Gold Prospect. A further issue of 15,000,000 ordinary shares was made to Exiro during the financial year.
- (iii) In October 2020, the Company raised an additional \$571,750 pursuant to the exercise of 12,500,000 Unlisted Options with an \$0.02 exercise price and 31 December 2021 expiry date, and 17,875,000 Unlisted Options with a \$0.018 exercise price and 31 August 2024 expiry date.
- (iv) On 21 December 2020, the Company issued 10,000,000 ordinary shares pursuant to the exercise of 10,000,000 Unlisted Options with a nil exercise price and 31 August 2023 expiry date held by Robin Longley (MD & CEO).
- (v) On 8 January 2021, Ardiden issued 10,000,000 fully paid ordinary shares to Mishkeegogamang First Nations pursuant to a Memorandum of Understanding announced on 21 April 2020 over the Kasagiminnis Gold Prospect. The issue of these shares was approved by shareholders at the 2020 AGM.

- (vi) During the year 3,981,140 shares were issued for investor relations services on 7 October 2021. During the year ended 30 June 2021, 1,256,250 and 1,036,082 shares were issued for investor relations services on 5 March 2021 and 1 April 2021 respectively.
- (vii) On 1 April 2021, the Company issued 4,000,000 ordinary shares pursuant to the exercise of 4,000,000 Unlisted employee Options with a nil exercise price.

(c) Terms and conditions of ordinary shares

Ordinary shares have the right to receive dividends as declared and, in the event of winding up the Company, to participate in proceeds from the sale of all surplus assets in proportion to the number of and amounts paid up on shares held. These shares have no par value. The Company has no externally imposed capital requirements.

Ordinary shares entitle their holder to one vote, either in person or by proxy, at a meeting of the Company.

(d) Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern to maintain a strong capital base sufficient to maintain future exploration and development of its projects. In order to maintain or adjust the capital structure, the Group may return capital to shareholders, issue new shares or sell assets to increase cash. The Group's focus has been to raise enough funds through equity to fund exploration and evaluation activities. The Group monitors capital on the basis of net working capital. There are no external borrowings as at reporting date.

The Group manages working capital as capital in light of changes in economic conditions and the requirements of the business with respect to exploration commitments, approved programs, and net working capital. There were no changes in the Group's approach to capital management during the year. Risk management policies and procedures are established with regular monitoring and reporting. There were no changes in the Group's approach to capital management during the year. Neither the Company nor its subsidiaries is subject to externally imposed capital requirements.

21. FINANCIAL REPORTING BY SEGMENTS

The Group has identified its operating segments based on the internal reports that are reviewed and used by the chief operating decision maker in assessing performance and determining the allocation of resources. The Group is managed on the basis it is a mineral exploration company operating in the geographical region of Canada. The mineral assets targeted are gold and lithium, and each asset is considered a separate business segment. This is the basis on which internal reports are provided to the Directors for assessing performance and determining the allocation of resources within the Group.

(a) Contingent liabilities

As at 30 June 2022 and 2021, the Company had no contingent liabilities.

(b) Contractual Commitments

As at 30 June 2022 and 2021, the Company had no contractual commitments.

(c) Guarantees entered into by parent entity

As at 30 June 2022, the Company has one bank guarantee in the amount of \$72,599. The guarantee supports performance obligations associated with completion of the lease term and is secured by the term deposit in Note 10. There were no guarantees in 2021.

The financial information for the parent entity, Ardiden Ltd, has been prepared on the same basis as the consolidated financial statements, except as set out below.

Investments in subsidiaries, associates, and joint venture entities

Investments in subsidiaries, associates and joint venture entities are accounted for at cost in the parent entity's financial statements. Dividends received from associates are recognised in the parent entity's profit or loss, rather than being deducted from the carrying amount of these investments.

Share-based payments

The grant by the Company of options over its equity instruments to the employees of subsidiary undertakings in the Group is treated as a capital contribution to that subsidiary undertaking. The fair value of employee services received, measured by reference to the grant date fair value, is recognised over the vesting period as an increase to investment in subsidiary undertakings, with a corresponding credit to equity.

24. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments comprise payables, cash and short-term deposits. The Group manages its exposure to key financial risks in accordance with the Group's financial risk management policy. The objective of the policy is to support the delivery of the Group's financial targets while protecting future financial security.

The main risks arising from the Group's financial instruments are interest rate risk, foreign exchange risk and liquidity risk. The Group uses different methods to measure and manage different types of risks to which it is exposed. These include monitoring levels of exposure to interest rates and assessments of market forecasts for interest rates. Ageing analysis of and monitoring of receivables are undertaken to manage credit risk, liquidity risk is monitored through the development of future rolling cash flow forecasts.

The Board reviews and agrees policies for managing each of these risks.

Primary responsibility for identification and control of financial risks rests with the Board. The Board reviews and agrees policies for managing each of the risks identified below, including for interest rate risk, credit allowances and cash flow forecast projections.

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset and financial liability are disclosed, respectively, in notes 9 and 14 to the financial statements.

Risk Exposures and Responses

Foreign exchange risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's exploration activities (when exploration and administration expense is denominated in a foreign currency, namely Canadian Dollars (CAD) and the Group's net investments in foreign subsidiaries.

Surplus funds are held primarily in Canadian Dollars with the Group ensuring that its net exposure to exploration expenditure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary to address short-term requirements. As such the exposure to foreign exchange rate changes is not considered material for the group.

Interest Rate Risk

The Group is exposed to interest rate risk (primarily on its cash and cash equivalents), which is the risk that a financial instrument's value will fluctuate as a result of changes in the market interest rates on interest-bearing financial instruments. The Group does not use derivatives to mitigate these exposures.

As the Group has no interest-bearing borrowings its exposure to interest rate movements is limited to the amount of interest income it can potentially earn on surplus cash deposits.

At reporting date, the Group had the following financial assets exposed to variable interest rates that are not designated in cash flow hedges:

Financial Assets
Cash and cash equivalents
Net exposure

30 Jun	e 2022	30 June 2021			
Interest bearing \$	Non-interest bearing \$	Interest bearing \$	Non-interest bearing \$		
4,272,407	99,910	1,195,174	44,172		
4,272,407	99,910	1,195,174	44,172		

The following sensitivity analysis is based on the interest rate risk exposures in existence at the reporting date. The 1.5% (2021: 0.5%) sensitivity is based on reasonably possible changes, over a financial year, using an observed range projected movements.

At 30 June 2022, if interest rates had moved, as illustrated in the table below, with all other variables held constant, post-tax profit and equity relating to financial assets of the Group would have been affected as follows:

	30 June 2022	30 June 2021
	\$	\$
Judgements of reasonably possible movements		
Post tax profit – higher/(lower)		
Increase 1.5%	64,086	5,976
Decrease 1.5%	(64,086)	(5,976)
Equity – higher/(lower)		
Increase 0.5%	64,086	5,976
Decrease 0.5%	(64,086)	(5,976)

Liquidity Risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

Typically, the Group ensures that it has sufficient cash on demand to meet expected operational expenses for a period of 60 days, including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

The Group has no access to credit standby facilities or arrangements for further funding or borrowings in place. The financial liabilities the Group had at reporting date were trade payables incurred in the normal course of the business and an amount owing pursuant to a contract of sale. Trade payables were non-interest bearing and were due within the normal 30-60 days terms of creditor payments.

Maturities of financial liabilities

The table below analyses the Group's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

	Less than 1 month	1-3 month s	3 months - 1 year	1-5 years	5+ years	Total contractu al cash flows	Carrying amount of liabilities
	\$	\$	\$	\$	\$	\$	\$

	285,002	•	•	ı	ı	285,002	285,002

Credit risk

Credit risk arises from the financial assets of the Group, which comprise deposits with banks and trade and other receivables. The Group's exposure to credit risk arises from potential default of the counter party, with the maximum exposure equal to the carrying amount of these instruments. The carrying amount of financial assets included in the statement of financial position represents the Group's maximum exposure to credit risk in relation to those assets. The Group does not hold any credit derivatives to offset its credit exposure.

Except for the above mentioned, the Group trades only with recognised, credit worthy third parties and as such collateral is not requested nor is it the Group's policy to securitise its trade and other receivables.

There are no significant concentrations of credit risk within the Group.

25. EVENTS SUBSEQUENT TO REPORTING DATE

On 15 September 2022, Robin Longley resigned as Managing Director and CEO. A comprehensive process to recruit a new CEO to lead the executive team and deliver on the Company's strategy and objectives moving forward is currently underway.

The Board will undertake additional duties to support experienced Exploration Manager, Haydn Daxter, and CFO, Tara Robson, who will assume responsibility for the day-to-day operations of the Company.

Apart from the above, no other matters or circumstances have arisen, since the end of the financial year, which significantly affected, or may significantly affect, the operations of the Group, the results of those operations, or the state of affairs of the Group in subsequent financial years.

26. COMMITMENTS

Exploration Commitments

Amounts below relate to minimum tenement expenditure required on tenements held by the Company.

Exploration commitments

<12 months	1-5 Years	Total
\$	\$	\$
2,228,700	249,409	2,478,109
2,228,700	249,409	2,478,109

The above represents the minimum statutory commitments as conditions of tenure of certain mining tenements with the Ontario Ministry of Northern Development, Mines, Natural Resources and Forestry (MND). However, the commitments may be met through the application of historical assessment work credits. These credits can be assigned to a mining claim and allow you to satisfy the annual units of assessment work that must be performed or reported on a mining claim therefore reducing the expenditure requirement of future periods if certain conditions are met. The Company presently has assessment credits of \$4,705,876.

Other Commitments

In addition to the exploration commitments above, the Company also has commitments to perform and expend funds towards retaining an interest in formalised agreements with partners: If all existing areas of interest were maintained on the terms in place at 30 June 2022, the Directors estimate the minimum expenditure commitment for the ensuing twelve months to be NIL (2021: \$951,000).

Earn-in agreement with Exiro Minerals Corp over its New Patricia Gold Prospect

The Company entered into an earn-in agreement with Exiro Minerals Corp over its New Patricia Gold Prospect on 20 December 2019 ("Effective Date"). Under the terms and conditions of the earn-in agreement, Ardiden must pay Exiro the following options payment:

- (i) CAD \$26,200 and 10 million Ardiden shares on the signing of the agreement (Effective Date) which have been paid and issued in the year ended 30 June 2020, refer to Note 11 and Note 16;
- (ii) CAD \$50,000 and 12.5 million Ardiden shares on or before the first anniversary of the Effective Date which was paid and issued during the previous financial year, refer to Note 11 and Note 16;
- (iii) CAD \$50,000 and 15 million Ardiden shares on or before the second anniversary of the Effective Date which was paid and issued during the current financial year; and
- (iv) CAD \$100,000 and 20 million Ardiden shares on or before the third-year anniversary of the Effective Date.

27. CONTINGENT ASSETS AND LIABILITIES

There are no contingent assets and liabilities as at 30 June 2022.

28. DIVIDENDS

There were no dividends paid or declared during the financial year.

In the directors' opinion:

- 1. the financial statements and accompanying notes set out on pages 31 to 55 are in accordance with the *Corporations Act 2001* and:
 - (a) comply with Accounting Standards and the Corporations Regulations 2001; and
 - (b) give a true and fair view of the Group's financial position as at 30 June 2022 and of its performance for the year ended on that date;
- 2. the financial statements and notes comply with International Financial Reporting Standards, as disclosed in Note 2 to the financial statements;
- 3. there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

The directors have been given the declarations by the chief executive officer and chief financial officer required by section 295A.

This declaration is made in accordance with a resolution of the Board of Directors.

Independent Auditor's Report to the Members of Ardiden Limited

Report on the financial report

Opinion

We have audited the financial report of Ardiden Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2022, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Company is in accordance with the Corporations Act 2001, including:

- (i) giving a true and fair view of the Group's financial position as at 30 June 2022 and of its financial performance for the year then ended; and
- (ii) complying with Australian Accounting Standards and the Corporations Regulations 2001.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the Group in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 2.2 in the financial report, which indicates that the Group recorded an operating profit of \$2,866,236 (2021: loss of \$1,234,220) and a cash outflow from operating activities of \$1,428,958 for the year ended 30 June 2022 (2021: \$854,734) and at the reporting date had a working capital surplus of \$3,230,992 (2021: \$966,188). As stated in Note 2.2, these events or conditions, along with other matters as set forth in Note 2.2, indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Material Uncertainty Related to Going Concern section, we have determined the matter described below to be the key audit matter to be communicated in our report.

Other information

The directors are responsible for the other information. The other information comprises the information in Ardiden Limited's annual report for the year ended 30 June 2022 but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of the other information we are required to report that fact. We have nothing to report in this regard.

Directors' responsibility for the financial report

recoverable amount in accordance with AASB

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the entity or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibility for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at The Australian Auditing and Assurance Standards Board website at: https://www.auasb.gov.au/auditors responsibilities/ar1.pdf. This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 20 to 26 of the Directors' Report for the year ended 30 June 2022.
