Sydney, Australia, 11 October 2022: Global lifelong learning platform **OpenLearning Limited** ('OpenLearning' or 'the Company') (ASX: OLL) is pleased to announce that it has secured a strategic investment from Education Centre of Australia ('ECA'), a diverse international educational group with offices in seven countries, partnerships with Australian, U.K. and Indian universities, and wholly owned Australian education providers that enrol over 7,000 students per year.

ECA has invested circa A\$1.1 million in the Company through the issue of 25,734,750 new ordinary shares at A\$0.043 per share, representing approximately a 24.5% premium to OpenLearning's 30-day volume weighted average price (VWAP) of \$0.034 up to 6 October 2022.

Under the subscription agreement entered into with ECA, the Company has agreed to appoint ECA Group CEO Rupesh K. Singh to the Company's Board of Directors as a non-executive director on completion of the placement. Thereafter, ECA will have a right to remove and replace its one nominee non-executive director to the Company's board for so long as ECA holds a relevant interest in at least 10% of the Company's issued capital. The subscription agreement may be terminated at any time by either party where the requirements of the agreement are not completed or satisfied or are not capable of being satisfied, or upon a material breach of the agreement. The subscription agreement otherwise contains terms and conditions customary for an agreement of its nature.

The placement will utilise the Company's existing capacity to issue the securities under ASX Listing Rule 7.1. The allotment of the new placement shares is anticipated to occur on or around 12th October 2022.

Strategic review wrapping up with ECA to play a key role

The Company commenced a strategic review of its business in May 2022, which generated interest from multiple parties and a number of opportunities for the Company. With ECA's strategic investment and its representative joining the Company's Board of Directors, ECA is expected to play a key role in the final stages of the strategic review process.

ECA's track record of profitable growth in the Australian and international education sector will provide OpenLearning with the expertise it needs to retain and grow its core Platform SaaS business, improve efficiency and capitalise on opportunities to accelerate revenue growth.

With ECA's expertise and the strategic initiatives already under consideration, the Company is confident that the capital raised through the placement and rights issue will be sufficient for the Company to execute its strategic objectives.

The Company's Board of Directors will continue to actively assess corporate transactions that have the potential to deliver a benefit to shareholders and keep shareholders informed in accordance with its continuous disclosure obligations.
